PLACES THE BLAME BIG RAILWAY PLANS

FOR THE DIVORCE EVIL ON PARENTS.

New York Judge Says They Waste Too Much Sympathy on Marital Quarrels of Their Children.

New York, May 6.—To the disappointment of the old-fashioned mother, Justice Kelly, in the supreme court, broadly, yesterday, attributed the prevalence of marital unhappiness and the growing divorce calendar of the courts. He then granted Mrs. Charles Quattlander a decree of separation for a year and advised her and her husband, who is employed by the bank of Commerce, Manhattan, to settle their differences before twelve months have passed.

"From my observation of cases of this nature trivial differences between man and wife lead to separation," said Justice Kelly. "If the wife doesn't wash the dishes promptly, or if the husband fails to return in the evening at the exact minute his wife expects him, trouble follows. In this case the girl wife, after a petty quarrel with her husband, ran to her mother. An old-fashioned mother in the old-fashioned days would have sent her back to her husband. This mother sympathized with her daughter. His parents scolded him, and now both are here. I grant this separation for one year. You would get along all right if your parents would leave you alone. Come back at the end of the year, and then I shall decide if any modification of the order is necessary."

Pastor Is Heretical. Pittsburgh, Pa., May 6.—A special committee, investigating charges of heretical teachings against the Rev. Dr. John H. Dietrich, has reported to the Pittsburgh synod of the Reformed church, that "the pastor acknowledged that he did not believe in the deity of the Lord Jesus Christ," and that the committee "therefore concluded that the gospel is not preached in his parish."

Says Dr. Wilson is a Failure. Philadelphia, Pa., May 6.—Samuel W. Pennypacker, once governor of Pennsylvania, thinks Dr. Woodrow Wilson, governor of New Jersey, is a charlatan. So Mr. Pennypacker said today. He predicted that Governor Wilson soon will be forgotten, as he declares Theodore Roosevelt is.

Every Best Make. Of fine hats in the up-to-date hat store styles, at Campbell Bros., Kingston's only exclusive hat and fur store. Palmer's Tailors, "Gibson's."

BIG RAILWAY PLANS

OF THE NEW HUDSON BAY COMPANY.

It is Proposed to Build 7,000 Miles of Track—Surveys to Start From Edmonton.

Winnipeg, May 6.—The Tribune says that within a fortnight surveys will start from Edmonton and this point on branch lines in connection with the Hudson's Bay, Peace River and Pacific railway and that another survey party will proceed to Fort Churchill to start work from that end of the main line, which will run right across the top of the continent, south of Lake Athabaska, and through Peace River Landing, over the Rockies to Port Simpson on the Pacific coast. This ambitious project is financed by Scottish capital, with which prominent Montreal, Toronto, and Winnipeg capitalists are associated, and there is good reason to believe in its bona fides.

The proposed route will be the shortest practical between Hudson's Bay and the Pacific, reducing the rail haulage to 1,500 miles, or about half any other Transcontinental line. Amendments to the original charter are now being sought at Ottawa to enable the building of various branches. Apparently, the design is to build the Edmonton and Winnipeg branches first, before attacking the Transcontinental proposition.

MONEY IN TOBACCO BOX.

Brighton Farmer Forgot Where He Hid His Cash. Toronto, May 6.—Bank notes, which became almost unrecognizable through having been hidden away for seven years in a tin tobacco box in a barn, have just been released by William F. Foreman, a wealthy farmer of Brighton, Ont.

The bank notes were apparently almost destroyed, being water-soaked. The notes, which were collected and deposited in the box in the barn for future use, some seven years ago, were recovered only after years of search. The money, which was not in the barn for safe-keeping, was found to have been water-soaked by rain and some which had made its way in through cracks in the wall.

