

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sores of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes: "For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this. At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy." Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all druggists at 25c a box.

IMITIATION COUGH CURES

Is an Imitation Cough Medicine Good Enough for Your Children?

When you are sick and send for the doctor you don't want him to send a young medical student he has in his office. You would rather have the young fellow experiment on somebody else. No more do you want imitations of the medicine you know to be of proven value in the cure of disease. The remarkable success of Dr. Chase's Syrup of Limesed and Turpentine in the cure of croup, bronchitis and colds has proven too great a temptation to imitators. They expect you to take chances with their medicines because the price is a few cents less. Imitations are never sold on merit, but depend on the merit of the article they imitate. You don't want to be experimented on, and for this reason you will insist on seeing the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the bottle you buy. As it is made of simple ingredients of proven value, it is well suited for a treatment for children. That it is effective in the cure of croup and the most severe coughs and colds is attested by its many years of continued success and enormous sales. 25c. chess with hat to match. The groom was supported by Thomas Barrett, brother of the bride. The groom's gift to the bridesmaid was a beautiful gold bracelet and to the groomsmen a handsome signet ring. The wedding march was played by Miss Margaret Golden. After the ceremony the bride and groom, accompanied by Fr. O'Hanlon and a host of friends, drove to the home of the bride, where after the congratulations all sat down to a sumptuous repast. The numerous and beautiful presents testified to the esteem in which the young couple are held. Mr. and Mrs. Davidson, left for Toronto, Buffalo and other points west for a brief honeymoon.

Budget from Bongard's. Bongard's, March 13.—The tea-meeting given by the Ladies' Aid of the Methodist church, on Friday evening proved a success. Ackerman and wife, of Fairmount, were at James Bradley's last week. Mrs. W. J. Hawker spent a couple of days in Picton, the guest of Mrs. Miller. Mrs. G. Vangesen has returned from a visit in Picton. Mr. and Mrs. J. D. Bongard who have spent the past two months in Picton, are expected home in a few days. Mrs. Mrs. Lucas have been visiting the latter's mother, Mrs. Smith, in Fredericksburg. Miss M. Minnikar is visiting her sister, Mrs. Thurston, in town. Mrs. R. Bongard is improving, after a serious illness.

PREPARATION OF FOODS. The Biggest Freehold Farmers in the World. Our readers will be interested to learn that the Oxo company are by far the biggest freehold farmers in the world, whose lands are devoted to a preparation of concentrated foods. This concern has owned cattle farms since 1865, and its holding now amounts to over 4,500,000 acres, situated in the River Plate and in South Africa. Recently they have carried out an enormous deal with the British South Africa company by which they have acquired the freehold of 1,200,000 acres on the highlands of Rhodesia. The breed of cattle they favor is the well-known Hereford breed. They have on their farms splendid specimens of pedigree animals from his majesty the king's farms, at Windsor Castle, and many other well-known British breeders.

The amount of grass which the catle consume in a year has been estimated by experts to exceed the enormous weight of three million tons, and the water drunk by the cattle is estimated at over nine million quarts per day. The Oxo ranches are all situated in mild climates, the calves are born in the open air, and are practically never reared in sheds, and this renders them particularly healthy and disease proof. Tuberculosis, the dreaded cattle disease, is practically unknown among the Oxo herds. The pastures are luxuriant and constant, and artificial feeding consequently is not called for. This enormous cattle supply is the great secret of the success of the Oxo products. They are able to prepare their concentrated foods from exclusively high grade and home fed beef, thus securing a richness otherwise unobtainable. If you are interested in Oxo, send a post card to the company's agents, Messrs. Cornille David & Co., Toronto or Montreal, asking for a handsome colored Oxo Cattle Farm Card, which your children can cut out and set up.

DIED AT WESTPORT. Was a Woman of Refinement and Culture. Westport Mirror. Miss Mary Martin, one of Westport's most respected citizens, died, on March 4th, from bronchial pneumonia, after an illness of only four days. Deceased, who was a daughter of the late William Martin, was born in Donegal, Ireland, sixty-seven years ago. When ten years of age she came to Canada with her parents, settling in Leeds county. In 1878 she went to Boston, Mass., where for twenty-five years she deceased successfully engaged in the mercantile business. Eight years ago she returned, coming to Westport to reside. Two brothers and one sister predeceased her, Edward and John Martin and Mrs. Dwight, of Nanapanee. One brother, W. J. Ryan, with whom she has lived the past eight years, survives. Among us she ranked always as a woman of culture, refinement, sympathy, a kind neighbor and a true friend, and withal a woman of heroic mould in bravely meeting the requirements of life, a true Christian woman, honored and respected, not only by her many friends here, but also by those with whom she came in contact in business life. The funeral, on Monday, to St. Edward's church, was very largely attended by sorrowing relatives and friends.

Nurse Leonard Indicted. Boston, Mass., March 13.—On a charge of stealing jewelry and other property, valued at \$6,162, from Miss Mary J. Lockwood, at a hotel in this city, Amelia M. Leonard, alias Emily Burton, a nurse, formerly of Montreal, was indicted by the grand jury. Miss Lockwood, who was a member of a well-known Rhode Island family, died during the winter of natural causes. After her death it was discovered that much of her property was missing. Her nurse, Miss Leonard, was arrested, charged with the offence. Several other charges are pending against Miss Leonard.

KING TO BE CROWNED

AS THE EMPEROR OF THE INDIAN EMPIRE.

Striking Innovations at the Coronation—Unique Ceremonial at Delhi—Duke of Connaught May Become Viceroy of India After Short Stay in Canada.

London, March 13.—King George is now seen daily in Rotten Row, cantering with equerries. He needs the bracing effect of exercise in the tipping air, for he is overwhelmed with the details of various ceremonial of what must be the busiest year of his reign. The precedents of the last coronation are followed closely, except the minor points, like the substitution of girls for boys as the queen's train-bearers, but a series of new questions has been raised for the Delhi ceremonial and the investiture of the Prince of Wales at Carnarvon, since tradition and recent practice do not cover them.

Lord Curzon and other viceroys have been consulted respecting the Delhi function, and the decision has been reached that it must not be treated as a recrowning of the king, already consecrated at Westminster Abbey, but as a separate crowning as Emperor of India. A thousand novel details connected with regalia and costume and oriental pageantry need to be determined. The prince's investiture is almost equally as difficult, owing to Welsh sensitiveness. The Duke of Connaught, who is the king's closest adviser, has decided never to accept another military command after serving a short term at Ottawa.
