COLD KILLS THE GERM.

Ident. Perry Says There Are No Cold Heads in the Arctic Region.

The people who come back from Klondike testify to the fact that no native cold heads are there. The evidence is that the cold climate kills the germs that eat the hair off at the root. Ident. Perry, who went to the Arctic Regions, gives the same evidence. Newlar's Herpicide has the same effect as the cold climate. It kills the germ that eats the hair off at the roots, and the hair grows again. Herpicide is the first hair remedy built upon the principle of destroying the germ that eats the hair off. It phenomenal sale demonstrates the correctness of the scalp germ theory.

Sold by leading druggists. Send 10c stamps for sample to The Herpicide Co., Detroit, Mich. \$1 bottles guaranteed. James H. McLeod, druggist, special agent, Kingston, Ont.

Have You a Rheumatic Friend?

If the reader of this has a friend or relative suffering from rheumatism it would be well to clip this prescription and present it. It is probably the most effective, prompt and reliable treatment for all forms of rheumatism ever prescribed. The ingredients are of common use, but the recipe seems to lie in the exact combination of the ingredients and pure drugs. Have a reliable pharmacist mix it.

Idiote of Potassium 2 drams.
Sodium Salicylate 4 drams.
Wine of Colchicum 1-2 oz.
Comp. Elix. Cardui 1 oz.
Comp. Fid. Balmwort 1 oz.
Comp. Syrup Sarsaparilla 3 oz.

Mix and begin by taking a teaspoonful after each meal and one at bedtime. After the first week gradually increase the dose to two teaspoonfuls. Truly wonderful relief is experienced, and if persisted in a cure may be assured.
