WANT LADDER TRUCK

COUNCIL WILL BE ASKED TO PURCHASE ONE.

Fire and Light Committee Recommendation of Expenditure of \$1,475 for New Truck—Fireman Craig Resigned.

That a new ladder truck be purchased for the fire department, at a cost not to exceed \$1,475. The fire and light committee will make the above recommendation to the city council at its next session. This was the decision arrived at by the members at their regular meeting held on Friday afternoon. The question of securing a new truck, or repairing the old one, has been before the committee and the council now for several weeks.

The committee called for tenders for repairs to the old truck and it was announced that but one tender had been received. This was presented by James Laturney. He asked the sum of \$925 for the repairs of the old truck and would only guarantee it for two years. This was not looked upon as being favorable by the members of the committee, no action being taken on it.

The committee will report to the council that tenders were called for repairs needed to the old truck, and that it is deemed advisable to expend the sum already mentioned on a new truck.

An estimate of the cost of a new truck was given at \$1,375, and it looked that at this figure \$925 for repairs was altogether too high.

It will be remembered that the truck was reported as being unsafe for use. The fire chief reported that a new truck was needed and believed that it would be a good policy to secure a new truck instead of paying out money for repairs for a truck which would, even after repairs had been made, last but a short time.

Ald. McCartney said that if the money could be obtained the new truck should be secured.

The chairman said that the money could be secured, whereupon Ald. McCartney said that the truck should be purchased.

Ald. Fraser also very strongly favored purchasing a new truck.

The chairman, Ald. Givens, believed that the sum of \$1,000 would be sufficient to pay for a truck. Ald. Hoag said he did not think the council would pass a recommendation for the purchase of a new truck, whereupon Ald. Fraser stated that he could not see any good rea-

son why council should object to the expenditure. The chairman said there appeared to be a great deal of objection to the expenditure of money, and that the old truck would do.

There was a brief discussion on the old question, which has been on several occasions, that of allowing the board of works the use of hose from the fire department.

The chairman stated that he and the fire chief had been visited upon by Ald. Toyn and the city engineer, on behalf of the board of works, when a proposition, made by the board of works, which was looked upon as most favorable, had been accepted. The offer from the board of works was that the board this year purchase fifty feet of hose, at a cost of \$35, and hand it over to the fire department, with the understanding that next year the board of works make provision for its own hose.

Fire Chief Armstrong presented a report in which he stated that he had received from the citizens of Leavitt a cheque for the sum of \$42, of which \$6.10 was for the expenses incurred, in responding to their call for assistance, the balance to be divided among the members of the fire department.

The chief also reported that he had received and accepted the resignation of Donald Craig, who had been a member of the department for about a year and a half, and to fill the vacancy he had appointed Thomas Hoag as driver of the steamer at No. 2 station.

The following changes were made as a result: Fireman Frank Burns, transferred from steamer to driver of ladder truck; Alvin Lutz, transferred from ladder truck to driver of hose wagon; William Roberts, transferred from driver to hoseman on hose wagon.

The chairman, Ald. Givens, presided at the meeting, and also present were Aids. McCartney, Fraser and Hoag.

TROLLEY IS DOOMED.

Storage Battery Will Replace It, Declares Edison.

THOMAS EDISON.

New York, June 3.—The genius of the young electrical worker working along storage battery development lines will not leave Edison out of business, Thomas A. Edison predicted in an address, before the convention of the National Electric Light Association in this city.

"Yes, the trolley car is going to be put out of business," Mr. Edison said in answer to a question. "After a while there won't be any trolleys."

"I'm not a clairvoyant," he replied, with a wave of his hand towards the delegates. "I don't know what these bright young fellows can do, but they are a great lot."

DECIDE NOT TO SUBMIT

BRIDGE PURCHASE BY-LAW UNTIL LATER ON.

Civic Finance Committee Instructs City Engineer to First Submit a Comprehensive Plan as to What Should be Done.

It was the desire of Mayor Graham to submit to the city council on Monday evening a by-law for the purchase of Cataract bridge, which was decided upon at the council's last meeting. The civic finance committee, on Friday evening, took up the question and decided that it would be unwise to submit the by-law to the people at the present time, as it should first be known exactly what is to be done with the bridge when it is purchased.

