SUIT SATISFACTION.
Having Clothes made to order is the only rational way of getting clothes. You all YOU and not the other fellow, and a tailor can give you just what your size calls for and a style and personality suited to yourself. Besides it is generally admitted that there is more satisfactory wear in properly tailored garments. The price need not be excessively high if you go to

THE REASONS GIVEN

FOR EXPLORATION SYNDICATES REMOVAL

To Collins' Bay—The City Council's Fatal Delay in Going on With the Bridge Improvements.

The following is the letter written to Mayor Graham by J. B. Hanna, President of the Ontario Exploration Syndicate, regarding its decision to remove to Collins Bay, and which caused the withdrawal of the bridge by-law from the vote of the people to-day.

His Worship the Mayor of the City of Kingston: Dear Sir,—I have been shown a letter from Mr. McIntyre, city solicitor, to J. M. Farrell, barrister, acting in our interests, requesting that we at once forward executed the new contract, which I have not yet seen, but which I understand was forwarded to our New York office, and in addition to have the cheques, one for \$4,000 and one for \$10,000, handed to the city. I presume they are at the New York office, as I understand they were sent there. It will require a meeting of our board of directors to take proper action upon them, and our board meeting in its regular order will not be called till the latter part of the month. I would be unable at this time to give you their answer. Our directors are somewhat scattered, and it is very difficult to call a meeting of our board out of its usual turn. As soon as this matter has been presented to our directors I will take pleasure in informing you, probably through Mr. Farrell, of the result of their action.

Going back to the fore part of December, 1910, when we first came to Kingston and desired to secure sufficient real estate upon which to place our dock, it was found upon careful examination of your water-front that no location could be had without going to your inner harbor, which would necessitate considerable dredging and the enlargement of the draw-bridge as at present located. We were assured that these two objects could be accomplished, and were led to believe that they would be pushed with reasonable energy, so that we could formulate and complete our plans for the mill and dock, and that our contracts might be ready for the opening of navigation in 1911. As it takes about three months to construct a mill of this character, we have been insisting upon each of our trips, which has been several times a month since the fore part of last December, and have constantly placed the necessity on our part, and constantly kept before you the necessity for prompt action. We have large bodies of ore to the north of you and Kingston is a natural outlet for shipment of these ores on the lakes, and we desired to locate these plants here in Kingston. They would have given employment to a large number of men, and we have tried to get your city government ever since, spending the whole winter, to make certain municipal improvements, purely municipal in character, so that the harbor could be used, not only by ourselves, but by everybody else who cared to. This then was an improvement of a general nature, and clearly one for the city to undertake. About a month since we were told that it would probably take until May 1st, 1912, to make an opening in the draw-bridge, so that vessels of larger tonnage could pass through it. We promptly notified you that this would not answer our purpose, as it would force upon the loss of an entire season in shipping our ore, and we did not see any necessity for such time to be taken in the enlargement, which was of such a small character, and our company promptly agreed to donate \$4,000 towards such expense, provided work should be pushed and the matter finished this spring.

Then the city government advanced the theory that nothing should be done and this improvement should be made and the dock and mill were then begun out of pocket by making the enlargement of the draw-bridge. We then came forward and agreed to deposit our cheque for \$10,000, which we agreed to forfeit to the city of Kingston in addition to the donation of \$4,000 for the bridge if we did not construct a mill and dock whose total value should be at least \$40,000. This was finally all put into a contract, and I came to Kingston. The contract was presented to me and I was told that your city alderman, in a regular session of their body, had authorized the city of Kingston to enter into this contract, and had further instructed your honor and the city clerk to execute it and put it in force as soon as our corporation, the Exploration Syndicate of Ontario, limited, properly executed the contract on their part. I, therefore, signed the contract as president of our Exploration Syndicate of Ontario, limited, and sent the document to New York where it was executed by our secretary, our seal placed upon it, and the same sent back to our

barrister, J. M. Farrell, accompanied by one cheque of \$4,000 to the city of Kingston and another cheque of \$10,000 to the city of Kingston, all under date of February 21st last.

