

YEAR 78—NO. 94

KINGSTON, ONTARIO, SATURDAY, APRIL 22, 1911

SECOND PART

MRS. JOHN HENDERSON WAS SO RUN DOWN LIFE NOT WORTH LIVING.

A Few Bottles of Peruna Restored Me to Health.

Mrs. John Henderson, 25 Overdale Ave., Montreal, Can., writes:

"I was much distressed with neuralgia and was so run down that life was not worth living. I tried a great many remedies, but all to no effect."

"I met a friend of mine, and told her of my ailment. She advised me to try her remedy, Peruna."

"Although I had no faith in Peruna, I took her advice, and am pleased to state that the neuralgia has entirely left me, and have gained so in health that I feel just like my old self again."

"I am enjoying the best of health. We have on file many thousand testimonials like the above. We can give our readers only a slight glimpse of the vast array of unolicited endorsements Dr. Hartman is receiving."

IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk.

Marvellous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases where the hair roots died, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid for it. Two sizes, 50c. and \$1. Sold only at our store, The Rexall store, G. W. Mahood.

Dandy Hammock FREE TO BOYS AND GIRLS

Here is a chance for you to get FREE a large, strong Hammock which you can hang up in the lawn, the backyard, veranda, or in your own room, and enjoy all summer long.

To boys and girls who sell 25c worth of our Overland Fruit Cakes as per ad, we will send a handsome Hammock. It is made of unusually tough fabric, having concealed pockets with handkerchiefs, and is a beauty and every boy and girl with any energy at all can get it. Our cards are a very easy sell. They are beautiful cards, of various funny cuts, and are a very easy sell. You can sell them in your own neighborhood, or you can sell them in the city. We will pay you an extra amount of 25c for each card sold. Write for the cards today. Send 25c to the Rexall store, G. W. Mahood.

Tips For Farmers

BY UNCLE JOSH.

"The direct and indirect effects of reciprocity upon dairying" are ably dealt with in the leading article in Farm and Dairy. Dr. Charles P. Low, Pictou, is the author. He points out that higher prices for dairy products prevail in the United States than in Canada. He deals with the great demand and good prices obtaining for cream, how the butter market will be affected, and argues that all favors the dairymen.

Some Class to Mamie.

Mamie B., a two-year-old black Minorca hen in the poultry yards of Charles Baxendell, of Verona boulevard, Pittsburg, is cackling very loudly and proudly these days.

Mamie B. has laid an egg which is the pride of the Baxendell coops and which has aroused much talk among poultry fanciers throughout the Pittsburg district. The egg is eight and one-half inches in circumference and has a diameter of seven and one-quarter inches. It weighs four and three-fourths ounces.

Mr. Baxendell and his assistants for some time have been experimenting with five hens in an effort to raise hens which will lay eggs weighing thirty-six ounces to the dozen and they have succeeded. When the first large eggs were found in the traps nests by the assistants they were so excited that they broke the immense ovals.

Mamie B. weighs only eight and one-half pounds, although that is rather large for a single-comb Minorca breed.

There are twenty-eight hens in the Baxendell wards. The fowls have been fed on ground green bone and "greens," obtained by sowing oats from time to time and cutting it after a few weeks growth.

Unusual success has been obtained in securing eggs which average thirty-six ounces to the dozen. For instance last Friday, twenty-eight eggs were obtained which averaged thirty-six ounces. This is an exceptionally good record when it is considered that the number of eggs averaged is four more than two dozen.

Through the west in many cities eggs are sold by weight and the local poultry man will make an effort to sell his eggs the same way.

All of the eggs have been placed under hens and a number of lousy chicks soon will be "peeping" in the Baxendell yards.