It was decided to instruct the city engineer to engage what expert assistance he required, and prepare for the committee a comprehensive report as to what the city should do to the bridge in the event of its purchase. It was felt that when the by-law is submitted to the people, it should be for such an amount as would not only buy the bridge, but cover the cost of improvement or rebuilding. The engineer will take up the question of making a wider span in its making, the nucleus of extensive wharfage, etc. It may be a couple of months before the matter is dealt with by the city council.

IN SPORTING CIRCLES.

St. James Defeated Queen Street by 18 to 3.

In a runaway game at Victoria school grounds, Friday evening, St. James won their second scheduled match, defeating Queen street by 18 to 3. St. James had it over their opponents like a tent from the start, and Queen knew it for during the latter part of the game had lost what here they had in it at the start.

St. James' team has so far proved itself to be the strongest team in the league, winning their first game from Cooke's by the score of 9 to 4, and if they keep this pace will surely land the cup.

Prock Street Methodist church Sunday school is making preparations to hold its annual picnic on June 29th. Prock street baseball team counted as the strongest in the Sunday School League, will have an exhibition game with some other team in the league.

ROYAL SALUTE TO BE FIRED.

In Macdonald Park in Honor of the King's Birthday.

This is the first generally proclaimed birthday of His Majesty, King George V. Last year the day was observed only in official circles, but hereafter it is to be a public holiday. Owing to June 2nd, falling on a Saturday this year, it was not observed by the citizens generally, so far as closing of business was concerned. The government institutions were closed as usual, and so were the banks. The stores, however, were open, and the newspapers found it necessary to publish, although issuing at 11 a.m. Flags were flying throughout the city.

At Macdonald park at noon, a royal salute is to be fired in honor of his majesty, by "A" battery, R.C. H.A.

HE DELIBERATELY FIRED

ON THREE GREEK BROTHERS AND KILLED ONE.

An Italian Was Angered Because Greek Farm Hands Were Employed—He is Being Sought by a Posse.

Woburn, Mass., June 3.—Deliberately firing at three Greek brothers, Louis Vincenzo, an Italian, killed Thomas Calizas and probably fatally wounded John Calizas on the farm of Ellis H. Marshall here. Vincenzo ran in to a nearby woods before astonished laborers who witnessed tragedy, realized what had taken place. The police were notified within a short time and the woods of Woburn, Winchester and Arlington were searched by a posse.

Fifteen farm hands were resting in a farm building during the Friday noon hour. Thomas Calizas was taking a nap when, without warning, Vincenzo is said to have drawn a revolver and started firing. Anger, because Greeks were employed instead of Italians is given as the cause of Vincenzo's attack.

Suit Over Stick Pin.

John E. Wilmot, jeweller, of Ottawa, is suing Dr. C. F. Magee, of Carp, for the value of a pearl and diamond stick pin. The doctor found the pin in a package of purchases he had made at Mr. Wilmot's store, and by mistake Mr. Wilmot replied to send it back to him by registered mail. Instead, Dr. Magee sent it to Ottawa by his brother. The latter says he left it at Mr. Wilmot's store. Mr. Wilmot says it never reached him and that it should have been sent as he directed. The case is being watched with interest. Mr. Wilmot is formerly of Kingston.

SLEPT OUT IN BARNS.

And Had a Rather Rough Time of It.

Although he had \$36.15 in his possession, when he was arrested, William Green, the blind man, who was taken in charge on Friday, refused to pay for meals for himself, while he was in the cells. As a result he was given the regulation bill of fare, which calls for bread and water.

The authorities looked after the nephew, however, who is only sixteen years of age. He stayed at a hotel here, and also had his meals there. There is no charge against the lad, so he had to be given some attention.

According to the story told by the lad he and his uncle have been travelling all over the country, and the youth has had a very hard time of it, he says.

He states that while tramping around the country he and his uncle slept in barns, and in any other place they could get to stay, and that sometimes they had very little to eat. The uncle, although they secured quite a sum of money from begging, would not spend it. As a result the lad was forced to make his bed in a pile of hay in some barn many a night, suffering at the same time from hunger.

The lad also states that he only had one change of clothing all winter. Half the time he never had his clothes off his back, as a bed was practically unknown to him.

Leaving for Montreal.

James Irvine, of the engineering department, of the Kingston & Toronto railway, with headquarters in this city, has been given a position in the engineering construction department of the Canadian Pacific railway, at Montreal, and will leave on Friday next to take up his new duties. Mr. Irvine was formerly with the C.P.R. at Montreal and came to Kingston two years ago. "Jimmy" has a host of friends here who are sorry to see him go, but wish him the best of success in his new position, which is quite a promotion for him.
