

## THE CHARGE OF BISHOP MILLS

### To the Synod of Ontario Diocese on Tuesday Afternoon.

#### Fiftieth Anniversary of Diocese—Reference to Ne Temere Decree and Reciprocity—Resents Statement That Reciprocity Means Annexation.

Bishop Mills delivered the following charge to the Synod of Ontario on Tuesday afternoon, in St. George's hall:

Rev. Brethren and Brethren of the Laity: We celebrate to-day the fiftieth anniversary of the birth of this diocese. A birth, whether of a human being, or of an organization, is always a very solemn event, because of the possibilities and responsibilities connected with it, the destiny which it is to work out. The birth of a diocese is peculiarly interesting, as it also its after life and history. It has to do with the development and highest interests of a country, and with the supreme interests of men. It will be interesting, therefore, at this time, to look back at the history of the church in this country, the different steps in its advancement, and the circumstances which eventually led up to the formation of this diocese—the jubilee of which we are now celebrating. One thing we can see plainly, and that is that the Lord has been leading us, and has done great things for us, whereof we may well rejoice, and has prospered His work in our hands. He has heard our prayers. While watching over, and blessing us, He has been trying, testing, proving, as well. The history of God's dealings with His ancient people constitute a mirror in which we may see ourselves reflected, and from which, if we will, we may gather an understanding of our own history, and draw lessons for our own instruction and guidance.

The people hesitated to subscribe, on the plea that they would like to know first, who would be their bishop. Finally the necessary amount was provided, probably for a similar reason, on the 13th of June, 1861, fifty years ago, today, at the call of Bishop Strachan and under his authority, a meeting of synod was held in St. George's church, Kingston, for the purpose of electing a bishop, all the preliminaries necessary having been fulfilled, and the Rev. John Travers Lewis, rector of Brockville, was elected bishop of the new diocese, the naming of which was left to Bishop Strachan, who designated it Ontario, probably because of the lake, which washed parts of its shores as the new diocese in the west, and was named Huron. Owing to delays connected with the securing of the royal letters patent, constituting the diocese, and raising St. George's church to the dignity of a cathedral, the consecration of the bishop did not take place until the 25th of March, 1862. He was then consecrated in St. George's cathedral, and it was the first consecration of a bishop of the Church of England which ever took place in Canada, and signified a new era in the history of the Canadian church.

(Continued on page 6.)

## LAURIER NOT TO PRESS HIS PROPOSAL FOR DOMINION'S WITHDRAWAL

### From the Imperial Treaty System—Dr. J. A. Macdonald Has Another Message From President Taft.

London, June 13.—Sir Wilfrid Laurier's latest proposal for the withdrawal of the Dominion generally from the imperial treaty system has excited so much opposition among the other members of the imperial conference that it is expected that it will not be pressed.

At the present stage, former liberal governments have declared that a complete break-up of the trade arrangements of the empire is involved.

The Morning Post says: "There is a strong suspicion that his declaration of treaty independence is intended more for Canada, in view of an election, than for Britain, and adds: 'It is doubtful if Sir Wilfrid Laurier finds a single supporter of his resolution at the conference.'"

Hon. W. S. Fielding has made no reply as yet to Lord Selborne's rejoinder. The ministerial press content themselves with a reiteration of the "resolute refusal" policy.

The Rev. J. A. Macdonald, editor of the Toronto Globe, spent Sunday afternoon addressing a great gathering at Whitfield's tabernacle, in support of reciprocity and arbitration, and made a strenuous attack on what he termed the English "jinnos," and the policy of imperial preference. He announced himself as the bearer of a further message from President Taft to the British people.

## NEW PULP DISTRICT

### On Boundary Between Ontario and Keewatin.

Ottawa, Ont., June 13.—Ontario may have a new pulp industry district, which will challenge those of Quebec if the result of the investigation to be conducted by a party from the interior department into the pulp properties of the English river district proves as successful as expected.

The English River is the boundary between Ontario and the new district of Keewatin, so that the work of the party will be of interest to both.

## AN AVENGING HUSBAND SLAYS THE WRONG MAN

### Following Quartette into Woods, He Mistakes Wife's Chum for Her and Shoots Her Companion.

Charleston, W.V., June 13.—While seated at the table of Miss Louisa Berry, near Centry, Fayette county, John Willis, a bookkeeper, was shot with a Springfield rifle in the hands of Marion Adkins and instantly killed.

