

Well Known Minister

Restored to Health by Vinol. Rev. D. Schneider, who is a well-known minister in Rice, Lake, Wis., writes: "I had a very severe stomach trouble last year from which I was kept in bed three months. I had engaged the services of a doctor, but to no avail. I then read of Vinol and determined to try a bottle. Before it was used up I was out of bed, and four bottles made me a well man. Vinol is a splendid medicine and I can gladly recommend it."

A WATER-TIGHT ROOF

For that House or Barn can easily be made with our Cedar Shingles. Neat in appearance. Proof against rain. Good for 40 years.

S. ANGLIN & CO. Cor. Wellington and Bay Sts.

Suite 19 and 20 Queen City Chambers, 33 Church St., Toronto, H. E. Smallpiece, J.P., representative.

Daily Whig.

NOT MAKING MANY VOTES. The nationalists of Quebec are not showing any more wisdom. The taxation of certain estates they opposed. The grants to all institutions bearing the name of St. Patrick, were resisted on the ground that they owed their existence to the presence of Hon. Mr. Dornin, an Irishman, on the government. The grant to the Baron de Hirsch institute was opposed on the ground that the Jews were rich, or soon would be, and not that they are represented, as they would like to be, in the cabinet. Surely the Lavergne-Prevost combination is carrying its hostility to extremes. It is factious, and offensive, and not making the votes it would like to have.

REPUTATING THE PRESS. The Regina Province, (tory), charged that the attorney-general and minister of education for Saskatchewan were acting improperly as solicitors for a bank which did some government business. The ministers pronounced the charge as foundationless, and Mr. Haultain, the leader of the opposition, confessed that "it was quite plain that the attorney-general and his colleagues had not received the retainers in the connection mentioned." Pretty hard on the Province. It has been working up a grievance against a couple of ministers and the man whom it supports, the leader of the party, reputates it. Mr. Haultain is inviting a collision with his friends, and he may be accommodated beyond expectations.

WHEAT IN AMERICAN MILLS. While we are speculating upon what will be the effect of having Canadian wheat ground in American mills, says the Montreal Herald, it may be as well to bear in mind that it is being ground there now. The mills at Minneapolis find that they need the hard northern wheat to mix with what they have in order to produce the best quality of flour for export. They have taken advantage of the law which permits them to collect a refund of ninety-nine per cent. of the duty on all such grain which enters into the composition of flour exported from the country, which means that they can use all they like of our wheat for this purpose and escape with the payment of one per cent. of the duty, thus reducing to practically nothing at all the obstacle to getting what of our wheat they require to enable them to compete against Canadian made flour in England or elsewhere. Some people seem to think that by refusing to ratify the tariff agreement we would be securing the retention of the Canadian wheat for the use and advantage of our own millers. That is not the case. And since others can at present get our Canadian wheat to sell as flour in England, what object is to be served by seeking to withhold from them the right to sell more of it as flour in their own country?

INITIATIVE AND REFERENDUM. Now that the initiative and referendum is before the people of Manitoba, that the movement is strong and growing in power, because of the "ginger" that is being put into the propaganda, it is well to recall what the experience has been in the states in which the direct appeal to the electors has been tried. The summary of Frank Foxcroft, in the Contemporary Review, is the most illuminating that has been printed for some time. It covers all the United States and shows why the initiative and referendum has been desired and why it has so often proved a failure. Two reasons are given for its popularity, (1) that the American voters like the short-cut in most things, in business, in education, in politics, in legislation; and (2) the people cannot be bought, and that is an important consideration in these times of wholesale graft. In addition many of the states have a law whereby they appeal to the people now on amendments to state constitutions, and the practice makes the electors more or less familiar with the referendum. But here comes a difficulty. The American voter, at the poll, is confronted with a ballot of such length that he becomes worried ere he has it half marked. Besides the list of candidates he is asked to pronounce upon a number of questions he does not understand, and the result is a refusal or failure on his part to perform his whole duty. True in some states it is directed that before the people express an opinion the arguments for and against the proposition must be printed, but there is no ar-

range that they are generally read. The first objection to the initiative and referendum, as Mr. Foxcroft puts it, is that a legislative scheme is rushed through and that a state or a community is loaded with it before there is a definite idea abroad as to what it is all about. The old method of carrying a bill through the house, and both branches of the legislature, with discussions in each and in committee, may be the long way, but it is the best and should prevail. For the initiative and referendum some things can be said for and against it many things, and before Manitoba adopts it there will be a lively comparison of notes. The socialists of the province are supporting the direct appeal. Why?

EDITORIAL NOTES. Mr. Fielding is the first man since Lord Elgin to come back from Washington with a good bargain in his pocket.

"Do married women own their own clothes?" asks a suffragette. It all depends on how many sisters she has to borrow from or lend to.

