The Score Was 7 to 3-The Kingston Juniors Proved Themselves Better Than a Good Intermediate | well

INTERMEDIATES.

The junior Frontenacs at the coved rink last ovening, evinced their uperiority over even the intermediate-Peterboro team, by defeating them by the score 7 to 3. The ice was very soft and would not permit any passing or combination work, consequently, nearly all the scoring was done individually. The Peterboro team, with the exception of "Red" Elliott, are all larger men than the local boys, vet the Frontenacs had them beaten to a standstill. The team were without the services of Davidson, who was replaced by Hyland, and what the score would have been had "Scotte" been on the job, it would have been hard to say. If the Peterboro sports thought for a minute that their intermediate team stood any better chance of winning here last night than the junior, they were sadly mistaken for their intermediates are not as good collectively as the junior team was. The team were intermediates with the exception of Patterson in goal

and Hefferman at cover-point.

Frontenacs started off brilliantly and notched the first goal. Millan doing the trick on a pass out from the right side, shooting from right in front of Drop a card and our agent will call the goal. Peterboro resolved to take them on a short, fast shot which passed Williams like a streak. This put Leo on his-guard, and he watched the shots closer after that. At a time when the defence of the visitors had been coaxed out, Millan got up speed and shot with telling effect. This taught the Grillers a lesson and they did not leave their goal man to do it all after that. Hunt scored for the Frontenacs next on a face-off at the left side, getting one past Patterson in a simple manner. Here McCammon thought it was about time that he figured in-the scoring line, so when the puck went around the nets on a shot from Peterboro, "Bill" got up steam and rushed the entire length of the ice, through forwards and defence, but at the last moment when the spectators were expecting him to shoot, he was checked by a Peterboro man. Hunt came next, boring through the visitors defence thrilling manner, and making the score 4 to 1. He came back a minutes later and scored again, this time on a wicked little shot right in front of his opponents goal. Boyer English wormed the last one in the first | half

from opposite the Peterboro goal, making the half time score 6 to 1. Peterboro came back stronger in the second halt, and only allowed the local boys to score one goal to their two, although this half was not so good an exhibition of the game as the first half was. Geroux of visitors scored their first goal in this half, while Millan retaliated on short rush from the middle. Quigley scored the last goal of the evening

with about ten minutes to play. Boyer played the best game of the to 0., at intermission. Frith took locals, his back and cross-checking long shot, which hit Referee B. Rumor of Boston Challenge. There was a report circulated to the effect that Queen's had received a challenge from a Boston bockey team for a game in Boston, but when Attraction spoken to this morning, officials did not know anything about it.

More Unsportsmanlike Conduct. Some very unsportsmanlike person indulged in some dirty work at the game, last evening. While Millan and Quigley were battling for control of the puck on the left side of the rink, some one reached out over the boards and dealt Quigley a blow on the back. The guilty party was severely censured by Referee Vanhorne.

### What Every Woman

Learning Every woman is coming to know that advertising has a

real value to her. In olden days, under olden conditions, store-advertising was a very negligible thing. It consisted of either the dull, formal announcements of the conservative stores, or of the hysterical, misleading and style of advertisements resorted by stores. In neither case was advertising important to the housewife, nor of the nature of "service" to her in planning her purchases.

fulness. It would be as wise to try to do business in quarters wholly inadequate, or with no delivery system or clerks. For the advertising is as much a part of store service as any other phase of store keeping. Women are learning that only stores that are adequately advertised are able to give real values-are able to compete in value giving with other stores that advertise. The store that

vertising or of limiting it too much in the scope of its use-

No worth-while store would now think of omitting its ad-

does not advertise is not considered at all except as a mere neighborhood shop, to which we are driven by necessity sometimes—always to our loss, Women have learned that the advertised store, selling great quantities of goods, is able to sell them at a much smaller per-sale profit than the unadervtised store, which must make its profits from a small number of sales. This truth make store-advertising of real importance to every

woman-to every buyer.
