YEAR 78 - NO. 60

KINGSTON, ONTARIO, MONDAY, MARCH 13, 1911.

LAST EDITION

TO ASK LAWS

Making Mixed Marriages Valid Everywhere

ORANGEMEN GATHER

AT SMITH'S FALLS IN ANNUAL SESSION.

Grand Master James Berney, of Kingston, to Preside—There Will be Strong Opposition to Sectarian Teaching in Schools.

Smith's Falls, March 13.—Grand Master James Berney, of Kingston, will preside at the annual meeting of the Provincial Grand Orange Lodge, of Ontario east, which opens here, on Wednesday, the Grand Lodge Chapter will meet there Tuesday and the Orange lodge delegates Wednesday. There will be Orangemen present from all places between Port Hope and Ottawa.

While reciprocity directly will, of course, not be discussed from what can be learned, there will be a resolution growing out of the present proposed trade compact with the United States, namely to reaffirm the loyalty of the Orangemen to Great Britain.

It is almost certain that they will pass a resolution approving of the entire abolition of all bilingual schools in this province, and approving of the elimination of all sectarian teaching, either before, during, or after any teaching session of the public schools, except as laid down in the curriculum prepared by the department of education at Toronto.

It is expected also that the Home Rule question will be referred to. There will also probably be a discussion and a strong resolution condemning the papal decree against mixed marriages, and an effort made to try and secure federal legislation making mixed marriages contracted in any province valid in any other province in Canada, this being for the purpose of preventing the annulment of certain marriages in Quebec province.

WOMEN TO FIGHT RECIPROcity.

Organize in Montreal—Menace to Home Life.

Montreal, March 13.—Under the name of the women's branch of the anti-reciprocity league, the leading women of Montreal have banded themselves together, and have decided to appeal to Sir Wilfrid Laurier.

Mrs. Henry Joseph is the organizer of the movement, and Mrs. S. W. Ewing is the secretary. They declare that reciprocity means the ultimate annexation and, with it, the loss of marriage laws and divorce courts of the United States. Reciprocity, they say, is a menace to the home life of Canada.

The women are also aiding the men's league in circulating petitions and obtaining signatures.

MAY RECEIVE ORDERS.

To Advance Into Mexico at Any Hour.

El Paso, March 13.—The fact that Mexico has been declared under martial law made no difference to Maderistas, who, this morning, had another skirmish with the federal troops, near the border line, leaving several dead on the field. The battle was within earshot of the United States army encampment. Officers commanding United States forces wouldn't be surprised to get orders to advance into Mexico any hour. They rather expect them.

RUSH TO CANADIAN WEST.

A Tremendous Influx of Immigrants Is Reported.

Winnipeg, March 13.—Daily hundreds of cars of American settlers with their families and effects are passing over the border into the prairie provinces. At Emerson and North Portal, on Saturday, five specials of United States settlers came into Canada. On account of the early spring, the rush has started much earlier than usual. A tremendous United States immigration is anticipated this spring. Many of the new arrivals are going through to British Columbia.

Seamen's Strike Clouds Horizon.

Montreal, March 13.—It's going to be a busy year on the St. Lawrence this season say the old salts with corresponding wealth and boom to the dominion. Sailing dates are set earlier for all the ocean going steamers than ever before and the department of marine and fisheries is doing its share by promising to get the buoys and light-houses on the long river channel in shape to guide the pioneer vessel of 1911 safely from the sea to her berth on the waterfront.

There is one cloud in the sky. The long-rumored seamen's strike appears to be growing into something real. It is a move by the sailors against the International Shipping Federation and affects all men who go down to the sea in ships the world over. Owners and agents of vessels here are watching keenly for the results of the meeting of the International Congress of Seamen which is being held in Antwerp, and which will decide the stand to be taken by sailors and stockers in dealing with shipping masters.

Former Congressman Marcus C. L. Elkin died at the Allentown, Pa., hospital, following a stroke of apoplexy two weeks ago. He was sixty-six years of age.

DAILY MEMORANDUM.

City Council, 8 p.m.

CONSOLIDATING SCHOOLS

Is Proving Very Popular in Manitoba.

Winnipeg, March 13.—Consolidation of schools is proving very popular in the province. It has been a slow process, but is gaining ground, and in a few years it is believed Manitoba's whole rural school system will be on the consolidated plan. To-day there are fourteen consolidated schools and four or five more are being formed.