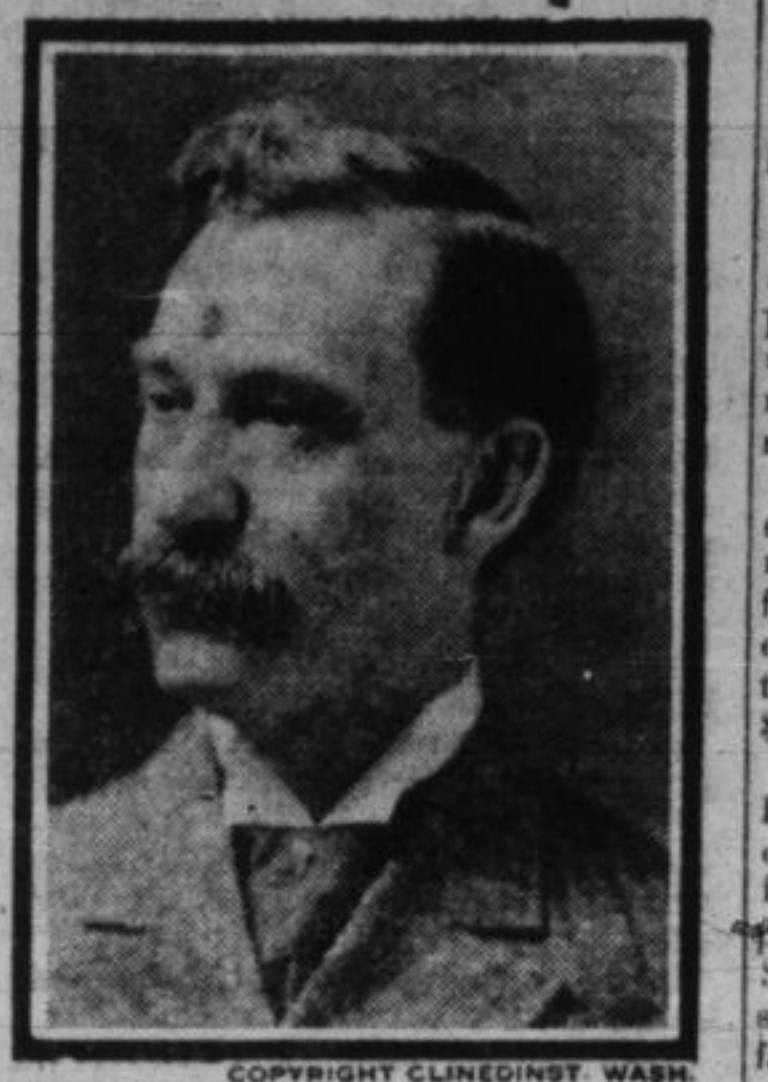

Adkins had a violent quarrel with his wife, and she went to the Berry home. She and Miss Berry, with Willis and another man went for a walk in the woods. Adkins followed them, and coming upon Willis and Miss Berry, who were seated on a log, mistook the latter for his wife, and fired at her companion, killing him instantly. The slayer has been held for the grand jury.

## Lives in "Sunshine Cellar."

Kansas City, Mo., June 13.—Because he was overcome by heat twenty-seven years ago while working in the Kansas harvest fields, H. H. James, of Kansas City, Kansas, has lived in a cave every summer since that time. For fear of a sunstroke he never ventures from his cave during the day-time, but occasionally goes for a walk at night.

## WAS A WEDDING. Frauds in Coal

### Seattle, Wash., June 13.—A pretty romance which had its beginning on the steamer Princess Charlotte, running between Seattle and British Columbia ports ten days ago when the principals met for the first time, culminated, yesterday, in the wedding of Walter Roy Keller, a wireless operator, and pretty Cecil Whitmore, a New York actress. Keller is the hero operator of the Princess May wreck on Sentinel Island last August, when, at the risk of his life, he swam into the flooded engine room and obtained batteries in order to keep in communication with Juneau, Alaska. Keller met Miss Whitmore on his boat, ten days ago. Three days ago he sent her a "C.Q. D." message and when she came in answer he proposed, was accepted and married, to-day.

LINCOLN DIXON, Representative from Indiana and a member of the ways and means committee of the present U.S. congress.

## TWINS MARRY TWINS.

### The Tabler Brothers Wed the Moore Sisters

Kansas City, Mo., June 13.—A courtship which began in April, 1910, between Lyman and Edward Tabler, of Adrian, Mo., twin brothers, and Alta and Alma Moore, of San Marcos, Texas, twin sisters, has ended in a double wedding.

