Zutoo
SERVICE TO WEST INDIES.
Colonial Secretary Sent Representation to Earl Grey.
London, July 7.—The Manchester Guardian understands that Hon. Lewis Harcourt has addressed a despatch to Earl Grey regarding a steamship service between Canada and the West Indies. It proposes alternate fortnightly sailings of ten knot boats, with direct communication to Montreal during the summer.
Many a man's philosophy is merely dyspepsia of the intellect.

THE MANY BENEFITS OF RECIPROCIITY NO BLUE RUIN

FARMERS TO BENEFIT

The Agreement of Great Advantage to Canadian Agriculture, Says Dr. Neely
Dr. Neely, M.P., addressing a Saskatchewan mass meeting, declared that the proposed trade agreement offered great advantages to the Canadian farmer. It was in the cities of the United States that the mass of consumers of farm products were to be found, and Canada is primarily an agricultural country. With adverse tariffs Canada did \$400,000,000 of business with the United States, and everybody wanted to do more business, not less. The Government got credit for the result of the British preference in extending trade. "Why should we not seek better markets in the United States, immediately at our door?"

"Our ultimate future market for the wheat of Canada must be to the south," he said. "However much the British people may love Canada, they cannot enlarge their stomachs to consume our growing production of wheat. If we do not secure all available markets, Canada must again enter upon such a period of decline as prevailed from 1890 to 1896."
"Because the United States as well as Canada exports wheat, the question is put, 'How is the Western grain producer of this country going to be benefited?' The American farmers have been getting 10 cents per bushel more than their Canadian neighbors for wheat that was destined for Liverpool. The answer is, that when the duty is abolished the Canadian combine of wheat exporters will be broken and the American buyers will come in to help to raise the price of wheat to the Canadian farmer."

AFTER AMERICAN CASH

Mr. Fisher Wants Canada to Annex a Lot of It
"We have been able to attract American capital over to Canada," said Hon. Mr. Fisher, speaking at Montreal, "and I hope to annex a very large portion of it, which, I suppose,

is just as disloyal as it is to sell them an ox or a horse. Of gasoline engines we purchased one million dollars worth, tobacco three million dollars worth, and wood ten million dollars worth. Our exports to the United States are as follows:

Animals	2 1/2 million
Grain Products	1 1/2 "
Drugs	1 1/2 "
Fish	1 1/2 "
Starch	1 1/2 "
Lumber	1 1/2 "
Manufactured Wood	1 1/2 "
Pure	1 1/2 "
Metal-Copper	1 1/2 "
Iron-Gold and Silver	1 1/2 "
Aluminum, Nickel, etc.	1 1/2 "

"But our miners, metal workers, wood manufacturers, lumbermen, druggists, coal miners, and fishermen are to-day selling over eighty million dollars worth of Canadian products in the United States."

A PERMANENT OFFER

What the Conservatives Were Prepared to Do When in Power
In 1879, said Sir Wilfrid Laurier, Conservatives made the following permanent offer of reciprocity:
"Any or all of the following articles, that is to say: animals of all kinds, green fruit, hay, straw, bran, seeds of all kinds, vegetables (including potatoes and other roots), plants, trees, and shrubs, coal and coke, salt, hops, wheat, peas and beans, barley, rye, oats, Indian corn, buckwheat and all other grain, flour of wheat and flour of rye, Indian meal and oatmeal, and flour of meal of any other grain, butter, cheese, fish (salted or smoked), lard, tallow, meats (fresh, salted or smoked), and lumber, may be imported into Canada, free of duty, or at a less rate of duty than is provided by this Act, upon proclamation of the Governor-in-Council, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty."

A BENEFIT TO ALL

The Agreement Favorable to Both Producers and Consumers
The Liberals at Humboldt, Saskatchewan, adopted the following resolution:
"That in the opinion of this meeting the proposed reciprocity agreement between Canada and the United States will, when brought into effect, be of great benefit to the producers and consumers of Canada; and we respectfully urge upon the Dominion Government to pass the agreement at an early date as possible."