The question of elementary education has been and is to-day a serious problem on the prairies, with the population comparatively thin, the farms scattered and bad weather in the winter. Small schools and poor attendance has been the great handicap the schools have had to fight. The following figures show what the educational department has had to contend with. Last year there were two schools operated with an average of between four and five, thirty-nine with an average of between five and six, and seventy-four with an average of between six and seven. The average cost of maintaining the schools with an attendance of ten or less was slightly over \$141 and for consolidated schools under \$40.

Mixed Marriages.

Montreal, March 13.—Archbishop Bruchesi, of Montreal, has placed the ban on mixed marriages in his diocese and curiosity has reached a boiling point in society circles as to how Miss Alice Shaughnessy, Sir Thomas Shaughnessy's eldest daughter, is going to get the knot tied when she becomes the wife of H. W. Beauclerk. Miss Shaughnessy is a strong Roman Catholic and Mr. Beauclerk a Protestant. Rouse's Point, just across the border line, is Montreal's Gretna Green, but it is likely that it will not be necessary to go there, although there have been many weddings in the little boundary town of late on account of the ban.

VOTES FOR WOMEN

SUFFRAGE IN FIVE YEARS PROMISED BY MORMONS.

Government Watching—Will Take Action if it is Possible to do so Under the Existing Laws.

London, March 13.—Hans P. Freese, who represents the Interdenominational Council of Women in America, and who is here for the purpose of combating the work of Mormon missionaries in England, saw Winston Churchill. The latter assured Freese that he was seriously considering the question of extending the franchise to women who were engaged in persuading women to go to Utah. He added that politics plays a large part in the propaganda. He asserts that women are told that they will have votes after they have been five years in Utah.

A Fine Collection.

Chicago, March 13.—Announcement is made of the presentation to the Chicago Art Institute of eighteen of the best paintings of George Luntz, N.A., the American landscape artist. The presentation was made by Edward B. Butler, a Chicago merchant, and himself a painter of some local reputation. The cost of the collection was a trifle over \$150,000.

Big Colonization Scheme.

Vancouver, B.C., March 13.—A syndicate of Canadian and United States capitalists here has bought one million acres of the Peace River district of British Columbia for \$5,000,000. The district will be colonized by the American farmers.

LOST HER POSITION

SHE WANTS DAMAGES FROM THE TOWNSHIP.

Sherwood is Sued by a Young Lady Alleging Defective Smallpox Quarantine Enforcement.

Eganville, Ont., March 13.—The township of Sherwood is threatened with an action for close on \$900 damages by the father of a young lady who, it is alleged, contracted smallpox while stopping at a house in that township. The young lady, whose home is in Raglan township, and who was on her way to Calgary, where she held a good position, had a meal at the house in question, and it is claimed that a smallpox of a mild type, existed in the household at the time. She proceeded to Calgary, and nine days later became ill with the disease. As a consequence of her illness she lost her position.

Regains Sight and Weeds at 74.

Philadelphia, Pa., March 13.—Rev. Egelston Burroughs, a Baptist minister of Burlington, Pa., who has just passed his seventy-fourth birthday, was married recently to Mrs. Marie E. Ziert, a widow, sixty-one.

Bell Telephone Financing.

Montreal, March 13.—It is stated in financial circles here that the Bell Telephone company, of Canada, will, in the immediate future, issue \$1,250,000 of five per cent. bonds on the markets of Canada, the United States and Great Britain. The company's outstanding bond issue is in the neighborhood of \$3,469,000. The price of the new issue will probably be par.

Cures for Insanity.

Montreal, March 13.—A cure for insanity, discovered by Dr. George Robertson, of the Royal Edinburgh Asylum for the Insane, has been reported, and attending physicians at the Verdun and St. John de Dieu asylums here are so much interested that an effort is being made to send a specialist to Scotland to get further particulars.

To Raise \$1,500,000.

Toronto, March 13.—Rev. T. E. Egerton Shore and Rev. C. E. Manning have left for a two-months' trip to Vancouver, Victoria, Calgary and other western cities. By personal appeals, particularly to wealthy members of the Methodist church, they will endeavor to secure a million and a half dollars for missions.

H. M. Johnston, of London township, employed in the post office, at Thamesville, was arrested, charged with stealing mail.

Under the new Quebec law no cocaine may be sold except on prescriptions from doctors or surgeons, and increased fines are provided for each successive offence.

Rufus Pope, ex-M.P., of Compton, Que., has returned to Montreal from Alberta, and says the grain growers would like to see the abolition of all tariffs, and revenue taxes on the land.

T. H. Carter, Montana, James A. Tawney, and Charles Streeter, New Hampshire, have been appointed United States members of the international waterways commission to deal with the Long Sault and other matters.

