## JOHN HICKEY VICTIM

### OF A BRUTAL ASSAULT FOR ROBBERY.

#### The Veteran Grocer Was Cruelly Beaten—Picked Up Bleeding—Patrick Burns Arrested by the Police as One of the Highwaymen.

When within a block of his own home, last night, John Hickey, of the well-known firm of Rigney & Hickey, liquor dealers, Princess street, was held up by two men and brutally assaulted, and an attempt was made to rob him. However, the two ruffians ran away without relieving him of his money, no doubt becoming frightened.

One arrest was made shortly after the affair, when Constables Mullinger and Armiel took up Patrick Burns, aged about thirty-five, on a charge of being implicated in the affair. The hold-up was a most daring one in that it occurred early in the evening, shortly after nine o'clock. Mr. Hickey was at his store and at five minutes after nine o'clock, in company with James Rigney, left for home. Mr. Rigney lives at 126 Johnson street and Mr. Hickey resides in the block above at No. 176. They took the usual route to their home, out Bagot street to Johnson, and then up Johnson street. Mr. Rigney left Mr. Hickey at the former's door, and Mr. Hickey proceeded on.

He had only gone a short distance when two men came towards him. As they were about to pass one man was heard to remark:

"Good night, John; how are you?" Before Mr. Hickey had time to reply one of the men gave him a stinging blow in the face and this was followed up by several more, and Mr. Hickey, who is well up in years, was unable to defend himself against the ruffians. He was knocked senseless for a few minutes and while he was in this condition the men went through his pockets. Mr. Hickey had quite a sum of money but this was not touched and the only reason that can be assigned for them not taking the money is that they became frightened when Mr. Rigney cried out and wanted to get away.

James Rigney did not know what had happened until Fred W. Sparinger came to his place and told him of the affair. He immediately ran out and as he got on the sidewalk he noticed two men running down the street towards Bagot. They turned towards the park.

A little boy was on the street and he yelled, "there they go." Mr. Rigney went after the two but they had a good start on him. They ran out Bagot street and then went up William street to Clergy street. Here the men crossed over to Brock street and reaching this corner one went up the street and the other went down. Mr. Rigney was following as close as he could but owing to the start that the men had on him he was unable to catch up and after the men separated they were lost to him.

The case was reported to the police and Patrick Burns was locked up a short time afterwards and the city was searched for another, accused of having a hand in the affair, but no more arrests were made. Burns spent the night in the cells.

Mr. Hickey suffered a great deal as a result of the treatment he received. Blood flowed freely from the blows he received in the face and he went to the office of Dr. Morrison, where he was attended.

While on their way home Mr. Rigney and Mr. Hickey passed Constable McAdoo at the corner of Bagot and Johnson streets, the latter being on his beat. No doubt the men had been watching to see that the constable passed before they made the attack, and knew that the constable would come back that way for some time.

A young lady who was going up Johnson street at the time was a witness to the affair but was unable to describe the assailants minutely beyond stating that one was tall and the other short.

Burns, the man under arrest, has been before the court on several occasions on a charge of being drunk, but has never been locked up on a charge of this kind before.

Burns appeared in the police court, this morning. When arraigned on the charge of "assaulting and ill-treating" Mr. Hickey, he said "not guilty."

J. McE. Mowat appeared on his behalf and the case was adjourned until Tuesday next.

Burns was in the Grimsom hotel on Princess street, when taken in charge by the police. His arrest occurred about ten o'clock, just about an hour after the hold-up occurred. When taken in charge he told the constables that he had not been in any fight.

Mr. Hickey had two stitches put in his lip. He was unable to be down to his business, to-day, but it is expected that he will be all right in the course of a day or so.

Although well up in years, Mr. Hickey put forth every effort to guard of

the ruffians, and had he not slipped on the sidewalk he would have been able to give one of the men a good blow. However, with the two men, he was up against a hard proposition.

Mr. Rigney has given the police a description of a man and they are endeavoring to locate him, and an arrest in the case will likely be made in due time.

The friends of Burns say that he is not the right party, and that when the case comes on he will be able to clear himself.

## FRENCH VALUE OF HUSBAND.

### Award to Woman Left Widow by Motor Car.

Paris, Feb. 8.—The owner of a motor-wagon was sentenced in Paris, to pay heavy damages to Mrs. Rudd, widow of a stableman in the employ of Mr. Watson, the trader of Chantilly, for the loss of her husband. Rudd and other men were out with a string of yearlings, when a heavy motor-wagon, passing, frightened the horses. Rudd's horse shied, and threw him under the wagon. He was killed on the spot.

The owners of the motor-wagon were ordered to pay Mrs. Rudd \$800 and to settle an income of \$40 a year on each of her five children until they attain the age of eighteen.