If Mr. Lanester's motion to abolish the senate had gone through, what would we have done to provide for our aged and infirm politicians?

British Columbia province will protect her forests by prohibiting the export of her timber, though she has billions of feet that will likely rot as it cannot be used in Canada. Reforestation would keep the supply up.

The Board of Education is empowered to rent buildings for school purposes if the city will not provide the money for adequate accommodation. In Toronto, thousands of dollars is paid in rent which would go far to provide interest on capital for proper buildings.

It seems that the Asquith government is not influenced by the cry, "No Irish need apply." It has designated the Duke of Connaught to be governor-general of Canada. Connaught is a good, Irish name, and being Irish in name, is the next best thing to being Irish in fact.

The Toronto Star has caught the true spirit which pervades the liberal policy. It says: "By the preferential tariff of 1897, it did much to promote free trade with Great Britain, mainly in manufactures. By the present agreement it promotes freer trade with the United States, mainly in natural products. The two measures together constitute a substantial advance toward enlarged commercial intercourse with the world." The good of all the people is its care.

A Veteran Legislator. Wednesday was the birthday of the oldest continuous legislator in Canadian history, the Hon. John Costigan, who was born in 1835, and who has been a legislator since before confederation. He was a member of the New Brunswick legislature from 1861-7, and a member of the House of Commons from the latter date to 1907, since which time he has been in the senate. He has been a member of four ministries, those of Sir John A. Macdonald, Sir John Thompson, Sir Mackenzie Bowell, and Sir Charles Tupper, holding at various times the offices of minister of inland revenue, secretary of state, and minister of marine and fisheries. He has been a strong advocate of the rights of Roman Catholics with reference to separate schools, and has of later years been a liberal in politics. He completes this year a record of half a century of continuous legislating, an achievement which has not been duplicated by any other Canadian statesman.

Back in the '90's. Washington Star. The Harvard coach was praising the milder football of 1910: "Football in the '90's was a terrible game," said Mr. Withington. "Bourget, you know, devoted a whole chapter of 'Outre Mer' to its horrors. Some of the stories of the football of '90 or '91 are, in fact, almost incredible."

A Philadelphia sporting editor returned one November Saturday from West Philadelphia with a pale, frightened face. "Many accidents at the game" a police reporter asked him. "One frightful accident," replied the sporting editor. "A powerful mule from a neighboring coal dealer entered the field, blundered into one of the hottest scrimmage, and got killed!"

Even That. Washington Star. Representative Nye, of Minnesota, has much of the wit of his lamented brother, Bill Nye. His small lawyer, Representative Nye said at a lawyer's banquet in Minneapolis: "Lawyers have grand reputations for energy and perseverance. A lad said to his father one day 'Father, do lawyers tell the truth?' 'Yes, my boy,' the father answered. 'Lawyers will do anything to win a case.'"

Some Outer Ice Not Good. It does not follow that all the ice within the limit prescribed by the board of health for cutting for domestic purposes is good. Only a few days ago, an ice cutter found a section of ice in the "safe limit" to be anything but good. It was full of weeds. Of course, he did not choose that section for his cutting, but got well away from it.

Wants to Change This. Montreal, in 1910, exported 20,000,000 bushels of wheat; New York only 6,000,000. Railroad differentials that foster Canadian export at the cost of American ports may suit the greed of railroad owners but they are hard upon trade. Only One "BROMO QUININE" that is Laxative Bromo Quinine Cures a Cold in One Day, Crip in 2 Days. on every 67th Ave. 25c.

NEWS OF THE WORLD

OCCURRENCES RECOUNTED IN BRIEF FORM.

Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered.

At Philadelphia, Archbishop Ryan is speaking fast. A British firm is to build a railroad across Panama isthmus. All the units of the Eastern Ontario command may train at Petawawa this year.

At Washington, it looks now as if the democrats may be solid for reciprocity. Fiercest blizzard for many years is raging through New Brunswick province. Quebec legislature is to erect a statue on the Plains of Abraham, of King Edward.

The government is calling for tenders for four Bristol and six destroyers of the latest type. Sir James Whitney will leave the control of rates in the hands of the Electric Commission.

Presbyterian mission board has appointed Miss Margaret Drummond to Central India and Miss Ethel Cameron to Honan, China. Dr. J. N. E. Brown has resigned the superintendency of the Toronto general hospital, because the salary is not more than \$3,000.

A. E. MacLean, B.A., late principal of the Cornwall high school, has gone to Toronto, an English teacher in the Technical school. Mr. MacLean had been teaching in Cornwall for thirteen years. H. H. Wickwire, K.C., liberal, was elected to the Nova Scotia legislature by acclamation, to fill the vacancy caused by the death of B. H. Dodge, of King's county. The conservatives did not venture a nomination.