Bovine Tuberculosis.
The issue of the report of the International Commission on the control of bovine tuberculosis, is of significant interest at the present time, particularly in view of the active public demand for some definite and authoritative pronouncement in consideration of the whole situation as regards bovine tuberculosis in its relation to the welfare of the live stock industry and to its influence on public health. The economic importance of the subject has occasioned a very great deal of discussion in scientific and agricultural circles and has led to the adoption by various legislative and municipal bodies of measures for the suppression and eradication of this great scourge of domesticated animals and for the protection of the people against infection through the consumption of diseased meat or polluted milk.

It has long been felt, however, that for the North American continent a really efficient and satisfactory programme could only be arranged and undertaken with any prospect of uniform and permanent success through concerted action on the part of the governments of both the United States and Canada and only also when the legislation enacted or policy adopted was in substantial agreement with the expressed views of representative authorities of both countries.

The report referred to embodies the deliberate conclusion of just such an official and representative delegation and both farmers and the public generally are to be congratulated in having now placed before them in most concise and readable form a statement containing an epitome of the researches of the commission and of the recommendations which it has at length determined to make. The decisions which have been reached are eminently conservative in their nature and for this reason, if for no other, they will exercise a much stronger appeal than would otherwise be possible, particularly in the case of those who may for any reason be prejudiced against legislative interference. The prevalence of the disease and the consequent loss to the breeders, as well as the now acknowledged danger to public health are not minimized but gravely acknowledged and seriously considered.

rearing healthy herds by protecting the young from contagion of any sort. A sufficient explanation is given of the methods advocated and in order to safeguard the interests of those now possessing clean herds and of those making an honest effort to establish such herds, stringent precautionary measures are recommended regarding the shipment, sale and interchange of stock. The policy as presented is in every way reasonable and cannot but commend itself to any fair-thinking man.

It is unnecessary to enter into a further discussion of the details of the report of the commission, as a copy may be easily obtained by any reader. The fact that this report is likely to form the basis of a new policy shortly to be adopted by the department of agriculture at Ottawa should give its contents a special interest for Canadian owners of cattle and swine.

The time is evidently ripe for such a departure and the minister's hands will, no doubt, be strengthened by the steadily growing sentiment on the part of the public in favor of such a definite policy is announced, a careful study of this publication should be made by every farmer and breeder in the country. Whether or not it may be to his advantage to lay his plans forthwith, in accordance with the proposed scheme as therein outlined, will remain for him to decide, but the information which the report contains is of immediate practical value, and should not be neglected. It may be obtained by addressing the veterinary director general, department of agriculture, Ottawa, Ont.

Interesting Facts.

More Jerseys have been registered in the United States than any other breed, says Hoard's Dairyman. The Holstein stands next. In recent years the Holstein has grown rapidly and has become one of the largest associations of its kind in the United States.

Roderick Mackenzie, secretary of the Manitoba Grain Growers' Association, is considerable a farmer. He has 900 acres located near Brandon, all in one block. He has eighteen horses all told, and in summer he works three-fourth teams. He owns forty head of cattle, sixteen of them milkers, and a quarter of his home dairy sells in Brandon at 35c. per lb. He operates two binders and of late years his average grain crop, in all lines, has aggregated about 10,000 bushels. His general rotation is two of wheat, one each of oats and barley, and then summer fallow.

At the Nebraska Experimental Station some years ago it was found, says Farm Stock and Home, that in throwing down hay for cattle, a considerable quantity of alfalfa leaves were left on the floor of the mow. These were fed to pigs and it was proved by actual demonstration that these, mixed with ground barley or corn meal were about equal to wheat shorts. Alfalfa leaves are also one of the very best feeds for poultry.

A small fruit plantation makes an admirable run for poultry. Fowls not only help to fertilize the ground, but they do a great deal in keeping down weeds, and in the destruction of insect enemies as well.

