Rev. F. D. Woodcock presented the following notice of motion:

"Provided that the estimated receipts from the mission giving fund, for the diocesan mission fund, being in excess of the estimated expenses classified for this year, and in view of the very small stipends of several of the missionaries he resolved, that all mission stipends whose stipends from all sources are below \$500, be reduced to that amount, ex pro rata, according to the amount at the last meeting of the board on the 1st January 1912, and that the amount be added to the cheque issued to each missionary on January 1st, 1912."

The synod adjourned at one o'clock, until Friday, when Bishop Mills read his charge.

### FIELD CROPS IN CANADA.

Excellent Reports Received From All the Provinces.

Ottawa, June 13.—A bulletin of the census and statistics office states that the season this year has been favorable for field crops in all parts of Canada, and excellent reports have been received from all the provinces. The lowest percentage of condition is made for fall wheat, which suffered from inadequate protection on the winter months, and also to some extent from spring frosts.

The areas of fall wheat are greater than last year by 4.50 per cent, and of spring wheat by 13.70 per cent. The total area in wheat is 10,503,400 acres, as compared with 9,294,800 in 1910 and 7,750,400 in 1909. The per cent. condition of fall wheat at the end of May was 80.63 and of spring wheat 96.69.

The area of oats is 10,279,800 acres and its condition 94.76, as compared with 9,864,100 acres and 93.95 per cent. condition last year. Barley and rye each show a small decrease in area, but the condition is higher than at the same period last year.

Slight decreases are also reported for areas of peas, mixed grains, and hay and clover, with per cent. condition of 90.

Hay and clover have a reported condition of 91.45 for the dominion, being practically 100 in Manitoba, Saskatchewan and Alberta. The area of field crops named is 32,051,700 acres for 1911, compared with 30,554,300 acres for 1910 and 28,194,900 acres for 1909.

In the provinces of Manitoba, Saskatchewan and Alberta the area in wheat, oats and barley was 3,491,413 acres in 1909; 6,009,389 acres in 1905, 11,952,000 acres in 1910, and 13,809,200 acres in 1911, and it is 15,355,500 acres this year. The increase of these crops from 1900 to 1911 was 7,663,899 acres in Manitoba, 7,364,315 acres in Saskatchewan and 1,826,073 acres in Alberta.

No meteorologist will demonstrate Wednesday in E. P. Jenkin's window.

### Irish Catholic Meeting in Montreal Will Petition the Government to Release the Men Who Conspired Against the State.

A dispatch from Montreal says: "An all-Ireland meeting of Irish Catholics, it was decided to petition the government to release Dullman and Nolan, serving life sentences in penitentiary at Kingston, for attempting to dynamite a lock in the Welland canal. The request is asked in view of this being coronation year."

It was early in May, 1900, that Dullman, Nolan and Walsh attempted to strike a blow at the Canadian government and the Canadian people and shipping interests by wrecking a lock in the Welland. Had they succeeded in their dastardly attempt, the canal would have been put out of commission, millions of dollars would have been lost, and lives would have been sacrificed. Fortunately the attempt of the conspirators failed, and the farmers of the Welland district went out after them and caught them before they could get across the border. It was summary justice that was administered to the trio. They received a fair trial, and the chancellor, Sir John Poirer, sentenced them to life imprisonment in the provincial penitentiary. They were brought down about the end of May.

A couple of years ago one of their number, Walsh, died in the prison hospital and his remains were interred in St. Mary's cemetery. He and Nolan were believed to have been tools of Dullman, who expected that their lives would have been sacrificed in the attempt, and that he himself would escape back to the United States without a clue being left. But the job was bungled, and for the past eleven years Dullman has languished in prison. He has ever retained the hope that some day he would be released, and now the first effort towards freeing him has been taken. His right name is Luke Dillon. The plot to blow up the Welland lock was concocted by a Fenian society in the United States, and Dillon was chosen to carry it out.

