T. LAMBERT, Merchant Tailor

Get your clothes made to your own measurement by a practical tailor. Why?

1st—Because no two men measure exactly alike. Even thumb prints are all different.

2nd—Because hand-made garments are skillfully moulded, stayed and well sewn, so that they keep their shape and have lasting qualities.

3rd—Because your particular physique can be considered and pattern and style given which will be specially adapted to your own personality.

For your next Suit try

BOARD OF HEALTHROADS BLOCKED

J. B. McLeod Elected Chairman For 1911.

Medical Health Officer Had Good Report to Make—Boil Water as an Extra Precaution When New Pipe is Being Laid.

At the inaugural meeting of the board of health, held in the mayor's office, at the city hall, yesterday afternoon, J. B. McLeod was elected chairman by a unanimous vote. Ald. Bailey, the retiring chairman, presided at the meeting, and also present were J. F. Knapp, H. H. Taylor and J. Lennon.

Ald. Bailey moved that Mr. McLeod be chairman for the year 1911. Mr. Taylor seconded the motion, and it was carried. Ald. Bailey was voted to the chair, in the absence of the new chairman, on motion of Mr. Knapp.

It was reported that the ice being cut by the local dealers, passed inspection. Dr. Williamson reported that he had inspected the two ice houses of John Gleason and the St. Lawrence Ice company, and had found them in a satisfactory condition for the purpose of storing ice.

The members received very good news from the medical health officer, the latter reporting that for the week ending January 21st, only two cases of scarlet fever had been reported. There were no typhoid fever cases reported, the last being reported two weeks ago. In view of the trouble with the water, this was considered to be a very good report.

A report was given by the medical health officer which stated that an inspection had been made of six dairies, for the purpose of inspection of the water, and that in each case it was found to be good.

As regards the use of water when the new pipe is to be laid, the medical health officer referred to the report of Dr. Connell, who, while pointing out that the water would be free from contamination by the chemicals to be used, he would at the same time notify the people to secure their supply of water for the week's time the work would be going on, and in addition, to boil the water.

Mr. Knapp brought up the question as to whether the treatment given the water would be harmful. The medical health officer replied that it would not, that just one-twentieth of a grain of the chemical would be used to every pint of water.

Mr. Taylor asked concerning the city's proposed garbage system. Was it the intention of the person who had offered to contract for the collection of the garbage to feed it to pigs?

The chairman pointed out that a deputation would go to Guelph and Bradford to secure "pointers" on a garbage system. At Guelph, there was a system which included not only the collection of garbage, but also tin cans, and all kinds of refuse gathered around a house. Possibly arrangements might be made for the city to have a similar system. It appeared that the firm offering to make a contract wanted the garbage to feed to hogs.

Prof. Kirkpatrick's Bridge Scheme.

Prof. A. K. Kirkpatrick, formerly city engineer of Kingston, does not agree with the proposal to build a new Cataragi bridge at Belle's Island. He says that the place for the bridge is where it is at present. His plan is to fill in from the Kingston to the Pittsburg shore to a width of 200 feet, which would give splendid dockage for big vessels and also protect the vessels in the winter from ice floes, as they could lie on the north east side of the bridge roadway. In the centre of the channel he would erect a modern swing bridge. The cost of this would be about \$450,000.

Mishap to Locomotive.

The local train, which is due to arrive in the city about eight o'clock, last night, did not arrive until nine o'clock, on account of the mishap which occurred the other side of Ernestown station. Some packing around the boiler became ignited, and burned for a long time before it could be extinguished.

Piles Quickly Cured at Home

PILES QUICKLY CURED AT HOME.

Instant Relief. Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

Piles is a fearful disease, but easy to cure, if you go at it right.

An operation with the knife is dangerous, cruel, humiliating and unnecessary.

There is just one other sure way to be cured—painless, safe and in the privacy of your own home—it is Pyramid Pile Cure.

We mail a trial package free to all who write.

It will give you instant relief, show you the harmless, painless nature of this great remedy and start you well on the way toward a perfect cure.

Then you can get a full-sized box from any druggist for 50c., and often one box cures.