The Acadia Farms of Dutchess county, N.Y., embrace 1,800 acres and a motor truck is used for the heavy hauling on the estate. This truck has carried 1,000 tons of fertilizer from a station four miles away; two forty-ton carloads of coal, 2,500 bbls. of cement, and has carried five car loads of grain to the station, besides 600 tons of small stuff. Frequently, it has made a run to a town ten miles distant twice a day, with heavy loads. It is also used in carrying bales of hay and straw from the fields to store-houses. Since it has been in use it has not cost one cent in repairs, and not a day has been lost.

Before setting a hen always see that the nest and the hen herself are free from lice. Next most important is to supply square grain, sharp grit, and pure water, so that she may get them whenever she wants them. A dust

DRINK CURE A MIRACLE?

No, Just Sound Science.

Many drunkards are sent to jail when they think they need medicine. Drink has undermined their constitutions, inflamed their stomachs and nerves, until the craving must be satisfied if it is not removed there by a scientific prescription like Samaria.

Samaria's prescription stops the craving, restores the shaking nerves, builds up the health and appetite and renders drink distasteful, even nauseous. It is odorless and tasteless, and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge.

Read what it did for Mrs. G., of Vancouver:
"I was so anxious to get my husband cured that I went up to Harrison Drug Store, and got your remedy there. I had no trouble giving it without his knowledge. I greatly thank you for all the peace and happiness that you brought already into my home. The cure was nothing according to the usual would spend in drinking. The cure of drink was putting me into my grave, but now I feel so happy, and everything seems so different and bright. May the Lord be with you and help you in curing the will. I don't want my name published."

Now, if you know of any unfortunate needing Samaria's Treatment, tell him or his family or friends about it. If you have any friend or relative who is forming the drink habit help him to release himself from its clutches. Write to-day.

A FREE TRIAL PACKAGE of Samaria's Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and post paid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence made confidential. Write to-day. The Samaria Remedy Company, Dept. J, 69 Colborne street, Toronto, Canada. Also for sale at J. H. McLeod's Drug Store, Kingston, Ont.

bath is also desirable to have. The hen is moved to her sitting quarters in the evening and then given china eggs for the first night and day. If she is content, she then gets the regular sitting.

Ten cents' worth of caustic potash will, says a correspondent of Farm Stock and Home, delimit several calves. The material should be kept in an airtight bottle and should be applied when the calf is a week or two days old. In applying the caustic see that the hair is clipped away from the point where the horn would appear, that the skin is cut off about the top of the embryo horn, and that the caustic is wet before being rubbed on.

From Many Farms.

Fall wheat is reported to be in excellent condition in Southern Alberta. Low vitality in mangel seed is one of the things to be guarded against this season.

It has been estimated that there will be an increase in area seeded to wheat in the west this year, of from ten to fifteen per cent.

The state of Minnesota has 2,000 grade and mongrel stallions. In Scotland there is only one unregistered stallion reported to have stood for service since 1900.

Producers of maple syrup in old Vermont are opposed to the reciprocity negotiations because Canadian maple syrup will be admitted at a lower duty than at present.

South Africa has an agent in the United States studying corn growing, and modern methods of handling. There are said to be great possibilities for corn production in that country.

T. A. Russell, formerly secretary of the Manufacturers' Association and manager of the Canada Cycle and Motor Works, has purchased a farm on Keele street, near Weston.

An order for cavalry mounts calling for perhaps 300 horses, at or below \$150 each, has been causing some active scurrying among Chicago horsemen. Mules sell at from \$125 to \$275 each.

C. J. Cook, a prominent farmer in upper Michigan, has demonstrated that cattle will do remarkably well when fed on ground-up twigs and brush as roughage. The material is fed in stacks as thick as a man's wrist, in ground-up fine and fed fresh along with sugar beet pulp.

Bids are being asked for supplies of butter for the United States army. The amount required is 612,000 pounds. Tenders will be received for the delivery of 54,000 pound lots, and of these lots 18,000 pounds must score ninety-four points, while the remaining 36,000 pounds must score ninety-five points.

