A PLEASED CUSTOMER IS OUR BEST ADVERTISEMENT. We try to please by selling good cloth. We know all about woolsen cloths, and buy only what we think will wear well, so whether you pay \$20.00 or \$28.00 for your Suit you get satisfactory wear. We try to please by giving good style and honest workmanship. We recognize that unless you have a good cut with lining and sewing that will wear well the good cloth will not have much value. We try to please by asking reasonable prices. For every dollar you pay us we give you one hundred cents worth of good value.

**Thos. Lambert, 157 Princess Street**

**High Class Millinery**

**There Is No Reason**

Why you should not have one of the prettiest trimmed Hats in the city. We have them here at the most reasonable prices. "Yes," hundreds of them, and no two alike in the lot, from our unequalled stock of shapes, flowers, feathers, ribbons, ornaments and all the novel trimming materials our experienced trimmers can make them in such variety.

If you are an intending purchaser it is worth your while to see our stock.

EVERY WOMAN SHOULD READ THIS LETTER ABOUT

**St. Lawrence Sugar**

Laboratory of Provincial Government Analyst.

MONTREAL, 22nd February, 1909.

I HEREBY CERTIFY that I have drawn by my own hand ten samples of the St. Lawrence Sugar Refining Co's EXTRA STANDARD GRANULATED SUGAR, indiscriminately taken from four lots of about 150 barrels each and six lots of about 450 bags each. I have analyzed same and find them uniformly to contain 99.99/100 to 100 per cent of pure cane sugar, with no impurities whatever.

(Signed) MILTON L. HERSEY, M.Sc. L.L.D., Provincial Government Analyst.

The St. Lawrence Sugar Refining Co. Limited  
MONTREAL.

**THE SPORT REVIEW A MUSICAL EVENT**

SCHEDULE OF MERCANTILE IN SYDENHAM STREET METHODIST CHURCH.

Will be Drawn up by President McFedrigg—Queal Beat Shrub in Ten-mile Race.

The executive of the Mercantile Baseball League met, last evening, for the purpose of drawing up the schedule for the coming season. After some discussion it was finally left to the president, William McFedrigg, to draw up. There will be eight teams in the league again this year, the Locomotives taking the place of the Richards, who dropped out. The teams will be in one group, this season, instead of two, as was the case last year. With all the teams in one group, they will be on an equal footing. The first game will be played on June 1st, and the schedule will end Labor day.

**Was No Meeting.**  
There was to have been a meeting in Princess Street Methodist church, last evening, for the purpose of forming an athletic association. The announcement was not properly made, so the meeting was not held. One has been called for Friday evening.

**"Chaucer" Has Some Players.**  
Montreal Star.  
When "Chaucer" Elliott leaves Montreal for good to take up his managerial duties with the St. Thomas Professional Ball Club, he will take with him some of the brightest semi-pro players from the east. These men were not only fitted for the smaller leagues here, but in some cases have bright prospects amongst the senior ball league. "Chaucer," it is said, got hold of these players through his friendship with "Joe" Page.

**Queal Beat Shrub.**  
At New York, William Queal, of Alexandria Bay, N.Y., defeated Alfred Shrub, of England, holder of the world's running record for ten miles, in a fast ten mile indoor race at the 12th Regiment armory. No records were broken. The time was 51:55. Queal made a terrific start at the beginning of the eighth lap of the last mile, and finished twenty yards ahead. The first mile was reeled off in 4:40. The record time for ten miles, as held by Shrub, is 50:40.

**Brantford Walking Race.**  
The Brantford Expositor will hold its annual walking race between Brantford and Paris, over a fifteen-mile course, on May 24th. This year the race will be open to amateur walkers of Canada, having been confined last year to the adjacent four counties. An array of valuable trophies and bronze medals will be put up for the winners of the race, which will be conducted under C.A.A.U. sanction. Entry blanks can be secured from H. L. Walsh, sporting editor, Brantford Expositor.

**City Baseball League Position.**  
Bernard J. Tierney, president of the city baseball league, writes the matter of the entrance of the Athletics to senior ranks our most careful and due consideration, judging it from all points of view, and we have been of the opinion that at the present time there are enough teams in the senior series of the league. We trust that the baseball-loving public of Kingston will show the same confidence in those who have been chosen to run the affairs of the league this season as they have done in the past, and with their aid we hope to silence our carping critics.

