SCANDAL EXPECTED

LOAN SHARK BUSINESS IN NEW YORK

Is Being Investigated—The Names of Financiers, if Made Public, Will Startle the People.

New York, May 25.—Investigation in the "loan sharks" business develops the facts that the operations of these gentry are likely to produce one of the greatest scandals New York has known in years.
An investigation of the hotels of a number of these companies by an official of the United States government shows names of "depositors" with these so-called "private bankers," and the names of their financial backers would astonish the city if it were known who supplies the funds and partakes of profits in these businesses.
High police officials are suspected of being interested, and of getting a "rake-off" in consideration of forcing policemen who have borrowed to pay serious rates, and face their loans without "squalling."
Most of the loans made to policemen and firemen, who constitute a large part of clients of the concerns, are made to men new on the force, to enable them to get uniforms and equipment, or perhaps, to meet other heavy expenses incidental to getting their positions.
Thirty-five per cent. of the city's firemen and police are victims of loan sharks.

MUST PAY PENALTY

PRESIDENT DECLINES TO PARDON WALSH AND MORSE.

Two Noted Criminals—Both Stole the Funds of the Institutions of Which They Had Charge.

Washington, May 25.—President Taft has denied the applications for pardon of Charles W. Morse, the former New York banker, who is serving a fifteen-year sentence in the federal penitentiary at Atlanta, and John B.

Charles W. Morse

Walsh, the Chicago financier, who is serving a five-year sentence at Leavenworth. In declining against Morse and Walsh the president has resisted the most powerful influences that have been brought to bear upon him on any subject since he entered the White House. In the case of Morse, the prisoner's wife placed a petition bearing the names of about 10,000 persons including many in political life; while

JOHN B. WALSH

in Walsh's case the requests for clemency also came from many well-known in political, society and business.

DRIVE OUT RELIGION

SUCH IS AIM OF REIGNING GOVERNMENT IN PORTUGAL.

Attack on Catholics—Country is on the Eve of an Election Which Will Have Far-Reaching Results.

Lisbon, May 25.—That the situation in Portugal is serious is evidenced by the fact that the government is hastily dispatching reinforcements to the north. The official explanation of this, as given out, is that the government is aware that monarchist plotters, with 2,000 mercenaries, are on the Spanish frontier and intend to cross to Portugal, at the first opportunity in the hope that the inhabitants of the village will support their cause.
The government, however, it is said, does not look for a revolutionary movement. It believes that the disturbances will not go beyond rioting, but nevertheless all military precautions are being taken.

As next Sunday, which is election day, approaches, rumors of conspiracies, royalist plots, and republican factional differences multiply. Nevertheless public order continues.
No new loans have been made, and offers of loans from British and French bankers have risen from six to two to sixty days.
The government's programme includes the abolition of the house tax, rentals below \$150, and amounting to fifteen per cent. of the rent; the opening of one hundred new schools, advantageous commercial treaties with France and Italy, and the separation of church and state.
The long-looked-for rupture between the church and the government is now an accomplished fact, as a result of the protest issued, Tuesday, by the bishops against the separation law. The violence of this protest has caused a sensation. It vigorously attacks the provisional government, and declares that the law is not one of separation, but of annexation of the church. After being deprived of all property and authority, the bishops declare, the church has been placed in an abject position under the heel of the government.

The protest is signed by the patriarch of Lisbon, three archbishops and seven bishops.
The civil governors throughout Portugal have received orders from the central government to inaugurate an inventory of all churches and chapels.

LONG TRAIL HEROES.

Government is Likely to Erect a Monument.

Ottawa, May 25.—It is learned that the government has under consideration the erection of a suitable memorial to Inspector Fitzgerald and the other members of the Royal North West Mounted Police, who recently perished on the patrol from Fort Macpherson to Dawson.
A movement is already under way at Edmonton to erect a monument to the dead heroes in that city. The government will be asked to contribute to this memorial, but it is generally believed among the officials here that if any vote is asked for here that it will be for the construction of a memorial by the dominion government, probably at the mounted police barracks at Regina.

Platinum.

Platinum was so named by the Spaniards on account of its silvery color, "plata" signifying silver. It was discovered in the sand of the River Pinto, in South America, and was unknown in Europe until 1741, when it was announced in Ullrich's narrative of his voyage to Peru. In 1827 Dr. William Hyde Wollaston rendered it malleable and ductile.
