SLEEPLESSNESS

Its Cause and Remedy.

Do you know what it is to lie awake nights, fidgety, restless, tossing about, counting 100 backwards, or sleep jumping over a fence, all in a vain endeavor to lose yourself in slumberland and get the rest which you so much need.

No one, unless they have been troubled with insomnia, can begin to realize its horrors and how wearing it is.

In nine cases out of ten it is simply a case of overworked nerves or derangement of the digestive system.

Thousands of such cases are being cured by Vinol. As proof we quote from a letter recently received from Marion, Ind.

"I could not sleep nights, was run-down, nervous, had no appetite and was all discouraged. Vinol made me well after all other remedies had failed. I sleep splendidly, and have gained in strength." Mrs. L. E. Heinlein. (We guarantee this testimonial to be genuine.)

We ask every person who suffers from sleeplessness on who is nervous or run-down to try a bottle of Vinol with the understanding that their money will be returned if it does not help them. Vinol contains no drugs or oil, and agrees with everyone.

PROGRESS OF THE Y.W.C.A.

Extensive Repairs Made to the Residence.

The monthly meeting of the Young Woman's Christian Association, held on Monday afternoon, was of a very encouraging nature. Extensive repairs have been made in the residence which add very much to the comfort and convenience of the boarders.

Last Saturday the sewing class was given a treat and as it was the last sewing day for the season, prizes were given to those who had made the most improvement for the year. Forty-nine were enrolled in this class, and the teachers were much pleased at the progress of the children.

The domestic science class has twenty-five members and is doing good work under the direction of the supervisor.

A hearty vote of thanks was passed to those who sent contributions to the recent rummage sale which netted the association about seventy dollars.

Another rummage sale will be held in about two weeks.

The fine lot to the east of the building has been disposed of by J. S. E. McCann, who very kindly gave his commission as a donation to the association for which the association is very grateful.

It is hoped a great many will take advantage of the tennis court which will shortly be opened. It was decided to ask an architect for an estimate of the cost of converting the stable into a gymnasium.

The annual meeting of the association, to which all its friends and patrons are cordially invited, will be held in the near future of which due notice will be given.

THE POWER QUESTION.

The Propositions Will Require Much Discussion.

The light, heat and power committee has no easy job ahead of it in regard to the question of water power. Members of the committee say that they will have to secure the best expert in the country to advise them as to the merits of the Seymour and the Hydro-Electric Commission proposals, and they do not expect to come to a conclusion very early date.

It will likely be the autumn before they will be able to make a recommendation to the city council. The report of the Dominion government engineers regarding the danger to navigation should the falls at Waddington, N.Y., be used by the Ontario Hydro-Electric Commission, is going to complicate matters. It is expected that the Seymour company will "come back" with another offer to Kingston, now that the commission has been heard from.

OFFICERS WERE ELECTED

At Meeting of Retail Merchants' Association.

The following officers were elected at a meeting of the Retail Merchants' Association, held on Monday night: President, E. T. Steacy; vice-president, W. H. Dyde; treasurer, George Mills; secretary, Howard Marshall.

The members of the executive will be elected at the next meeting.

H. A. Harrington, the general organizer for the association, was unable to stay over in the city for the meeting.

The members had under discussion the question of peddlars' licenses.

PORTSMOUTH COUNCIL.

To Look After Repairs to Streets, Walks and Crossings.

The regular meeting of the Portsmouth council was held Monday evening, all the members being present. Very little business was transacted, beyond the passing of a few accounts.

The members decided to make a tour of the village, at an early date, to ascertain what repairs are necessary for walks, streets and crossings, and it was decided to clean the village well, and have the water tested, and if same is found satisfactory, a pump will be installed.

The Work of Politrons.

Montreal Witness.

It is a question whether Mr. Prince, of Illinois, a republican congressman, who wants to kill reciprocity by shouting annexation, is any more creditable than the people on this side of the line who have taught him the trick.

Instead, seeing how Canada hate the idea, it would have been a marvel if some one had not been found nasty enough to play upon that string. We have always assumed that the people of the United States would like to have Canada as a part of their republic. It would be incredible to us if they did not. But that is a very different thing from saying that the United States, in offering us business terms, has done us wrong.

These they utterly disclaim, and in view of our sentiments and of past history they would be very foolish. But suppose this vulgar Illinois braggart were really speaking the popular mind, instead of only fighting for the interests against which the people are up in arms, what politrons we should be to mind it. If it came to "taking" Canada there is more reason for the United States to do so without reciprocity than with it. Yet we see no signs of their coming to 'take' it. Canada will not join the United States till she wants to. She has more reason to want to without reciprocity than with it, and she has not shown any tendency that way.

REPLIES TO FR. MEA

BISHOP FARTHING EXPLAINS HIS STAND.

He Upholds Anglican Church Rules, But He Would Protest Against Annulment of Civil Marriage.

Montreal, May 2.—Bishop Farthing came out this morning with a strong statement in reply to Rev. Father Mea, of Kingston, who criticized the stand taken by the Montreal bishop regarding the "Ne Temere" decree, saying he not long ago protested against the same temporal power overruling his church when marriage with deceased wife's sister was made legal.

"I do not wish to speak in any spirit of bitterness," said Bishop Farthing, "but I maintain that my position is perfectly logical and consistent. I have always carefully guarded the rights of religious bodies to make regulations with regard to marriage, but what I do object to is that those regulations should affect the civil status of the parties concerned."

"I uphold the order of our church that a man may not marry his deceased wife's sister, but when such marriage has been performed by civil authorities, I would be the first to protest against its being annulled."

THE LABOR SITUATION.

Masons' Helpers are Still Out on Strike.

The masons' helpers are still out on strike, and the disagreement between the stone cutters and the masons has not yet been settled.

In yesterday's Whig it was stated that about twenty masons' laborers were out on strike, but the men stated, to-day, that this was a mistake, that about seventy-five men were involved.

The carpenters were reported to be at work, to-day, a settlement having been reached.

Deaths at Hospital.

The death occurred at the general hospital, Tuesday morning, of Mrs. Henry Gaebel, aged forty-seven years. Deceased was a resident of Bancroft, and had been in the hospital for a few days.

The death also took place at the hospital, Tuesday, of William Wilson, the infant son of Thomas Wilson, 31 Colborne street. The child was one year old.

The Late Bernard McConville.

Epworth League Meeting.

The annual meeting of the Epworth League, of Sydenham street church, was held last night, when encouraging reports were received of the work being carried on. After the business part of the meeting was over, the members spent a very pleasant social hour together.

An Artistic Work.

In connection with their exhibit the Grand Trunk railway system is installing at the Festival of Empire, London, an oil painting that they have had executed by a prominent artist, of a portion of the city of Ottawa, showing the parliament buildings, the Ottawa river and Laurier's hills in the distance, the "Chateau Laurier," the Grand Trunk station and the northern section of the city. Those who have seen the picture have expressed gratification on the true portrayal of the subject and the artistic execution of the work.

The picture went forward to London via the S.S. Celtic, on Saturday, April 15th, and will no doubt be an attractive feature in the Grand Trunk building at the Festival of Empire. The picture is five feet by seven feet, with a twelve-inch gold moulding of special design.