POWERFUL COMBINATION

By Fasken Syndicate of Cobalt Silver Mines.

Cobalt, March 13.—Details known here of a deal by which Fasken, Toronto, director of Nipissing and Larose mines, has taken control of the Nipissing Central Electric railway and power plants, indicate that the Fasken syndicate has also secured control of several other mines and with the Nipissing and Larose interests has formed the most powerful combination ever known in silver mining, representing actually invested capital of twenty-five to thirty millions under Canadian control.

Regains Sight and Weeds at 74.

Philadelphia, Pa., March 13.—Rev. Egelston Burroughs, a Baptist minister of Burlington, Pa., who has just passed his seventy-fourth birthday, was married recently to Mrs. Marie E. Ziert, a widow, sixty-one.

Dr. Burroughs has been blind several years, and came to Philadelphia to have an operation performed on his eyes. While here he met Mrs. Ziert and celebrated the recovery of his sight by marrying her. The present Mrs. Burroughs is his third wife.

Bell Telephone Financing.

Montreal, March 13.—It is stated in financial circles here that the Bell Telephone company, of Canada, will, in the immediate future, issue \$1,250,000 of five per cent. bonds on the markets of Canada, the United States and Great Britain. The company's outstanding bond issue is in the neighborhood of \$3,469,000. The price of the new issue will probably be par.

Cures for Insanity.

Montreal, March 13.—A cure for insanity, discovered by Dr. George Robertson, of the Royal Edinburgh Asylum for the Insane, has been reported, and attending physicians at the Verdun and St. John de Dieu asylums here are so much interested that an effort is being made to send a specialist to Scotland to get further particulars.

To Raise \$1,500,000.

Toronto, March 13.—Rev. T. E. Egerton Shore and Rev. C. E. Manning have left for a two-months' trip to Vancouver, Victoria, Calgary and other western cities. By personal appeals, particularly to wealthy members of the Methodist church, they will endeavor to secure a million and a half dollars for missions.

CONVICT SAVED TWO.

Fled When Policeman Sought to Get His Name.

Paris, March 13.—A woman, after disputing with her sweetheart to-day, threw herself into the Seine. Her lover, who could not swim a stroke, followed bravely. Both were sinking the third time when a passerby saw them and plunged in, rescuing both.

The policeman who arrived in time to help the three up the embankment, asked the hero his name, in order that it might be registered as a possible Carnegie Hero Fund winner. The man took to his heels. When finally caught he was proved to be an escaped convict with a two-year sentence hanging over him. He will be lightly dealt with, it is said.

Hotel Guests' Narrow Escape.

Sussex, N.B., March 13.—Twenty-five guests in the English hotel, here, had narrow escape when fire destroyed it. Some of them had to jump into blankets.

THE USEFUL CAREER

OF THE LATE REV. DR. WILLIAM I. SHAW.

Deceased Was Born in Kingston in 1841—First Studied Law and Then Entered the Ministry.

Montreal, March 13.—Rev. W. I. Shaw, D.D., LL.D., D.C.L., Principal of the Wesleyan Theological College, who had been in failing health for some time past, suffering from cancer, died at his residence, on University street, at noon, Saturday, in his seventeenth year.

Born in Kingston, Ont., on April 6th, 1841, he was educated at Queen's College, Kingston, at Victoria University, Cobourg, where he graduated as B.A. in 1861, and as M.A. in 1864, and LL.B. in 1865, and at McGill University, Montreal, where he took the M.A. degree in 1880 and LL.D. in 1887.

Intended for the legal profession, he studied with that object in view, first with the late Judge Burrows, of Kingston, and subsequently with Messrs. Mowat and Macdoran, of Toronto. Abandoning that design, he commenced his studies for the ministry in 1864, and was ordained in 1868. He labored successively at Brewster's Mills, Belleville, Lachine, Hemmingford, Odelltown and Montreal. He became an instructor in the Wesleyan Theological college, Montreal, an institution which he assisted to found in 1864.

In 1877 he was appointed professor of Greek in this college, and in March, 1894, he was called to succeed the late Rev. Dr. Douglas as principal of the college.

Dr. Shaw was a delegate to each Quadrennial Conference of the Methodist church since 1874, and was elected president of the Montreal Conference in 1878. He was appointed a member of the council of public instruction of the province of Quebec in 1888, and of the Protestant board of school commissioners for Montreal in 1890. He at one time held high office in the Orange Order.

In politics, Dr. Shaw was non-partisan but believed in uncompromising loyalty to the British crown and friendly relations with the United States. He was a vice-president of the Lord's Day Alliance.

