IN LABOR CIRCLES

THOMAS H. FLEMING LEAVING FOR THE WEST.

Resigns as Agent Sailors' Union and Financial Secretary of Trades and Labor Council—Business Before Council.

Thomas H. Fleming, who for the past six years has acted as agent for the sailors' union, in this city, and also financial secretary for the trades and labor council, has tendered his resignation. He is leaving on Monday for Saskatoon, where he has taken another position.

Mr. Fleming has been a leading member in local marine circles, and will be much missed by the labor men. The announcement that Mr. Fleming was leaving came as a great surprise to his many friends, although it was known to some of his near friends that he had his eye on the great west, which is attracting so

many people these days. Mr. Fleming was well liked by the many who had the pleasure of his acquaintance, and while all his friends are very sorry to see him leave the city they wish him the best of success in his new work.

Mr. Fleming's resignation came before the trades and labor council at the regular meeting on Thursday night, and it was accepted with keen regret, as Mr. Fleming, during his term of office, has able handled the business which came before him, and has been a good worker in everything that he has undertaken.

The members, while expressing their regret at his leaving, also tendered him a vote of thanks for his work during the term he has acted as financial secretary.

George Lewis will act as financial secretary until an appointment is made. The position of sailors' agent will likely be filled by a man from the states, sent here from headquarters of the sailors' union across the border.

William Buck, the president, occupied the chair at the meeting.

A request was received from the "white rats" actors' union asking for financial assistance for organization. The letter was filed.

Similar action was taken on the communication from the carpet weavers, of Toronto, for assistance, while they are out on strike.

William Driscoll was appointed a delegate from the council to attend the annual convention of the Labor Education association to be held at Guelph on May 24th.

There will be a meeting of the Mercantile baseball league to-night.

John Connelly, attending Queen's, went to Ottawa to-day.

DENIAL BY LAURIER

That Government Indifferent to Imperial Issues.

Ottawa, April 21.—"Canada recognizes in its fullest sense the great importance of the imperial confederation. This dominion is neither indifferent nor lacking in appreciation of its value. The confederation is an advisory body with possibilities. It has already done excellent work, and I believe it is destined to do even better work in the future. Much of its strength is found in the element of personal contact in the meeting of the representatives of the component parts of the empire. It may be that in the matter of co-operation we may have gone as far as is advisable at the present time. Reading British history demonstrates that all British communities are slow to move. This is the trend of the British mind, it is the record of British institutions. There is steady progress, but it is step by step as new needs make changes imperative. And progress will go on, step by step, in the line of making for the betterment of mankind and the universal peace of the world, for the consolidation of the British empire is and will be a powerful factor for the good of the whole human race."

Such was the message of Sir Wilfrid Laurier bespeaking his ideal of the purpose and prospects of the imperial confederation, with which he concluded a brief response to the speech of Hon. Mr. Foster, in the commons.
