WORK IN THE MISSIONS

ADDRESSES GIVEN AT THE CONGREGATIONAL UNION.

Rev. F. W. Macallum Told Story of Terrible Massacre in Turkey—Great Progress in the Work in British Columbia.

The Friday evening session of the Congregational Union was given over to home and foreign missions, when three very interesting addresses were delivered by Rev. W. J. D. Gibson, of Victoria, N.S.; Rev. H. A. Carson, of Victoria, B.C.; and Rev. F. W. Macallum, of Constantine, Turkey. The attendance was good. The choir assisted in the musical part of the programme, and Miss Hazel Masie rendered a fine solo.

Rev. Mr. Macallum told the story of the terrible massacre in Turkey, a few years ago, stating many of his best friends and workers had met death. At the meeting of the union there a year ago, it was reported that twenty-one members of the union had been killed, and they were all men who were doing well in the work, and had a great future. One could imagine, the speaker pointed out, the loss of the union now in session in Kingston, would suffer should they lose twenty-one members. One church and all its members had been completely wiped out, not a single member of the church being left. In these terrible times one would hardly speak on the street, and to keep silent was also to lead you into trouble, as it was then thought.

REV. JAMES W. PEDLEY, D.D., of Toronto, who preaches the annual Union sermon on Sunday evening.

that you were thinking and planning to do something.

It was estimated that at least one thousand Mohammedans had been put to death, the most of them with terrible suffering.

At the present time all the trouble was at an end, and there was great joy. Even the restrictions on travelling had been removed. At one time it was very hard for travellers and even the missionaries, to go from one province to another if they were caught travelling they were put in jail; the speaker had never been put in jail, but had been the next thing to it, as he had been for five days under guard. Many of his associates had been imprisoned, and one had been charged with murder. Even a great check was kept on the newspapers in Turkey, all copy having to be inspected by the powers that be, before it could go to the press. Now however, the copy was not inspected before being put in the paper, but the paper, of course, was held responsible for all it printed. Even at the time President McKinley was shot, it was not made known to the people that he had been assassinated; it was stated that he had been taken suddenly ill, as they did not want the people to know that a ruler had been killed by the people.

The speaker said at the present time there was a great industrial awakening in Turkey, and this was doing away with the poverty, which had been one of the great obstacles in the work being carried on there. The educational problem was also being solved. All children were compelled to go to school.

There had also been a great change in the army, a new spirit having entered into it. Before, the army had been made up entirely of Mohammedans; now there were thousands of Christians and Jews. They were all well treated, and happy. The one request the rulers had to make was that they be left alone, as they were very much afraid that some day they will be attacked, and engaged in war, again. However, the missionaries do not intend to leave them alone, but will continue to give them the message of the gospel, and teach them true liberty in Christ.

The speaker stated that Y.M.C.A.

work was being well built up in the country.

Rev. Mr. Gibson spoke of the work being done by the churches in the maritime provinces, or "churches down by the sea," as they were termed. He referred to the noble work carried on by the veterans in the early days, and stated that the good now being done, was due to the good calibre of the men who had made a start in the work.

Rev. Mr. Carson dwelt at some length on the work in British Columbia. Great progress had been made, and the days to come would be the very best days of the life of the country. The future held many attractions. The country afforded wonderful opportunities and resources.

QUEEN'S MEN AT ASSEMBLY.

An Old Queen's Graduate Writes From Ottawa.

An old Queen's graduate has written the following regarding ex-Queen's students, for the Whig. Many Queen's men are now attending the general assembly in Ottawa:
It is much commented on that there are so many Queen's graduates at the meetings. This may be partly accounted for from the fact that the relation of Queen's to the church will be a burning question at the assembly.

Robert Campbell, D.D., of Montreal, is, of course, in the clerk's chair, frequently guiding the gathering through the intricacies of church law.

D. R. Drummond is there from Hamilton, and on the other hand, from the west we note James Watson, of Minnedosa, Man., John M. McLean, of Ypres, River, Man., and David Fleming, from Dauphin. Dr. Gordon, Prof. Laird and John and G. M. Macdonnell are here. Principal Gaudier, George Campbell, M. G. Back, Harvey Carmichael, H. L. MacLean, W. H. G. Milne, W. McElroy, L. H. Turnbull, A. H. Scott, Stuart G. Woods, and a multitude more. These men do their full share of the work of the assembly, and your correspondent noted the eagerness with which they entered into its proceedings.

It is needless to say that they are clamorous and close in their "foregatherings" and stories true in all particulars and new, and some colored like a pipe stem with age and use are freely circulated and enjoyed as of yore. It is a friendly office to laugh at old jokes and polite to receive them as new. Queen's is likely both to go and to grow with such an esprit de corps is maintained amongst her graduates.

LETTERS TO THE EDITOR.

A Statement Made by J. R. Donaldson, of Board of Education.

Kingston, June 10.—(To the Editor):—Being unavoidably absent from the Board of Education meeting Thursday night, I was surprised that the "forum or committee" referred to a matter that had been dealt with at a previous meeting. In answer to Trustee Farrell at that meeting, I stated that I had been improperly canvassed to vote for the Kenny site, and I also gave a trustee's name with whom I had consulted about the incident last fall. I did not take seriously the farcical "royal commission" in their efforts to chase down street rumours and public criticism more or less justified, but note that they did not present the reasons why Chairman Macneil, of the property committee, told the board's committee held an option on the Kenny site for \$2,500 and subsequently purchased it at an advance of some \$800.