He resigned from the chairmanship of the Protestant board of school commissioners of Montreal a few weeks ago, on account of ill-health, but retained his seat on the board.

Dr. Shaw was a most able and scholarly man, whose teaching and influence at the Wesleyan Theological college during a great number of years had a marked effect upon student life and character.

He married Sarah, daughter of the late Captain Robert Patterson, of Kingston, Ont., in 1869, who survives him. He is also survived by three sons, Fred, J. Fletcher, and George McD. Shaw, and by three daughters, Miss Louise Shaw, Miss Etta Shaw, and Mrs. Annie. All reside in Montreal, with the exception of Mrs. Annie, who lives at Ottawa.

The public will be permitted to view the body of the deceased in the Janus Ferrier Convocation Hall, of the Wesleyan Theological College, from ten a.m. to twelve noon, on Thursday.

The services for students and members of the family will be held in the Wesleyan Theological college at two p.m., the public service being held in the Dominion Square Methodist church, half an hour later.

A FREE HAND

For Canada in Giving Trade Favors

IDEA IS TO AVOID

ANY DANGER OF TARIFF ENTANGLEMENTS.

Imperial Government May be Asked to Abrogate Favored Nation Treaties—Those With France and Japan Will Not be Interfered With.

Ottawa, March 13.—When Sir Wilfrid Laurier goes to the imperial conference in May next he will take up with the imperial government the question of the revision or abrogation, insofar as Canada is concerned, of the favored-nation treaties with the Argentine republic, Austria-Hungary, Bolivia, Colombia, Denmark, Russia, Spain, Sweden, Venezuela and Switzerland.

Although Canada's trade with those countries is comparatively small, and the favored-nation treatment accorded them under the provisions of the imperial treaties has practically had little real effect on the volume of either imports or exports, the fact that Canada is bound to automatically give them the benefit of any tariff reductions accorded other countries is hardly compatible with the actual assertion of the dominion's unrestricted fiscal autonomy.

A case in point is the argument now being used by the opposition that the proposed tariff reductions to the United States must also be extended to Argentina and other countries without any reciprocal return being given. The only countries entitled to favored-nation treatment by reason of treaties, which have been approved by the parliament of Canada, are France and Japan. The other countries entitled to favored-nation treatment have become so entitled by virtue of old treaties between these countries and the imperial government.

As in the case of the denunciation by the imperial government of the Belgian and German treaties in respect of Canada, it is believed that similar action might be taken in respect of the remaining favored-nation countries if requested by Canada, thus leaving the dominion absolutely free in the matter of extending reciprocal trade favors to any country without necessarily having to extend them to the favored-nation countries named above.

BATTLE WITH HURRICANE.

Steamer Boston Arrives at Halifax in Damaged Condition.

Halifax, March 13.—Eleven days out from Jamaica, after battling with a fierce hurricane for over four days, the steamship Boston has put into port with her wheelhouse blown away, doors smashed and part of her railing washed overboard.

The Boston (Capt. Holstead), left Jamaica on Sunday, February 28th. She arrived at Turk's Island two days later and sailed for Halifax on Wednesday, February 28th. On entering the Gulf stream she encountered a heavy north-east gale, which increased in velocity until it culminated in a fierce hurricane. The waves swept over the ship fore and aft, and she was compelled to lay to. For eighty-five hours the ship lay there unable to make any progress. Heavy seas swept over her, sometimes covering her completely. The wheelhouse was carried away by a mountainous sea, one life-boat and a jolly-boat were badly damaged, doors were smashed, and part of the railing was carried away. So perilous was her plight that the man who steered had to be lashed to the wheel, and the other members of the crew wore life belts.

NOTHING TO WORRY OVER.

The Annexation Talk is 135 Years Old.

Montreal, March 13.—Talk of the annexation of Canada to the United States is nothing new, declared John S. McLennan, of Sydney, in an address before the Canadian Club, this afternoon. "Some people have become excited over the reciprocity negotiations," Mr. McLennan declared, "but there is nothing to worry about. The past is full of lessons for the present, and it might be remembered that the colonists who broke away in 1774 and '75 held, as their successors still seem to hold, the view that North America to the Arctic ocean should be under the same flag with them."

LIGHTHOUSE BURNED

At the Soo by Order of the Light-house Board.

Sault Ste. Marie, March 13.—The lighthouse at the south of the international bridge, for many years serving as beacon for mariners entering the ship canal from the west, was burned, this morning, by order of the lighthouse board. The light was rendered useless owing to improvements on the American side, and the building of the new canal. It was found cheaper to burn it than to tear it down.

Gananoque Board of Trade.