Speaking in rough, round figures, I should say 400,000 immigrants and settlers will come into Canada this year, fifty per cent. of this number, or 200,000, will come west, of which from 120,000 to 160,000 will be American settlers," predicts J. Bruce Walker, commissioner of immigration.

"I should say Alberta will get of this great influx about 60,000, and taking as an average \$1,000 per head, which it is estimated each American settler brings in either in cash, stock, effects, or all three, it means enriching the province, monetarily alone, to the extent of approximately \$60,000,000."

Produce and Prices.

Kingston, April 22.—Market a clerk reports the prices prevailing as follows: Carrots, 50c. to 60c. per bag; turnips, 60c. to 60c. per bag; cabbage, 5c. each; onions, \$1.50 per bag; potato, 75c. to 85c. per bag; celery, 5c. to 7c. per head.

John McKay, Brock street, reports as follows: Hides, trimmed, 8c. per lb.; horsehides, \$3 to \$3.25; calfskins, 12c. per lb.; deerskins, 75c. to 90c.; wool, sheepskins, from 90c. to \$1.10; in cakes, 6c. per lb.; beeswax, 25c. per lb.; ginseng, \$5 per lb.; wool, washed, 20c. per lb.; unwashed, 13c. per lb. Raw furs: Red fox, No. 1, large, \$6; No. 1, medium, \$4; raccoon, No. 1, large, \$2 to \$3; No. 1, medium, \$1 to \$2; mink, No. 1, large, \$6 to \$7; No. 1, medium, \$3 to \$5; spring rats, No. 1, large, 35c.; No. 2, medium, 25c. kits and culis, at value; springy rubbed skins at value.

J. A. MacFarlane, Brock street, reports flour, feed and grain selling as follows: Oats, 35c. to 40c.; local wheat \$1; buckwheat, 60c.; barley, 60c. to 65c.; rye, 70c.; peas, 90c. to \$1; yellow corn, 65c.; flour, bakers, 10c. to 15c.; 200; farmers', \$2.50 to \$2.50; Hungarian, \$2.50; oatmeal and rolled oats, \$4.50 per bbl.; cornmeal, \$1.50 to \$2; bran, \$2.50 per ton; shorts, \$2.50; baled straw, \$7; loose, \$8; hay, loose, \$8 to \$9; pressed, \$9 to \$10.

Meat—liver (local), carcass, 84c. to 9c.; prime western beef, \$10 per cwt.; by carcass, cuts, 10c. to 15c.; live hogs, 67c. lb.; dressed hogs, 9c. per lb.; to 10c.; by quarter; mutton, 10c.; lamb, 12c. to 13c., qtr.; veal, 5c. to 8c. lb.; ducks, \$1 to \$1.25 each; turkeys, 10c. to 20c. lb.; fowl \$1 to \$1.50 pair; chickens, \$1 to \$1.25 per; butter, creamery, 24c.; rolls, 17c.; prints, 17c. to 19c.; eggs, fresh, 17c. to 20c.

Dominion Fish Co. reports prices as follows: Salmon trout, 12c. to 15c. a lb.; skinned digby herring, 20c. lb.; white fish, 12c. to 15c. lb.; pike, 10c. lb.; Chinook salmon, 30c. lb.; kippered herring, Yarmouth bloaters, 40c. doz.; perch, 30c. doz.; Atlantic salmon, 30c. lb.; salt codfish, 7c. to 15c. lb.; halibut, 12c. to 20c.; fresh haddock, 10c. lb.; bullheads, 15c. lb.; red herring, 20c. box; mackerel, 15c. lb.; lake herring, 8c. lb.; sea bass, 12c. lb.; silvered 15c. lb.

It is now open season for muskrats, in the province of Quebec and Ontario, and will remain open until May 1st.

Prices will range on this article as follows: Square handled rats, large, 35c.; small, 25c.; shot and cut, 15c. to 25c.; bow handled are 5c. a skin less in each grade.

