

SAVED HER FINGER.

Mrs. B. E. Belwell, of 337 Provencher Ave., St. Boniface, Winnipeg, says: "Some time ago my children took diphtheria, and while attending them the poison entered a small scratch on the second finger of my left hand. This became very sore and blood-poisoning soon set in. For months after the children were quite well I was suffering from a shockingly bad finger. The scratch was caused originally by a pin, and in itself, was not at all serious. The consequences, however, of neglecting this scratch, were very serious to me. When the blood-poisoning set in I tried medicines and a salve I had in the house. These, however, did not have the desired effect. Quite on the contrary the finger became more and more swollen and discolored. It then began to fester, and I had to call in a doctor. He lanced the finger to let out the pus, and you can imagine how painful the finger was! Despite his care, however, it again festered and the ointments, liniments, and other preparations which the doctor gave me seemed absolutely unable to bring about any relief. The doctor thereupon advised me to go into the St. Boniface Hospital. I feared that if I went to the hospital the finger would be amputated. We were told of a case similar to my own in which Zam-Buk had effected a cure when every thing else had failed and the doctor had said that only amputation could save the person's hand. We, therefore, decided to give Zam-Buk a trial. A single was procured, and we commenced the Zam-Buk treatment. It only needed a few days to show the wisdom of this step. The blood-poisoning and inflammation were reduced, the pain became less acute, and it was evident very shortly that Zam-Buk was being reduced to a less and still less area. We persevered with the Zam-Buk and in the end the festering sore was thoroughly cleaned, then healed. In under three weeks from first commencing with Zam-Buk the finger was entirely well; and had wrapped Zam-Buk in the first place, instead of trying the doctor's prescriptions, no doubt I should have saved myself hours and hours of acute agony. All mothers should cure this case. Zam-Buk is a sure cure for blood-poisoning, febrile, toxic, eruptions from barbed wire, bruises, eczema, rashes, scalds, cuts, chafes, sore throats, ulcers, piles, bad leg, varicose veins, and all skin injuries and sores. All druggists and stores or post free from Zam-Buk Co., Toronto, for price. Send in stamp for postage of free trial box. Refuse all imitations.

SECURED ENTRANCE

THE GREAT LAKES HAVE BEEN SUCCESSFULLY REACHED.

New Haven Railroad Acquires Interest in Rutland With Outlet at Ogdensburg—Can Handle Grain. New Haven, Conn., Feb. 21.—President Meilen, of the New York, New Haven & Hartford railroad and Boston & Maine railroad, yesterday, stated that parties in the interest of the Vermont Valley railroad company have acquired 23,500 preferred shares of the Rutland company from the New York Central railroad. The object of the purchase, according to Mr. Meilen's statement, is the acquisition in the interest of the Boston & Maine railroad system, of a route to Burlington and Montreal by way of the Rutland road. "The acquisition of this interest extends the line of the Boston & Maine practically to the Great Lakes at Ogdensburg, and by a connection with steamboat lines controlled by the Rutland railroad, operating on the lakes, to Chicago and the west, thus enabling the Boston & Maine to assure to the port of Boston a larger percentage of the grain carrying trade.

LEG BROKEN IN SCUFFLE.

Accident to James Redmond of Gannanoque.

Gannanoque, Feb. 21.—James Redmond, a well-known resident of the town, met with a severe mishap in a friendly scuffle at the International hotel. He slipped and fell, and on being helped up complained of his right leg hurting him badly. He was at once driven over to Dr. Bird's surgery, where the doctor discovered that the bone was broken a little above the ankle. Robert Hinton, of the School of Practical Science, Kingston, is laid up at his home here by illness. Frank Wallace, Rochester, is here, having been summoned on account of the severe illness of his wife, who has been visiting here with her parents, Mr. and Mrs. J. J. Courtenay. Morrison Acton and Henry Barnes, of Queen's, spent the week-end at their homes here and left, yesterday, to resume their studies. Charles Macdonald left at noon, yesterday, for Montreal, in connection with the Quebec Bridge Commission. Mrs. (Rev.) J. R. Serson, ill with pneumonia, for some time past, is convalescent. Mrs. Hugh McKanday is confined to her home, seriously ill. Ralph B. Britton, of the Fairbanks company, Toronto, spent the week-end with his parents, George Reid, London, who was in town, yesterday. William Drinkwater, Montreal, of the Canadian Fairbanks company, was in town yesterday.

TO BE NO CUT.

Canners Will Not Reduce Their Prices.

Pictou, Feb. 20.—Reciprocity will by no means seriously affect the growers of canning factory produce. This was the emphatic declaration of T. E. Owens, second vice-president of the Dominion Canners, and Prince Edward's most prominent canner. Mr. Owens expressed satisfaction with the reciprocity pact. He declared that it really would not affect the industry. Mr. Owens denied that reciprocity would hurt the farmers who sell to the canners. "There is no likelihood of importations of tomatoes from the United States," he said. "Reciprocity will not mean that Canada's market will be glutted. The home consumption is yearly increasing the demand for canned goods. No supply is seldom, if ever, greater than the demand. I know this from my twelve years' experience as vice-president of the Bloomfield Packing company. In fact, the farmers are to get increased prices this year. For many years now tomatoes have been twenty-five cents per bushel. Canneries are now contracting at a twenty-seven-cent rate. In the face of this raise, it is not consistent to say growers will be misused. Tomatoes never could be imported as cheaply as they can be raised here."

