

## COULDN'T CURB

### Unseemly Discussion in House of Commons

## WILD DISORDER

### A LETTER THE DEPUTY-SPEAKER WOULDN'T PASS.

The Statement of Mr. Sealey in regard to the Votes Cast by Six Conservatives—The Printing Bureau and the Investigation Thereof.

Special to the Whig.

Ottawa, April 26.—Some disorder characterized the sitting of parliament yesterday afternoon. The debate of the resolutions regarding the Globe article that six conservatives voted for respectivity was continued with renewed vigor. Both Sir Wilfrid Laurier and R. L. Borden tried in vain to curb the unseemly discussion, but were unsuccessful. The greatest uproar began when Hon. Mr. Pugsley attempted to read a letter from the Globe's press gallery representative, H. W. Anderson, purporting to endorse Dr. Sproule and Haughton Lennox for stating that Mr. Anderson was a liar. The speaker ruled the letter out of order and the conservatives shouted with joy over what they thought was a great victory.

In a ringing speech Mr. Lancaster, Lincoln, declared that according to the Globe, if the conservatives voted for respectivity, then those liberals who voted against Mr. Sealey's amendment must have opposed to the agreement.

Hon. Mr. Pugsley thought it was very unfair for members of this house to call a newspaper man a liar, shielded as they were by parliament, and not allow the newspaper man who had written the article an opportunity of answering himself both with the members of parliament and his newspaper.

Mr. Sealey, the mover of the amendment, was in his seat and took the opportunity of stating that what appeared in the Globe was correct, except that it was Mr. Goodeve, of Kootenay, instead of Mr. Henderson, of Halifax, who voted with him on the conservative side. He moved an amendment to the effect that it was voted down by the government.

Hon. Charles Murphy, secretary of state, explained that every phase of the affairs of the bureau had already been thoroughly investigated by the public accounts committee and there was nothing left to investigate. He thought this was the opinion of the house and the country. In conclusion he added that there was never a more searching investigation made by any department of any government than was made by his department in respect to the printing investigation.

The total immigration into Canada for the fiscal year ending March 31st last was 311,984. The immigration from the United States was 121,451 and by ocean ports, 189,533. The total immigration for the previous fiscal year was 268,794, being 107,788 coming from the United States and 161,006 from ocean ports. The increase for the last fiscal year was forty-nine per cent.

Pittsburg, Pa., April 26.—Seven young Wilkesburg boys, whose ages range from six to eight, after seeing moving pictures of the "Passion Play," made a realistic attempt to reproduce the play and started to nail one of their number to an improvised cross. He is now suffering at his home from a wound in his left hand, through which a ten penny nail was driven by one of his companions.

## WOMAN, BEWARE!

### Man May Legally Slap You if You Search His Pockets.

Providence, R.I., April 26.—A man is justified in slapping his wife for going through his pockets, in the opinion of Justice Lee, of the superior court. Judge Lee made this ruling in a divorce suit brought by Elizabeth England, of Pawtucket, against her husband, John E. England. The court advised the couple to try to effect a reconciliation, "and in the meantime," he advised the woman, "don't go through your husband's pockets again. A man is justified in slapping his wife for this."

## MAKES CONFESSION

### THAT HE DYNAMITED MANY BIG WORKS.

And Received \$200 for Each Job From J. J. McNamara—Statement of O. E. McManigan.  
Lajunta, Col., April 26.—O. E. McManigan has admitted that for \$200 and expenses for each job, paid him by J. J. McNamara, he took part in the dynamiting of the following: South African iron works, South Chicago, Heil-Patterson Construction company's works, Milwaukee; R. E. Stephens works, Springfield, Mass.; court house, Omaha; Construction iron works, Du. Utah; also about fifty other jobs, causing injuries to many persons and entailing monetary losses aggregating nearly \$3,000,000.

He insists he was not in California at the time the Times building was wrecked. He declares he was in the vicinity of Chicago.

He admits going to Los Angeles shortly afterward. He implicates K. B. McNamara, alias J. B. Brien, as the man who did the actual work of blowing up the Times. He says McNamara kept him a very busy man.

## A Woman Talked.

Chicago, April 26.—Clarence S. Harrow, who has been employed in the defense of many labor leaders in the past and who recently was counsel for Haywood, Moyer and Pettibone in connection with the Coeur d'Alene mine troubles in Idaho, has been retained as counsel for the alleged dynamiters, McManigan and the two McNamaras.

The Burns' agency declares that the first "tip" that put them on the track of the alleged bomb throwers, came from a woman who was infatuated at one time with James V. McNamara, who lived in her house in Los Angeles. She is said to have overheard the plotting to blow up the Times building.