Maple syrup is selling at \$1 per gallon.

George Mills & Co., quote the following prices for raw furs: Spring

Muskrats large, 35c. to 45c.; medium, 20c. to 35c. Mink, large, \$4 to \$6; medium, \$3 to \$4.50; small, \$2 to \$4. Raccoon, large, \$2.50; medium, \$1.50; small, 75c. Red Fox as to size, \$3 to \$5. Skunk as to size and length of stripe, 25c. to \$2. Weasel, 20 cents to 60 cents.

SOLDIERS USED RAZORS.

Serious Fighting in Kingston, Jamaica—Order Restored.

Kingston, Jamaica, April 21.—Disturbances have been going on here for two days between the soldiers of the West India Regiment and civilians, and the police have had serious difficulty in handling the rioters. Serious fighting occurred in various parts of Kingston, last night, the soldiers using razors with deadly effect. Many persons were treated at the hospitals and one death is reported from injuries inflicted. For a time the residents in certain quarters were panic-stricken. Order was restored, yesterday.

POLICE WERE ON HAND

To Prevent Rioting at the Hearing of Petition.

Cork, Ireland, April 21.—The hearing of the petition against the election of Capt. Anthony J. C. Donohue, the nationalist whip, who defeated William O'Brien in the east division of Cork county, was opened at the county court house, to-day. Scores of police were on hand to avert threatened clashes between the Irish factions.

Timothy Healy, representing O'Brien, said that the object of the petition was to impeach "The Ribbon Society," the United Irish League, for bribery, personation, treating, alcoholizing electors, "blacklegging" opponents, by wholesale intimidation and corruption.

WILLIAM DUNLAY, in "Honeycomb Trail," at the Grand on Thursday, April 27th.

A MASSACRE IS EXPECTED.

Albanians, Having Routed Turks, Have Surrounded Tuzi.

Vienna, April 21.—Despatches received here state that there has been a severe fight in Montenegro, in which Turkish regulars and volunteers were worsted by Albanians. It is said that a thousand were killed. The Albanians now surround Tuzi, which was captured recently by the Turks.

It is likely that the city will speedily be retaken, and a massacre of the Turkish population is to be expected.

AUTO KILLS LOVERS.

Three Automobilists Have Been Placed Under Arrest.

North Attleboro, Mass., April 21.—George Hunt is dead and his fiancée, Lotie Thomas, is dying as the result of being struck by an automobile while they were walking on the Boston-Providence road near Pawtucket, R.I. Three of the four occupants of the machine, Charles W. Day, seventy years old, who was operating the car, George A. Hancock and Edges Kelly, are under arrest. Day is charged with manslaughter. All concerned are residents of North Attleboro.

New Passion Play Barred.

Berlin, April 21.—The attempt to establish a Protestant Oberammergau at Eisenach, a town which lies under the famous Wartburg and is intimately associated with the history of Luther and the Reformation, has signally failed and the police of the grand duchy have finally decided to decline to sanction the proposed performances. The promoters were arranging for what they called a "Jesus Trilogy," a sort of realistic play of the last years and passion of Christ, altogether unlike the account given in the gospels.