**Will Get Out a Paper.**  
The Epworth League of Sydenham street Methodist church, which meets this evening, has a novel method of procedure in progress. The league intends publishing a newspaper in writing only. One member will have charge of the editorials, one of the telegraphic stuff, another local, and advertisements, etc.

**Hold Early Canoe Record.**  
"Irish" Day and Harold Singleton claim to have the supremacy in early canoeing this spring. They were out canoeing on the harbor on Good Friday. They were in their jerseys and said the weather was fine.

**To Prevent the Grip.**  
Laxative Bromo Quinine removes the cause. There is only one "Bromo Quinine." Look for signature of E. W. Groves, 25c.

**Snow Monday Afternoon.**  
Snow to the depth of one-quarter of an inch, fell Monday afternoon. For some time it looked as though there was going to be another blizzard, but the wind blew only for a short time.

**IN MARINE CIRCLES**

PIERREPOINT MADE TRIP TO CAPE VINCENT.

Veteran Ice Breaker Succeeded in Opening Line on Monday Afternoon—Work Commenced on the Steamer Sharples—Marine Notes of Interest.

Captain Reid, of the Baker & Reid Wrecking Co., is now at the steamer Sharples, on Galloup Island, to wreck the stranded vessel. It is believed among Oswego mariners that the boat will not be damaged very much about the hull as the heavy coating of ice which formed during the winter months protected it from the severity of the waves. The upper portion of the boat is a mass of ruins, according to reports, her cabins being washed away, as was her smoke stack.

The officers of the steamer St. Lawrence have been announced as follows: Master, Capt. D. H. Kmdal; first mate, G. H. Brown; second mate, D. E. Grandee; quartermasters, John Cree and Richard Grandee; chief engineer, Barney Farrell. Work fitting out the steamer will begin May 1st and will start on her regular trips on June 1st.

A new and direct rail and water route between central New York and Toronto is proposed by the Beebe syndicate. A new company called the Buffalo, Lockport and Rochester Transit company has been formed and has purchased a large steel steamer that is to run between Olean, on the American shore, and Toronto. This is an independent company but traffic arrangements have been made with it by the Beebe syndicate which will connect with the boat via the Buffalo, Lockport and Rochester railway and the Buffalo, Rochester and Eastern.

These are busy days in marine circles now. In the course of a few days everything will be running full swing.

Yesterday, a large number of mariners reached the city and went on their vessels, which have been laid up here all winter. Quite a number have left for outside places to go on their boats. There is always a great deal of work to be done just at the last moment, as it were. Provisions have to be ordered, and orders have to be given for different material and supplies needed on the trip, which cannot be secured until just before the time scheduled for the used to go.

The water front certainly presents a very busy scene. All is activity and all because the marine season has opened. All day yesterday groups of mariners were to be seen on the street corners renewing acquaintances, for it must be remembered that a great many of them do not see one another from the time their vessels are laid up in the fall, until the opening up of navigation again in the spring.

The government quarantine boat Polana, being built at the Kingston dry dock, will be finished on May 7th. The engine is at the station now and will be installed as soon as possible. Everything is going along fine, and, barring accidents, the boat will be finished on scheduled time.

The Montreal Transportation company's tug Emerson is in the Kingston dry dock for repairs.

The government boat Speedy is in the Kingston dry dock and other repairs made.

The government boat Scout is at the Kingston dry dock charging the gas buoys and painting them. When they are charged and painted she will drop them in their respective places.

The steamer City of Hamilton, at the Kingston dry dock, slip, is undergoing extensive repairs. A large number of men are engaged working on her.

William Harris, late of the Congress hotel, will be steward on the steamer City of Ottawa this season.

That veteran ice-breaker, the steamer Pierrepoint, succeeded in getting through the ice, on Monday afternoon, and reached Cape Vincent. As a result, the route to Cape Vincent has been officially opened.

The Pierrepoint stayed over night in the Cape, arriving back in Kingston at noon to-day, and was then able to leave again for the Cape on schedule time. The Pierrepoint will keep on this route until the new steamer, the Newboy, is brought down from Duluth. The repairs have not yet been completed on the latter vessel.

Owing to an ice jam at Port Colborne, the Welland canal has been of no service, as yet.

The steamer Sowards cleared for Oswego, to load coal, for Oswego.

Capt. John Fleming, Newboro, is here to commence his duties with the