## TALKED WITH JAPAN.

San Francisco, Cal., Feb. 8.—A record in wireless telegraphy was established last night, when an operator here talked with Japan, fifty-seven hundred miles away. There was one relay on a Pacific steamer in mid-ocean, but the messages came clear and distinct.

## BY JOINT TRIBUNAL.

### How the Through Rates Will be Controlled.

Ottawa, Feb. 8.—Hon. George P. Graham, answering Mr. Middlebro in the commons, said that the joint report of Chairman Maybee, of the Canadian Railway Commission, and of Chairman Knapp, of the Interstate Commerce Commission, recommending an international tribunal for the control of through rates on international traffic, was now before the government at Ottawa and Washington for consideration. If approved there could be a treaty providing for the establishment of the tribunal. The chief object in view was to secure through rate schedules, under joint control of the chairman of both national boards, these rates to replace the present local tariffs on international traffic, charged on each side of the boundary line. This provision could be made for cheaper through rates in cases where a railway line on either side of the boundary put its local rate to the boundary to an "unreasonable figure when absence of competition so permitted.

## UNHAPPY MARRIAGE

### ARREST OF COUNTESS CREATES SENSATION.

#### Romance of Irish Girl's Marriage to Italian Noble Ends in Scandal—Countess Caught in Room With Lieutenant.

Rome, Feb. 8.—A society scandal, wherein a beautiful countess of Irish origin plays the leading part, has excited Bologna. Seven years ago, during a long sojourn in the British Isles, Count Raffaele Vinci, who belongs to one of the most ancient and wealthy families of Fermo, near Ancona, met a charming, tall, blonde girl in Dublin, whose father is an officer in the British army. Despite the opposition of their respective families, the youthful couple married, in consequence of which step the count's father bequeathed the lion's share of his immense property to a nephew.

The marriage turned out unhappily, through incompatibility of temperament, and the count became madly jealous of the bride's beauty attracted. A noise came back that way for some time.

A young lady who was going up Johnson street at the time was a witness to the affair but was unable to describe the assailants minutely beyond stating that one was tall and the other short.

Burns, the man under arrest, has been before the court on several occasions on a charge of being drunk, but has never been locked up on a charge of this kind before.

Burns appeared in the police court, this morning. When arraigned on the charge of "assaulting and ill-treating" Mr. Hickey, he said "not guilty."

J. McE. Mowat appeared on his behalf and the case was adjourned until Tuesday next.

Burns was in the Grimsom hotel on Princess street, when taken in charge by the police. His arrest occurred about ten o'clock, just about an hour after the hold-up occurred. When taken in charge he told the constables that he had not been in any fight.

Mr. Hickey had two stitches put in his lip. He was unable to be down to his business, to-day, but it is expected that he will be all right in the course of a day or so.

## UNDER WATER

### Low-Lying Streets in Melbourne Submerged

## HIT BY CLOUDBURST

### SOME STREETS FIVE FEET UNDER WATER.

#### The South Wales Government Has Been Forced by the Shearers' Union to Accept the Industrial Referendum.

Melbourne, Feb. 8.—A terrific cloudburst occurred over Melbourne, on Monday, resembling the bursting of the monsoon in character. The down-pour was so violent, that in a short time all the low-lying districts in the city were under water. Shops and houses were inundated in every direction, and the people in the streets fought their way to safety through swirling currents five feet deep.

Outside the city the railway embankments were washed away in places. The train service suffered, and some of the suburbs was paralyzed. The remarkable sight of boats being towed up and down streets in the month of February became commonplace after a little while. The boys abandoning Sunday school got into bathing suits, and enjoyed swimming under the most curious conditions ever experienced in their lives.

## Shearers' Union Wins.

Sydney, N.S.W., Feb. 8.—The Shearers' Union, the organization controlling the labor conference, here, has compelled the state government under the leadership of Premier Macgowan, to withdraw its opposition to an industrial referendum, and to fall into line with the federal party. The government has been much discredited by his backdown.

Attorney-General Holman tried to divert public attention from the action of the ministry, by moving for the abolition of the senate and high court. The labor leagues, however, are fearful that this attack on the constitution will react on them to their undoing, and so the situation remains.

## GRABBING LAND.

### Domain is Illegally Held by Private Interests.

Springfield, Ill., Feb. 8.—Land estimated to be worth \$250,000,000, has been "grabbed" from the public domain of Illinois, by private interests, according to the findings of the Chicago commission on submerged lands.

Representative B. M. Chipfield, of Canton, chairman of the commission, is of the opinion that the "made land," which has been improperly taken by private corporations can be restored to the state.