The notes had become blackened and rotten, and any attempt to separate the bills resulted in their falling to pieces. As he himself could do nothing, he came to Toronto, and consulted Ira B. Thayer, an old acquaintance, who introduced him to J. S. London, assistant general manager of the Standard Bank of Canada, who generously undertook the task of finding out the denominations and the bank's issuing the bills. Several days were spent in the work, but finally it was discovered that the bills were two of the Bank of Nova Scotia, two of the Canadian Bank of Commerce, one of the Montreal Bank, one of the Dominion Bank, one of the United States Bank, one of the Bank of Montreal, and one of the Bank of New Brunswick.

There were other bills so far gone that it was impossible to make out the names of the banks that issued them. However, Mr. London succeeded in returning to Mr. Foreman \$145 of the money thought to have been destroyed. The Brighton farmer has returned home grateful to Mr. London and to the banks which redeemed the notes.

MILITARY ESTIMATES.

The Increases Will Amount to \$325,000. Ottawa, May 6.—In the House of Commons yesterday, Sir Frederick Borden made an explanatory statement in regard to the military estimates. He pointed out that the increases in the ordinary vote were: Annual drill, \$15,000; clothing, \$100,000; Royal Military College, \$25,000; and cadet corps (new vote) \$50,000. The first increase was due to provision for 4,000 additional troops and a large camp at Ottawa. The training establishment of the ensuing year would total 60,000 men and 13 horses. The new vote for the cadet corps included \$15,000 for permanent force instructors, \$14,000 for expense of school teachers at military schools of instruction, \$10,000 as allowances to school teachers, who have qualifications as instructors at rate of one dollar for each cadet instructed, and \$11,000 for equipment for cadets instructed.

WIFE REFUSED TO GO.

Court Heard Story and Issued Decree. Los Angeles, Cal., May 6.—A little island off the coast of Chili, the island of Pitcairn, two miles long by one wide, caused a divorce in a Los Angeles court, yesterday, for it took the husband of Mrs. Nellie B. Clark away from her.

Mrs. Clark didn't fancy being queen of an island, but Lincoln Clark wanted to be king, so he sailed away and left her here. That was two years ago. The husband has never come back, and save he never intends to. He is now the king, and his son, Roy, who went with him, is heir apparent. They have about 125 subjects.

Mrs. Clark has heard news of her husband two or three times through the letters of her son.

WAS A WELLINGTON MAN.

Ralph Clarke, Who is Declared Sane in Brooklyn. Picton Gazette: A New York despatch strangely interests many people in Prince Edward, as it tells the unusual story of Ralph Clarke, who, as a boy, lived in Wellington. His people were for many years residents of Wellington, and made their home in that historic place, "Fara Hall," where A. Dugan and family now reside.

Ralph Clarke was some years ago declared insane in Brooklyn. He escaped from the asylum, went to Virginia, and made money. Recently he was married. Experts have pronounced him as sane.

Mrs. John Lyon died on Monday at the age of forty-four years. She had suffered some time with stomach trouble.

NINETEEN CHARGES

AGAINST JOHN J. AND JAMES B. McNAMARA.

The Dynamite Case Adjourned Till June 1st at the Request of the Attorney for the Prisoners.

Los Angeles, May 6.—John J. McNamara, secretary and treasurer of the international bridge and structural works' association, and his brother, James B. McNamara, were arraigned yesterday before Superior Judge Bordwell on nineteen indictments, charging murder in causing the dynamite explosion in the Los Angeles Times building and the consequent death of twenty-one men. Attorney Rappaport, of Indianapolis, for the McNamaras asked for thirty days time in which to enter pleas for the men. District Attorney Fredricks consented to a postponement till June 1st, and that time was fixed by Judge Bordwell. All the prisoners are in good spirits.

Would be Grateful.

Montreal, May 6.—Looking like a commercial traveller Detective William J. Burns who scored the famous coup in the Los Angeles case is here in connection with the David Russell case against the Pinkerton agency. In an interview with your representative, here, Burns expressed complete confidence in the evidence and merits of the McNamara case, and said that the labor organizations in Canada and United States would, when the facts came out, be grateful to him for removing from their ranks the prisoners now in Los Angeles.

