DEATH OF A BISHOP

HIS LORDSHIP OF NIAGARA PASSES AWAY.

Bishop Dumoulin Was a Pulpit Orator of the First Rank—Came to Canada From Ireland.

Hamilton, March 29.—Bishop Dumoulin died suddenly here at midnight at the age of 82. His lordship was taken ill a little over a week ago. The bishop passed away peacefully. At his bedside were: Mrs. Dumoulin, Miss Frances Dumoulin, Canon Abbott and Dr. O'Reilly. His lordship had been suffering from a severe attack of acute indigestion, but had been able to be around until about a week ago, when he contracted a cold while out walking. Since then the bishop had been confined to the house, but his condition did not show any unfavorable signs till shortly before midnight, last night, when the bishop complained of pains around his heart. The family physician had been at the bedside during the whole of the evening, and towards the latter part of the night it was seen that the bishop's condition was weakening and his heart was giving out.

John Philip Dumoulin was born in Dublin, in 1826, and received his education at Trinity College, in that city, though he did not proceed to a degree. His coming to Canada was influenced by Dr. Cronyn, first bishop of Huron, who gathered around him a

very able group of young men, most of whom made their influence felt in the church in Canada. The deceased was ordained a deacon in 1862, and raised to the priesthood the following year. He was elected bishop of Algoma on the formation of that diocese in 1872, but declined. Dr. Dumoulin was elected bishop of Niagara in May, 1896.

The late Bishop Dumoulin was one of the most brilliant of that band of distinguished men who have come from Ireland to serve the Church of England in Canada. He was a pulpit orator of the first class. His wife was a daughter of Archbishop Brouncker, and there is a family of three daughters and five sons.

The late bishop was uncompromising in his criticisms and denunciations of immorality in all its forms. Quite recently, in an address in Toronto, his vigorous hostility to the militant suffragette campaign in Britain aroused a lively controversy.

CALL TO CATHOLICS.

Toronto, March 29.—The Orange Sentinel is out today with an appeal to the Roman Catholic laity to resist the enforcement of what it terms the "Unjust and Tyrannical" papal decree regarding mixed marriages, as their fellow churchmen in Germany and Hungary have done. The Sentinel gives the opinion that the best and most intelligent Roman Catholic laity of Canada are bitterly opposed to the decree.

Crimeau Veteran Dead.

Brookville, March 29.—The death is reported from Mallorytown of Nicholas Wolfie, a native of Switzerland, and a veteran of the Crimean war. At the close of the war he came to Canada and lived in this section ever since. Following the occupation of a farmer, he was unmarried and had no relatives in this country.

Caused Great Excitement.

There was the liveliest kind of a time in King street, shortly before three o'clock, this afternoon, when two dogs got mixed up in a fight to a finish. About one hundred people were attracted to the scene, and the battle waged for some time. Several men tried to separate the canines, but as soon as they were driven apart they could go at it again. After a time, the dogs were separated, and the excitement was over.

CALLED FOR ACTION

WHY UNITED STATES ARMY WAS MOBILIZED.

President Taft Takes Senators Into His Confidence—Internal Conditions Demanded It.

Washington, March 29.—President Taft, yesterday, revealed the real significance of the Texas "manoeuvres" before four republican senators of the committee on foreign relations. The information the president gave to the senators had nothing to do with "war games," but consisted of reports on the internal condition of Mexico. This information was of so convincing a character that the four senators before leaving expressed their opinion to the president that he had taken a wise precautionary step in sending an army within striking distance of the border.

The senators who visited the White House by the president's invitation were Mr. Cullum, chairman of the committee; Mr. Clark, of Wyoming; Mr. Lodge, of Massachusetts, and John Alden Smith, of Michigan.

Once they were within his office the president talked to them plainly and convinced them of the correctness of his deductions.

The most striking indication of the nature of the report presented to the senators by the president is the fact that Senator Smith permitted himself to be quoted to the extent that in view of what he has learned of affairs in Mexico he now considers it well that congress will be sitting throughout the spring, regardless of the Canadian reciprocity legislation.

To those who have followed the discussion of Mexican matters here this expression from Mr. Smith can only mean that circumstances may arise when the president will have to appeal to congress for authority to act—and that could scarcely mean anything else than authority to send the troops over the border.

It can be stated that reports that have been received at the state department lately do not show a rosier state of affairs in Mexico. There are reports indicate that there is widespread unrest to the south that might easily develop into a state of anarchy.

President Taft has no intention of submitting American lives and property to the risk of sweeping destruction without the protection of a large body of troops in an advantageous position.

