RAGING HEADACHE STOPPED AT ONCE

When He Took "Fruit-a-tives"

SHANLY, ONT., Sept. 23rd, 1910.
"You certainly have the Greatest discovered Headache Cure in the world. Before "Fruit-a-tives" came before the public, I suffered tortures from headaches caused by Stomach Disorders. "One of your travellers called on me when I had one of my raging headaches and had my head almost raw from external applications. "I hated to see any person coming into the store (much less a commercial traveller) and I told him very curtly that I had a headache but he insisted on my trying "Fruit-a-tives".

"I did so, with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health. I was 65 years old yesterday and have been a general store keeper at the above address for twenty-five years".

WM. PITT
As Mr. Pitt says "Fruit-a-tives" is the greatest headache cure in the world. Dealers everywhere have "Fruit-a-tives" at 5c. a box, 6 for \$2.50 or trial size, 25c. or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

A Handsome Souvenir.
Handsome souvenir booklets issued by the railway companies in connection with holidays and festive events have been the order recently, which have called for the utmost ingenuity on the part of designers in evolving something new and artistic, without exceeding the bounds of good taste. In this line few brochures so far published have been superior to the souvenir put out by the Grand Trunk railway covering the itinerary of the visitors to Montreal from the Massachusetts Real Estate Exchange. The cover is in heavy brown paper, bearing crests of the Grand Trunk and Central Vermont in embossed gold lettering. The inside covers are of Chinese water paper and the photographs and reading matter are printed on heavy calendered sheets. There are fourteen handsome pictures of scenery along the lines of the Grand Trunk and Grand Trunk Pacific, and views of the new hotels and stations being erected by the company at Ottawa and Winnipeg. In the back of the book is a map of the G.T.R., G.T.P., and Central Vermont systems, on Japanese rice paper, with deckled edges.

A Rigid Shaving Edge

The GILLETTE blade, thin enough to take a perfect temper, yet held absolutely rigid between the two plates of the frame, shaves as no other razor can shave. You know how the thin, tapering edge of the old-fashioned open-blade razor vibrates till it fairly rings when it strikes a stiff beard. The thin blades of other safeties are free to do the same. That's partly why they pull and gash. But the GILLETTE edge, the keenest and finest of all, is clamped so firmly that it cannot vibrate or spring away from its work. Note how the curved outer plate presses the blade down tight against the teeth of the guard, making the edge perfectly rigid. That is why it slips through the toughest beard so smoothly, quietly and easily. The genuine comfort of the GILLETTE shave is a revelation. Why deprive yourself of it any longer?

Salvador BEER

THE FAMOUS NATIONAL DRINK
There's a story behind "Salvador" beer—Canada's most famous brew—that carries us back to the year 1651

The Grand Duke Ferdinand, the Bavarian monarch of that period, established the now famous cloister brewery on the Nockberg Mountain, near Munich, and appointed Father Sale the chief brewmaster. The product of the royal brewery was first known as "Father Sale's Beer," until the more convenient title of "Salvador" was adopted, about a century later. For over 150 years "Salvador" was brewed under the patronage of the Bavarian royal family. In 1890, Franz X. Zacherl acquired control of the cloister brewery and purchased the secret formula of the royal brew. From that day to this the formula and sole European rights have been the most jealously guarded inheritance of the famous brewer's family. The rich, mellow flavor of "Salvador" is only attained by a special aging process, and if the output of the cloister brewery was great enough the people of Bavaria would drink no other beer.

Mr. Lothar Reinhardt completed his extensive studies of German brewing in this famous cloister brewery, where he secured the secret formula and process for brewing "Salvador." He has the sole right under the Canadian Government Copyright and Letters Patent to manufacture this famous brew. Reinhardt's "Salvador" has become "The National Drink" by a vigorous adherence to every detail of the original process devised by Father Sale in 1651. Compared with all other brews, "Salvador" beer is worth a dollar a drop, yet it costs no more than just ordinary beer. Every pint of "Salvador" is matured in wood for at least six months before bottling. "Salvador" is not only a pure, sparkling and refreshing brew; it also possesses tonic qualities which make it the best beer for family use.

Always order "Salvador" if you want the best beer brewed.

THREATENED WITH PARALYSIS
Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay in bed for weeks and was unable to get up. I became very despondent and didn't care whether I lived or not. I imagined every body who looked at me guessed my secret. I imagined dreams at night, and my back ached, and my head and feet were cold, tired in the morning, poor appetite, nerves were shaky, eyes blurred, hair loss, memory poor, etc. Numbers in the fingers and in the hand the doctor told me he feared paralysis. I took all kinds of medicine and tried many first-class specialists, but received little benefit. I was obliged to consult Dr. J. H. Kennedy & Dr. E. H. Kennedy, because I had lost all faith in the medical profession. I consulted them through the New Method Treatment and it saved my life. The improvement was so rapid that I felt the vigor pour through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so."
