### LORD KITCHENER

May Prefer a Quiet Life in the Country. Sundry scribbles are again interesting themselves in the question of employment for Lord Kitchener, but it is by no means certain that he is so anxious for an active post as it would appear. He recently purchased Bromley Park, a fine old place near Canterbury, with the intention of making himself a home, and it is quite possible that he might prefer the quiet life of a country gentleman in a lovely part of the country where he can indulge in his hobby to the fullest extent, to accepting an appointment which could bring him no more honor than he has already obtained.

Place of the Initiative. Woman's National Daily. By making the initiative too easy of operation we invite its use instead of the regular legislative process, with the result that it fails to perform its function satisfactorily. It should be made so difficult to start, that it could be invoked only when there was so strong a sentiment that its success was practically assured. Otherwise it will cumber our elections and supply greater opportunity for political workers to deceive us. This is also true of the recall. The recall principle is right. But it should be treated absolutely as an emergency means of retiring dishonest and willfully negligent officials, and not be made an instrument of party politics. We need a comparatively easy referendum, but more difficult initiative, and a still more difficult recall.

"Buy plaster," at Gibson's. The body of Neil McKinnon, who shot himself in Chicago, was brought back for interment at Toronto. ## BUNGLY BY THE O.H.A.

### FORCES FRONTENACS TO RE-PLAY PETERBORO.

#### Birth Certificate of Marchand Re-examined, and That Player Found Ineligible — Oshawa Responsible for the Discovery.

Yesterday afternoon, a thunderbolt was dropped into the camp of the junior Frontenacs in the shape of a message from Secretary Hewitt, of the O.H.A., stating that Oshawa had had a representative in Toronto, on Saturday, investigating the birth certificate of the champions. Upon a re-examination of Marchand's certificate, which was in French, and which had originally been passed on by two Kingston French translators, and also by French translator in the O.H.A. office in Toronto, it was discovered that all three translations had been in error, and that Marchand was ineligible by a few months. In consequence of this the game with Oshawa for this week has been cancelled.

Secretary Hewitt fully exonerates the Frontenacs from any blame in the matter, they having sent Marchand's certificate up with the request that the

GOALKEEPER MARCHAND. The Frontenac player who has been found to be over age.

O.H.A. have the same translated in Toronto, and if found to be right, to issue playing certificate, consequently the local executive's hands are entirely clean in the matter. When spoken to, this morning, about the matter, Manager Sutherland was feeling quite down-hearted over the turn of affairs. The team also feels that it is an injustice to ask them to replay Peterboro again. James T., however, states that he has every confidence in the integrity of Secretary Hewitt and his associates on the sub-committee, and that while it seemed very hard from a Kingston standpoint, yet he felt that the O.H.A. executive was endeavoring to do what it considered to be the right thing and that it was not Frontenacs' place to offer any censure, but rather their duty to go ahead and obey orders.

Williams will replace Marchand in the nets and the champions do not feel that they will be weakened by this change. It is hoped that Brouse's eye will be in condition to allow him to play in Peterboro to-morrow. Frontenacs have secured Arthur Davidson, younger brother of "A.P." and Roy Morrison, of the R.C.H.A. team, in order to have some spare men eligible. There is indignation against Oshawa, by the local hockey fans. It will be remembered that last year they entered a protest against Moran, of the Frontenacs. It is felt that their action in this case was due solely because, after they had inveigled Marchand into going to Oshawa, last spring, he returned home, after a short stay. It is about time that the O.H.A. made a thorough investigation into the standing of sport in Oshawa. It is understood that during the spring and summer they imported between thirty and forty hockey players to that town in order to try and secure classy players for their teams. Surely the O.H.A. must realize this and doing so it would seem about time to cut out a town that resorts to such methods. There are others here who hold a stronger view of the situation than Mr. Sutherland. When the O.H.A. executive accepted Marchand's certificate, and allowed him to play for the past seven weeks, it has little to do to now throw him out. When its own translator passed the certificate, why is it now rejected? It would seem that O.H.A. junior certificates are really "swallowed" by these O.H.A. experts. The Frontenacs will leave for Peterboro to-morrow, to replay the Gril-

lers. The return game with Peterboro is to be replayed here next Friday.

