Grants \$50 to the Frontenac Hockey Souvenir Fund—Wage of Light Plant Employees Increased—General Business Transacted.

The city council session, last evening, was short, extending over an hour. The chief items of business were a discussion upon the placing of water meters upon public institutions, and the presentation of an oil portrait of ex-Mayor Couper to add to the city hall collection.

In attendance were Mayor Graham, and Alds. Armstrong, Bailey, Carson, Clugston, Elliott, Fair, Fraser, Givens, Harrison, Hanley, Hartly, Hoag, Kent, McCann, McCarthy, Ross, Rigney, Shaw and Toye.

These communications were received: Thomas Mills, secretary-treasurer Catarapu Bridge company, re meeting of shareholders, to consider the sale and disposal of bridge.

John Cousins, manager Rodters' Club, Junior Frontenacs, asking grant for hockey souvenirs.

City engineer, submitting statement re cost of swing bridge with span of eighty feet.

Members of the court of revision, asking increase of salary from \$50 to \$100, as it formerly was.

Bishop Mills and others, petitioning against the location of the tuberculosis hospital on the general hospital grounds.

The Waterous Engine Works, company, re installation of power plant.

Department of railways and canals, re improvement of harbor facilities.

Board of railway commissioners, acknowledging receipt of resolution.

Department of trade and commerce, re improvement of harbor facilities.

Rev. M. Macgillivray, president Evangelical Alliance, and Rev. W. S. MacTavish, moderator of session of Coke's church, re pool rooms.

Eugene Derbyshire and others, disapproving of construction of walk on Stephen street.

Ald. Clugston presented petitions for an arc light on Garrett street and for the removal of a tree near the corner of University avenue and Johnson street.

On motion of Alds. Elliott and Hoag, the finance committee was instructed to provide the sum of fifty dollars for the Frontenac hockey fund, as a recognition of the Frontenacs' advertisement of Kingston.

These recommendations of the finance committee were adopted: That the communication from the Secretary of Pageant of London, and that of Harold Miller for school site, be filed; that on the communication from the city clerk, Toronto, and from the board of trade, Brockville, re the proposed Long Sault dam on the St. Lawrence river, that on account of this river being our principal waterway this municipality is opposed to any scheme or works which will in any way interfere with navigation and future improvements of the River St. Lawrence canal system, west of Montreal, and that a copy of this resolution be sent to the Dominion and provincial governments and members of both houses of parliament representing this municipality.

These recommendations of the board of works were adopted: On the communication of H. A. Carl, asking permission to erect a portico on Market street, north side, as an encroachment on the street, that it be granted, notwithstanding clause 9 of report No. 67 of the board of works, the city engineer having reported favorably on the said communication as the encroachment would in no way interfere with the line of view in the street proper, there being a jog in the street, and further, the said job being an isolated case, there being no other street in the city having a similar jog in it; that tenders be asked for the purchase and removal of the house on Pine street formerly owned by Stanley V. McNaig and recently acquired by the city for the purpose of extending the city for the purpose of extending Barrie street.

Ald. Elliott pointed out that in allowing the above portico to be erected, the board of works was opening the gate for other petitions.

Ald. Rigney said this was an exceptional case, and that the engineer approved the granting of the request.

The council passed the recommendation of the light, heat and power committee that the wages of the employees be increased by seven and one-half per cent.

It also adopted the recommendation of the waterworks committee to place meters on all public buildings, as recommended by the superintendent and approved by the water committee.

Dinner to Prof. Dyde.

The evening of Thursday, March 30th, has been fixed for the citizens' complimentary dinner to Prof. S. W. Dyde, of Queen's University, who leaves about April 12th for Strathcona, Alberta, to become principal of the new Presbyterian theological college at that place. It is likely that the occasion will be taken advantage of by the arts' society of Queen's to present to the university an oil portrait of Prof. Dyde. It was the intention to present this portrait at the spring convocation gathering, but as Prof. Dyde is leaving before that time, it was thought that it would be better to present it on the same evening as the citizens of Kingston are honoring the distinguished educationalist.

At the Orpheum.

Blanche Aldrich, the lightning character-change artist, at the Orpheum, this week, has made the patrons sit up and take notice. She changes her costumes so quickly that people begin to imagine that she had a double in the wings. Her rendition of "Just A Little Smoke" was real and true to life. Her different costumes were very pretty. Laughing LaMar had a very difficult role to fill in his laughing sketch, and amused the people greatly. Blanche Decoret, in her singing of songs of the various countries, was very natural.

Investing in Real Estate.

The Renfrew Mercury says: Condie Craig of the K. & P. railway has been thinking for some time of purchasing a home in Renfrew and now that he has got started will do more. He recently purchased from Mrs. E. Mackay the fine lot just north of the residence of T. Guest, Sr., and will build on it this summer, two, and perhaps even three houses. Some of the lumber is being placed on the ground this week.

Remember anything cut off is gone forever. Pyramid Pile Cure saves all this, cures rationally, restores the parts to normal healthy conditions. You can easily and quickly prove this by sending your name and address to Pyramid Drug Co., 278 Pyramid Blvd., Marshall, Mich. A free trial will be once mailed sealed in plain wrapper and you will never afterwards be at a loss to know what to advise when you hear of a case of piles no matter how severe it may be.

For sale at all drug stores at 50¢ a package and be sure you get what you ask for.

Will Give an Address.

