### PRIZE TO WORKING WOMAN.

Painted When She Learned She Was Independent.

Paris, June 5.—There was a mixture of pathos and joy at the Credit Foncier in Amiens the other day when the drawing of lottery bonds took place. On the winning number of a prize of \$20,000, being called out, a woman jumped to her feet, waved a small piece of paper, shrieked and fainted. She was Mme. Dourdin, a hard-working tailoress, fifty-eight years old, who had invested \$100 against a rainy day.

Mme. Dourdin bought lottery bonds with the money and the winning of her prize has made her independent.

### RESULTS FROM KIDNEY TROUBLE.

Sick kidneys make you feel sick in a number of ways and it is now known that a nervous condition often arises from kidney trouble. When the kidneys are sick the whole nervous system becomes irritated, causing headache, dizzy spells, fits of "nerves," neuralgia, etc., and the nerves become painful, weak eyesight, quiet tired days, and a constant inclination to worry over trifles.

A Newspaper Poll Results in a Three-to-one Against a Trade Agreement With Canada.

Chicago, June 5.—The Tribune publishes the results of a poll of newspapermen in twenty-two central, western, south-western, north-western, and Pacific states on the question of approving the reciprocity agreement with Canada.

To more than ten thousand newspapers, representing every shade of political opinion, The Tribune submitted this question. The replies numbered 4,363, of which 4,240 were definite, even if qualified, expressions of opinion.

Of these, 3,143 were in favor of the agreement, and 1,127 against it—nearly a three to one vote for the policy advocated by President Taft. The newspapers, daily and weekly, which give the verdict are representative of public opinion. They are safe guides in the sentiments of the communities in which they circulate.

The weekly papers outnumber the dailies in the proportion of eight to one, and it may be assumed safely that the poll is an expression of agricultural as well as urban sentiment.

OF THE UNITED STATES CUSTOMS DEPARTMENT.

All Animals Taken Out of the U.S. Will Be Liable to Duty on Return  
—Refers to Hackmen as Well.

Washington, D.C., June 5.—The customs court has given a decision which promises to bring customs collectors into even greater unpopularity. Three words in one section of the Payne-Aldrich law have been construed to mean that any American-born animal once taken out of this country must pay duty to return. It is held that the law applies to all animals, from pet poodles to draft horses. Henceforth customs collectors have been allowed to exercise some discretion in enforcing the provision; thereafter they will have no alternative and the following will be some of its effects:

An American woman who takes her pet poodle to Europe will have to pay duty on it when she returns. Collector Loeb, at New York, has begged the treasury department to allow him to wink at the law, but has been advised that the government will allow no winks.

A Niagara Falls hackman will no longer be allowed to drive his fare across the Gorge to the Canadian side of the waterfall, unless he is prepared to pay full duty on his horse when he comes back. There is no provision by which he might put up a bond guaranteeing his return.

Many Americans who have summer homes in Canada, and usually take their horses and dogs with them, will be confronted with a duty when they return.

At some places along the border, customs officials say, the enforcement of the law will amount to a restriction of commerce between cities.

Many teamsing is done between Detroit and Windsor over the ferries.