The report says that 1,816 acres have been taken illegally from the Lake Michigan coast. The Illinois Central railroad is charged with holding 400 acres of this valuable lake front land.

## MADE BIG PROFIT.

### Water Works Department Shows Surplus.

Guelph, Feb. 8.—The city water works department have a profit of \$20,845.87 for 1910, out of which the city council will provide for interest and retirement of debentures. The capital expenditure for mains, services, etc., was \$9,382.54, and for collection of springs, \$8,327.95, making a total investment of \$331,365.39. The quantity of water pumped was 426,274,000 gallons, an increase of \$3,313,000 gallons over 1909. The consumption of coal was 701 tons, a decrease of 65 tons over 1909, and 441 tons less than 1908, due to the new stand pipe.

## AWFUL JAIL CONDITIONS.

### Vice and Disease Rampant in Montreal Prison.

Montreal, Feb. 8.—Governor Valle to-day admitted a terrible condition of things in the city jail, owing to overcrowding. Vice is rampant, and there are all sorts of diseases and epidemics. The man dying yesterday of galloping consumption had lived, slept and eaten with others. An investigation is probable.

## Hamilton Fears Milk Famine.

Hamilton, Feb. 8.—Hamilton may soon face a milk famine. The producers have demanded an increase from sixteen to eighteen cents a gallon, and the retailers state they will not meet the demands of the producers, in which case the producers say they will not deliver any milk to Hamilton dealers.

## TO WARN RURAL GIRLS.

### Women's Club in Kansas City Plans to Place Placards.

Kansas City, Mo., Feb. 8.—If the plans of the Council of Women's Clubs of Kansas City are carried out, a placard warning young girls of small towns to shun the cities soon will be placed in every depot in this state.

At a recent meeting the form of this placard was decided upon and also that of a placard that will be placed in the Union depot, telling country girls where to seek aid. The girl intending to come to Kansas City is told to notify the Women's Club two weeks previous so that work may be secured and also two days before she starts so a place for her to live may be found, and a matron be sent to the station to meet her.

## FROM POPE TO POPE.

### Pius X. to Profit by Strange Indirect Legacy.

Rome, Feb. 8.—A curious story is being told in vatican circles. Alphonse Vinciguerra, treasurer of the pope, died suddenly. His sons found 1,000,000 lire, about \$193,000, in his safe. A clause in the deceased's will explained that Pope Leo XIII gave the money to Vinciguerra, charging him to keep it until his demise and then leave it to Leo's successor. The vatican refuses to give any explanation of the matter. It is believed that Pope Leo's known eccentricity was solely accountable. The pope, it is said, will hand over the money to Peter's Pence.

## TALE FROM LONDON

### AS TO CANADA'S BEING TOO FREE FOR ROYALTY.

#### Canadians Will Not be Able to Have Such Easy Relations With the Duke of Connaught as With Lord Grey.

London, Eng., Feb. 8.—A diplomat who has had opportunities of being in close touch with Canadian ministers told a correspondent of the Daily Dispatch that they have been long accustomed at Ottawa to easy relations with the governor and to a good deal which would be impossible if royalty were installed at government house.

"Though immensely loyal to the throne, they are, apart from a few wealthy cosmopolitan Canadians, very democratic in their ways and ideas," said the diplomat. "Consequently they view with a little apprehension any prospect of an installation of their modes and ways of social life. Lord Grey fulfills the Canadian democratic ideal perfectly. Moreover, he takes such an intense personal interest in the Dominion that he is supposed to know more about Canada than any man in the country. Indeed, if they could, the Canadians would gladly keep him in perpetuity."

## TO GIVE NOVEL GIFTS.

### All Marry and Georges in Britain to Present Coronation Gifts.

London, Feb. 8.—The successful idea of all the Marry in the United Kingdom subscribing to a coronation gift to the queen, has been taken up by Lord Stradbroke and others, who propose to open a subscription, which shall include all the Georges in the kingdom, for a similar gift to the king.

At a meeting of the privy council, at Buckingham palace, at which the king presided, it was decided not to introduce the Red Dragon of Wales into the Royal Standard and the new coat of arms. The Welsh authorities had petitioned for its introduction.

## MADE TWO ESCAPES

### RUSSIAN REVOLUTIONIST REACHES NEW YORK.

#### Leo G. Deutsch Will Publish a Socialist Paper—How He Made His Dashes for Liberty.

New York, Feb. 8.—One of the interesting characters of the Russian revolution, Leo Gregorovich Deutsch, arrived in New York, yesterday, on board the Kaiserin Augusta Victoria, of the Hamburg-American line, with his wife. He comes to take charge of a socialist newspaper printed in the Russian language which is to be published here.

