TWO EXPERTS AGREE

THAT HOSPITAL GROUNDS IS THE PLACE

For Kingston Tuberculosis Building—Inspector of Hospitals and Ontario Health Officer Say City Would Benefit.

These letters have been received by Frederick Welch regarding the general hospital grounds as a site for the Mowat tuberculosis sanatorium:

From Provincial Health-Officer, Toronto, March 23rd, 1911.—Dear Sir—I have your communication of the 20th inst., relative to the establishment of a tuberculosis sanatorium on the grounds of the Kingston general hospital, plan of said grounds being enclosed. I know the situation and with the plan of the location before me I am of the opinion that it is well suited and the ground ample for such institution.

I note objection is raised that a sanatorium for consumption in this situation will likely be dangerous to the community and inimical to business interests. Any one who has looked into the subject at all will know that such statement is quite the reverse of the actual facts. It is a matter of universal knowledge that as a rule business is improved, property increases in value, the population increases and there is less tuberculosis infection in communities adjacent to a sanatorium than anywhere else.

Take thirty-three institutions in twenty-two different states of the United States; it is shown that in sixty-seven per cent. the surrounding property is increased in value. In twenty-three assessed value increased and in over fifty per cent. new residents were attracted.

There is no place so free from infection as a properly conducted sanatorium for consumption. In nineteen years no servant, nurse or attendant at Trudeau has contracted the disease. The fact that meat, milk, eggs, butter, cream and other first-class foods are consumed therein in large quantities is surely an argument in favor of rather than against business interests.

The existence of a well-conducted sanatorium is a gratuitous advertisement for the city as a health resort. It becomes a school of hygiene, prophylaxis and treatment, an educator in respect to this malady of which only those who come in closer contact with it are fully aware.

It is most commendable that the city of Kingston has already raised so much money for the equipment and maintenance of such a laudable enterprise. I hope you will let nothing stand in the way of its successful completion. Once it is in working order I am convinced that the citizens of Kingston will soon come to regard such sanatorium as not by any means the least valuable of their institutions.—Faithfully yours, JOHN W. S. McCULLOUGH, chief health officer of Ontario.

From Dr. R. Bruce Smith, Toronto, March 21st, 1911.—Sir: I have the honor to acknowledge receipt of your letter of March 20th. I am surprised that in this enlightened age, when the nature of tuberculosis has become so widely known and the public generally appreciates that it is such an easily preventable disease, that there should be any opposition towards having an institution for the care of consumptives at every hospital centre in the province. Take Germany for example. Every large town has its special hospital for the care of consumptives. Those who have studied the situation in Germany assert that not only are consumptives cared for, but the health of the community at large is vastly improved by having such institutions conveniently situated throughout the empire. The number of cases of tuberculosis within a radius of ten miles from the German institutions is eighty per cent. less than in the cities and districts where no hospital for consumptives has been located. The reason for this is that each hospi-

tal becomes a centre from which educating influence radiates to teach people how to live.

If those at Kingston who are opposed to the location of a hospital for consumptives within the city would correspond with the mayor and city council of St. Catharines and ask them if the trade of St. Catharines had been interfered with by having a local sanatorium in its midst, they would quickly be told that instead of being hurtful to the city it had been helpful to it.

After giving the matter full consideration I can come to no other conclusion than that the separate sanatorium for the care of consumptives at Kingston should be established in connection with one or other of your city hospitals in order that it might be maintained under the same management and not render necessary the expense of administration which a separate institution located outside the city would require for nursing and general administration.

I do not wish to interfere in the choice of location, but, as you have asked my opinion, I freely state that there is no ground for fear that the establishment of a local sanatorium at Kingston will prove injurious to the trade of the city nor hurtful to the general health of the community.—R. W. BRUCE SMITH, Inspector of Hospitals and Charities of Ontario.

GANOQUE FORESTERS
Celebrated Thirtieth Anniversary of Organization.

Gananoque, March 29.—Court House, Gananoque, No. 66, C.O.F., celebrated the thirtieth anniversary of its organization, last evening, with becoming eclat. Through the efforts of Organizing E. S. Wilson, a large number of candidates were present for initiation. Certificates were presented to the P.C.R.'s of this lodge and veteran jewels to several who have been members of the order for twenty-five years. Dr. Stanley, grand medical adviser of the order, represented the high court in the proceedings. After the court session, visitors and brethren, numbering upwards of 100, repaired to the Brophy house, where an excellent banquet, with a numerous toast list, was enjoyed.

The local branch of the W.C.T.U. held a session, last evening, at the home of Mrs. J. A. Jackson, Stone street.

Capt. Frank Seymour, with a number of assistants, started, yesterday, to overhaul the schooner Britton.

John Kee, Garden street, an employee of the D. F. Jones company, has been confined to his home by illness for the past week. Parker Orser, North street, has been on the sick list for several days. Robert Kelly, spending the winter here with his mother, Mrs. Kelly, Stone street, left for Essequan, Man., yesterday, where he has been located for some years past. S. S. Cheatham has been elected president of the adult Bible class of Grace church.

T. Thompson, a former resident, located for some time past in Smith's Falls, is visiting here with friends. Mrs. Holland Mullins, of Brockville, is visiting her daughter, Mrs. Spence, Charles street. A. W. Taylor, has returned from a short visit in Toronto.