The Tabler twins couldn't be told apart. They never were separated, even for a day. Friends of the Moore twins even could not tell which was which, and they, too, never have been separated.

When seen at the Union depot on their way to Adrian, Mo., where Lyman and Edward had a general store, the brothers said it was a case of love at first sight with both of them.

The Tabler boys met the Moore girls when on a "Sixth" to Texas in April, 1910. The girls were students at the San Marcos Normal school. The husbands are twenty-three years old and the wives twenty-one.

"You ought to see our bungalow," said one of the husbands, the reporter was not certain which. "It is built in two apartments, absolutely alike. The wall paper, the table linen, the silver and furniture are identical."

## YOUNG CANADIAN MURDERED.

### Charles McMahon Killed on Steamer at Ashland, Wis.

Midland, Ont., June 13.—The body of Charles McMahon, of this town, who was shot at Ashland, Wis., on the evening of June 6th, reached town on Saturday. Very little is known of the murder, further than that one of the crew of the steamer Dinky, on which McMahon was watchman, came aboard on Tuesday evening in an intoxicated condition, and without any apparent provocation shot and almost instantly killed McMahon. The assassin was arrested and held for trial. McMahon was twenty-three years of age and is survived by a young widow.

## WOMAN GEOLOGIST DEAD.

### Olynthia Cavanaugh Expires at Her Home in Watertown.

Watertown, N.Y., June 13.—Miss Olynthia Cavanaugh, aged eighty-two years, whose work as a geologist gave her a state wide prominence, died Sunday at No. 313 Brainard street, where she had resided for some time. Her first collection, one of the most comprehensive ever made of Northern New York specimens, is now a part of the collection at Albany, having been purchased by the state some years ago. The second collection occupies a place of prominence at the Flower Memorial Library.

## Heroism's Highest Type.

Baltimore, Md., June 13.—"Ingratitude is an odious sin in the sight of God and the opposite virtue is most acceptable to God," declared Cardinal Gibbons in his sermon at high mass Sunday morning.

The cardinal urged the crowded congregation to tear from their hearts all feeling of ingratitude, anger and forgetfulness. The prompt forgiveness of an injury he characterized as the highest type of heroism.

## Poisoned by Postage Stamps.

Fayette City, Penn., June 13.—Licking postage stamps for patrons of the government caused a serious case of blood poisoning, of which Miss Grace Hamilton, clerk in the post-office here, is the victim. She had been in the habit of affixing stamps to letters for patrons, and while her lip was blistered, it is said, it became infected from the colored inks.

## A few valuable store fixtures left, going to a bargain. At Kirk's.

"Tis" for tired feet. Gibson's.

## PROVINCE HAD NO RIGHT TO Sell the Chats Falls Power, so it is Said.

Ottawa, June 13.—The Citizen says this morning: The discussion concerning the purchase of the water power of the Chats Falls has resulted in a question being raised as to the real ownership. The sale of the island and the adjoining power at the falls to Hon. William Hartly and others was made by the Ontario government on the assumption, of course, that it was its property. Discussing the matter yesterday, an officer of the government here, made the statement that both the island and the power belonged and still belonged to the dominion government and not to the provincial authorities.

"In 1854," he stated "an order-in-council was passed reserving this particular property, as well as the islands in Lake Deschambault and the one in the Ottawa below the Chaudiere to the uses of the federal government. In the sale of the power to Mr. Hartly, therefore, the province exceeded its rights, but no protest was ever made. If the federal government chooses to assert its authority and hold on to the power, it has every right to do so. In that event the owners would have to look to the Ontario government for compensation."

"It is evident that if the city should try to buy the power the Hydro-Electric should expropriate, the question of title is bound to play an important part."

## ALLEGED IRREGULARITIES REVEALED BY INVESTIGATION.

### Substitutions are Alleged—Commissioners Assert Warden of Sing Sing and Clinton Knew of Conditions. They Criticize in Report.

Albany, June 13.—William Church Osborn, counsel to Governor Dix, and George E. Van Kester, who were appointed by the governor to investigate the state departments, have made a preliminary report of their investigations into the management and affairs of the state prison department "designed merely to include some subjects which may aid in the reorganization of the prison department along business lines."

The commissioners devote the greater part of their report to alleged irregularities in the purchase of coal for the various prisons for the past eight years, as the result of which they say the state has lost about \$25,000.