The president's move in calling leading senators into consultation is regarded as forestalling the expected attacks on the Mexican policy once congress is assembled. That such an attack will be made is inevitable.

A BASEBALL INJURY

To Wolfe Island Player Results in Operation.

Wolfe Island, March 28.—Casey Bros. sold a fine horse to a Pittsburg farmer recently. William Allison purchased a fine horse from D. Watts last week. Hiram Davis, Jr., who has been in Watertown, for the past two months, engaged in electrical work, has returned home.

Richard Moore is the owner of a Holstein cow that gave birth to a heifer calf, which weighed 120 pounds, after birth. Mr. Smith, Westbrook, is moving some buildings in the village.

Daniel Dee, a young and prominent baseball player of the island, is in the Hotel Dieu, Kingston, suffering from a growth in his side, caused from playing last summer. The operation was very successful.

Born to Mr. and Mrs. H. Dawson, a daughter, William Keys is taking up residence in the village. The American channel is getting bad. The passengers are conveyed across in ice punts.

Mrs. Patrick Kelley has sold her house and lot in the village to Robert Pustard and has gone to live with her son, Edward, in Watertown.

It is reported that the Smith Bros. have fallen heirs to a legacy left by a rich uncle in the south. John Hall will shortly move on to Henry Hinkley's farm. Mrs. Grant Pyke and Miss Gladys Abbott have returned home from Picton, after spending a few days.

John McDonald went to the Hotel Dieu, suffering from blood-poison in his hand. The mumps are prevalent on the island. George Boyd has purchased the farm formerly owned by his late uncle, Robert Boyd. Thomas Curk, who has been ill, is able to be around again. Miss Kate Conley, visiting in Brownville and Watertown, has returned home. Lacey Bros. have purchased the farm formerly owned by Gregory Keegan. W. G. Woodman is moving some buildings in front of George Keys' property, in the village down on the end of the wharf for coal storage.

Alfred Bennett, a chef from Rochester, N.Y., visiting on the island for some time, is just about to leave for his summer's work. Montreal, being his birthday, the village sporting club boys entertained him to a grand supper in Lloyd Card's club room. George Whitmarsh and Ernest Crawford gave several toasts and Henry Davis furnished excellent music throughout the evening. William Cummins kept the boys in laughter with his jokes.

Not So Strong for Appeal.

Toronto Star. For weeks the opponents of reciprocity have been demanding an immediate appeal to the country. Now they have got it into their heads that there will be such an appeal, and the Mail and Empire promptly denounces the outrage. "If federal election should come the only reason for it will be the desire of the Ottawa politicians to get a snap verdict in favor of the reciprocity law, together with the chance to make another bargain. The feeling of the country in opposition to the scheme is growing stronger and stronger every day. The government may feel that it will be dangerous to wait until the regular time for the holding of a contest."

EXPRESS RATES ON ICE CREAM

Shippers Complain of Charges for Return of Empty Cans.

Ottawa, March 29.—Is ice cream a food, a luxury, or trash? This interesting question came up before the railway commission in connection with a complaint brought by dairy interests against the new express tariff on ice cream just put into effect. Companies charge ten cents for the return of empty cans. It is now contended that the company, by wagons and motors, were carrying 600 cans a day, and that it was not costing them ten cents for the return and delivery of every can.

Ginger ales and aerated waters went under another classification at a much cheaper rate. "Those things are trash, while ice cream is valuable material," vociferously said Assistant Chief Commissioner Scott. Argument also arose on the question of whether ice cream could be classed as a food or luxury. Judgment was reserved in the case.

CHINA'S REPLY SATISFACTORY.

Congratulatory Message is Sent to Peking.

St. Petersburg, March 29.—Russia has accepted China's reply to her recent ultimatum as satisfactory and a congratulatory message has been sent in the czar's name to the Russian minister at Peking. The despatch expresses his majesty's satisfaction over the fact that China has confirmed the legality of Russia's position and directs the minister to tell "the government of Bogdy Kann that Russia is convinced that it will regard the treaty provisions as inviolable and the present settlement will further strengthen the ancient bond of amity between Russia and China."

Offer of a Park.

Montreal, March 29.—An offer of a parcel of land, covering five and a half million square feet, and assessed at ten cents a foot, a total value of \$50,000, was made to the city on the condition that the property be transformed into a park. Members of the board of control state that this is one of the most generous and surprising offers ever made to Montreal.

The letter making the offer came from the Trust and Loan company, of Canada.

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes:

"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many diseases that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."