Upon receipt of these cheques and the contract signed by the syndicate, Mr. Farrell at once called upon you as mayor, informed you that he had these cheques and the contract executed, and was ready to turn the contract and cheques over to you, upon behalf of the city of Kingston, as soon as you executed it, and he urged you to sign this contract and have the city clerk sign it. For some reason best known to yourself and city officials you refused to sign this contract and Mr. Farrell put the cheques back in his pocket. I returned to Kingston several weeks later, supposing our contract to be fully executed, and in force; and after I had signed it and after our cheques had come here I treated the contract as a closed one, and directed our engineering force to start driving the piles, which would be necessary for our dock. Upon returning to Kingston several weeks later you very kindly called together your finance committee of your city council and said the reason you had not executed the contract was that the draw-bridge was going to cost more than you had first thought it would.

It seems to the writer that the proper time to have found out the cost of this bridge on the part of the city was before the contract was made, rather than afterwards, and it seems after an investigation and figuring the contract for the draw of the size in width to admit of one team using it at a time and the use of spiling in part, instead of all masonry that the actual cost of the bridge was then reduced to the price which it had been estimated for. I again appeared before yourself and the finance committee and requested that this contract be closed, so that we could go forward in the letting of our contracts which had been held back for over two months by the delays on the part of your city. After this meeting we were informed that it had been decided to make a new contract with us and to submit a by-law to your people in Kingston to vote upon. I have not seen this contract, but I understand that you do not agree to make these improvements unless it is voted by a majority of the people of Kingston so to do. This creates two uncertainties in the situation; one as to whether you can carry this by-law by a vote of the people; the other, and I am sorry to say it is whether you will then carry out the second contract after you have made it in view of your refusal to carry out the first contract.

Under the above, which is a statement of facts covering our negotiations with your city, I see very little encouragement for us to jeopardize our interests and our entire lake shipping by continually waiting and the big put off from time to time with nothing definite before us to act upon.

I have said to your worship on several occasions, which you will recall, that while Kingston was a natural outlet for these ores, and we desired to construct our plants here, and were working industriously to find a location which we could make use of ourselves as business men, and that if Kingston continued procrastinating we would have to look elsewhere for the accommodations which were necessary to meet our situation—I am, very truly yours, Exploration Syndicate of Ontario, Limited, (signed), J. B. Hanna, President.

Show at Orpheum.

Both bills at the Orpheum Theatre for the first part of the week are side-splitters, and drew forth many hearty laughs from the audience. Laura Brand, the premier lady humorist in song, dance and monologue, was heartily appreciated, and gave some sound advice to the ladies as well as the men. The Meyeno duo, in their screaming farce, "Captain Kibbling," were decidedly funny. Their clever monologue and jokes made a hit, mixed in to flavor the whole, was much appreciated. Arthur Lynn sang, by request, "She Wore a Wreath of Roses." Several fine reels of pictures were shown.

Performance Repeated.

Last evening the Y.M.C.A. gymnasium was again packed at the second exhibition of the Collegiate Institute pupils, the programme of Friday evening being repeated. The second-year pupils are doing fine work under the able guidance of A. G. Palmer. This was the first exhibition given by the pupils since the new gymnasium was erected. The pyramids were very fine. The pupils expect to give another exhibition in the near future.

Examination Results.

Queen's students may have the Whig containing the examination results, mailed to their address anywhere in the United States or Canada, by leaving their order at the Whig office. Rate, 3c. each, including postage anywhere. To make sure of getting a copy you should order now.

Ice Crossing on May 3rd.

On May 3rd 1839, there was crossing between Kingston and Wolfe Island with double sleighs. The spring season was decidedly late in opening. It can scarcely be hoped that this season will be the equal of that over seventy years ago.

Bible Class Met.