The Dock and Coal company of Plattsburg, a co-partnership composed of John F. O'Brien and George C. Kellogg, had furnished about twenty per cent. of all the coal consumed in Sing Sing, Auburn and Clinton prisons, and the commissioners say that for a period of four years this company, which contracted to furnish "pea" coal for Clinton prison, was permitted to furnish "huckwheat" coal of a cheaper grade, although it was billed and paid for as "pea" coal.

At Sing Sing prison the report states that the Dock and Coal company was permitted to substitute "huckwheat" coal for "pea" in the contract as a result of which they say the state suffered a loss.

The substitution in both instances, the commissioner say, was well known to the wardens of the prisons and should have been known to the superintendent of prisons.

"In view of the irregularities disclosed in the purchase of coal," says the report, "we respectfully suggest that this report, with the evidence relating thereto, be submitted to the attorney-general of the state for action thereon."

## A HOWLING STORM.

### Much Damage at Dexter—Peril in Crossed Wires.

Watertown, N.Y., June 13.—A storm resembling a cyclone struck Dexter late Monday afternoon, unroofing buildings, felling a score of trees and leaving telephone wires a hopeless tangle across the trolley wires, imperiling pedestrians.

While this city escaped with a good stiff blow, points from the county house down got the full force. Some of the big maples at the county house were uprooted. Part of the fence at the baseball park went and a building near the brickyard was blown in.

At Dexter the roof was blown from Anderson & Savage's restaurant. Half the roof from the Dilmore block was hurled into the street. A tree fell across the trolley tracks and had to be chopped away before a car could pass.

A telephone cable burned out, cutting off communication with the Watertown exchange. Word was sent by a street car conductor, asking for linemen to remove dozens of telephone wires that had fallen, many resting across feed wires.

## FIRES AT RIVAL IN TAXICAB.

### Jealous Wife Empties Revolver at Husband Beside Blonde Woman.

St. Louis, Mo., June 13.—Mrs. Amelia Gardner, sitting last night at a window of her home in Eugenia street, spied a taxicab and recognized her husband perched beside a blonde young woman.

Mrs. Gardner quickly emptied a revolver from the window, but Mr. Gardner sped on. All shots missed their mark. The wife resumed her position at the window and awaited the home coming of her husband. He arrived without his companion half an hour later. The family row that followed attracted a policeman. Mrs. Gardner was charged with discharging firearms and he with disturbing the peace.

## WITH A RIFLE WOMAN PUTS END TO BEER PARTY.

### Kansas Temperance Woman Chases One Man into the River in a Shower of Bullets.

Atchison, Kan., June 13.—Armed with a rifle, Mrs. Tillie McGowan, a temperance advocate, broke up a picnic at which beer was being served here last night. She was passing the picnic grounds when one of the party scoldingly invited her to have a drink. She accepted a glass of beer, intending to use it as evidence.

One of the men said she must drink the beer. She answered by picking up a stone and striking him over, the eye with it.

Mrs. McGowan then got a rifle and chased one of the party into the Missouri river, firing at him, but missing. Finally she allowed him to swim ashore and apologize.

## ACCEPTS PROFESSORSHIP.

### Rev. G. M. Campbell to go to Mount Allison University.

St. John's, N.B., June 13.—Rev. George M. Campbell, D.D., district secretary of the Canadian Bible Society, has accepted the offer of a professorship at the University of Mount Allison College and will take the degree of honorette and practical theology at the beginning of the college year next autumn.

## Put Gag on Priest.

Fort Worth, Tex., June 13.—The Rev. Father Patrick Murphy ceased his activities as a stump speaker in the state-wide prohibition campaign, yesterday, at the direction of Bishop-elect Lynch.

Bishop-elect Lynch says the various priests can take care of the morality and religion in their respective parishes and that Father Murphy should go back to his.

## Judge Fines C.N.E. \$1,000.

Winnipeg, June 13.—The Canadian Northern railway company have been fined \$1,000 by Chief Justice Mathers for contempt of court in delivering papers to the returning officers at Beautiful Plains in an election case after the court had ordered the papers were not to be delivered. Returning Officer Boston was ordered to pay the costs or go to jail for thirty days. The trouble grew out of the late provincial general election, when the conservative was declared elected on a technicality.

## TWO MEN KILLED EIGHT IN ABOUT TEN MINUTES.

### A Number of Negroes Tried to Kill Boss of Section Gang, Who Did Terrible Execution.

New Orleans, June 13.—W. I. Boutlee and George Story are believed to have broken all records for rapid and deadly revolver shooting at La Branche, La., yesterday, when they shot and killed eight negroes in ten minutes.