### Ladies' Curling Match.

In the ladies' matches, at the curling rink, on Monday morning, in the doubles, Mrs. R. S. Waldron and Miss Fairlie defeated Mrs. Hugh Macpherson and Mrs. Vere Hooper, by a score of 12 to 8.

### Will Displace Manager.

A meeting of the Bath Road Beavers has been called for this evening for the purpose of considering the displacing of David McIntyre as manager of the team. Manager McIntyre's conduct with reference to the game, Saturday, at Glenburnie, was anything but satisfactory to the team and they protested strongly against it.

### Milos Beat Grants.

A closely contested game of hockey was played on Saturday afternoon at the Palace rink between Milos and Grants, the game ending with the score 7 to 4 in favor of the Milos. Milos—Hall, goal; O'Neil, point; Stokes, cover point; Wilson, right wing; Smith, centre; Cochran, left wing; Sargent, rover. Grants—Denton, goal; Cross, point; Sharpe, cover point; Saunders, right wing; Cullum, centre; Hanson, left wing; Bullgar, rover.

### Kingston Won at Rockwood.

The first of a series of four games, for the Rockwood tankard was played, Saturday afternoon, on the curling rink, between the Kingston curlers and Rockwood. These games are for the tankard presented by Dr. Clark. Kingston won out by twelve points. The scores:—Kingston, No. 1—Dr. H. T. Wallace, Dr. A. P. Knight, T. M. Asseltine, Prof. Watson, skip—13. Rockwood, No. 1—A. Carey, W. Fenwick, J. Davidson, J. E. Dennison, skip—11.

Kingston, No. 2—P. T. Pilkey, W. A. Beecroft, E. Lyons, Prof. J. F. Macdonald, skip—22. Rockwood, No. 2—W. Gowan, W. R. Dick, T. McCannan, W. Carr, skip—12.

### McGill Won Protest.

The Intercollegiate Hockey Union swallowed its constitution and rules and regulations at its meeting, on Saturday afternoon, in Montreal, and threw out the Queen's McGill game played here, on Feb. 3rd, declaring that the disputed goal that entered the net by striking the top of the back bar was not a goal. The decision is in opposition to the rules, but that didn't matter. It was a case of a vote, and the college lads voted no goal, throwing aside the rules on the subject. The game will be replayed, if necessary, that is if Queen's beats Varsity in Toronto next Friday.

### INCIDENTS OF THE DAY.

#### Newsy Paragraphs Picked Up by Reporters on Their Rounds.

Patrick Burns, arrested in connection with the hold-up case last week, will be given his trial in police court, to-morrow.

#### Two rinks, and possibly three, of the local curlers, will go to Cobourg, to-morrow, to take part in the curling bonspiel to be held there. The teams will leave here at 12:25 o'clock.

The Kingston & Pembroke railway hockey team has received a challenge from its old opponents, the Harrowsmith Hustlers. A game may be arranged for Friday night.

#### A Passenger That Paid.

Boston Herald. The late L. Q. C. Lapan, former United States senator from Mississippi, and at the time of his death an associate judge of the United States supreme court, was a very absent-minded and abstracted man.

One day he entered one of the old horse cars that ran in Washington years ago, walked up to the box at the end where passengers were supposed to deposit their fares, put his hand in his pocket, took out a coin and dropped it in. "Why, senator," said a friend, "you put in a quarter instead of a nickel." "Did I?" said the senator. "How very stupid of me!" Then he put his hand in his pocket again, took out a nickel, dropped that in and sat down with a satisfied smile.

#### Quebec Strong for Temperance.

Toronto, Feb. 13.—"The province of Quebec has eleven per cent. more of its municipalities and corporations under local option this year than Ontario." This was the assertion of Rev. Dr. Robert Johnston, Montreal, at the opening of his address in Massey Hall yesterday, under the auspices of the Canadian Temperance League.

#### Valuable Cargo.

St. John, N.B., Feb. 13.—The most valuable cargo that ever left Canada today went out on the Empress of Britain. It was valued at four hundred thousand dollars and included two tons of Cobalt ores and 250 tons nickel copper for British armor plate.

#### Mr. Bourassa's Denial.

Ottawa, Feb. 13.—Before Mr. Bourassa left for Montreal on Sunday he said in regard to the statement that he was resigning from the Quebec legislature in order to enter the dominion arena: "The story is on a par with the one when I was abroad that I was really in a lunatic asylum. There is nothing to it."

