TO HAVE A VACATION

CITY COUNCIL AMOURS UNTIL OCTOBER 9TH.

Work on Barrie Street Extension to be Commenced at Once—Complaint About Engineering Staff of Waterworks Pump House.

The city council, at its regular session, on Monday night, disposed of a large list of business, and at the close the city fathers decided to adjourn for the summer vacation.

On motion of Ald. Elliott, seconded by Ald. Hoag, the council adjourned until Monday, October 9th, the city treasurer being authorized to pay all accounts every two weeks, the same as when council is in session, the said accounts to be certified by the city auditor, and signed by the chairman of the various committees.

Quite a batch of communications and petitions were received, and referred to the different committees. From Edward Keefer, re payment of \$150, money lost, which was to have been paid for a license.

Ernest Dins, complained about the condition of grates near his home on Barrie street. He said he had complained to the city engineer, but that no attention had been paid to the complaint. During the heavy rain-storm, a week ago, his property had been badly damaged.

A. B. Cunningham wrote a letter in which he stated that unless the cabstand, on the north side of Clarence street, between King and Ontario streets, was removed, it would be necessary for him to bring an action against the city for maintaining a nuisance, and for injury to his property.

Thomas McGuire asked for permission to cut down a tree in front of his home, 81 Queen street, stating that it was injurious to his house.

The Young Women's Christian Association requested to be granted exemption from all taxation, except that for improvements. A letter was read from the secretary, Edith Macalium.

The following letter was received from L. G. Read, managing director of the Colonial Engineering Co., limited, Montreal.

"We desire to obtain franchises from growing towns where we would be justified in building, lighting, power, and water works equipments on our own accounts, making a contract with the town for twenty or thirty years, or purchasing existing properties, with a view of combining them into one property, and making a contract with the town for a term of years at mutually agreeable rates for lighting and power service, and for water service.

"It is also our intention to acquire franchises for and build street railways and electric lines connecting any combination of towns in a given locality, where one would be justified in making such developments. We have arranged for financial backing for this purpose, and have had a long experience in this class of engineering.

Will you kindly visit us stating what possibilities might be in your vicinity."

Charles F. Adair, clerk of the township of Kingston, wrote informing the council that a meeting from the township council would meet a committee from the city council at a date to be named, to arrange for urgent repairs in connection with Concession street, and to provide for the maintenance of that highway in the future.

Captain Turner, of the Salvation Army, stating that in regard to a proposed room had been provided for the temporary detention of children, arrested under the "curfew" by-law, but as there was no need for it recommended it to be closed.

John Hughes asked to be given permission to cut a tree in front of his property 86 Division street.

W. C. McGhie, chairman of the department of agriculture, stationery engineers' board, Toronto, wrote, stating that information had been given to the effect that Kingston was operating its mechanical steam pumping plant during certain shifts, with engineers who do not hold certificates, from this board, contrary to the act respecting stationery engineers.

The letter added: "It has also been pointed out, that at the change of each watch, your men have been compelled to work a shift of unusual length, and while this may have continued for some time it will eventually end in some misfortune either to the lives or property of your city."

W. L. Goodwin and others, Alice street and vicinity, petitioned for a light at the corner of Alice street and University avenue, as the light at the end of the street is inadequate.

William Dougherty, owner of a house and lot on Sixth street, asked to be relieved of sewer rent for entering the North street sewer. When building the house, some years ago, there was no sewer on Sixth street and he constructed at his own expense a drain along Sixth street to the North street sewer.

D. B. Murray and others asked that Alice street be graded.

Ald. Shaw said he had inspected the street, and found it to be in a disgraceful condition. The matter was referred to the chairman of the board of works and engineer, with power to act.

On motion of Ald. Hoag, the chairman of the board of works, and the city engineer, were given power to act, in the applications re tree removals.

Henry Couler and others asked to have two hundred feet of roadway on Upper Princess street, just on the boundary line, closed. On motion of Ald. Cooper and Bailey, the chairman of the board of works and the engineer were given power to act.

On the petition of M. P. Ward and others, asking for a sidewalk on the west side of Livingston avenue, the same was referred to the chairman of the board of works and engineer, with power to act, providing the said petition is properly signed.

On motion of Ald. Litton, the chairman of the property committee, and the engineer were given power to act on with the repairs necessary to the roof of the city hall.

On motion of Alds. Carson and Litton, the water works committee was

given power to call for tenders, when necessary, for the supply of 1,200 tons of coal screenings, and award the contract for the same.

Ald. Hoag asked that the board of works be given power to go on with the extension of Barrie street to Pine, and a motion of Ald. Hoag, seconded by Ald. Elliott, to have the work carried out at once was adopted.

The city clerk was instructed to call for tenders for the leasing of the hay market, for collection of fees, the same to be awarded to the highest tenderer.

Tenders will be called for the fuel required at the city buildings and fire stations, and the committee dealing with this work will award the tenders.

The board of education was given permission to use the ground adjoining Frontenac school, as a play ground for the children.

The council adopted the report of the first and light committee, which recommended that the tender of James Latourney, Kingston, to construct a ladder truck according to amended specifications, for the sum of \$1,175, be accepted. The committee was also given power to advertise and award tenders for the supply of 100 feet of hose, and other supplies. The report was presented by Ald. Fair, in the absence of the chairman, Ald. Givens.

The reports of the board of works and property committee as already published, were also passed.

