

MISERABLE WITH STOMACH TROUBLE

"FRUIT-A-TIVES" BRINGS THE HAPPINESS OF HEALTH

"Fruit-a-tives" cures Stomach Troubles because it cures the Liver, Kidneys, Bowels and Skin. Indigestion etc. is not usually the fault of the stomach itself. The bowels are irregular—the kidneys are weak or strained—the skin is inactive—and consequently the blood is impure. It is the impure blood that really makes bad digestion.

"Fruit-a-tives" purifies the blood by making all the vital organs active and healthy—which in turn relieves the stomach. Take "Fruit-a-tives" if you want to get rid of all Stomach Troubles and faults of Digestion.

A BRIDE WAS GAGGED

AND TIED IN ARBOR BY A STRANGE MAN.

Terre Haute, Ind., June 26.—Mrs. Ralph Shelburne, married last month, was found tied to an arbor in the yard of her home, last night, a few minutes after she had responded to a telephone call. She had told those who were attending a musicale in the house the call was from the same unknown person who a week after she was married began calling her up and making threats.

YIELDED UP THEIR LIVES

To Save Their Wives From Drowning—An Alaskan Tragedy.

Washington, June 26.—Drowned before the eyes of their wives, who were helpless to save them, was the tragic fate of Walter L. Hahn, of Springfield, S.D., and H. R. Chichester, of Eagle Pass, Tex., government fishermen in Alaska. The details of the disaster received by Fish Commissioner Bowers indicate that Chichester and Hahn took their wives out for a sail from St. Paul Island, Alaska.

GEN. COTTON'S NARROW ESCAPE

Camp Commandant Thrown From Horse While Inspecting.

Niagara-On-the-Lake, Ont., June 26.—General Cotton had a very narrow escape from serious injury Friday, when he was thrown from his horse while making his usual rounds of inspection. The general and his aide were near the cavalry lines when something frightened the horse. They reared, and General Cotton was thrown heavily to the ground. Several men at once went to his assistance, and the ambulance wagon took the camp commandant to the general hospital, when it was found that beyond a severe shaking-up the general had escaped injury.

Perished by Camp Fire.

Andrew, Alta., June 26.—Marie Milichuk, a Galician, aged fifteen, fell asleep by a camp-fire at Shandre. Her clothing caught fire and she died on Thursday as a result. There is a rumor in Toronto that the C.P.R. is contemplating the taking over of the Erie railroad.

Eczema Worse in the Spring

The Blood is Watery—Difficult to Get the Healing Process Started. But Whatever the Cause You Can Relieve the Itching and Heal the Sores With DR. CHASE'S OINTMENT

Salt rheum and eczema are usually worse at this time of year because of the sudden change of temperature and the watery condition of the blood. It is not necessary to refer to the suffering caused from the intense itching nor to the tendency of these ailments to spread over the entire body. The essential point is how to bring about cure, and if you have been reading the cures reported from time to time in this paper you will already know that there is nothing like Dr. Chase's Ointment as a cure for eczema, salt rheum, psoriasis and every form of itching skin disease.

This ointment stops the itching almost as soon as applied, lessens the discharge from the vesicles or blisters, cleans out the morbid growth and stimulates the process of healing. Because other treatments have failed you may feel discouraged. But in Dr. Chase's Ointment there is a cure for you. We know this because of the reports we have received from so many thousands of cases. For instance, there is the case of Mrs. Nettie Massey, of Comstock, Ont., who had psoriasis or chronic eczema so bad that almost the whole body was covered with sores, and three doctors failed to cure her. One doctor said she could never be cured. Write to Mrs. Massey about her case. Dr. Chase's Ointment, 60c a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

WHEN INDIANS MINED COPPER

Researches Show That North American Redman Was Not Lazy.

The copper mines in the Lake Superior region were most important to the Indians. When we remember that they did not understand the smelting of ores we can appreciate the value of these mines. In these the native metal occurs both in small pieces and great masses. The Indians had only to dig away the earth and smash the rocks with stones, some of which they provided with a groove and attached to a handle by means of a wither around the groove, reports the Southern Workman.

Archaeologists have found that they also built fires upon the rocks and thus raked them that they might more easily be smashed with hammers. One piece of copper propped upon poles over fifteen feet below the surface of the ground was found by explorers where it had been abandoned by the Indian quarrymen. Weighing almost three tons, it was a monument to the industry of the North American Indians, and who, we must remember, had only the simplest tools with which to raise this heavy mass. One of their shafts, which contained a mass of copper weighing several tons, was twenty-six feet deep and the mass of copper had been raised several feet, probably the only means the Indians had of raising it being wedges and sticks.

BOOTH'S PRISON PLANS

'Give a Man a Chance' is His Motto.

London, June 26.—General Booth, the veteran commander-in-chief of the Salvation Army, is going to make the prisons of England model institutions for all the world. Interviewed about his prison plans the general said: "My whole scheme in a nutshell is this: Treat the criminal as a human being. Give him a man's chance before you despair of making a man of him. I would have much more discrimination in passing what I call a punitive sentence on a criminal, and I would add to the determinate punitive sentence an indeterminate detention for as long time as was necessary to prepare the man for earning an honest living when he is set free."

CHURCH TO RAFFLE MAN.

Tickets in Most-Demand—Young Women and Old Maids.

Philadelphia, Pa., June 26.—To raise money to pay off the debt of the Church of the Immaculate Conception, Germantown, the societies affiliated with the church will hold a lawn fête, at which an eligible bachelor will be raffled off to the woman who holds the lucky ticket. The tickets, selling at from ten cents to \$10, are mostly in demand by young women and old maids. The church authorities refuse to make public the name of the man who is willing to stake his matrimonial happiness on a lottery, but say he is straight in limb, sound of mind and able to support a wife.