Insist on having what you call for. If the druggist tries to sell you something just as good, it is because he makes more money on the substitute.

The cure begins at once and continuing rapidly until it is complete and permanent.

You can go right ahead with your work and be easy and comfortable all the time.

It is well worth trying.

Just send your name and address to Pyramid Drug Co., 287 Pyramid Building, Marshall, Mich., and receive free by return mail the trial package in a plain wrapper.

Thousands have been cured in this easy, painless and inexpensive way, in the privacy of the home.

No knife and its torture.

No doctor and his bills.

All druggists, 50c. Write today for a free package.

Herbert Swaine to Travel.

Herbert Swaine, of this city, has secured a position as traveller with a well-known Montreal paint and oil concern. His duties commenced yesterday, and he did the city, starting out on his first trip west this morning.

Mr. Swaine was for some years book-keeper for the firm of W. R. McRae & Co., but the close confinement was too much for him and he was forced to seek a position which would necessitate his being out of doors a great deal. This position gives him the needed amount of fresh air.

Trains Slowed Down.

The wreck formed quite a topic for conversation among passengers on the different trains which ran past the scene of the disaster, yesterday and last night. Long before Collins Bay was reached they would be seen standing at the windows to catch the first glimpse of the appalling sight. The trains slowed down going past the wreck, so that a good view was obtained.

County Council Meets.

The Frontenac county council will hold its inaugural session Tuesday afternoon at four o'clock. The only business that will be transacted will be the electing of a warden and the appointment of a committee to strike the standing committees.

Don't forget to call at Ontario hall, Tuesday, Wednesday and Thursday, this week, and see the Poultry show.

AND FIREMEN HAD QUITE HAIRD TIME.

They Were Stalled Several Times While on Their Way to Collins Bay—The Chatham Engine Has Been Very Much in Demand.

With roads blocked with snow, the members of the Kingston fire department, who went to the scene of the wreck, on Monday morning, had an experience which they will not soon forget. The roads are in a terrible state, and the Chatham engine was "held up" a great many times.

The firemen declare that about eighteen different horses were used on the engine during the day. Farmers' horses were pressed into service, and in fact any horse that could be brought into service, when the opportunity was available.

The firemen arrived back in Kingston, with the engine, about six o'clock, and they indeed had a strenuous time. They left about 3.30 a.m., and it was 9.30 o'clock when they got to the scene of the wreck. The company did not want them when they got there, so they started out for home again. They had trouble enough on the trip but their troubles increased on their way back. Talk about the holes in the road, the firemen say that Princess street is not to be compared with the roads which lead to Collins Bay, and everyone in Kingston will agree that this is going some. Sometimes the engine was also buried in the snow.

Every little while they got stuck, and Assistant Chief Elmer and his men had to get busy. It was hard work, but the men managed to get through, and to-day, they know something about taking an engine through snow drifts. When the engine arrived in the city, it was almost covered with snow.

There has been a great demand for the Chatham engine since it left. It was taken to Garden Island where a vessel was burned. It also served at the Gananoque fire, and was taken to Portsmouth when the schooner Lydon caught fire, and on this occasion, the firemen had a run in a blinding snow storm.

Yesterday, quite a number of people drove out from Kingston, to see the scene of the wreck, and they say that the roads are in a terrible shape, and that it was a hardship to make the trek out with the engine, in view of the fact that they could do no good.

A KIND ACKNOWLEDGMENT.

One day last week John Gilbert, the well-known grocer, lost a valuable robe. He at once inserted a lost advertisement in the Whig.

The result is told in the following letter—

"An honest student found the robe I advertised as lost and promptly delivered it. We can't get along without the paper. The Whig must save thousands of dollars' worth of goods per annum for the citizens and for a very small remuneration in comparison to the value of the goods found."

JOHN GILBERT.

AT THE POLICE COURT.

Michael McNally Went Down for Three Months.

The name of Michael McNally appears on the big police court book a great many times. In fact, it would take quite a time to count up his record. This morning he was before the magistrate, and on the same old charge of drunkenness. The last time he was up, the magistrate gave him a chance, so, this morning, he imposed a fine of \$10 and costs or three months, and he went down.

Appointed Organizer.