ONE OF WORST OF SEASON. Storm Which Struck Kingston Today. The storm which struck Kingston today was regarded as one of the worst of the season. The street car service was knocked out, in the morning, trains were delayed, and the Storm King reigned supreme.

It was a sleet storm, and travelling against the wind was found to be very difficult. As a result of the storm, a great many people were late in getting down to their place of business. The sidewalk, which had just been fixed up with sand, by the city corporation men, were again put in very bad shape.

The weather was responsible for a very poor market. Very few Wolfe Island people ventured over the ice today, owing to the rough weather.

Diana, Well-Oiled, Resumes Work. "There's too much loafing around here," remarked Frank K. Sturgis, president of the directors of Madison Square Garden, as he entered the office of Secretary Young. "Who's guilty?" asked the secretary. "That woman Diana on the tower," said Mr. Sturgis. "She's on the payroll as a weather vane, and to my knowledge she hasn't moved for two years. What's the matter with her?"

One hour later two steeplejacks interviewed the Hutter and crowds on Broadway were amused to see the goddess perform wonderful tricks due to the fact that a rope was tied to the big toe of her extended right leg. She soon around in a manner that stirred the spectators. "What was the matter with her?" asked Mr. Young of one of the steeplejacks. "Aw, she just needed a bath, some oil and a little coaxing. She will work all right now. And, by the way, she said she was tired of high living; wanted a new session of congress, new subways, and was anxious to know 'Shall Ryan have another senator?' replied the steeplejack.—New York World.

Why Should it Whistle? An English woman who is at the St. Regis made her first acquaintance with a peanut roaster the other day. She was telling about it recently. "Do you know as I was walking down the street I heard a most peculiar whistle," she said. "At the corner I saw a queer boxlike affair on wheels, and I discovered that the whistling was made by steam coming out of a little pipe at the top. We do not have such a thing in London, and I was interested. I asked the man what was being done by the machine. He said: 'Roasta de peanut,' by which I understand that he meant he was cooking the nuts that I could see inside the box. But how extraordinary that the thing should whistle as it does its work!"—New York Sun.

A Waste of Time. An old Pennsylvania German living in the mountains had a hard three hours' dusty walk to accomplish one morning, and he rose very early to make his start. He had gone but a little way when he was overtaken by an automobile, which was probably the first that had passed along that way. The driver picked up the old man and they were at his destination in about twenty minutes. "Thanks so much awfully mit de ride. If I had known myself to be here already two hours in front of de clock yet I vud be at home fast asleep already to start unless I knew you vud not have picked me up since."—Cleveland Leader.

Couldn't Balance Himself. New Lincoln Speaker. Mr. Morse, having bought a new bicycle of the most improved pattern, presented the old one to Dennis Holman, who did errands and odd jobs for the neighborhood. "You'll find the wheel very useful when you're in a hurry, Dennis," he said. The young Irishman was loud in his thanks, but regarded the wheel doubtfully. "I mistrust 'twill be a long time before I can ride it," he said. "Why, have you ever tried?" asked Mr. Morse. "I have," said Dennis, gloomily. "A friend lent me the loan of his wheel before he was having the mumps. 'Twas three weeks I had it, and what wild practicing night an marring I never got so I could balance myself standing still, let alone riding on it."

Cataract Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quack medicine. Colebrooke, Jan. 30.—The quarterly official board of the Yarker circuit, met in the Methodist church, Colebrooke, on Monday, January 30th. A large delegation from each of the synods was present to do honor to the president of the Hay of Quinte Conference, Rev. Mr. Emley, who presided. The financial returns were very satisfactory and encouraging being considerably in advance of any February meeting in the history of the Yarker circuit. The president complimented the board on the manner in which the business was conducted. After the regular business of the meeting was concluded the following resolution was submitted by the president, and carried by a standing vote: Moved by Joseph Foster, seconded by J. F. Conolly, supported by H. A. Baker, John Couly and Frank Martin, and resolved, that whereas, it is deemed expedient and in the interest of the Yarker Circuit to consider at this meeting of the quarterly official board; the question of pulpits supply, and having implicit confidence in the loyalty, zeal, and integrity, of our beloved pastor, Rev. James Batstone, who came to us a stranger three years ago, and during the interval has labored faithfully for the advancement of the Master's kingdom, with the result that the circuit has risen and prospered both spiritually and temporally, and also in inaugurating the local option campaign, in this municipality which resulted in such an overwhelming victory for the temperance cause, on the second of January last. Be it therefore resolved that the quarterly official board extend to Rev. Mr. Batstone a cordial and most hearty invitation to remain the pastor of the Yarker circuit for another conference year. Carried unanimously.