THE RENTS TO STAY.

(Continued from Page 1.)

Ald. Toye agreed with all Ald. Elliott had stated, and following up his remarks, referred to how the question was dealt with in Guelph and St. Thomas. In Guelph it was regarded as a free meter, but every consumer had to use 85 worth of gas. If this amount of gas was not used, it had to be paid for anyway, the rule being that there should be no meter rate on this condition. However, this could not be regarded as being free. In St. Thomas the same rule applied. In Brockville a customer had to use \$6 worth of gas or pay rental. In St. Thomas the consumers had \$1 gas, but Kingston was given \$1 first.

Guelph was the only city besides Kingston showing such results. Kingston had given back to the city \$21,000 in earnings. The plant could not be operated with free meters, although it was his belief that in the course of time the rentals would be removed. As regards the city getting a share of the gas, it was fifth in the Dominion of Canada in this respect.

Ald. Toye reviewed, at some length, the work which had been carried on at the light plant, within the past few years. The department he pointed out never kept any surplus cash; all of it it was used for the purchase of new and predicted still greater things for the light plant, in the next five years.

Mayor Graham said he had before him the bills of a dozen or more citizens, amount to \$7, \$8 and \$9, and to this had to be added \$2 for meter rent.

Ald. Shaw believed it would be a great mistake to lessen the receipts of the plant; he believed the department should establish a rent fund.

The mayor said this would be illegal. The vote on the clause that no action be taken to cut off the rents this year was finally taken, and all voted for it.

The mayor did not like the idea of voting for the clause, but he favored the rest of the report, and so was thus recorded with the majority on the adoption of the entire report of committee.

The other part of the report, contained the following recommendation, which was adopted.

That debentures be issued for \$35,000 as the revenue derived from this expenditure is in excess of the amount required by law, and that a by-law be presented to council regarding the same. Also that the sum of \$5,413.30 be taken from the surplus and applied to wipe out the department's indebtedness to the bank, and that the sum of \$2,000 be set aside to form a nucleus of a depreciation account which can be added to from year to year.

ABERNETHY'S

PURE WATER AT LAST

LEAK IN INTAKE PIPE HAS BEEN DISCOVERED.

Ald. Carson Reported to Council That Trouble Had Been Located, and That it Would be Remedied at Once.

That the leak in the intake pipe had been discovered and that on Tuesday the city would be furnished with pure water was the good news Ald. John Carson, the chairman of the water works committee, had to give the members of the city council on Monday night, and the members were indeed very much pleased to get this report.

Ald. Carson explained how the leak at first could not be located by the diver who was secured for the work Mr. Murphy, the last diver secured, however, had shown great skill in the work, and in quick time had been able to find the leak, which was traced and found to be about two hundred feet from the shore.

Ald. Carson further explained that the evil could be remedied in a very short time, as all that was necessary would be to tighten up the valve. This would be carried out on Tuesday and then the city would have pure water at last.

IN MARINE CIRCLES.

Arrivals and Departures of Vessels at This Port.

The steamer Kolp cleared for Charlotte.

The schooner St. Louis cleared for Oswego.

The schooner Julia B. Merrill cleared for Oswego.

The schooner Kewatin is at Richardson's wharf, loading feldspar.

The steamer Stratheona is at Amherst Island, loading hay for Port William.

The steamer Sowards arrived from Oswego, with coal for the Rockwood asylum.

The government boat Loretta cleared for Montreal, with Capt. Gorky in charge.

The tug Gladiolus and dredge Lincoln cleared for Ogdensburg, Tuesday morning.

The steamer Alexandria was at Folger's wharf, Monday night, on her way to Montreal, and loaded freight.

The tug Hector cleared for Charlotte, for coal, owing to the fact that the dry dock could not be secured.

The Hector will return to the dry dock shortly.

At Swift's wharf: Steamer Beaur Vista passed through, this morning on her way to Belleville, to load cement; steamer Lamonde, up, from Clayton; steamer Toronto, down an up, to-day.

M.T. Co's elevator: Tug Emerson arrived, with two coal barges, from Oswego, and cleared for Montreal, with three grain barges; tug Bronson is due to-night, from Montreal, with four light barges; tug Bartlett is due to-night, from Lake Erie, with one coal barge and oil barge No. 86.

The steam yacht Corona, which is the Kingston dry dock, is one of the handsomest private boats seen here in a long time. It is the property of Mr. Lachlan, of New York city, a member of the firm of Jones & Lachlan, the great steel manufacturers of Pittsburgh.

Tea Merchant to King George V.

Thomas J. Lipton has again been honored, being the only tea merchant to receive the special appointment as Tea Merchant to His Majesty the King. This speaks highly for Lipton's Tea, the splendid quality of which has won this distinctive favor from three successive British rulers.

Recovered Stolen Goods.

While on his round of the second hand shops of the city, on Monday, Constable Arnie came across some goods which were stolen in January last. The booty consisted of a dozen hand shoes.

Tested Chatham Engine.

The Chatham engine was tested at the dry-dock, this morning, undergoing the official test required by the Fire Underwriters' Association of Canada, whose representative, Norman R. Wilson, is here for a few days.

1,000 Islands—Rochester.

Steamer Caspian leaves at 10.15 a.m. on Sundays for Thousand Islands, and at 5 p.m. for Rochester, N.Y. J. P. Hanley, agent.

Sometimes a girl gets even with a persistent young man by marrying him.
