

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes: "For many years I have been troubled with chronic constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial. They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c a box.

INTEREST INCREASES

IN WORK OF CHILDREN'S AID SOCIETY.

Need of a Shelter Again Pointed Out—Another Meeting to be Held Next Monday Afternoon.

The monthly meeting of the Children's Aid Society was held in the council chamber, city hall, Wednesday afternoon. The attendance was good and, for once, the men far outnumbered the women. The members who have stood by the society so long were much gratified to find many new faces in the meeting and regarded it as evidence that the citizens generally were at last coming to believe in the Children's Aid Society. It seems to be justifying its place in the charities of the city. It is attracting men of influence, means and wide business and civic experience. The president expressed himself as highly pleased that many business men were so well disposed towards this work that they were becoming willing to give not only money, but a share of their time to it. This he felt would be a great gain to the work which they were trying to do. The agent also stated that this should be one of the big things in the city and should attract the largest-minded and highest-hearted men in the city to it. The society considered itself fortunate in securing the services of so outstanding a man as G. E. Hague, manager of the Merchants' Bank, to act as treasurer in place of Prof. S. W. Hyde, who has left the society to help in the city. Subscriptions for this month may now be sent to Mr. Hague any day during banking hours.

The agent's report was short. Only a few of the cases dealt with were given in detail. These, however, undoubtedly revealed the fact that a shelter was a pressing need. Mr. McConachie reported that during the month he had made ninety-nine visits, had dealt with thirty-six cases of neglected children; had given warnings to seven families; had attended the police court five times in connection with juvenile cases; had placed out one child; had taken the guardianship of two; had sent one to the Industrial School at Mimico and that he had at present four applications for children. Besides this Mr. McConachie reported that he had been absent for a week at Easter time, making investigations into the work of the society in certain cities of western Ontario.

The need of a shelter was discussed at some length. The agent reported that nearly every city of any importance, except Kingston, had provided a shelter for this work, and that even some towns, such as Ottawa, were securing this necessity. He pointed out that his work was almost at a standstill for want of the necessary machinery. Many children in both the city and county were being left in homes where they should not be simply because there was no place to which to take them for a short time until foster homes could be secured. A few had been placed in the Orphan's Home but that institution was already nearly full. Most of the children taken by the society ought to be kept in a shelter for a little preliminary cleaning, outfitting and training before being sent to foster homes. A committee was appointed to see if any better arrangement could be made whereby the Orphan's Home might be used as a temporary shelter for most of the children delivered to the society.

Mr. McConachie reported that the hardest children to place were those between the ages of six and ten. As a consequence many of these had to be kept in shelters or institutions longer than it was desirable. He regarded it as an evil that children should be kept in such abnormal surroundings. Even a shelter will institutionalize a child if he is kept too long in it. Yet only the normal conditions of home life, its surroundings, its sympathies, its joys, its duties, can fit a child to enter into the normal life of good citizenship. He pointed out that it would be infinitely better and even cheaper to subsidize those who would open their good homes for these children, since they would furnish the home life, with all its life-making and character building influences, so necessary to the child, and would have the cost of the erection and maintenance of expensive institutions.

The need of a shelter was felt to be so urgent that the meeting was adjourned until Monday, May 8th, at 11 p.m., when all contributors to the society's funds are urgently requested to meet in the council chamber to take up this question.

**WILL NOT DEFEY BY-LAW.** But Quebec Licensed Victuallers' Association Will.

Montreal, May 5.—A meeting of those affected by the early closing by-law, requiring bars and saloons to close at seven o'clock and at seven o'clock on Saturdays, was held here yesterday. Representatives from all over the province were in attendance. At the conclusion of the meeting Mr. Lawrence Wilson, president of the Licensed Victuallers' Association, announced that the members had voted not to defy the law by remaining open after hours, although the association would back any dealer who cared to do so. Legal proceedings have been instituted to test the validity of the law.

**Tercenary of English Bible.** This year we are called upon to celebrate the 300th anniversary of the translation and publication of the scriptures known as the Authorized Version. In view of this fact, and as a mark of our gratitude to Almighty God, it has been decided, at the annual meeting of the Kingston branch of the society, to make a special canvass of the city, and thus materially increase Kingston's contribution to the society's work. During the months of May and June, collectors will call for subscriptions. It is sincerely hoped all will respond liberally to this most practical of missionary calls for the home and foreign fields.

A lot of times good stands in front of happiness and prevents its progress.