JAIL FOR WOMAN

Who Rented House for Evil Purpose in Montreal.

Montreal, May 6.—Convicted a couple of months ago on the charge of keeping a disorderly house at No. 76 Adelaide Street, Anna Lamarche was again brought before Mr. Recorder Duval yesterday, accused of having rented the same house for immoral purposes, and being found guilty was sentenced to three months hard labor without the option of a fine.

Two women who have rented this house from her were brought as witnesses. They testified that she sought after tenants for her house, letting it to the highest bidder. They accused her of having encouraged immoral traffic in young girls in this city.

TESTIFY IN STAPLES CASE.

Vouch for Seaworthiness of Steam Yacht Idler.

Washington, May 6.—Captains J. H. Walthers and Herbert Chestnut, United States inspectors in charge of the Javega and St. Lawrence river district, were important witnesses in the court of the District of Columbia in the case of Col. O. G. Staples against Edwin K. Fox of Washington. The action is brought to recover on a note for \$13,000 given by Mr. Fox in part payment for the steam yacht Idler, which Colonel Staples ran in connection with his hotel, the Thousand Islands House, for a number of years. The case is hinged on a charge of misrepresentation made by Mr. Fox to Mr. Staples, and Chestnut testified for Col. Staples as to the seaworthiness of the yacht.

THREW PACKET AT KAISER.

Hailed Petition at Emperor and is Now in Jail.

London, May 6.—The police of Berlin thought that the emperor was dead, yesterday, but their fears were short-lived. While the emperor and the empress were landing from the imperial yacht, Hohenzollern, in which they had arrived from Corfu, to take train for Berlin, and were about to enter their carriage, someone hurled a packet in the face of the kaiser. The detectives, seeing the packet in the air, awaited the explosion in terror. The "bomb," which fell in the carriage, was harmless. It contained a letter from a German resident petitioning the emperor to abandon a farm which the kaiser's brother of the throne had given to the emperor in 1888. The thrower of the missile is repeating in jail.

KICKS ON 9,000 MILE BEAT.

Police Force on Strike Gets 12 1-2 Per Mile.

Asbury Park, N.J., May 6.—Charles Gouldy, Avon-by-the-Sea's police force, has just completed a successful strike against a patrol order which would have compelled him to cover 9,020 miles by next year at this time, at a rate of only twelve and one-half cents a mile. Avon's police force works at night. Recently the borough council installed a time clock which the force punches from various points on its beat. Gouldy said to cover the entire town seven times each night. He figured that the schedule arranged for him would call for 173 miles a week, or 9,020 a year. The force draws \$60 a month. Its tour will be shortened to four circuits of the town a night.

Irish Emigration.

London, May 6.—Government statistics show that 32,457 natives of Ireland emigrated from this country last year, 4800 was an increase of 3,643 over 1909. Since the year 1851, when the compilation of these statistics was begun, the emigration from Ireland has been 1,187,443.

NEWS OF THE WORLD

OCCURRENCES RECORDED IN BRIEF FORM.

Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered.

Lumber pile toppled over on John French at Buffalo, killing him. Notifications of the Anglo-Japanese commercial treaty were exchanged. Great Britain and Japan negotiated a commercial treaty, which will come into force on July 17th.

McGill students settled with exhibitor for vehicles burned at anti-reception meeting in Montreal. Chancellor A. C. McKay, McMaster University, is named as principal of the new technical school in Toronto. Berlin proposes to spend \$100,000 on the water works system within the next year, to include a new reservoir.

Southern yarn spinners met at Charlotte, N.C., to consider a proposed \$10,000,000 merger of cotton mills. E. P. Gosser, manager of the Bank of Commerce, Windsor, Ont., has been appointed assistant general manager at Toronto.