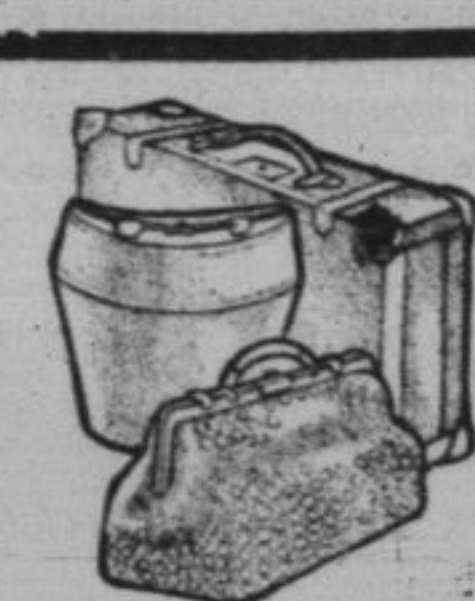

The Y.M.C.A. Bible class met, as usual in the parlors, last evening. A goodly number of the young men of the institution were present, and after a very excellent supper, listened for a few minutes to Robert Meek address the boys on "The Man Who Dares."

To Christen the Polana.

Miss Helen Hale, the twelve-year-old daughter of Capt. Hale, of the marine department, Ottawa, was to christen the quarantine steamer Polana, which was to be launched into the Kingston dry dock this afternoon.

ABERNETHY'S

THE SPORT REVIEW

A SUNDAY SCHOOL ATHLETIC ASSOCIATION

To be Formed on Thursday Evening—Leo Millan May Play Baseball With the Victorias—Notes on Sports.

The executive of the Sunday School Baseball and Basketball Leagues and representatives from the Sunday schools, who had teams entered in those leagues, will meet in the Y.M.C.A. parlors, Thursday evening, to talk over the proposed scheme of organizing a Sunday School Athletic Association, embracing all kinds of clean and legitimate sport. The idea was broached at the recent Sunday school basketball banquet, and was heartily endorsed and supported. Not only will the meeting be held for the purpose of organizing the athletic association, but the baseball league will be put in motion. There are a number of changes to be made in the constitution of the league if it is to be carried to a successful issue this year, and a general discussion will be invited. The executive of both leagues would like all Sunday schools interested to send representatives.

Will Call a Meeting.
Stanley Trotter has called a meeting of the boys and young men of Sydney Street Methodist Sunday school for seven o'clock Wednesday evening, for the purpose of getting their views on the formation of a Sunday School Athletic Association, and finding out how many teams and in what sports they want to enter. He will then be able to report at the meeting, Thursday evening, just what his Sunday school is prepared to do.

Millan May Change Uniform.
It was commonly reported, to-day, that Manager Trotter had annexed Leo Millan, the crack wing man of the Frontenacs, and third baseman last year for the Irishmen, to his new senior team, "White Sox." Millan is just as good on the diamond as on the ice, and if Manager Trotter secures him it will strengthen the team considerably. This will mean another rapture for the Irishmen.

Wrestling Champion.
Raymond Hutton, who left Kingston for Winnipeg, in the summer of 1909, is now amateur featherweight champion wrestler of Canada. After being some time in Winnipeg, he joined the Winnipeg Amateur Athletic Club, and under its name, wrestled in the dominion championships held in that city on the 8th and 9th of April, 1910, winning the title, with gold medal of

leatherweight amateur championship of Canada, and is the holder at the present time. During the past winter he has showed wonderfully good form and cleverness, and was in excellent condition for the Manitoba championships in March, until five days before the date. While training he had four ribs injured and was unable to compete, and will be unable to defend his title in Toronto the middle of this month.

Louise School Won.
The first game of the Public School Basketball League was played in the Y.M.C.A. gymnasium, Monday afternoon, and the victory was justly earned by Louise school, they defeating the boys from the collegiate by the score of 29 to 20. The teams were very evenly matched, the half time score being 11 to 10 in favor of the collegiate.