The many friends of Edward J. McQuaid, of this city, will be pleased to learn that he has received the appointment of organizer for the Royal Canadian Mounted Police, an old established insurance firm under a new name. Mr. McQuaid is one of the organizers for the province of Ontario and will have his headquarters at Belleville. This appointment carries with it a good salary and future advancement. Mrs. McQuaid was formerly representative for the International Correspondence Schools here, and for the past while back has been with the Prudential Insurance company at its branch in Belleville.

Not Quitting Business.

To correct a wrong impression, J. K. Routley desires it to be stated that Dr. Ryan purchased, not his tobacco business, but the store in which it is carried on. Some people thought Mr. Routley might be going out of business, but, of course, such is not the case.

Run-Down Condition
Their Cause and Effect.

Run-down conditions are caused by a lack of iron in the blood and mal-assimilation of food. If you are one of the unfortunate who have drifted into this state, change your diet, eat foods that are rich in mineral elements of nutrition, and take Vinol, our delicious cold live iron tonic (without oil), which supplies iron to the blood in the most easily assimilated form.

A case is reported from Mattoon, Ill.—Mrs. O. M. Watrous was in very poor health for years. She was weak, all run-down, no appetite, and only weighed ninety-seven pounds. She had doctor for a long time without benefit. Vinol was recommended. She tried it, and in less than a year she was in perfect health and weighed 127 pounds.

Vinol creates an appetite, re-establishes perfect digestion and makes good, pure blood. In this natural manner it builds up the run-down, weak and debilitated, and replaces weakness with strength.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. G. W. Mahood, Druggist, Kingston.

Had Jolly Time.

Some people are good entertainers, and some are better, but the Canadian Girls' Club, of Kingston, are certainly among the best. They held their social affair, last evening, when they invited their gentlemen friends to participate. The first part of the evening was enjoyed in skating at the Palace rink, after which they repaired to the home of the president, for a social time, including in music, games, etc. At midnight, about forty sat down to a supper and the affair came to a close about two o'clock. Their next outing will be a coasting party, and will take place on Wednesday, February 5th.

When Sweet Sixteen.

To enumerate all the comic opera or musical successes of the past twenty years—written by Victor Herbert and George V. Hobart, would be to mention the majority of such successes. Victor Herbert is a master of melody writing and George V. Hobart is a writer of smart comedy and keen epigram. It is only natural that the combined intellect of the composer and librettist should result

READY AT OTTAWA

TO GIVE WARM WELCOME TO ARCHBISHOP GAUTHIER.

The Address to be Presented—There Will be No Division of the Ottawa Diocese.

The ceremony of installing Mr. Gauthier, of Kingston, as archbishop of Ottawa, and the welcome to be extended to him as head of that diocese will all take place on the morning of Wednesday, Feb. 22nd.

Arrangements are now being completed at the capital to extend the new archbishop a befitting welcome and four addresses are being prepared for presentation to him. Two of the addresses will be presented by the clergy, one in French and one in English, and two by the laity, one in French and one in English. The addresses will be read in the Basilica immediately following the solemn high mass. A committee of twelve, each having been appointed from the various English-speaking and the French-speaking parishes to arrange for the drawing up of the addresses. No address will be presented to him from individual societies in the diocese.

At Ottawa a despatch says: That there will be no division of Ottawa diocese along racial lines, as was stated there would be at the time of the appointment of Archbishop Gauthier, was the authoritative announcement made by an official of the archdiocese to-day. The news will be received with interest by both English and French-speaking Catholics, as ever since the announcement that the diocese was to be divided confirmation or denial has been anxiously awaited.

The plan, as announced at the time, was to the effect that the Kingston diocese and the bishopric of Peterboro were to be added to Ottawa and that the eastern boundary of the latter would be the Ottawa river, a new diocese to be created in Quebec with a bishop of Hull under the archbishopric of Montreal. This was understood to be due to the racial differences that have from time to time threatened to mar the good feelings that should obtain in the local archdiocese and had been suggested previously to its announcement as a solution of the difficulty. The Ottawa river divided the archdiocese pretty much along the lines of French and English-speaking, which lent additional color to the statement.
