TREATY COVERS IT

THE OPINION OF SIR GEORGE C. GIBBONS

On the Long Sault Project—When Matter Was Considered Before the Treaty Had Not Been Ratified.

London, Ont., Jan. 12.—Sir George C. Gibbons, chairman of the Canadian section of the international waterways commission, speaking on the Long Sault project, to-day, after reading that the United States commissioners had slapped it, said: "At the time the Long Sault proposition was before the international waterways commission, the treaty between Great Britain and the United States, dealing with the use and diversion of the boundary waters, had not been ratified. As that treaty provided for the equal division of all the waters diverted from the boundary streams for power purposes, and provided that no diversion should be made, excepting by permission of the joint commission to be appointed, the Canadian section of the old commission felt it would be wiser that matters should be dealt with by a new commission when appointed, as such commission would have to deal with the matter in any case. The treaty has since been ratified, and, in consequence, the old international waterways commission will have no jurisdiction to deal with the matter. The American section gave a separate report to the congress committee giving expression to its own views."

PARDON REFUSED.

Italian Cabinet Declined to Exercise Clemency Towards Countess.

Rome, Jan. 12.—The cabinet has refused a pardon to Countess Maria Tarnowska, who was convicted with Dr. Namoff and Nicholas Priukoff, of the murder of Count Paul Kamaravski. It was argued on behalf of the countess that she was going mad in prison, but this was refuted by Onorvole Vecchini, one of her lawyers at the murder trial, who declared that aside from insomnia, the condition of the countess was almost rational.

STOLE OATS FROM NEIGHBOR.

Farmer Sent to Penitentiary for Two and a Half Years.

Corwall, Jan. 12.—In the assize case of Joshua G. Fetterly, of Matilda, charged with stealing about sixty bags of oats from a neighbor, the prisoner pleaded guilty after the grand jury had returned a true bill against him. He was sentenced to two and a half years in Kingston penitentiary.

AGAINST RECIPROCITY.

Kingston Resolution Tabled in House of Commons.

Ottawa, Jan. 12.—A letter from the Kingston board of trade forms one of a score of communications from boards of trade tabled in the house of commons objecting to reciprocity with the United States. The resolutions were tabled at the request of Hon. George E. Foster.

Board of Works Get Busy.

Portions of Princess street are in a horrible condition on account of the great amount of ice thrown upon the sides of the roadway, after being shovelled from the walks, yesterday. The street is really in a dangerous condition, and accidents are liable to happen if the piles of ice are not at once removed. Princess street is narrow enough without allowing piles of ice to accumulate upon its sides.

THE HALLS OF QUEEN'S.

John Marshall to Manage Queen's Rugby Team.

From Our Own Correspondent. There was a roasting meeting of the rugby football enthusiasts Wednesday afternoon when the two aggressive candidates were filled. The recent resignation of Edwin Elliott, from the office of vice-president, necessitated an appointment. John Erskine, of Hamilton, who has been of much value to Queen's line for several seasons past, was chosen for the place. It is customary to appoint a manager at the annual meeting in the fall but this season the matter was allowed to stand in abeyance. After careful consideration last evening it was unanimously decided to ask John Marshall, the present manager of the hockey team, to direct the destinies of the rugby club. John possesses exceptional executive ability and is proving himself a valued asset to Queen's athletics. Unprecedented honor is conferred upon Norman Leckie, who attracted such attention and established such an enviable reputation by his sensational play last season. Norman will again captain Queen's seniors and, with the aid of a capable coach will do much for the winning of intercollegiate honors next fall. Leckie captained the Queen's team two years ago.

In future the club room of the Arts society will prove itself more attractive than ever. The board of curators has decided to instal spacious coal grate. Further moneys are being expended in games etc. The rendezvous of the chess students is fast becoming the resort of students in all faculties.

The basketball team had a practice game with the Y.M.C.A. organization at the university gymnasium Wednesday night. The students won an easy victory taking their opponents into camp to the tune of 53 to 25. The boys will give Varsity a substantial rub Saturday afternoon at five o'clock. The contest will be well worth watching.

A missionary institute will be conducted at Queen's on Jan. 27th, 28th, and 29th. Missionary leaders from the great centres of United States and Canada will address the meetings which will be open to the public. Further details will be announced later.