King George, Queen Mary and Dowager Queen Alexandra attended the memorial service for King Edward at Windsor, Saturday. John W. Todd, aged eighty-five years, who prepared the stone for the parliament buildings at Ottawa, is dead from pneumonia.

Lady Bees, who was Miss Vivian Gould, is seriously ill in London, from appendicitis. An operation may be necessary to save her life.

Mrs. (Mrs.) Kennedy, Niagara Falls, Ont., says she only used Seagrave as an escort to Winnipeg? She says she can never live with her husband as their tactics differ so much.

The Massey Harris Co., Brantford, will contribute \$10,000 to the Y.M.C.A. fund if the remaining \$90,000 is subscribed in the coming campaign. Big bush fires are raging near the east end of Clearwater Bay, about sixteen miles from Kenora, Ont., and with very dry conditions at present existing, may spread over a considerable territory.

R. W. Allen, M.A., general secretary of the Anglican Laymen's Missionary Movement, has been appointed assistant general secretary of the Missionary Society of the Church of England.

"I shall require all the enthusiasm and all support possible to carry out this great scheme," said Chancellor H. H. George, replying to a flood of congratulations on his state insurance bill.

Frederick Smith, of Bristol, England, has arrived in Montreal en route to Vancouver. With him are his eight sons, ranging in age from five to twenty-five years. They will settle in the Canadian west.

At St. Catharines a dozen youths and a man of about forty are charged with carrying a girl into a vacant building, where they mistreated her. Half of the accused have already been committed for trial.

Revolutionaries are threatening the city of Shen Ting and a large body of troops have been sent there to intercept them. There are a number of English-speaking missionaries in that city and grave fears are expressed for their safety.

Few Paris Second-Hand Pianos.

There is a great scarcity in Paris just now for this is a very curious one indeed. Any piano dealer in France will tell you that the sale of pianos is an excellent barometer of the Southern French wine trade. Just now large quantities of second-hand pianos travel south. For some years past the wine trade both in Burgundy and in the Bordeaux district has been deplorable, but this year it has been extremely good, and champagne and the other-white wine districts in the east have suffered. The wholesale wine merchants have bought up the whole crop of the south at a good price, and with prosperity the taste for music has revived. In the Champagne district the peasants are not musicians. The south, therefore, has been buying pianos largely, and the price in Paris of them has accordingly risen.—Paris correspondent, London Express.

Cleanliness.

There are many things these spring days that remind one of the advantage and the necessity of cleanliness. A little town, down in Connecticut the other day had a "Spotless Town Contest" that we are told destroyed more old tin cans and refuse than they nearly any inhabitant believed there were in the whole state, and made this place look "As Clean as an Easter Lily." Dirty yards mean flies, and sickness and death sometimes, house-cleanings are hygienic necessities, even if we do not always greet them with enthusiasm. Cleanliness is not only an individual but a social grace as well. We ought to be clean for our neighbor's sake as well as our own. And this applies to more things than back yards and carpets.

Glendower Notes.

Glendower, May 5.—The boats are running in the lakes loaded with field spar from Richardson's mines. T. Gordon is down from Cobalt on a business trip. Richard Wilson has gone to Cobalt to work in the mines. Some people are doing their seedling in this vicinity. Thomas Tobin had a sale, Sanford Leeman is at Godfrey.

Plans for building of a new church were discussed by the adjourned vestry meeting of St. Mary Magdalene's church, Pictou. It has been found that a cement stone church could be erected for \$22,500. The congregation now has \$7,000 toward the building.

Earle Couch, the twelve-year-old son of Mr. and Mrs. Richard Couch, Drummond, fell off a fence last week and broke his arm at the elbow. It is just about a year since he fell off the fence at school and broke the other arm.

The marriage took place in Perth on Friday of James Wilson and Miss Annie, daughter of Chief Griffith. Men's \$1 leather lined boots, \$2.75. Dutton's.

To-Night 7.30 To 10.