#### Wisdom.

"You let two automobile scorchers get by without saying a word to 'em." "Don't worry," replied Si Simin. "I reckon I know the constable business. By lettin' a few go past I get a feelin' of confidence an' by an' by I'll get a bunch w'ith while."—Washington Star.

Partisanship may be pardoned when it relates to home and family.

## HE CANNOT SLEEP

### SEEING HORRID THINGS IN HIS DREAMS.

#### The R. & O. Navigation Company Spent Twelve Minutes in Hearing Reports and Electing its Directors.

Montreal, Feb. 13.—Claiming that he "cannot sleep at night because" of horrible dreams in which he again sees the details of the terrible wreck at Spanish River, Ont., on Jan. 21st, 1910, Paul Dinowitz, of Trois Pistoles, Que., is suing the C.P.R. for \$14,850.

It took the directors and shareholders of the R. & O. Navigation company only twelve minutes, this morning, to hear the reports for the past year and to appoint directors for the coming year. Rudolphe Forger, president of the company was, in the chair and the initial statement which has been in the hands of the shareholders for one day was read and adopted. He spoke of the year just closed as the best in the history of the company. Then the old directors were all re-elected.

Two freight trains on the C.P.R. this morning, collided near Sutton Junction and Matthews James, engineer of one, jumped, fracturing his skull. He will die.

#### Saying the Right Thing.

"I don't seem to be able to say the right thing to women," a bashful young man confided to us the other day, "and that's why I don't shine in society. I'll tell you an instance of it. Not long ago I met a woman I hadn't seen for years, and I could see that she was trying to keep young. So I thought I'd say a graceful thing to her. "You carry your age remarkably well," says I. "Well, the moment I said it I could see that I was in wrong. She was looking chilly, and getting red, so I said: "Don't mind my little jokes. I never meant what I say. As a matter of fact you don't carry your age a bit well." "And then she killed me with a haughty look and sailed away without saying good-bye. Say, how should I have put it?"

#### BILL BEFORE CONGRESS.

Washington, D.C., Feb. 13.—The reciprocity bill was brought into consideration immediately after congress met to-day. Long and important discussions are expected. All absentees have been ordered into the chamber to ensure quorum and a full discussion. This is the beginning of a sensational fight.

#### Chinese Superstition.

The Chinese are offering stubborn resistance to the European doctors who are endeavoring to stamp out the plague. The authorities and the doctors, we learn from a French source, are at their wit's end, for the educated Celestials shun with the educated people a belief that the hygienic measures and clinical treatment advocated by European surgeons, are designed to kill and not cure the people.

One of the legends which has a powerful influence over the people is that the Europeans want the bodies, more especially the eyes, for the preparation of different medicines. Many horror stories are circulated, and it is said the native press is much to blame for not endeavoring to educate the people up to an understanding of European medical and surgical treatment.—London Globe.

#### Too Personal.

Patrolman Casey had ordered a pair of shoes at Rosenberg's store and was about to try one of them on when the clerk reached for it and deftly sprinkled some French chalk in it to ease the forthcoming strain. When he handed it back, the patrolman threw it on the floor, pulled on his own shoe and started out. The proprietor had noted the scene. "What's the matter, Mr. Casey?" he panted as he caught up with him. "Was the clerk sassy or anything." For a moment Casey glared at him in almost speechless anger, then observed with dignified dignity: "If I can't come into a place to try on a pair of shoes without havin' chloroide av lime put up in them before hand, I'll thrade somewhere else."

#### Public Baths for Dogs.

London Globe. Half the Vienna dogs are terriers. The fox terrier is a particular favorite. The necessity of the dogs being frequently washed has led to the establishment in Vienna of "dogs' public baths," which are to be seen in all parts of the city. One would think that dogs being so popular in Vienna they would be tolerated, but such is not the case. "Dogs not admitted" is the rule at every restaurant and cafe, while the trams and omnibuses are also forbidden ground and in the parks and squares dogs must be led. The Empress Elizabeth was a great lover of dogs and had a fine collection of St. Bernards and grey hounds but the Emperor of Austria does not resemble her in that respect, and consequently dogs are banished from the imperial gardens.