The property being bought last October for \$1,900 and sold for \$3,300 would indicate a real estate boom or an easy committee where they were spending other people's money.—J. R. DONALDSON.

SUNDAY SCHOOL BASEBALL TEAMS IN TROUBLE

For Violating Rule Regarding Eligibility of Players—Wormwits and Retainers Play Monday Evening.

The action taken by some of the teams in the Sunday School Baseball League is such that a great deal of criticism has been forthcoming from those interested. From those who are on the inside of things which concern this league, it has been found that two of the teams are playing men who have no right to be on the teams. At the beginning of the season each club hauled in the names of fifteen men who were to be picked from to form a team. Some good players have returned to the city and have been grabbed and played without a certificate. Others have confessed that they have not attended Sunday school at all. An executive meeting of the Sunday School A.A.A. has been called for next Wednesday evening, when the matter will be discussed.

Printers Arranged Game.

The Printers have arranged for an exhibition game to be played with Bethel team, Monday evening, at seven o'clock, at the fair grounds. The following players have been requested to turn out for the Printers: Gaudier, Crozier, Holland, Beaupre, Edwards, Joyce, Williams, Horner, Woodrow, Derry, Thornton, Newman and Garrigan.

Wormwits vs. Railroaders.

Wormwits and Railroaders will make their initial bow to the Mercantile Baseball League Monday evening, when their first game will be played. Very little information concerning either team has been forthcoming, but it has been whispered that Wormwits will be scarcely able to hold the ropes this year. An idea of their strength may be gained from the fact that in an exhibition game with Bethel they only won out by the score of 5 to 4. The next evening Bethel was trimmed by Cooke's 20 to 0. Railroaders will be without the services of Millan, who is playing with Civil Service. Beyond this their team will be unchanged.

BUSINESS WOMEN.

A Lunch Fit For a King.

An active and successful young lady tells her food experience: I suffered from nervous prostration, induced by continuous brain strain and improper food, added to a great grief. "I was ordered to give up my work, as there was great danger of my mind failing me altogether. My stomach was in bad condition (nervous dyspepsia, I think now) and when Grape-Nuts food was recommended to me, I had no faith in it. However, I tried it, and soon there was a marked improvement in my condition. "I had been troubled with faint spells, and had used a stimulant to revive me. I found that by eating Grape-Nuts, at such times, I was relieved and suffered no bad effects, which was a great gain. As to my other trouble—nervous prostration, dyspepsia, etc.—on the Grape-Nuts diet they soon disappeared. "I wish especially to call the attention of office girls to the great benefit derived from the use of Grape-Nuts as a noon luncheon. I was thoroughly tired of cheap restaurants and ordinary lunches, and so made the experiment of taking a package of Grape-Nuts food with me, and then shipping out at noon and getting a mickle's worth of sweet cream to add to it. "I found that this simple diet, finished off with an apple, peach, orange, or a bunch of grapes made a lunch fit for a king, and one that agreed with me perfectly. "I threw so on my Grape-Nuts diet that I did not have to give up my work at all, and in the two years have had only four lost days charged up against me. "Let me add that your suggestions in the little book, "Road to Wellville," are, in my opinion, invaluable, especially to women." Name given by Canadian Postum Co., Windsor, Ontario. Read "The Road to Wellville" in pkgs. "Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

ON A BICYCLE TOUR Hall Furniture

TORONTO COUPLE ARRIVED IN THE CITY.

Mr. and Mrs. H. Miller are Making a Trip of Ten Thousand Miles—Going Through Eastern Counties and New England States—Will Take Year for Trip.

On a bicycle tour, which will consist of ten thousand miles, Henry E. Miller and Mrs. Miller, arrived in Kingston on Friday afternoon, and paid the Whig a call.

The couple started out from Toronto, their home, on Saturday last, and it is their intention of making a tour of all the eastern counties, including Quebec, and the New England states.

They are making the trip without funds as it were, the only money they receive on the trip being the money they realize from the sale of a small photograph of themselves and their wheels.

Mr. and Mrs. Miller stated that they were in good health, and were enjoying the trip very much. And they certainly look the picture of health.

When they started out from Toronto, Mrs. Miller says that one of her friends stated that she would last on the trip about as far as Oshawa, the first stop on their route, but she is confident that she will be able to give all her friends a surprise. The couple are attired in khaki suits, and a small suit case serves as a trunk for the change of clothing they carry. It is impossible for them to carry a great deal.

The visitors state that they have found the roads so far very good. The rain of last week interfered somewhat in their plans, but they are making good progress. They were caught in the heavy shower on Tuesday of this week, and both got a thorough drenching. They state that the farmers along the route have treated them royally. They are looking forward to a most pleasant time on the remainder of their trip. They expect it will take them a year to make the round trip.

Mr. and Mrs. Miller have a book for the signatures of the mayors in the different places they call on their trip. They dined upon Mayor Graham while here.

The Cheque Comes Back.

A letter from J. L. Whiting to the Japanese town council has brought a return of a \$500 cheque, given as a guarantee of good faith when he tendered and not as a guarantee of the contractor's satisfactory completion of the work. W. S. Herrington, the town solicitor, agreed with the contention of Mr. Whiting and suggested that the cheque be returned.