The negroes were members of a section gang, and Boutlee is the foreman. The blacks conceived a dislike for their boss and tried to kill him. Boutlee killed four after he had been knocked down.

## Seamen to Strike.

London, Eng., June 13.—It is reported that a great international strike of seamen will be declared June 21st. Labor trouble at Southampton is already delaying the Atlantic liners.

## Sir Wilfrid Indisposed.

London, June 13.—The Morning Post states that Sir Wilfrid Laurier has been ordered to remain indoors for a short period owing to having contracted a throat trouble.

## Blackmailing Scheme.

Chicago, June 13.—Two saloons, owned by Italians, within four blocks, were dynamited, to-day. The police suspect it as a Black Hand blackmailing scheme.

## J. J. HILL BUYS The Charter of the Alberta Central Line.

### TO BEGIN BUILDING OF THIS RAILWAY FROM THE BORDER TO THE Northern Limits of Alberta—Not Known Just How Far the Railway Will be Extended.

New York, June 13.—The first sign of the announcement of the \$600,000,000 mortgage is reported in despatches dealing with the invasion of the Canadian transportation field by James J. Hill and interests closely allied with him. They have bought the charter of the Alberta Central railroad and will immediately begin to build a line north from the border.

The charter provides for a railroad running north and south from that division to the northern limits of Alberta. The southern part of the new road is planned to run due south out of Great Northern on the American side. It is not known how far north into the wilderness Mr. Hill has decided to extend the northern division of the new road. The charter permits building to regions practically Arctic. The Great Northern has already three subsidiaries which cross from this country into the western provinces of the dominion—connecting the Hill system with almost all of that broad territory. Rumors of plans of other extensions in that country have been prevalent for several years.

## THE WORLD'S EPISODES

### GIVEN IN THE BRIEFEST POSSIBLE FORM.

### Matters That Interest Everybody—Notes From All Over—Little of Everybody Easily Read and Remembered.

The Toronto council favored the purchase of the Russell farm for an industrial jail.

Nine hundred employees of the Canadian Car Foundry company, Montreal, are on strike.

German cavalry forces event the board at the International Horse Show, London.

The international seamen's strike at Southampton, Eng., is definitely fixed for Wednesday.

The Toronto Methodist conference refuses to approve the sale of Carlton street Methodist church.

The St. Catharines, Ont., ministerial association passed a resolution condemning rallies at church fairs.

The special coronation fund of the Canadian branch of the British and Foreign Sailors' Society, realized \$1,100.

Lady Laurier received a cablegram from Sir Wilfrid saying his indisposition was not serious, and he would be able to resume work Wednesday.

George Cross, Marjona, was tried before Judge Doroche on a charge of stealing a watch from Charles Belme. Convicted and sentenced to six months in the central prison.

A London, Eng., firm is doing a million feet of various Tudor manor believe roses, each one of which is to be the cover for an electric lamp. This seems to be the favorite form of the coronation.

LIKELY TO BE HELD UP.

The Seamen's Strike May Cause Much Trouble.

Montreal, June 13.—Seamen's agents here take little stock in the story of the international seamen's strike, but officers of boats consider the situation is serious. "This may be our last trip to Montreal for a long time," said the officers of Vancouver who were en route. "We are convinced we will have trouble in making another trip westward. It will be the same on all lines."

## MAN BURNS TO DEATH IN HIS TOURING CAR

### One of Prerty Strkes Match as E.g Machine is Wrecked Near Washington.

Washington, D.C., June 13.—Pinioned beneath the wreckage of his big touring car, Harry W. Mitchell, thirty years old, a young business man, was hurled to death last night when his automobile caught fire at Rosslyn, Va. Several hundred persons looked on, powerless to aid him. Frederick Kitchen, trumpeter of the Fifteenth United States Cavalry, was probably fatally injured. Three other occupants of the automobile, all members of the Fifteenth United States Cavalry, escaped injury.

Mr. Mitchell, together with the soldiers, was coming to this city from Fort Myer. His machine was struck by an Old Dominion and Grand Falls car bound for Washington.

The big car was hurled several hundred feet down the track and all occupants thrown out. An unidentified man in the car struck a match which ignited the gasoline and set both automobile and street car afire. The fire department was called, but too late to save Mr. Mitchell.

"Butter's toffee," Gibson's.

## WEATHER PROBABILITIES.

Toronto, Ont., June 13, 10 a.m.—On-lawa Valley and Upper St. Lawrence—Unsettled, with occasional showers. Wednesday, westerly and north-westerly winds; fair; much the same temperature.

## Clearing Sale Events
