WORK OF Y.W.C.A. THE LABOR TROUBLE

NEED OF A GYMNASIUM IS A CAUSING GREAT DELAY IN BUILDING TRADE.

What the Association Has Done—Several Citizens Addressed the Ladies—Help Will be Gladly Welcomed.

The twenty-sixth annual meeting of the Young Women's Christian Association was held on Thursday, at the home, on Johnson street, the president, Mrs. Edwin J. McLellan in the chair. The devotional exercises were conducted by Rev. Prof. Ross, a warm friend of the association ever since its inauguration. Prof. Ross made a few remarks on the growth of the association, and spoke highly of the faithful workers it had, many of whom had passed to their reward. The president gave a hearty welcome to many friends present.

The secretary, Mrs. H. Snelling, then read the minutes of the last annual meeting, and gave her annual report. From this report, it was learned, that the sewing classes, in which there were forty children, had, under the able supervision of Mrs. Miller, done excellent work; the domestic science class numbering thirty-five, under Miss Samwell had inculcated in the minds of the girls practical lessons of cleanliness and thrift; the educational class which numbered about thirty, had been fairly well attended, though there had been some difficulty in getting teachers for them.

A club of young girls, named the Nesting Club, had been well attended, and much interest had been taken in it, by the girls, of whom there were twenty-nine. This club acted as a counter-attraction to the many amusements provided by the Y.W.C.A., and it is hoped more girls will join and help on the good work already done. Prayer meetings and Bible classes were also held.

The association has felt itself very much hampered by the lack of a gymnasium. The board of education had been asked for the use of the collegiate gymnasium, but the request had been refused.

During the year four hundred and twenty-five people had found accommodation in the home.

The association had been much cheered and inspired by the stirring and sympathetic addresses of Miss Kawai and Miss Mardon, of Japan.

The president then called on Ald. J. S. R. McCann, who said that he represented the business section of the city, and was glad to show his interest in the association. He thought that the men of the city should contribute to the support of a gymnasium.

Canon Starr said that the association was bound to succeed for several reasons: Because it was enabling the young women of Canada to realize the high ideal of Christian womanhood; because it emphasized the importance of women's work; because it was allied with the Christian church. He thought that an association of this kind would hasten the day of church union.

A vocal solo given by Miss Grace McLellan and an instrumental solo by Miss Eileen Wright, were of high merit and much enjoyed.

Then followed an excellent paper by Mrs. F. Sprout, on "The Influence Of Girls Over Their Boy Friends."

Then followed the election of the board of management which consists of thirty-six women.

A hearty vote of thanks was passed to all who had assisted in the meeting, whose names have already been mentioned, to Ald. J. S. R. McCann and J. O. Button, who have again audited the books, to E. Purdy, the florist, for his kind gift of flowers, and to the press for their good reports during the year.

The meeting closed with the doxology and benediction, and all felt that, if the spirit of the meeting were carried into the coming year, it would be one of the best the association has ever seen.

Extract from report of Miss Henshaw:

Receipts—Received from the house, \$1,954.15; expended by the house, \$1,887.73; subscriptions, including two of \$25 each, \$237.25; midland district grant, \$300; from sales and teas, \$351.61.

Expenses—Interest, \$400; old debts, \$37.21; sundries, \$108.60; still owing on old debts; exclusive of piano about \$300; lot east of the building sold for \$2,240. This will reduce the interest to \$290 a year. Recent repairs to be paid for, \$264.

Work of the Ladies Crowned With Success.

The "Fair of All Nations" is attracting a large number to the armories, and so far it has been a great success.

The affair is being held for a noble cause, and it is certainly deserving of the support of every citizen. Yesterday afternoon and evening the armories was well patronized, and everyone has a good word to say about the display. The ladies who have had charge of the arrangements and who have looked after the different booths, are certainly deserving of great credit. It is expected that a good sum will be realized as a result of the affair.

CALL FOR SOLUTION

OF THE STONECUTTER-MASON DISPUTE.

Kingston Building Trade Suffers From Friction That Has No Right to Exist.

Kingston, May 12.—(To the Editor): Industrial strife, that curse of modern civilization, has reared its ugly, portentous head amongst a peace-loving and law-abiding people, bringing, inevitably, in its train, a cessation of industry, paralyzing business and ultimately depopulation, and for those who remain starvation. The people are asking, What is it all a bout? Well, as one who knows whereof he speaks, the writer has to admit that it is "much ado about nothing."

The clause referring to the work in dispute is in both the stonecutters' and also the masons' constitutions, but remember that it has been in those constitutions since the foundation of these organizations, the stonecutters organizing in 1856 and the masons in 1864. Thus if priority of claim counts for anything it favors the stonecutters.

The stonecutters are, however, claiming nothing, being willing to allow the contractor or employer to engage either a mason or a stonecutter to do the work in dispute. Could any proposition be fairer? A compromise that is honorable to both branches of the trade and does not discriminate against either. Surely it ought to be acceptable to both, as I'm sure it must offend itself to every fair minded citizen. Besides, to my certain knowledge for twenty-five years, masons and stonecutters have worked amicably on that basis, of late years. I understand, having a verbal working agreement to that effect.

Already this most undesirable condition is bearing fruit. The plans for the much-needed new addition to the post office are ready, and I presume tenders are not called for because of the unsettled conditions of the building trade. The board of education is also holding back the new school building that otherwise would be rushed to completion with all possible expedition.

These conditions call for prompt action. Is there no authority, no power, to compel these men to arbitrate? Must this city be held up and bound and gagged by men who have apparently no more interest in its welfare than the day's work for which they obtain ample remuneration? What about the Lemire act? Is not this a case within its jurisdiction? Where is the board of trade? Is it not willing to take a hand in the settlement of this dispute? Believing that the publicity of facts is the first step towards a solution of this problem that has hitherto baffled all attempts at settlement, I write the above.—A WORKER.
