Dandruff is Caused by a Germ That Saps the Hair's Vitality.

It is now a settled fact that dandruff is caused by a germ. Falling hair and baldness are the result of dandruff. Dr. E. J. Beardsley, of Chicago, Ill., got hold of the germ hair preparation, Newbro's Herpicide—the only one that kills the dandruff germ. He says: "I used Herpicide for my dandruff and falling hair, and I am well satisfied with the result." Dr. J. T. Fugate, of Urbana, Ill., says: "I have used Herpicide for dandruff with excellent results. I shall prescribe it in my practice." Herpicide kills the dandruff germ. Physicians as well as the general public say so.

"THE PRIVATE SECRETARY" Will be the Feature at the Grand To-night. Two and a half decades have passed since "The Private Secretary" came from England and got America agog. The comedy was then the vogue for five years and made for the author, stars and various producers over a million dollars. The comedy has now been revived in England, and D. A. Bonta has secured the rights. For this comedy, the play has no special period, hence it will be as acceptable to-day as it was a generation ago. Mr. Bonta has engaged a company of players who have mostly been in the English castles. The play will be presented at the Grand To-night, and will doubtless attract the attention of the lovers of real legitimate comedy.

came to the Grand Opera House, on Tuesday night, April 11th. He will be seen in a new edition of "The Joy Rider." It is said to be a rollicking musical satire on the same lines as all of the Sidney shows, but with distinct novelty as the reigning features. The scenery is all new, and the costumes were made from the latest designs, and most expensive fabrics. The cast embraces some of the most prominent and pleasing comedians including Miss Carrie Webber, who is well known to theatregoers.

PAPER BOX FACTORY THE WONDERFUL KINGSTON HAS A WELL EQUIPPED INDUSTRY.

Whig Paid a Visit to a Busy Establishment on King Street West—D. M. Towley, of Toronto, is the New Superintendent—High-class Goods are Being Turned Out.

In the Kingston box factory, situated on King street west, which was recently taken over by W. R. Hewton, the city has one of the best-equipped establishments, for that kind of work, in Eastern Ontario.

A representative of the Whig had an opportunity of being shown through the factory, this week, and was delighted to see that Kingston had such a fine industry.

At the present time, the factory is giving employment to twenty-five hands, and if the present outlook is to be taken as a criterion, then the future success of the industry is assured. Since the factory was opened, it has doubled its capacity, and the present rush of orders speaks for the class of goods which this firm is turning out. Kingston certainly has the goods, when it comes to work, in the line of turning out boxes, of all kinds, and of all sizes and description. The firm has the means of turning out every kind of box imaginable, and there is no need for to go to an outside place, to have work done. Everyone will be doing well, to patronize this home industry.

D. M. Towley is the new superintendent, who has just taken charge. He comes from Toronto, and has had many years of experience in the work. To use an old saying, he is the right man in the right place. The firm has the goods, has the man who can turn them out, and with the competent staff, which the company employs, there is nothing lacking. In connection with the appointment of Mr. Towley, it might be stated that he is the inventor of Towley's collapsible millinery and suit boxes, which, at the present time, are being used from coast to coast, and which have given a world of satisfaction.

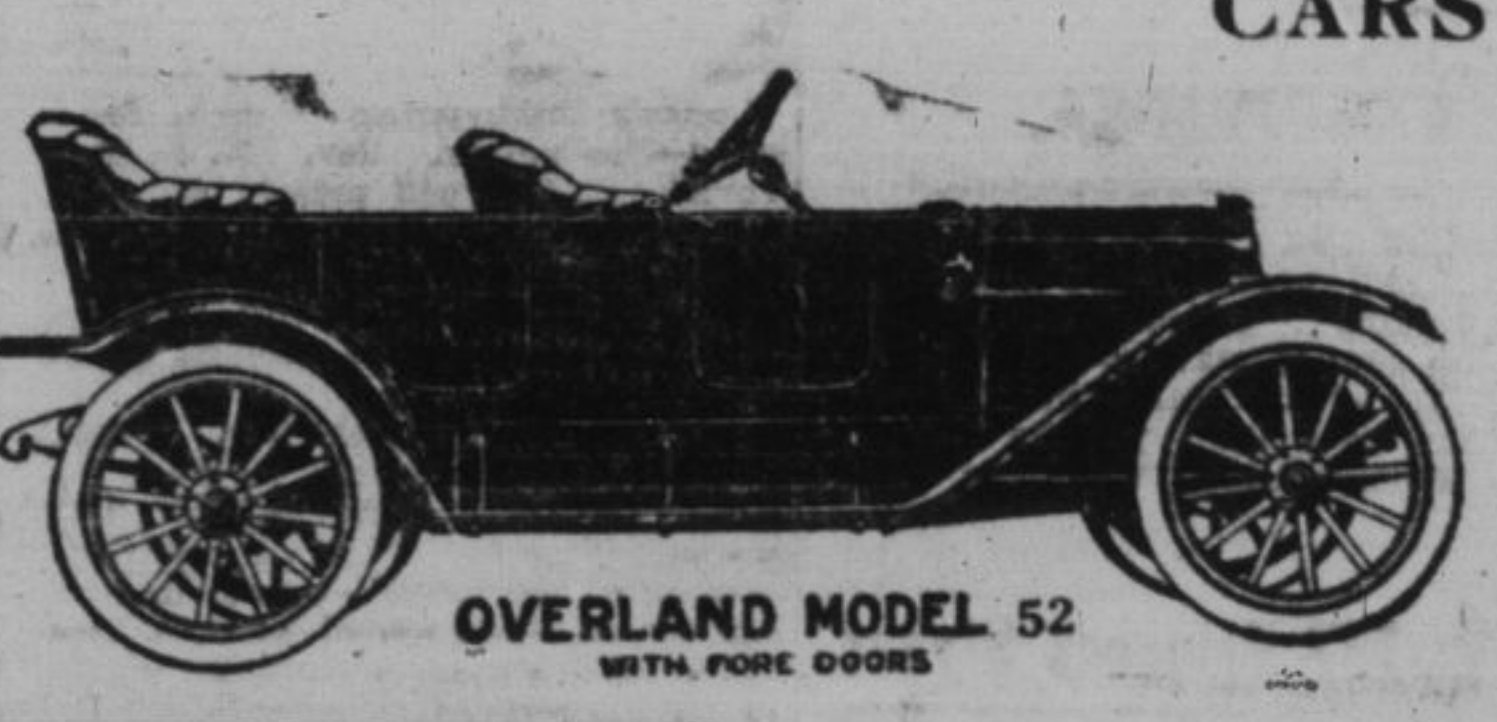

Mr. Towley has a patent on these boxes, which he is now turning out at the Kingston factory, and there is sure to be a big demand for them. About a few days ago, the company received a new machine, which is to be used for the folding of the boxes. Several new machines have been added, so that the plant, as it now stands, is up-to-date in every respect.

Just a word as to the prices. The Whig made investigation, and found that the prices were O.K., that is, they are well in keeping with the class of goods the company is turning out. The company will be only too pleased to quote rates, and to have a call from anyone interested. The plant is also open for inspection.

With such a fine equipment, and with such good management, the Kingston paper box factory is a plant that is sure to be heard from, in the expansion line. It is a home industry which is deserving of every support, and the Whig wishes it every success.

Demonstrations will be given by appointment from 8 o'clock a.m. to 3 o'clock p.m., any week day. Don't delay, if you contemplate buying get your order in and avoid losing the best of the driving season, as only cars ordered now will get prompt delivery.
