THE SPORT REVIEW

MERCANTILE BASEBALL OPENS THIS EVENING.

When Bankers and Locomotives Meet—Brock and Bethel Will Play a Sunday School League Game.

The weather this afternoon looked very threatening for the opening of the Mercantile Baseball League, this evening. The rain yesterday afternoon made the diamond very wet, but it was thought that it would be in very good condition. George McKay and John McDonald will form the battery for the opening event. It is confidently expected that first game between Bankers and Locomotives will be one of the best of the season.

Sunday School Game.

Brock and Bethel will be the opposing teams in the S.S.A.A.A. baseball series this season. This is Bethel's first game in the series, and the fans are wondering what kind of a team last year's champions are putting in the field. It is rumored that the team is not nearly so strong as it was last year, on account of losing four of its best players. This game will be at 6.30, while the Mercantile game is at five o'clock.

Muckler's Gameness.

Muckler's arm is reported to be no better and it will probably be a month before he will be back in the box again for the Athletics. It may not be generally known that his sore arm is not from pitching alone on Victoria day. While McMahon was sliding to a base his spike came in contact with Muckler's forearm, inflicting a gash nearly the whole length of the arm and down on the hand. In spite of this wound he pitched four innings on Saturday. Either McMahon or Walsh will twirl on Saturday in their game with the Locomotives. Manager Stansbury has not decided just yet who he will put at short stop and third base in place of Hunt and Dick, but the names will likely be announced Friday. This game with the C.L.C.'s will be much better than the one last Saturday.

Games Postponed.

The Queen-Retailer exhibition game and the minor S.S.A.A.A. game which were scheduled last evening had to be postponed on account of the storm.

Baseball on Wednesday.

Eastern league—Baltimore, 6; Providence, 5. National league—St. Louis, 4-15; Cincinnati, 2-8. American league—Washington, 3; New York, 2.

He was immediately rearrested and sent back for fifteen days for securing liquor under false pretences from a saloon. He will probably face other cases as soon as he is again released.

He was re-arrested, charged with grand larceny, laid by J. J. Tynah, under the state law which makes it grand larceny to use an employer's automobile without permission.

A Cstly Hug.

Putnam, Conn., June 1.—In the city court here yesterday, William Hodge, twenty-seven years of age, of Plainfield, was sent to jail for a year and fined \$265, for placing his arms about a woman when she passed him on the street. This is the heaviest penalty ever imposed in the state for a similar offence.

FRONTENAC CHEESE BOARD.

Sales Made at the Cheese Board on Thursday.

The president, Frederick Ferguson, occupied the chair at the regular meeting of the Frontenac cheese board held Thursday afternoon, in the general committee room, at the city hall. The buyers present were: Messrs. Murphy, Glenn, Alexander, Gibson, McGrath, Thompson and Vallant. The board's sales amounted to a total of 476 white cheese, and 814 colored: White—Battersea, 69; Excelsior, 35; Glenburnie, 69; Sand Hill, 35; Sunbury, 70; St. Lawrence, 50; Silver Springs, 26; Thousand Islands, 30; Wolfe Island, 50; McGeath's, 60; total, 476.

Colored—Hinchinbrooke, 35; Arigan, 34; Battersea, 29; Elm Grove, 50; Cold Springs, 70; Glenvale, 60; Gilt Edge, 50; Howe Island, 40; Latimer, 60; Morning Star, 60; Model, 90; Ontario, 24; Rose Hill, 90; Elginburg, 71; Frontenac, 50; total, 814.

These sales were made: At 10c. L. W. Murphy secured Battersea, Excelsior, Glenburnie, Sunbury, St. Lawrence, Silver Springs, Thousand Islands, Latimer, Gilt Edge, Rose Hill, Howe Island, Morning Star and Model.

At 10c. J. McGrath bought Sand Hill, Elm Grove and Arigan.

At 10c. Mr. Gibson secured the offering of Ontario.

The board had quite a discussion over rates and regulations of the board. The matter was brought up by the president, Frederick Ferguson, who explained that he had been accused of not carrying out the rules of the board in respect to making the buyers pay for the cheese on the day of delivery. Mr. Ferguson said that there was a rule of the board that all cheese must be settled for on delivery, but that it was up to the board to say whether or not this should be carried out. As president he was willing to have the rule carried out if it were so decided.

F. W. Vallant said that if any salesman wished to wait for the payment of cheese he did not see why any objection should be taken. If it was satisfactory to the salesman it was his business, and should not concern the other members of the board.

L. W. Murphy and Mr. Navis held that the rule of the board should be enforced, and that all the buyers should be made to settle for cheese on delivery.

After a good deal of discussion, it was finally decided upon a rule, being taken to have the present rule, calling for the payment of cheese on delivery, carried out.

Why should a man make a fool of himself when there are so many women anxious to do the job?

A CORNER IN WHEAT

BOUGHT BETWEEN 12,000,000 AND 15,000,000 BUSHELS.

Must Have Delivery—Are Insisting Upon Having Every Bushel—Investigation to Follow.

Chicago, May 31.—The leaders of the present May wheat deal have, it is said, bought between 12,000,000 and 15,000,000 bushels of wheat for May delivery, and it is not believed that this amount can be turned over by to-night, although during the last few days heroic efforts have been made to get the wheat here. The bull leaders insist on the delivery of every bushel they have purchased. Officials of the board of trade are somewhat exercised and deplore the "deal," as it is against the rules of the institution and some rather drastic investigations may follow the wind-up of the latest sensations in speculation.

The directors have been carrying on an investigation for some time relative to the same matter, but the result of their findings will probably not be made public for several days. It is held that corners are detrimental to the board of trade as a legitimate institution for the merchandizing of grain. No attempt at production of the cash wheat market was made by the owners of the May delivery wheat on Monday. Advantage was taken of technicalities by leaving the cash wheat of contract grade to find such market as it could. If it can be transferred to the regular public elevators to-day before the close of business, it will be accepted at May price; otherwise it will go at current cash prices, or on the basis of July delivery. It thus transpires that contract grade wheat on Monday in car lots less than ten miles away from the pit, where May delivery was bringing 103.
