The Way a Gannanogue Driver Saved Himself—Presentations to the Misses Rogers, Who are Going West.

Gannanogue, March 25.—Thomas Baker's frisky team of grays, driven by William Baker, took fright near the International hotel, yesterday morning, and started at good speed down Main street. As they came in front of Charles Macdonald's one of the lines broke and the horses striking a tree, the driver seized one of the lower branches and swung himself up into the tree, and the team, near S. McCommon's residence, ran astride of another tree, breaking the neck-yoke and rig, one horse running out on the ice and the other stopping at the railway wharf.

Gannanogue's new board of trade held a well-attended session in the new town buildings, last evening. A report of the committee showed a good gain in membership during the past two weeks.

The town council, in answer to the appeal for assistance from the public library, has appointed Mayor Rogers and Councillors McParland and Taylor as a committee to look into the needs of the library and report on the advisability of continuing the grant to that institution.

A. W. Taylor left this morning for Toronto. Miss Gimblett, Kingston, guest of Miss Glover, Pine street, for the past few days, returned home yesterday.

A pleasing incident took place last evening, after the session of the Y.P.S. in Grace church, when a handsome set of Parkman's works was presented to the assembly, this morning, for a some club has Miss Edith Rogers, who are leaving for the west at an early date. A neat address was read by J. A. Jackson. The presentation was made by Clifford Sine.

Germany's Growing Millions.

Buffalo News.

Since the population in the fatherland increased and there is scarcely room for further expansion.

Nuremberg, the town of the toys, had a population of some 50,000 twelve years ago; to-day, she has 300,000. Berlin has, in the population race, passed Chicago. Hamburg has near a million, Leipzig, Dresden, Munich, Cologne, Breslau, each of these approximate 500,000 souls, their population having doubled within the last twelve years. Nor is this growth of the German cities a draft upon the German country, for the country, too, is crowded.

It is plain that Germany is about to face a problem that may well be serious one; a problem of which none dare forecast the solution.

Holds Veil in Place.

Get the narrowest kind of round elastic, the same color as the veil (pink) the white elastic with water colors for a colored veil, and whip it over the extreme edge of the veil, taking up only a single thread all around. Include any cut edges, but afterwards near them off neatly with a small pair of scissors. Fasten in back with a tight knot. The veil is slightly gathered on the elastic, fits nicely under the chin and over hat, and stretches when it is raised.
