

A PAVEMENT PICKED

FOR SEVERAL OF KINGSTON'S BUSINESS BLOCKS.

Asphalt Blocks Decided Upon by the Board of Works—Tender of Guelph Company to be Recommended to the City Council.

The Board of Works has at last decided upon the kind of permanent pavement to be used on the business streets, and will recommend to the city council at its next meeting that the tender of the Concrete Construction Co. of Guelph, to construct an asphalt block pavement on Wellington street, between Princess and Brock, on Brock, from Wellington to King, on King, from Brock to Clarence, and on Clarence, from King to Ontario, in all 6,100 square yards, for the sum of \$18,701.20 be accepted.

brick, \$16,718.70; asphalt block (two and one-half inches) \$18,701.20; asphalt block (three inches), \$19,799.20; wood block, \$20,000; granite block, \$22,261.20; compressed concrete foundation with granite block \$26,418.

Ald. Rigney, after the tenders were opened, read a report of what the city engineer and himself had seen in the various cities they visited last week. In the large cities sheet asphalt was chiefly used and vitrified brick-paved.

The chairman said that a block pavement on a concrete base would be cheaper and more readily repaired in Kingston, and could be maintained without the aid of skilled labor.

A longer discussion took place over asphaltic macadam roads. As yet, these are in the experimental stage, but at Albany, N.Y., there are long stretches of them laid three years ago by the penetration method still in good condition, and next to dustless.

The chairman and engineer were satisfied that an asphaltic macadam road, built by the mixing method, that is by spreading the asphalt from a wagon mixer so that the stone could be thoroughly soaked—would last ten years, and stand all kinds of traffic. The engineer will call for tenders for this kind of roadway, for Wellington street, between West and Clarence, and adjacent blocks between Bagot and King streets. The board was much impressed with this kind of roadway.

Ald. Toye reported concerning tarvia pavement in Westmount, and recommended it for trial here, but was satisfied to wait until the asphaltic macadam had been given a thorough test.

The cost of asphaltic macadam will be between sixty-five and seventy cents a square yard.

Ald. Rigney and the city engineer made a report upon what they had seen of oiled roads, and noted that Buffalo had tried calcium chloride, but preferred oil as being more effective as a dust layer. Calcium chloride had been very successful in England for dusty roads, but it was not so good in dry climates. A certain amount of moisture is needed to keep it in the condition needed for laying dust.

CITY AND VICINITY.

Scott's, Buckley's and Christy's Celebrated hats, at Campbell Bros'.

1,000 Islands—Rochester. Steamer Caspian leaves at 10.15 a.m. on Sundays for Thousand Islands, and at 5 p.m. for Rochester, N.Y. J. P. Hanley, agent.

Earlier to Summer Resorts. The fact that the warm weather has set in much earlier than usual, will be the means of taking many people to the summer resorts earlier than other years. The excessive hot weather is driving the people out of the cities.

Engagement Announced. Mrs. S. A. Sherratt, Port Arthur, formerly of Kingston, announces the engagement of her second daughter, Anna Laura, to Lewellyn Jones, son of Lewellyn Jones, of Port Arthur, the marriage to take place in June.

Big Doings. These are straw hat days and that means big doings here. See our nobby styles from 25c. up. Special values in Panama hats, at \$5, Campbell Bros', Kingston's only exclusive hat and fur store.

Dr. Boyce is President. Dr. H. A. Boyce, superintendent of the Kingston General Hospital, has been elected president of the Canadian Hospital Association, which has just concluded its sessions at Niagara Falls, Ont.

Acting as President. Col. R. W. Rutherford, of Ottawa, is acting as president of the board of visitors of the Royal Military College, owing to the absence in England of Col. Sam Hughes. The board held its first session on Thursday afternoon here.

Mayor Got a Ducking. Mayor Graham was down at Anglin's Bay, on Thursday afternoon, working at his launch, when he slipped and fell into the water up to his waist. Luckily, however, he was pulled out by some of the men, none the worse for his cold bath.

Is Still Missing. No trace whatever appears to have been secured of the young man who escaped from the G.T.R. after junction, a few days ago, when in charge of an immigrant agent. Enquiry has been made all over the country, but he has not been seen. The young fellow, it will be remembered, jumped out of the window, just as the train was pulling out of Kingston.

Mark Twain's Works. If you are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan it will cost nothing to get full particulars and a new thirty-two page book, "Little Stories About Mark Twain." Address Box 409, "British Whig office."

Ald. Carson's Suggestion. Ald. John Carson says that the city council should arrange for a big celebration of the day. This is the day appointed by the council for the enjoyment of the citizens, and it should undertake the holding of some kind of a demonstration in honor of the homecoming of the old boys. Ald. Carson says that the committee to arrange for the celebration should be composed of the mayor and aldermen. Here is something for Mayor Graham to work upon.