#### The Footgear of Angels.

On the steeple of the old Universalist church in Bath, Me., there is a wooden figure of an angel. It is not a remarkably fine specimen of art, and has always been somewhat laughed about, especially because of its high-heeled shoes. The Bath Enterprise recalls the story that a former pastor of the North Congregational church once accosted a devoted universalist with the question: "Mr. Raymond, did you ever see an angel with high-heeled shoes on its feet?" "Why, no," admitted Mr. Raymond. "I can't say that I ever did, but did you ever see one without them?"

## NOT CURED BY SURGERY.

### Parole Board Discredits Reformation of Criminal.

Albany, N.Y., Feb. 13.—Unconvinced that Edward E. Grimmel, a third-term convict in Clinton prison, had been cured of his criminal tendencies by surgery, the state parole board has refused to parole him, although Governor White, before retiring from office, gave the board the authority by committing his sentence.

Grimmel's skull was fractured when a boy of fourteen, during a quarrel with a playmate, and the claim was made that the injury was a potent factor in developing his criminal career. In March, 1909, Dr. de Witt G. Wilcox, of Buffalo, a former president of the Homeopathic Medical Society of New York state, with an assistant, went to the prison and performed an operation with a view to restoring Grimmel to his normal state of mind. At a meeting of the state parole board no evidence was produced that the man had been surgically cured.

### RED CROSS FOUNDER ILL.

Miss Clara Barton, Ninety Years Old, Has Pneumonia.

CLARA BARTON.

Oxford, Mass., Feb. 13.—Miss Clara Barton, ninety years old, founder and organizer for many years, president of the National Red Cross, in the United States, has been seriously ill according to letters received by friends in this town, her birthplace. Her nephew, Stephen E. Barton, of Boston, who is with her, wrote that Miss Barton showed unexpected improvement yesterday, and it is now thought she will recover.

### WEAR NO IMITATIONS.

#### Absurd Statements about Queens Mary and Alexandra.

Of the many absurd statements published about royalty one of the most ridiculous is now going the round, and is to the effect that both Queen Mary and Queen Alexandra have exact replicas of their more valuable jewels made of imitation stones, which they wear on many occasions. It is added that it is a matter of the utmost difficulty to tell the real from the imitation jewels when they are placed side by side. As a matter of fact there is not an atom of truth in the statement. Neither of the queens possesses an imitation jewel of any kind. Nor is there any reason why she should. In each of the royal palaces there are burglar and fireproof strong rooms fitted up for the reception of the Queen's jewelry, and only a very few of those about the court are even aware of the position of these rooms. Queen Mary's safes can only be opened in her presence, and the keys to them never leave her. Queen Alexandra, on the other hand, entrusts the care of her jewels to the Hon. Charlotte Knollys, who alone possesses the key.

### A Sure Headache Cure.

Utica Globe. The various rulings of the commissions and departments at Washington are oftentimes thought to be arbitrary and unnecessary. No less a personage than David Starr Jordan joked about the laws of the International fisheries commission. "The fish there have no chance," he lamented, "they have as hard a time of it as the whites in the interior of China. A druggist there said to his clerk one day: " "Didn't I see a foreign devil come out of here as I came down the street?" "Yes, sir," the clerk meekly responded. "He wanted a permanent cure for headache." "And you sold him—" "Rat poison, sir."

### A Little Extreme.

T. P's Weekly. "Two Scots, one old and the other young, set out one bright Sunday morning to walk ten miles to the lirk. "The sun shone gloriously. The frozen road rang under their feet. The cold, pure air was as exhilarating as wine. The young Scot looked up at the glittering blue sky and said: " "It's a fine day." "The older man frowned and answered: " "Aye, it is a fine day, but is this a day to be talking about days?"

### Compensation in Defeat.

New York Times. Even in political defeat there are compensations. A Washington Heights man who aspired to office tells of one that he discovered. "Must have cost you a pile of money to run, didn't it?" a friend asked. "About \$1,500, but still I came out \$400 ahead." "How?" said the friend. "On genealogical research. My wife had a society bee in her bouquet, and had about agreed to pay a man \$2,000 to look up my family history, but when I became a candidate my opponents did that for me and saved as the money."
