## WORK OF THE MISSIONS

### (Continued from Page 5.)

At the Saturday-morning session of the Congregational union, Rev. Mr. Mershon led the devotional hour from nine to ten o'clock. Rev. J. T. Daley continued his morning addresses, which are so thoroughly enjoyed. At ten o'clock business was resumed. The business committee submitted the docket for this session.  
Delegates were appointed to attend Toronto conference, consisting of Revs. J. W. Pedley, E. D. Silcox and H. O'Hara.  
On motion, ministerial standing in the union was referred to the executive to enter into communication with the associations and report at next meeting.  
The business committee was asked to draw up a suitable resolution in regard to the coronation of George V. Rev. Dr. Schofield reported on behalf of the Peace and Arbitration Society, submitting the following resolution: "That this union desires to put on record its great satisfaction that a treaty of arbitration has been agreed upon by Sir Edward Grey and President Taft, representing their respective governments, looking to the submission of all questions which may arise between Great Britain and the United States to a board of arbitration with mutual agreement to abide by a decision of such board. We believe that the effect of such a treaty will be far-reaching, that it will do much for the extension of the principles of arbitration as a method of settling international difficulties and help the ultimate realization of permanent and universal peace. A century of peace between Canada and the United States has demonstrated that war with its terrible wastes is unnecessary between Christian nations. We, therefore, hope all our churches and people to use their influence to the promotion of peace and good-will among the nations and to discourage the spirit of national jealousy and hatred."  
On motion, further discussion was postponed till next session.  
Rev. Dr. Warriner reported on behalf of the church union committee. There was nothing specially new in the report, reference being made to the result of the action of presbyteries and conferences. The committee appointed a year ago did not feel that the time had come to make any definite report. The continuance of the committee was ordered.  
The next matter taken up was the Ne Temere decree. The resolution bearing on this question has already been published. It is not necessary to say that the discussion was intensely enthusiastic. Mr. Laboureneau, of Montreal, was heard as to the legal aspect of the question affecting the province of Quebec. Mr. Melachlan also spoke as a registrar of marriages in Quebec. The original motion was carried unanimously. The meeting adjourned at 11.30 o'clock.