Mr. Deutsch has led a picturesque career. For sixteen years he was an exile in Siberia and, after completing his term of servitude, having passed three of those years in one of the most remote Asiatic prisons, he wrote a book, "Sixteen Years in Siberia."

After a successful dash for liberty, Mr. Deutsch made his way to Japan and thence to San Francisco and eventually back to Europe and England. In 1905, when the bloodless revolution had Russia in its grasp, he could not resist the temptation to go back to his native land. Again he was arrested and sent to Siberia. Again the guards were eluded and by sacrifice of his beard and a change of clothing, Mr. Deutsch again managed to escape.

## Had Farewell to Greatness.

London, Feb. 8.—The Pall Mall Gazette says it is highly significant that in Winnipeg, in many ways the intellectual capital of the Dominion, both parties are viewing the proposed tariff agreement with rising apprehension. Canada must bid a "long farewell to all her greatness," says the article, "and relapse into a state of retrogressive provincialism and become the handmaid of American trusts and the contributor of the flag which will fly over the continent."

### Reciprocity Question to Come Up To-day.

## FOR SEVERAL WEEKS

### BIG ATTENDANCE IS EXPECTED DURING DEBATE.

#### Already Ninety-three Millions of Dollars Have Been Spent on the National Transcontinental Railway—Reciprocity Will Help Immigration Into West.

Ottawa, Feb. 8.—Several members of the Canadian Forestry Association, who, at their annual meeting, here, elected G. Y. Chown, Kingston, as their president, were in the house, yesterday afternoon, in anticipation of the debate on the question of reciprocity being begun. The premier, however, announced that he and R. L. Borden had conferred and had decided it would be wiser not to begin the discussion on this momentous issue until to-morrow afternoon. It is expected there will be a big attendance of members and citizens, and that manufacturers and tariff experts from different parts of Canada will be on hand. The debate is likely to go on for several weeks, and there is intense interest, and much difference of opinion as to whether the government should or should not endorse the agreement that Messrs. Fielding and Paterson reached.

Mr. Graham, minister of railways and canals, announced a correction in the figures that he had given out in the house, on Monday, relative to the expenditure on the National Transcontinental railway up to December 31st, 1910. The amount should be \$93,230,956.

The house went into committee of supply on public works estimates and spent a good portion of the afternoon and evening at that.

W. J. White, chief Canadian immigration agent to the United States, says that the reciprocal trade agreement with the United States will result in a large increase in the American immigration into the Canadian west. As a result of the discussion of the agreement in the American press that it will result in larger profits for the Canadian farmers, an increased interest has already been aroused in Canada amongst American agriculturists. At the beginning of the year it was estimated that during the immigration season 130,000 settlers would cross the international boundary line into Canada. Mr. White thinks that this estimate can now safely be increased to 150,000.

### Toronto, Feb. 8.—The phenomenal number of resignations from the Queen's Own Regiment, here, is causing a lot of talk among military men. For a long time this regiment has been considered the cream of the militia. Col. Sir Henry Pellatt has made the regiment famous by his lavish expenditures. It is now said that the pace set by the millionaire colonel has been a little too fast for the officers who are not so well fixed financially. The latest application to be placed on the retired list is from Capt. James George, who is one of the officers who accompanied the regiment to Aldershot. Capt. George started soldiering in 1878. Capt. E. T. Wingate, it is stated on good authority, has also sent in his resignation. Lieut.-Col. P. E. Mason, C.V.O., and Lieut.-Col. E. Gunther, retired automatically, April last, while Major Barker and Major J. O. Thorne retired very recently.

### MISS GARNA GILLETTE SHOT AT SEATTLE.

Seattle, Wash., Feb. 8.—Just as the curtain was raised for the first act of "The Beauty Spot" at the Moore theatre, Monday night, Miss Garnette Gillette, New York, and sister of Miss Viola Gillette, leading woman with Jefferson D'Angelis in "The Beauty Spot," was slain by James Vlasos, in the latter's apartment here. The latter turned his revolver on himself and died a little later at the City hospital.

The identification of the dead woman was not completed until her sister Viola visited the morgue. A check for \$100, drawn to the order of the slain actress by Vlasos, was discovered by the police.

Miss Gillette was seen entering Vlasos' apartment in the afternoon. Four hours later her shots were heard. When the police arrived Vlasos, with a wound in his head, unlocked the door and admitted them. "I shot her," was all he said. Then he lapsed into unconsciousness. Vlasos was infatuated with the pretty chorus girl, who had planned to return to New York this week. It is believed that, failing to get her consent to marry him, he killed her and himself.

As he raised a glass to his lips he fell backwards. George Richardson, with whom he boarded, and another friend helped him home and when they reached his place they found that they were carrying a corpse.