## Held for Grand Jury.

Indianapolis, Ind., April 26.—Detective Burns appeared before the magistrate this morning, and was held in place of Lawyer Badoff, of New York, to appear before the grand jury, charged with kidnaping Secretary McNamara, of the structural iron workers. ## A NEW SCHEME

### Proposal to Harness the St. Lawrence.

## "SHOOT THE CHUTES"

### IF THE PLAN IS FINALLY WORKED OUT.

The Canadian L. and P. Co. Proposes to Erect a Big Plant Between Coteau and Beauharnois at a Cost of \$15,000,000.

Montreal, April 26.—Tourists to Montreal and Quebec will hereafter, when coming east by water, have to "shoot the chutes" in real earnest, if the plans of the Canadian Light & Power company materialize.

The company, of which E. A. Robert is the head, proposes to build works on the St. Lawrence between Coteau and Beauharnois which provide for two long canals or chutes down the Coteau and Cedar Rapids. The former has a drop from the level above of seventeen feet, and the latter thirty-four feet and the current is over twenty miles an hour in places.

The projected works involve the expenditure of from \$15,000,000 to \$20,000,000, and will take several years to complete. It is expected that nearly half a mill on horse power will in time be developed by the dams the company proposes building between the north and south shores of the river, the first a little below the town of Coteau, at the foot of Lake St. Francis, and the second almost opposite the little village of Cedars. The Coteau chute will be 6,500 feet in length and the one at Cedars 13,900 feet. Both will have a depth of water of fifteen feet and will be 150 feet in width.

Navigation men here are considering the scheme at present, but are wary of expressing any definite opinion as to the practicability of the project. The application of the Robert interests is already before the government at Ottawa and the hearing has been set for May 11th.

If the plan materializes Montreal will have available half a million horse power of electricity at its doors. The Canadian Light & Power Co. already has extensive works at St. Timothee, near Beauharnois, the character having been given Messrs. Robert and McIntyre several years ago for the exclusive use of the old Beauharnois canal for power developments.

Many municipalities already have such laws, but now it will be incumbent upon all the rest to pass such laws within five days after the order is received from the provincial board of health. In most of the rural districts this order will be promulgated by announcement from the church doors after mass. ## MAKE APPEAL

### To Privy Council in Hebert Case.

## OPPOSITION FILED

### IN SUPERIOR COURT TO JUDGMENT.

Family Council Appoint Tutrix to Child of Dissolved Union—Papers Filed by Montreal Lawyer.

Montreal, April 26.—New and important developments transpired yesterday afternoon in the case of the Hebert appointment which was recently snuffed in the superior court because Eugene Hebert and Marie Emma Cloutier, who were both Roman Catholics, had been married by Rev. Mr. Timberlake, a Protestant clergyman.

George V. Cousins filed in the judgment in the marriage case on behalf of Mrs. Hebert, and also on behalf of the child.

If these oppositions are maintained it will mean the re-opening of the whole case and an appeal will be ultimately to the privy council from the judgment rendered on the oppositions.

George V. Cousins, of the office of H. A. Lovett, K.C., took proceedings in the case last week to have a tutor appointed for the child.

The effect of the judgment of the lower court in the Hebert case was, as far as the child was concerned, to declare her illegitimate. The little girl cannot claim any parents, she has no name, no legal relatives, and therefore, no means of sustenance during the early days of her life.

A tutrix was appointed for the child last week for the purpose of giving to someone the legal right to look after the child, and the woman who has been given the authority to care for the child has authority to represent the little girl in any matters or proceedings in which the child's requirements are represented.

Mrs. Burton and Mrs. Schaefer have lived in this city four years, but neither knew of the other's presence here. One is the daughter of Francis Galvin, a war veteran, by his first marriage, and the other by his second marriage. Mrs. Schaefer, on her father's death, was taken into the family of W. O. Raffety.

Mrs. Burton searched for Raffety for years and found him when she saw the name on an employment house. She rushed into the store, found Raffety and asked him about her sister. He told Mrs. Burton where she could find her sister, and they were reunited.

WHOLE BRITISH FAMILY.

## Sir Joseph Ward Likens Empire to Vast Estate.

London, April 26.—Interviewed at Fishguard on his arrival from New York, Sir Joseph Ward, premier of New Zealand, said the empire should be treated as a vast property to be developed on behalf of the whole British family. Every state should play its part according to its stake in the empire, but each should be left to adopt the most suitable military system.

"I do not take sides in your fiscal controversy," said Sir Joseph. "You ought to know best what is best for yourselves. I am keenly alive to what the British taxpayer has done, and is doing, for the overseas states by the maintenance of a powerful navy, but the time will come when even greater naval strength will be required."