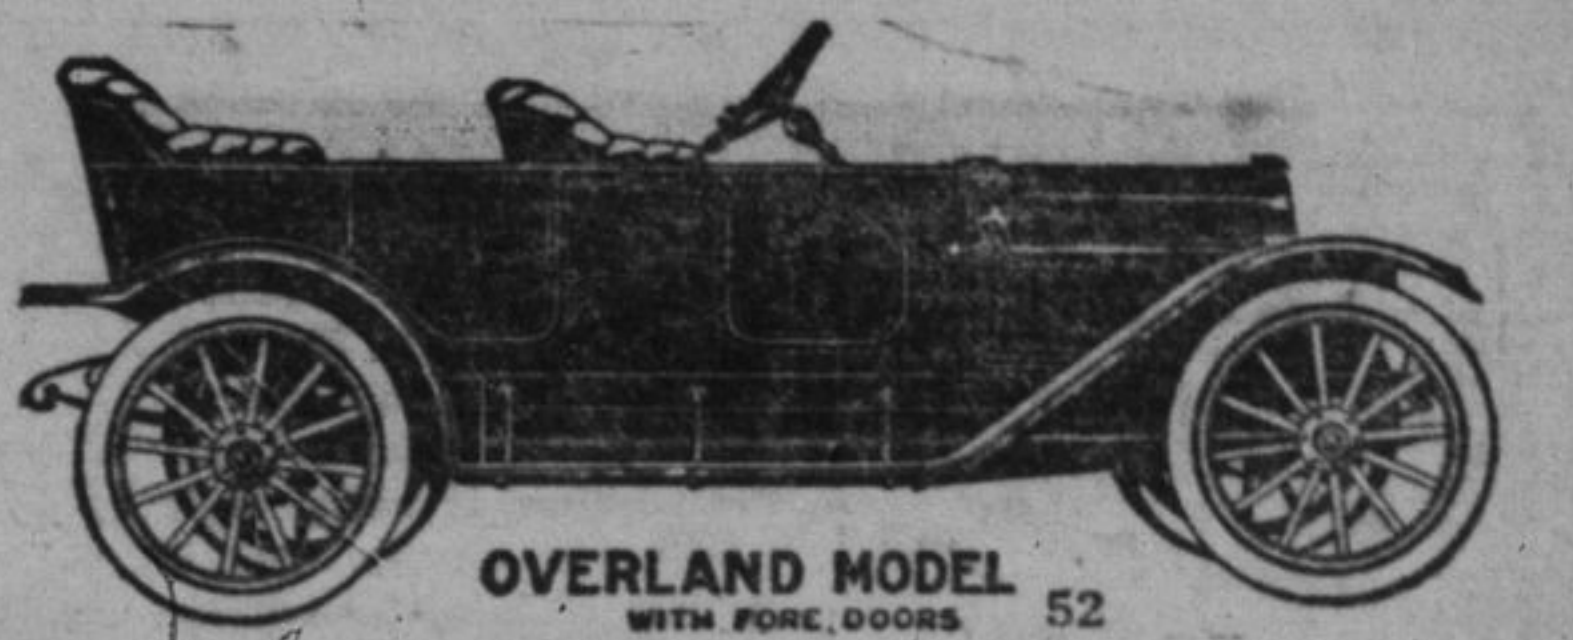

Fish Gist Baltimore Market.

Baltimore, April 21.—Such a record of shad and herring is reported by the fishermen of Chesapeake Bay that their nets have been taxed to their fullest capacity. One million herring will be shipped from Annapolis within the next few days to be made into fertilizer by a Virginia factory. The fish, which are a good food, are a glut on the market and cannot be sold for the table.

MOODY'S OKLENZINE

What KLENZINE means to the KLENZINE MAID Housework made easy!

"Good morning, Nellie, why that happy smile?"
KLENZINE MAID.—"See that package of Klenzine, Postie. That's the reason. Mistress bought it yesterday and it works like magic. Look at the polish on that window. I did not rub hard at all—it just cuts my work in half. If you see any of the maids toiling their lives out, tell them about Klenzine. It makes housework so easy."

MOODY'S KLENZINE simply banishes drudgery. It is a Compound Ammonia Powder with surprising cleansing power—does most of the work and requires but little muscular effort from you.

MOODY'S KLENZINE cleans everything—makes the clothes snowy white, puts a beautiful polish on china and glassware and keeps the kitchen clean, sweet and free from germs—a valuable disinfectant.

Try it in the bath—delightfully refreshing. Contains Ammonia in its purest form.

Your Grocer carries it—large size packages 10c. You need it to-day