The first step of the Montreal Irish Catholic societies is the drawing up of a letter to be sent to all the cabinet ministers, asking them to use their influence to secure the pardon. The letter is to the effect that the evidence on which the men were convicted was purely circumstantial, and that by their eleven years of imprisonment they have expiated their "alleged crime," which did little damage. It further states that coronation week is celebrated by the issue of pardons throughout the empire and that it would be a peculiarly fitting time to release these men and thus "earn the gratitude of the Irish Catholics of Canada and the United States."

Young Inventor Held on Charge of Forgery.

Seattle, Wash., June 13.—Floyd Merrill, the sixteen-year-old inventor, who several weeks ago refused an offer of \$50,000 from the Pennsylvania railway for his device making a railroad proceed through collision or mis-placed rail, or switch an utter impossibility, has been arrested for forgery three times within the past fortnight. He was taken into custody at Everett, to which city he had eloped with Miss Sadie Pierce. He was arrested before he had a chance to marry the girl.

A fortnight ago he received an electrical shock while experimenting. Physicians now declare his brain was affected, as his propensity for uttering checks purporting to have been drawn by wealthy relatives has developed.

### BABE GAVE ALARM.

Probably Saved Lives of Whole Family.

Ingersoll, Ont., June 13.—Spontaneous combustion is thought to have been the cause of a fire which Monday morning damaged the building and stock of Walley's drug store in the extent of probably \$1,000 or \$1,500. Mrs. Orme, wife of W. H. Orme, photographer, whose studio and living apartments are over the drug store, awakened shortly before four o'clock to find the room filled with smoke. A baby, probably made restless by the smoke, awakened her and probably saved the lives of the whole family. Mr. Orme was almost overcome by the smoke.

### Rev. Dr. McLaren Spoke About It—A Resolution Presented Regarding the Ne Temere Decree.

Ottawa, June 13.—The insidious dangers, moral and political, attendant on the spread of Mormonism in Alberta, were dealt with at considerable length yesterday afternoon, at the Presbyterian general assembly meeting. Rev. Dr. McLaren, of Vancouver, in presenting the report of the committee to consider the question, declared that Mormonism, with its abominable immorality and the political dictation of its arbitrary leaders, constituted a serious menace to the whole country. Unless the present spread were checked by state and church co-operation the Mormons of Alberta might wield a baneful influence of political power in that province, as they did now in Utah.

Rev. Dr. Pringle, of Sydney, and Rev. W. D. Reid, of Calgary, also spoke strongly along the same line.

The report of the committee warning the assembly and the country against the insidious methods now employed by Mormon missionaries, particularly in western Canada, was adopted.

The attitude of the assembly on the Ne Temere decree was presided over in a resolution presented by Rev. Mr. Duvell of Winnipeg, seconded by Rev. F. H. Larkin, of Seaford, and sent without discussion to the Social and Moral Reform committee for consideration.

This resolution, after a general promise as to the sanctity of marriage contracts in Canada under the security of the civil government, proceeds as follows: "We deplore the fact that any denomination should presume to reflect upon and to morally or materially damage any persons that may be united in marriage according to the provisions of the civil law, whether with or without the sanctions of any particular religious denomination; and because the peace and training of our Canadian life has been greatly disturbed and the civil rights of the people greatly interfered with by the publication and attempted enforcement in Canada of the Ne Temere decree by the Church of Rome; we, therefore, in common bonds of brotherhood, so long and happily secured to us in our beloved land, record our respectful protest against the enforcement of that decree in Canada, and call upon all good citizens to resist the same and our legislators to render it impossible by law."

The assembly passed this resolution this morning. "The assembly has heard with profound gratitude and with admiration for the wisdom and courage of the authors of our motto, that the proposal is made to settle all differences of whatever kind between Great Britain and the United States by arbitration, and expresses the earnest hope that the measure so Christian and beneficial will speedily pass into law."