Collegiate—Defence, Goodearle and Minnes; centre, Mills; forwards, Williams and McGillivray.
Louise School—Defence, Toland and McKenzie; centre, Booth; forwards, Evans and Barnum.

All Kinds of Sports.
Langford and McVey made a draw of their twenty-round pugilistic bout in Paris.
The Montreal Rugby Club lost \$70.41 last season. E. B. Savage is this year's president.
Moose Jaw has lost its old grounds, and will drop out of the Western Canada Baseball League.
The Indiana bill legalizing Sunday baseball has been upheld by the supreme court of that state.
Vancouver enthusiasts are afraid that the eastern lacrosse importations may be no better than last year's failures.

AT THE POLICE COURT.
Two Drunks in the Line-up on Tuesday Morning.
Police court business has not been very heavy so far this week. There were only two drunks, in the line-up, on Tuesday morning.

"Yes," guess that's so," said the first, when arraigned before the magistrate. He could not account for his over-indulgence.
"Why, I worked up till noon, yesterday," he said in surprise, "then I went to the barber shop and I do not know what happened after that."
"Certainly looks bad for the barber," said the magistrate, and the accused smiled. He was taxed \$1 and costs or ten days.

The other man, a cripple, came from Belleville, yesterday, but said his home was in Kingston. He admitted he had taken a few drinks, but declared he was not drunk.
Late last night he was endeavoring to get into an hospital. In order to get rid of him, a local doctor gave the fellow a "fake" admittance card to the general hospital. Thus he could not be admitted at the hospital, and he did not take to it very well, when he was told he could not be taken into the hospital. Constables Downey and Arnel were called, and he was removed to the cells.

PORTSMOUTH COUNCIL.
A Satisfactory Report Received from Deputations.

The regular meeting of the Portsmouth council was held, Monday evening. Those present were: Reeve Baiden, Councillors Kennedy, Forsythe, and Halliday.
Accounts amounting to \$53 were passed.
The clerk read the report of the deputation sent to Ottawa, to interview the minister of justice, which was very satisfactory. The expenses of the deputation were about \$33.
A motion was passed, thanking the Hon. Sir Alan Aylesworth, for the interview granted the representatives of the village, also thanking Hon. William Harty for his courtesy.

Address Lenten Meeting.
Rev. J. O. Crisp, M.A., of St. John's church, Portsmouth, will address the men of St. Luke's church in St. Luke's hall, this evening, on the subject of "Duty." This will probably be the last meeting as it is not expected that Dr. R. V. Rogers will be able to be present next Tuesday evening.

Coal Season Heavy.
The late spring has caused a rupture in the plans of the coal merchants. They did not expect the season to last so long and as a consequence some of them have run out of stock. One well-known firm stated this morning that they had sold 1,300 tons more this season than an ordinary one.

HELP THE SUFFERING.
A Call for the Kindly Help of Canadians.

The China Famine Relief Committee, of which S. J. Moore, 445 King street west, is treasurer, is urgently asking contributions from Canadians. The Whig is advised that conditions in China are appalling. The harvest was all destroyed by the terrible flood, and no food can be had from the soil until June or later. Many villages were entirely swept away and the people left homeless and in dire distress. Multitudes gather together in great camps; those who are strong enough wander over the hills, palling up roots of weeds for fuel in cooking the pittance of rice they may receive from the relief agencies. The suffering is terrible. Thousands of tottering babies, boys and girls clad in rags—if clad at all—are about everywhere; old men and women hobble about leaning on sticks for support, or lie by the wayside, their eyes staring up in mute appeal. Many thousands have perished, and it is estimated that over a million will die unless help is immediately sent.

CHAPS and roughness of the skin are relieved by the use of Santol Pure Cold Cream. As a massage it cleans when soap will not. Applied before putting the hands into grease, or things that soil, it protects. It is antiseptically pure and snow white in color. Look for the turquoise blue jar.