After the Negligent. The board of health is going to continue summoning to the police court those property owners who have neglected to comply with the board's sanitary regulations respecting the abolition of pits and the installation of modern sanitary closets. There are probably about 100 owners who have failed to respond to the board's order, and they are being looked after by the sanitary inspector. There will be bunches of them summoned before the police magistrate.

Home From Toronto. Fire Chief Armstrong has returned home from Toronto, where he was called to attend a meeting of the executive of the fire chiefs' association. The International Association of Fire Chiefs will meet in Milwaukee, September 19th to 22nd. The fire chiefs have received an invitation to attend the Chicago International Municipal Exposition at Chicago, after the convention. This will be held from September 18th to 30th, and at it all the modern fire appliances will be placed on exhibition, and it will be a great study for the fire fighters. Chief Armstrong will attend the two events.

The Late Miss Hasler. Entered into rest on May 19th, 1911, at the home of her niece, Mrs. John Nixon, East Orange, N.J., Catherine Hasler, aged eighty-four years, born in the county Wexford, daughter of the late Capt. John Hasler, and grand-daughter of the late Sir John Hasler. Miss Hasler resided in Kingston for over forty years, on Barrie street, during which time she has been a most active and faithful worker at St. James' church, and was beloved by all who knew her for her many kind and gentle deeds. The dear one who has just been called to her heavenly home had filled the place of mother in two homes and through her tender thoughtfulness brought sunshine and happiness into every fleeting hour. For the last twenty-two years Miss Hasler had made her home with her niece, Mrs. Nixon, and at the last when death came the loving care of her was shared by her niece, Mrs. V. J. G. Moyle, of Picton, Ont. Many nieces and nephews grieve to mourn the dear one's loss.

THE SPORT REVIEW

OPENING OF SUNDAY SCHOOL BASEBALL LEAGUE.

Brock Beat Queen by 2 to 1—Mayor Graham Did the Opening "Heaving"—The Game Was Watched by a Large Crowd.

Queen street baseball team went down to defeat before the aggressiveness of the sturdy stalwarts who practice daily under the watchful eye of Rev. T. E. Bourke, of Brock street church, at the opening game of the Sunday School A.A.A. Thursday evening, at Victoria school grounds, by the small and close score of 2 to 1 in a five-innings game. For the opening game of the series it was considered by all who were present that it was a good specimen of ball, which both teams handed out to the yelling fans.

The game was scheduled to start at 6.30 o'clock, but owing to a few delays in getting the ground in shape, it was not started until 6.45. Some time was lost in waiting for Umpire "Billy" Wilson, who was to have officiated, but as he did not turn up, "Lank" Walsh acted as substitute. It was no less an important battery than Mayor Graham and E. F. Trimble who formally opened the league. At 6.50 o'clock Mayor Graham, who was none the worse for the ducking he received in the harbor Wednesday afternoon, was conducted to the pitcher's box by President Stanley Trotter and admonished by "his nibs" not to hurt the soft part of Mr. Trimble's anatomy with his wiry curves. His worship heeded the well-timed advice, and let Catcher Trimble down easy with a few slow ones, and the league was declared formally opened.

Queen street batted first, but failed to do anything startling, while Brock street also failed to get started on the scoring line. Burch and "Ding" Pound scored the only two runs which Brock got, in the second innings. In the third innings Brock went down in one, two and three fashion. "Shorty" Pound made a hit to right field, but was put out a little later on a double play, with Drury, when Sleeman struck out to short. In the fourth innings "Slab" Birch, of Queen street, made the spectacular play of the evening. He was made responsible for a triple to left field, which went over the sidewalk on Alfred street. He scored later, getting the only run which his team was credited with. Doherty nearly got the run necessary to tie the score, but was put out sliding home by a very close decision on the part of the umpire, after he had done some magnificent base stealing. In the last innings, Brien, on third, attempted to steal home, but was caught before he got to the plate.

Both teams put up as good a game of ball as one would wish to see, and the hope was expressed by the fans present that all the games would be of the same calibre. These two teams are the strongest in the league, and in looking over the line-ups, one will see that players on the Victorias are found playing against each other, as well as Athletics. Nicholson, centre fielder for the Vics, did duty in the pitcher's box for Queen, against Pound, short stop of the Victorias, who performed in the pitcher's private sanctum for Brock. Cook, of the senior Athletics, played with Queen against Sleeman, one of his team mates, who played short stop for Brock.

Scores by innings: Brock 0 2 0 0 1 0 2; Queen 0 0 0 1 0 1 1. Brock—Attwood, c.; D. Pound, p.; Drury, 1b.; Stagg, 2b.; Sleeman, s.s.; Reid, 3b.; F. Pound, 1f.; Orser, c.f.; Burch, r.f.

Queen—H. Cook, c.; Nicholson, p.; Birch, 1b.; Brien, 2b.; M. Cook, s.s.; Copey, 3b.; Meek, r.f.; Hunter, c.f.; Doherty, r.f.

"Lank" Walsh made a very satisfactory umpire. A collection was taken up and will be continued throughout the season. The association wishes to thank those who turned out and contributed to the collection box, last evening, and will thank them for continued support.