Rev. Canon Starr was to have given an address to-night in St. Luke's church, under the auspices of St. Andrew's Brotherhood, but had to go to Brockville, so Dean Bissell consented to give his address, and Canon Starr will deliver his address next Tuesday evening. The Brotherhood are having a series of addresses on timely topics.

meters on all public buildings, as recommended by the superintendent and approved by the water committee.

Ex-Mayor Couper's oil portrait was presented to the council by Mayor Graham, who referred to the ex-mayor as having so ably filled the position of chief magistrate during 1909 and 1910.

The portrait was accepted on motion of Alds. Rigney and Elliott. Ald. Rigney expressed the appreciation and gratitude of the council for the handsome portrait and stated that the historic hall of the city had never been more adorned by a portrait of any preceding mayor than it would when that of ex-Mayor Couper was given a place in the hall. The reception of the portrait was received with aldermanic applause. Ex-Mayor Couper arose in his place as alderman and thanked the council for its kind reception of his likeness.

A PORTSMOUTH DEPUTATION

Go to Ottawa to Make Requests on Ministers.

At noon, Wednesday, a Portsmouth delegation, consisting of Brevet Baden, Councillor Halliday and Clerk Henstridge, go to Ottawa to interview the ministers of public works and justice. They will ask that the dominion government maintain the roads alongside penitentiary property and also supply the same with electric light. A request will also be made for repairs to the breakwater, which requires attention.

The village of Portsmouth, during absence of this delegation, will be in charge of Councillor Michael Kennedy, as acting reeve, and he hopes that safe-crackers and burglars generally will keep away and not take advantage of the absence of Reeve Baden and his lieutenant, Councillor "Jim" Halliday.

TO PLACE METERS**IN PUBLIC INSTITUTIONS TO PREVENT WASTE**

Of the Water Supply—The City Council Adopts the Recommendation of the Waterworks Committee.

Hereafter the waterworks department will place meters in all public institutions, as recommended by the superintendent and approved by the committee. There has lately been a big waste of water in some of these institutions, owing chiefly to the installation of elevators and flush closets, and the department has begun to feel the waste. The city council adopted the recommendation of the waterworks committee after a short discussion.

In reply to Ald. Elliott and Hoag, Ald. Carson stated that the reason his committee recommended that meters be placed on all large public buildings was to stop a leakage, which was using an unusual amount of coal. It was proposed to give the charitable institutions water at cost, but the department could not afford to do better than that.

Ald. Rigney wanted the committee first to furnish council with definite information. He would like to see how much water the public institutions were using, so he could form an opinion on the question. He agreed with the principle of supplying water at cost to public institutions.

Ald. Carson said that the water committee did not propose to be robbed. It could not get a revenue as it gave water away below cost as it was doing now. The institutions referred to were churches, schools, hospitals, colleges and homes for the poor, unfortunate and aged.

Ald. Elliott said he was sorry the waterworks department was not big enough to allow the public institutions the water they were using. Some of the public utilities had to do something for nothing. His committee on light, heat and power was giving street lighting below cost. The recommendation of the waterworks committee was wrong principle to adopt. Ald. Elliott said, he was sorry the committee could not give the institutions water even free than at present.

Ald. Carson remarked that the street railway company was the only concern that received anything at cost from the light plant.

Ald. McCann said he did not know of any institutions receiving electricity without a meter. Why then should institutions receive water without a meter? He claimed that the meter would be a check on waste, and could see no objection to placing one in an institution.

Ald. Ross said that no committee received more money for nothing than Ald. Elliott's light, heat and power committee. Every night, there were at least a dozen arc lamps hanging by the carbons, merely blinking.

There was no committee robbing every committee of council as was waterworks' committee.

Ald. Elliott claimed the water committee had lately been getting money and giving little in return. He pointed out that latterly the people had not been drinking much water, but they paid for it all the same.

Ald. Toye said Ald. Carson was mistaken, in saying that the street railway was the only concern which received anything at cost from the light, heat and power committee. The light plant had not received cost in

in the past five years for its street lighting.

The council then adopted the waterworks' committee recommendation.

AT THE GRAND.

To-night "Three Twins" Will be the Splendid Attraction.

Joseph M. Gaites' merry musical comedy, "Three Twins," headed by the minstrel entertainer, Clifton Crawford, with the original New York company, come to the Grand-opera house tonight. This musical comedy so magnificently produced by Mr. Gaites strikes a popular chord in music-loving theatregoers wherever the piece has been presented. The story, taken from Mrs. Pachau's farce "Incog," is an admirable vehicle for hilarious amusement, and there is something lively every moment. The music, by Karl Hirschmann, is tunefully catchy and strongly rhythmic, the lyrics by Otto Hauerbach and the incidental dances are cleverly conceived and admirably presented in every detail. Clifton Crawford is the bright particular star of the show, without a peer in his infectious fun-making and in his monologues which he constantly varies. Mayme Gehre is the "Yama Yama girl"; Daisy Leon has a great success in "The Girl Up There," introducing Myrtle Tyson in the "faceograph."

"Madame Sherry."

Local playgoers are fortunate not to be compelled to wait a year or longer before they are given a chance to enjoy "Madame Sherry." Usually it requires two seasons for a success of such proportions as this unique French comedy to reach here from New York, but in the case of this phenomenal Woods, Frazer and Leider musical success the local public will have an opportunity to see it at the Grand on Tuesday, March 16th just as it is now being presented to overflowing audiences at the New Amsterdam theatre, New York.