Gananoque, March 13.—A meeting for the re-organization of the Gananoque Board of Trade was held in the town hall on Friday evening, when the following officers were elected: Honorary presidents, Charles Macdonald and E. L. Atkinson; president, Frederick J. Skinner; vice-presidents, A. W. Taylor and B. Ford Jones; secretary-treasurer, Charles A. Watt.

ORIGIN REVEALED.

Hair From China is Combing of Well-to-do Women.

Washington, March 13.—Women who resort to "rats," switches and puffs of hair to reinforce nature, need not think that they are wearing hair taken from the dead, according to the United States consul-general at Hong Kong, China. He also contradicts the stories that have been circulated to the effect that much of the hair which goes to make up these "reinforcements" comes from queues that have been cut off. To substantiate this he says that although thousands of queues have been cut off in Hong Kong during the past few months, the hair has not been sold. The hair shipped from the Chinese empire is the combings of the well-to-do, mostly women, says the consul-general. Combing that formerly were thrown away, he adds, now are saved and sold to barbers by Chinese maids. Barbers also obtain considerable hair while plucking their trade, selling it to hair exporters. Much of the Chinese product is sent to Paris and is exported from there to Canada and the United States as French hair.

PLAYFAIR GETS CONTROL

Of the Northern Navigation Company Lines.

Montreal, March 13.—That James Playfair, president of the Inland Lines, to-day, definitely obtained control of the Northern Navigation company, with the approval of the G.T.R. company, was admitted by those on the inside. Mr. Playfair is now negotiating with the directors of the Richelieu and Ontario lines, with the object of forming a big merger of the three companies. No definite steps have been taken towards such an agreement, however.

Blown to Pieces.

Buffalo, N.Y., March 13.—Fireman Richard Clinton, of an engine company, was blown to pieces, and a number of other firemen are missing, as the result of an alcohol explosion during a fire at Wood Products company, Fourth and Pennsylvania streets, at noon, to-day. A general alarm was sounded.

NAVAL PROPOSALS

\$221,062,500 FOR THE BRITISH NAVY.

This is an increase of \$19,000,000 Over Last Year and Less Than Was Sought.

London, March 13.—The naval estimates issued provide for the expenditure of \$221,062,500, an increase of \$19,000,000 on the previous year. The cost of new construction is placed at \$55,319,385.

The programme includes five Dreadnoughts, three protected cruisers or unarmored cruiser, twenty destroyers, six submarines and an increase in the personnel of the navy of three thousand men.

The naval building programme caused a great deal of discussion. According to the reports the admiralty wanted six new breadnoughts laid down this year. Reginald McKenna, first lord of the admiralty, favored five, and the radical section of the cabinet and liberal party insisted that four would suffice.

Mr. McKenna's statement shows that a compromise has been reached between the insistent radical demands for naval economy and the admiralty authorities.

A Fine of \$500.

Ottawa, March 13.—James Gibbons, street railway motorman, who was convicted of keeping an illicit still, and distilling moonshine whiskey under the shadow of the House of Commons, was fined \$500 or two months' imprisonment, this morning.

IN PITIFUL TONES

GIRL PLEADED FOR AID OF A GENTLEMAN.

She Took Him to Prostrate Form, a Man, Who Covered Him With a Revolver and Believed Him of Money and Jewelry.

Toronto, March 13.—As B. J. Simonds, a Dominion bank teller, was walking up University street, towards the parliament buildings, last night, he was met by a young girl, who, in pitiful tones, asked him to come over and help her mother, knocked down by an auto. Being a chivalrous gentleman Simonds responded and she led him toward a prostrate form on the road. On approaching the girl and man, for such the prostrate form proved to be, drew a revolver and relieved him of six dollars cash and an hundred dollar diamond tie pin and then made off. Two men were arrested later but not identified.

Only Protecting Frontier.

New York, March 13.—Before sailing on a long trip to-day Secretary of State Dickinson said he knew of no reason why the United States should intervene in Mexico except to protect its own frontier. Owing to the long extent of the frontier a large body of troops had to be sent.

Big Coronation Rents.

London, March 13.—Rents for lodging houses for the coronation season are rising, with the increasing demand for accommodations. According to the Chronicle one liberal peer has refused an offer of ten thousand pounds for the use of his residence for six weeks.

A company composed of Chinese has been organized to equip and maintain an electric lighting plant at Amoy.

WEATHER PROBABILITIES.

Toronto, Ont., March 13, 10 a.m.—Ottawa Valley and Upper St. Lawrence—Fine, with much the same temperature to-day and on Tuesday.