VERY COLD IN RUSSIA.

Live Stock Perishing by Thousands—Fires in Streets.

St. Petersburg, Feb. 18.—The cold throughout Russia is unprecedented. Even in Yalta and Feodosia, in the Crimea, which is Russia's Riviera, the roads are impassable from snow. The cold is such that the inhabitants are felling fruit trees for fuel. Cattle and sheep are perishing by thousands. A flotilla of ice-breakers can hardly keep open access to Sebastopol, and Odesa, and vessels are arriving with their propellers broken by the ice. There is not an ice-free port on the Baltic coast. Most of the ice-breakers themselves are locked up near Riga and Revel. Great blazes of wood were kept burning yesterday between each block of buildings in St. Petersburg for the frostbitten.

REPLY NOT SATISFACTORY.

Russia Will Occupy III Province and Hold It.

Washington, Feb. 21.—Cables from St. Petersburg, Peking and London to the State Department bring the information that China's reply to Russia's demand for adjustment of claims in III province, and the treaty of 1881, is entirely unsatisfactory. Russia, it is declared, is getting ready to press at once her military demonstration in these circumstances, and means nothing less than initiation of a move to occupy the province and hold it against eventualities.

Death of Ex-Warden.

Marmora, Feb. 21.—John Brown, perhaps the best known and most prominent man in Belmont, is dead after a year's illness with liver trouble. For fifteen years Mr. Brown was employed as woodranger and surveyor for the Gilmour Lumber company, and had travelled most of the north country in that capacity. He was reeve of Belmont for ten years, warden of Peterboro county, a justice of the peace, and fishery overseer. He was a prominent supporter of the liberal party. A widow, two sons and two daughters survive. The funeral took place with Masonic honors.

COMING TO THE GRAND.

Two Good Things on Friday and Saturday.

Albert Chevalier is coming to the Grand on Friday next, Feb. 24th. Chevalier is known as one of the few truly great character actors of the generation, and his coming performance is one to be looked forward to with pleasant anticipation. Chevalier achieved the world-wide renown by way of the London musical halls. There his characterization, gems in miniature, had much to do with giving the London variety stage the reputation of being on a much higher artistic plane than the similar institutions on this continent. But Chevalier has not devoted himself to the music halls solely; London knows him as about the finest "Bill Sykes" that ever appeared before it. Then, Chevalier played the title role of Harris's queer playette, "Fantolosa," which called forth some superb artistry from this superb actor.

"My Cinderella Girl."

"My Cinderella Girl," a musical comedy, the book by Richard Walton Lully, co-author of "The Rose of

MISS BUNNY WOODS.

In "My Cinderella Girl" at the Grand on Saturday, Feb. 25th, matinee and night.

The "Rancho" with David Belasco, with a musical score by William Frederick Peters, composer of "The Mayor of Tokio," and other popular comic operas, will be presented for the first time in this city at the Grand on Saturday, Feb. 25th, matinee and night. The attraction comes with a record of over 300 performances in Chicago, and with the endorsement of the critics of St. Louis, Kansas City and other large cities. The cast is composed of well-known musical comedy favorites, assisted by an extremely young, pretty and active chorus.

Defence of Fat Men. Boston, Feb. 21.—If all men were fat the divorce court would soon go out of business. Fat men love their homes. Fat men make the best fathers. Criminals weighing more than 200 pounds are very few. Any man who is right minded and good tempered will necessarily add flesh. This eloquent defence of the fat men, long the subject of the popular saying, "nobody loves a fat man," is from the lips of W. D. Quimby, president of the New England Fat Men's Club. At a meeting of the club officers he advocated the purchase of a tract of land in Massachusetts to be made into a fat man's paradise.

Perth has thirteen school trustees; three have children of school age.

SUFFERED THREE YEARS

Till Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning, scalding pain. Tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes affected a complete cure. I now enjoy the blessings of good health, which is due to this remedy. Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifying the blood. 25c a box at your druggist's."

This is the "Ideal" Accident-proof Crib, designed for baby's comfort and safety and mother's convenience and freedom from worry. Ends and sides are extra high to prevent the baby climbing out, and the spindles are close together so that baby cannot get its head between them. The side lowers to make the crib an annex to mother's bed when desired. "Ideal" Crib is made in a number of attractive patterns, and various sizes, all strong, durable and without the dangerous sharp corners or rough edges usually found in cheap imitations. Be certain the "Ideal" guarantee is on the footrail. We'll tell you the name of a local dealer who sells "Ideal" Metal Beds, when you write for "The Philosophy of Sleep," our interesting free booklet. Ask for Booklet No. 129.