COMING TO THE GRAND.

Frontenac's Souvenirs and "The Rosary" on Friday.

Patrons of the Grand Opera House have a treat in store for them next Friday evening, when Rowland and Clifford's new production, "The Rosary," will be produced in this city, and between acts, the citizens' souvenirs to the Frontenac hockey team will be presented. "The Rosary" is a play dealing with the tremendous power of our human thoughts. Men and women rise in the morning and go about their work heedless of the fact that it is their own attitude of mind that brings them success or failure. That is what is shown in "The Rosary." "The Rosary" proved the sensation of the season in Boston, where it has just completed a three-months' run. The mayor and aldermen will occupy the boxes at the Grand for this attraction.

William Faversham in "The Faun."

William Faversham will be the attraction at the Grand on Thursday, April 6th. He will be here in his new play, "The Faun," by Edward Knoblauch. "The Faun," has proved a genuine dramatic novelty. This comedy Mr. Faversham will impersonate a faun, the same being the god of the shepherd. This particular faun is brought into contact with modern life, and with many surprising and novel results. Mr. Faversham has gathered together a particularly fine company for the presentation of this play. Miss Julie Opp is the leading lady.

STILL BANKED ON BRYAN.

Man With Uncut Hair Dies With Hopes Undaunted.

Macon, Mo., March 29.—Thomas Robertson, sixty-five years old, who took a vow in 1896 that he would not have his beard or hair cut until William Jennings Bryan was elected president, is dead, as the result of a fall downstairs.

He had kept his vow and was looking forward to a democratic triumph in 1912. When Robertson's hair was combed it reached half way down his back.

A Concert at Wilton.

A sugar social and concert was held in Grange hall, Wilton, on Tuesday evening, by the Presbyterians of that place. R. W. Longmore, of Camber East, was chairman. Addresses were given by Rev. Mr. Boyce, and Rev. Mr. McInnes, a quartette by Messrs. Storms, Assling, Miller and Boyce; dialogue, by Misses Lake, Burgess, Storms, Gallagher and B. Storms; solos by Mrs. Murray, of London, and Daniel Couper, of Kingston. Mrs. R. Mills and Mrs. MacInnes were the accompanists. There was a large crowd in attendance.

Waterworks Intake Pipe.

John Donnelly, who is superintending the laying of the new portion of the water works intake pipe, says that the pipe may be completed by Saturday evening if nothing unforeseen happens. The work is progressing well. A three-ton valve is now being attached.

PAID ONE CENT ON DOLLAR.
Sheldon's Actual Liabilities Exceeded \$800,000.
Montreal, March 29.—Charles D. Sheldon, as he was known in Montreal, disappeared on October 11th, leaving behind him creditors to the amount of nearly \$2,000,000, as a result of his "blind pool" operations, and assets of about \$18,000. The real liabilities of Sheldon, however, were only about \$800,000, the balance of \$1,200,000 representing dividends declared upon investments which their owners had left with him to accumulate. Sheldon began business in a very modest way about a year previous to his disappearance, but when after a few months he continued paying dividends at the rate of twenty per cent. per month to those who invested money with him, his fame spread and he soon had customers all over the Dominion. By June his operations had become so extensive that the local stock brokers began feeling the lack of customers, and a newspaper campaign was begun against him. This led to a falling off in the number of new customers added, and a consequent lack of money with which to pay the "dividends" declared at the end of each month. A run set in one day on Sheldon's office and the "wizard" at once recognized that the time to get out had arrived. Investigation of his accounts with local brokers showed that he had operated on very modest lines and with but little success. All classes

A Doctor writes:
"We use Postum continuously in the family and I believe your campaign against the 'coffee habit' has saved more lives than all Uncle Sam's life-saving stations combined."
Respectfully,
M.D.
Like all our printed testimonials this is genuine. Would like to prove it? Write us and the name and address will be sent. Why saved lives? Many and many a man or woman finds the life sands running low, and daily troubles show that food is not keeping the body up to active, healthful vigor, and wonder why? Some hidden thing retards digestion and the body does not receive its needed nourishment. To such we earnestly suggest leaving off the coffee entirely, even the famous "only one cup in the morning." Replace it with good, hot Postum made as per directions on pkg. and carefully observe day by day the return of health and strength. That's the answer and

MOODY'S KLENZINE
What the KLENZINE MAID told the Policeman
"Good morning, Mary, I notice you must have the old standby," KLENZINE MAID—"Well, really Officer, just feel my hands, how nice and soft Klenzine keeps them. Besides I can get through my work in half the time and everything looks so bright and clean. I wish you would tell Nellie Clancy about it. She thinks her work is so hard—I am sure she has never used KLENZINE."
MOODY'S KLENZINE banishes drudgery—makes housework a pleasure. For washing dishes, cleaning windows, or for Laundry Work it is unequalled. MOODY'S KLENZINE Ammonia Washing Compound makes glassware fairly sparkle and linen look like the driven snow.
A valuable disinfectant—keeps the kitchen, pantry and bathroom clean, sweet, and free from germs.
Insist on MOODY'S KLENZINE. Your Grocer keeps it. Large size packet 70c. Order one.