Lawn Bowling Season. The lawn bowling season is now at hand. From now on, there will be lawn bowling in day time, and at night. The green on Queen's campus is being given its finishing touches, and the members of Queen's club are getting rather uneasy to get back at the old game. Arrangements will be made for a series of games as soon as possible. A number of the members were out on the holiday, and had a friendly match.

SKIN ERUPTIONS. Are Ended by Zam-Buk—A Case in Point. William Purser, of 1,385 Elgin avenue, Weston, Winnipeg, says: "As a cure for skin diseases there is nothing to equal Zam-Buk. Some pimples and sores broke out all over my face and defied various remedies, which, from time to time, I applied to them. Not only were these sores unsightly but they were very painful. For over two months I was afflicted in this way until I was advised to try Zam-Buk. I found this balm was entirely different to the ordinary remedies. It reduced the irritation and the smarting pain. The sores from first being annoyed with the balm, grew less and less angry, and then began to drop off. In a short time they all disappeared."

Finest known remedy for eczema, ulcers, abscess, scalp sores, ringworm, children's rashes, chafings, cuts, burns, scalds, insect stings, sore feet, etc. Also cures piles, 50c. box, at all drug stores, or post free from Zam-Buk Co., Toronto, for price. Zam-Buk Soap, 25c. tablet is splendid for delicate skin and for baby's bath.

Accidents Will Happen. In the best regulated families. If they take the form of burns, scalds, cuts, bruises or scratches, the quick relief and the surest cure is "Mecca" Ointment. It removes all danger of blood poisoning and quick ly heals. At all druggists, 25c. for big 3 oz. jar.

VESSEL HAD TROUBLE

GOING THROUGH TELEGRAPH ISLAND CHANNEL.

Steamer Glenmount Still in Dry Dock Undergoing Repairs—Steamer Caspian Will Make First Trip of Season To-morrow—Marine Notes.

According to reports made here, in marine circles, some of the vessels are having trouble in the Telegraph Island Channel, near Belleville. It is claimed that the government had made soundings in this channel and that they reported that it would draw fourteen feet. The other day the steamer Mapleton came through the channel, and it is claimed that she hit bottom several times, and that as a result the vessel will have to undergo some repairs.

It was rumored, that if repairs were necessary, the government would be asked to foot the bill on account of the bulletin issued stating that the channel could take fourteen feet. Local marine men say that about all the channel will stand for is ten feet.

Movements of Vessels.

The steamer Pellatt passed down, and the steamer Strathcona passed up. The steamer Simla left Fort William, Thursday, with a cargo of oats for Montreal.

The steamer Prince Rupert and consort Barnh, leave Fort William today with wheat for Kingston.

The yacht Onward, which was on the ways at the Kingston Foundry, cleared after having minor repairs made.

The tug Florence arrived in port with the barge Ewing. The Ewing will load corn at Richardson's elevator, for Quebec.

At Swift's wharf—The steamer City of Montreal stopped this morning, on her way up and discharged considerable freight. The schooner Abbie L. Andrews arrived Thursday, with a cargo of coal from Oswego, for Swift's. The steamer Althea down from bay ports to-day.

The steamer Caspian will start on her first trip this season shortly after midnight, to-night. The boat has been undergoing a thorough overhauling during the past few weeks, and when she sails early Saturday morning will look just as good as new. The first trip will be made to Charlotte, N.Y.

The steamer Glenmount is still in the Kingston dry-dock. Ten days have not sufficed to put her in commission again after running around near the Crossover light, down the river. The damage which was done at the time to have been very light, has taken longer to repair than was at first thought. A perfect Bedlam reigns underneath the boat.

M. T. Co's elevator—The steamer Canadian arrived from Fort William, Thursday night, discharged a cargo of wheat, flax and barley, and cleared for Belleville, to load cement for Fort William; the steamer Rosemont arrived from the Welland canal, with two coal barges, and cleared for Montreal; the steamer Windsor cleared from Oswego Thursday night at six o'clock, loaded with coal, for Montreal.

JOIN FOR WORK.

The Trustee and Official Board Do General Business.

The Queen Street Methodist church, at a society meeting, last night, elected these representatives to the official board: Messrs. J. E. Clark, J. B. Cooke, W. E. H. Nicholson, W. H. Asseltine, John Kinch, Dr. E. Sparkes, A. Glover. The official board elected the following additional district visitors: Mrs. R. E. Sparkes, Mrs. W. Cobourn and Mrs. R. Meek. The trustee board elected C. D. De Carteret, R. Meek and A. MacNaughton as members of the board. C. De Carteret was elected treasurer. The board voted to unite with the official board for general business.

Water Wet and Muddy.

"A Citizen" writes: Cataract warders think Mayor Graham was looking for a site for a bathinghouse yesterday, but he tried a bad place when he went in Anglin's Bay, as the water is wet and muddy down there.