Until yesterday, it was uncertain if Leo Trumble would be able to participate in the match with Varsity Friday night but on Wednesday the parental consent was obtained and Leo will assist his team mates in an endeavor to defeat the Toronto students. Smith whose foot was badly lacerated in the T.A.A.C. contest is found again and is quite anxious to be in the game Friday night. However the physician advises him to the contrary. In the event of Smith's inability to play, the Queen's firing line will likely consist of Bos, Meikle and McKinnon. The defence will be identical the same as that of last year. The forward line is composed entirely of new material; it is exceptionally light, but with the hard ice that is promised for tomorrow evening, the team that will hold them will have to go some.

THE FINTON MURDER.

Witnesses Testify Regarding Money Used by the Accused.

Hamilton, Jan. 12.—A big crowd tried to get into "Tom" Finton's murder trial this morning and several panes of glass were broken and other damage done during the crush. A neighbor, a witness, told of going out to see the body of the father. Lying in the barn and that "Tom" had stated that his father frequently had a lot of money about him. William Finton, brother of the accused, who lived some distance away, told how \$60 in crisp Traders' Bank bills were found secreted in a lounge on which "Tom" was seated on the afternoon of the murder. The manager of the Traders' Bank at Stoney Point, testified that Elijah Finton, the murdered man, had drawn \$100 previously to the murder. Merchants in Hamilton told of "Tom" spending a lot of money two weeks after the murder.

DID NOT PLEAD GUILTY.

A Nurse's Evidence in the Schenk Poisoning Trial.

Wheeling, W.Va., Jan. 12.—Something caused a change in the plans of the defence lawyers in Laura Farnsworth Schenk poisoning case, and the prisoner did not plead guilty, as announced yesterday. Miss Alma Evans, nurse, was a witness, this morning, and said that after giving the patient some liquid out of the bottle opened by Mrs. Schenk, which made him vomit, Schenk was removed to hospital. Mrs. Schenk instructed nurse, "Now, if John dies, you go into his pants pockets, get his keys and call me." "John is too old for me," she frequently said, "I want to go into society, and John is all for business."

To Investigate Subsidies.

Ottawa, Jan. 12.—With a view to opening things up, as the conservative members call it, H. B. Ames, member for Montreal, will, in the course of a few weeks, move for the appointment of a special committee in the house to investigate the manner in which special subsidies to Quebec and the western railway were granted. This is a secret to the failure of the Charing Cross Bank, in old London, recently.

Complaint Against Constables. North Bay, Jan. 12.—Further significance of Superintendent Rogers' visit to the north country developed to-day, when it was learned that in addition to prosecuting a number of "blind pigs" Rogers will investigate complaints against a number of provincial constables who are charged with gross neglect of duty in connection with illicit liquor selling.

KILLED IN A STORE.

Gas Explosion and Fire and Death Resulted.

Cornellville, Pa., Jan. 12.—Four persons were killed and a number injured in a gas explosion in a fire and ten cent store here, this morning during a bargain rush. Fortunately, the explosion, giving most of the clerks and customers time to get out, fire followed, and the damage will amount to one hundred thousand dollars.

New Reciprocity.

Ottawa, Jan. 12.—There is talk in the capital of asking reciprocity with the United States on a point where none now exists. All shipments of goods from Canada to the United States of a value of \$10 or over must have attached to them a document from the United States consulate. To obtain that document it is necessary to pay \$2.50, which, to all intents, is an increase in the regular schedule of duties. There are no Canadian consuls in the United States, so there could not be any corresponding arrangement.

Killed by Snowslide.

Nelson, B.C., Jan. 12.—Frederick E. Barrett, a resident in the Sloean district for seventeen years, was killed at Silverton by a snow slide from the roof of one of the buildings at the Galena Farm mines. What the Dairymen Want.

Ottawa, Jan. 12.—The dairy interests of the dominion will wait on the government a next week, and ask for legislation making their claims first lien upon the assets of the commission houses, as grain dealers do in the west.

MEN FOR CANADA'S NAVY.

Kingston Postmaster Will be a Recruiting Officer.

Ottawa, Jan. 12.—Great posters drawing the attention of the people of Canada to the need of men for the Canadian navy, will shortly appear on all dead walls from the Atlantic to the Pacific. There will be two posters. The larger size is nine feet by fourteen feet, and shows the cruiser Niobe with a Canadian marine in full dress at one side and a Canadian seaman at the other side. Various phases of naval work are shown—the searchlight, the signals, a landing party, and gun firing. The smaller poster shows the Niobe, which is stationed on the Pacific Coast. The posters are beautifully got out in colors.

The purpose of the posters is twofold. There is the desire to get men for the navy, and at the same time to popularize the new arm of the Canadian service.

Recruiting offices are to be opened throughout Canada, postmasters being used as recruiting officers. Each postmaster will get a fee of two dollars for every man he secures who is accepted.
