The 1911 Ferro Is the Engine You Will Like Best

Carburation and ignition, the two things on which internal consbustion engines depend for efficiency, are greatly improved in 1911 Ferro Engines. These engines have been correct in principle since their introduction, and with added efficiency due to 1911 improvements, the Ferro is the most perfect marine motor of the time. Before you buy

See The TDDO

The 1911 Improved Ferro Carburetor, working in unison with the timer, mixes just the proper proportions of gasolene and air. This gives an easy starting, quick responding motor of great power, and overcomes certain annoyances heretofore encountered with carburetors.

Righ Tension Ignition can also be had in 1911 Ferro Engines. This form of gaition is proven best by its performance on the leading automobiles. Write for Helpful Book and Free

## Chews the Way to Health

What are you doing to give your children sound and healthy teeth? Out of 11,374 children inspected by the Medical Inspector in the schools of Toronto nearly 3,000 cases of physical defects were found. Of these 2,027 were credited to decayed and imperfectly formed teeth. Sound teeth and good bones come from thoroughly chewing a food that is rich in the phosphates. You can't build them with mushy porridges, soggy pastries or sweetmeats. Shredded Whole Wheat contains all the necessary phosphates in a digestible form. You HAVE to chew

## SHREDDED WHEAT

The crispness of the shreds compels thorough chewing and a thorough mixing with saliva, which is the first process in digestion.

Shredded Wheat Biscuit every morning for breakfast, served with milk or cream, will build sturdy, robust youngsters and is a preventive of stomach and bowel disorders so common to children. Being ready-cooked and ready-to-serve it is so easy to prepare a nourishing meal with it in combination with fresh or preserved fruits-a meal that is deliciously satisfying to grown-ups as well as youngsters. Your grocer sells it.

THE ONLY CEREAL BREAKFAST FOOD MADE IN BISCUIT FORM
