The patrol boat flies a conspicuous pennant, a triangular flag with a large eye, which signifies the business in hand. Even the scows which carry the city's rubbish and unload far out at sea must be trimmed so that not even a newspaper shall blow overboard. Even the housekeepers on the canal boats and the engineers on boats big and little are cautioned against littering up the harbor, and the penalty for breaking the law is severe. It is obvious that if one person were permitted to throw overboard a single stick, all would do so, and the enormous floating population the great harbor would gradually fill up the channels, besides littering

# Stop Drink-Watch the Business Grow

The Gatlin Treatment Has Destroyed the Liquor Appetite in Hundreds of the Most Successful Business Men of This Community-That is Why They Are Successful

# ONLY THREE DAYS

OUNT the cost of drink! Where does it pay? Think of the tired, wormout nerves always demanding more as relief? Think of the food, at the sight of which the seared and irritated stomach rebels! Think of the brain-fag and of the physical itts which are a part of every, drinker's existence. Think of all the other evils which accompany liquor drinking and then THINK if it were not an act of Providence when the Gatlin treatment was discovered to do away with all craving or appetite in THREE SHORT DAYS!

brink is sure death to business sure death to responsibility and achievement. It ruins the home and is the cause of endless misery. The banker who drinks is no safer in his line than is the hodcarrier who drinks in his. It is no respector of persons-it kills: the ambition, the capability and the responsibility-it renders normally honest, sensible men UNSAFE and IRRESPONSIBLE.

When a young man is looking for a posttion nowadays, the question that is first asked as to his character is, "Does he drink?" If be drinks he has no chance, The drinking man is no longer tolerated or trusted in positions or in business requiring BRAINS and responsibility.

Without hypodermic injections, substitutive stimulants or sedatives, in THREE DAYS the Gatlin treatment eradicates every trace of accumulated alcoholic poison from the drinker's system. There can be no appetite for liquor unless this poison is present. The Gatlin treatment takes the drinker, as regards liquor, right back to the day he took his first drink, with no more desire for liquor than he had on that day. That is to be the result of three days' treatment at the Gatlin Institute under legally executed contract or the fee paid will be refunded immediately the patient finishes treatment. The patient judges whether or not he is cured satisfactorily -- not the Gatlin Institute. Be a man again. "Quit you like men."

The Gatlin Home treatment is for those who cannot come to the institute for three