Weds on Death Bed.

London, June 26.—The Standard prints the following from its Berlin correspondent: "Felix Motti, conductor of the Municipal Opera House, married F. Passinider, one of the foremost singers of that theatre, yesterday. The wedding took place in Motti's bedroom, where he lies on what is feared may be his death bed. "When Motti became aware of his dangerous condition he insisted on the marriage being solemnized with all possible speed. Motti's breakdown is due partly to overwork and partly to mental worry in connection with his recent divorce from his first wife." He is fifty-six years old and his bride thirty-five.

Gathering of Women.

The Woodburn Woman's Missionary Society met at Mrs. Campbell's, June 20th, with Mrs. Carey as leader. There were over thirty present. Mrs. Lucy and Mrs. Carey, delegates to the missionary convention held in Gananoque recently, gave very interesting reports of the meetings. Rev. Mr. McConnell and Misses Bessie Carey and Eva Campbell also assisted with the programme. A committee was appointed to make arrangements for holding an ice cream social. At the close of the meeting Mrs. Campbell assisted by Miss Lennox, served refreshments. The next regular meeting is to be held at Mrs. Yule's, July 7th.

New Soap Company.

Toronto, June 26.—The Dominion Soap company, of Hamilton, has been incorporated with a capital of \$100,000. The promoters are E. Clarkson, Charles Scott, William McClelland, E. F. Appelle and Florence Austin, Hamilton.

Prevost, Brock street, has received all his spring and summer goods for his order clothing department, also in ready-made clothing and gents' furnishings department. They are all well assorted with new goods.

The reeve of Westport, Mr. Whitmarsh, addressed Leeds council, asking a grant of \$400 for repairing a bridge in Westport, in bad condition. A grant of \$200 was made.

Dr. Thomas S. Purvis, veterinary surgeon, Belleville, died, Friday night. Deceased, about fifty years of age, had lived in Belleville many years and was well known.

William Carlyle, prominent in educational matters in Oxford for the past thirty years, died suddenly at Woodstock. The marriage took place, Saturday, at Stratheona, of James Bebbey Allen, Belleville, and Miss Mary Ethel Groves. Ask your grocer for "Quality" flour. One used always used.

SAILING DOWN FAKE STORIES.

Queen Mary Has Not Dictated Concerning Skirts.

A short time ago there appeared in the American press a sensational story to the effect that the queen had issued instructions governing the dresses of the ladies who were to be admitted to the royal enclosure at Ascot. It was said that her majesty had insisted that all skirts were to be made wide, and that toques should take the place of big hats. Hobbles were said to be absolutely barred, the queen having placed them under the royal ban.

It now transpires that the story, as many supposed at the time, was a fabrication from beginning to end. The English papers to hand contain a paragraph to the effect that the queen issued no such instructions or regulations, her majesty having too much sense to dictate to people what they shall wear.

Another palpably false story is to the effect that at a recent drawing-room, her majesty "frowned" upon a well-known person because the latter happened to be wearing a low-fitting gown. The story is false because the queen is too well-bred to evince any displeasure in public even though she may have felt annoyed. But it is probable that her majesty was not even annoyed.

Use Sunlight Soap This Way. Soak the clothes, then lather well. Let stand half an hour, rub out the suds lightly, rinse, wring and hang out to dry. Could anything be more simple?

IDEAL FOR FINE LINENS

SUNLIGHT SOAP, free from chemicals or adulterants, requires no hard boiling nor heavy rubbing to aid it. It does its own work without these clothes-destroying helps—works equally well in hard or soft water.

Sunlight Soap leaves clothes pure white, clean and sweet-smelling—absolutely free from yellowish color and strong, soapy odors.

Use Sunlight Soap according to directions—try it just once—satisfy yourself that it will do twice as much as other soaps.

An appraisal of the Company's property and plant has been made by the Canadian Appraisal Company, and is included in Messrs. Price, Waterhouse & Co's Audit of Accounts as set out herewith:

The Canadian Locomotive Company, Limited.

STATEMENT SHOWING ASSETS PURCHASED AND LIABILITIES ASSUMED AS AT DECEMBER 31st, 1910, AND THE CAPITAL STOCK AND BONDS OF THE COMPANY TO BE ISSUED

Table with columns: Real Estate, Buildings, Plant and Goodwill, Inventories and Accounts Receivable, Cash in banks and on hand, Municipal and other Bonds, Less—Current Liabilities. Values: \$3,820,151.95, \$364,888.75, \$151,012.48, \$755,024.60, \$1,270,025.83, \$1,017,718, \$5,000,000.00.

We have examined the books and accounts of The Canadian Locomotive Company, Limited, for a period of four years ending December 31st, 1910, and certify that the Current Assets and Liabilities included in the above statement are correct. During the period covered by our examination, the profits of the Company, including interest on investments (which has aggregated about \$27,500.00 per annum), after providing for depreciation, have in no year amounted to less than \$300,000.00, excepting in the year 1910, when the profits amounted to only \$167,032.03. The profits for the three years, 1907, 1908 and 1909, on the basis mentioned, have averaged \$333,282.98 per annum and the falling off in the business of the year 1910 is explained by the management as being largely due to the curtailment of operations resulting from the delivery of defective steel castings purchased by the Company under contract.

Yours very truly, PRICE, WATERHOUSE & CO., Chartered Accountants.