HELPS THE CONSUMER

Ralph Smith Says Reciprocity is Bound to Assist Them
"The argument has been put up by a few people: How are you going to increase the price to the farmer and reduce the cost to the consumer?" said Ralph Smith, M.P., speaking at Montreal. "I have no objection to

What question. You must remember that in Canada we have a great agricultural country, that we have millions of acres of the richest land in the world. The opponents of this measure say that if the United States takes our natural products it is going to create a strong demand for these commodities and the result will be that these natural products will be dear. That is the argument. But, you must remember that simultaneously with the finding of the market for our agricultural products in the United States, you will have the greatest development of agricultural production in this Dominion that has ever taken place. The result is that you have millions of acres of land, the very fact that you create a market in the United States, and consequently create an extraordinary demand, will bring about an enormously increased investment of capital in agricultural land and an enormously increased production of agricultural commodities which will operate in favor of the consumers of this country. You can make no mistake in believing that when the exchange of natural products between this country and the United States is made free, the man who eats these things is going to benefit by it, that the consumers of this country are going to get plenty of their products at reduced prices as compared with what they are at the present time, and that the producers who are on the soil are not going to have any reduction in the prices at which they sell their commodities. Free trade between the two countries will develop this business enormously, will increase largely the area of agricultural land under cultivation, more people will go on the land, and seek to meet the great demand that will be created by this exchange of commodities. Free trade in natural products is bound to assist the consumer."

AMERICAN REDUCTIONS

Greater in Many Cases Than Those Made by Canada
"At present wheat is dutiable in the United States at 25 cents a bushel and in Canada at 12 cents a bushel," said Hon. W. S. Fielding. "We make wheat free in this country. The reduction in Canada is 12 cents a bushel, whereas the United States reduction is 25 cents a bushel. I give that as an illustration of the fact that the tariff of the United States being much higher than ours, in order to meet a common rate they have had to make very much larger reductions than we have. Barley is now made free, Canada's reduction is 15 cents per bushel and the United States reduction is 30 cents per bushel. Potatoes are now made free, Canada's reduction is 20 cents per bushel and the United States 25 cents. Oats are made free. Canada's reduction is 10 cents per bushel, the United States 15 cents per bushel. Flour is now to be dutiable at the common rate of 50 cents per barrel; Canada's reduction is 10 cents per barrel; the United States reduction is about equal to 70 cents per barrel."

people turn the Liberals out? During the first five months of this year 625 cars of hay had been exported to the United States from Ontario north of Stratford, at twenty tons to the car and \$4 a ton duty, that was \$50,000 lost in duty. He closed with the reply to the annexation bogey, and urged the electors to vote against the Conservative candidate, who had forgotten them when he had voted against reciprocity.

THE FURNITURE TRADE

Reciprocity Would Give the Manufacturers a Greater Market
Hon. W. L. Mackenzie King, speaking at Hanover, referred to the furniture trade and its relation to reciprocity. Hanover having half a dozen furniture factories. He pointed out that the greater market the Western farmer had the greater would be the migration there, and the more money there would be. The furniture trade would get its share, and he believed that under reciprocity the output of local factories would be doubled in a few years. The Government had not touched the protection on furniture, nor did it intend to. The only manufactured articles affected were agricultural implements, the makers of which could stand the reduction. He also reminded them that the manufacturers had been assisted by the reduction in the duty on soft coal. "What are the prices of cattle here and on the other side?" asked an inquirer. Mr. King had not the figures, but he asked the farmers in the audience if it was not true that Canada was to-day exporting cattle to the United States. There were cries of "Yes," and Mr. King said: "Well, I leave it to your common sense if Canadian farmers find it profitable to export cattle now with a high duty on, will it not be easier under reciprocity and mean a greater net price to the farmer?"

NO BLUE RUIN

The Annexation Cry—"the Greatest Nonsense," Said Bishop Mills
Bishop Mills, in his charge to the Ontario Synod at Kingston, said some people were going about singing a song concerning blue ruin which was coming to our country through reciprocity with the United States. "Whether reciprocity would be in the general interests of the country," he said, "is a question for debate, and about which different opinions may be held. But politicians have not devoted their attention so much to the discussion of this question as to ringing changes on the cry that if reciprocity were adopted it would be the first step towards annexation, that the United States would be buying us, and we would be selling ourselves. I think that is the greatest nonsense that ever came from the mouths of supposedly sane men: as a Canadian I resent it. I would think very little of my loyalty to the British Crown if it depended on tariff schedules. Those who think the national spirit of Canada is such a poor and uncertain thing that her existence as a nation would be imperilled by an increase of trade with the United States certainly do not know her. There is no part of the British Empire in which there is truer loyalty than in Canada, and she can be neither bought nor sold." The opposition to reciprocity is simply a political one. That there are men of both parties opposed to it simply means that men can be taught by a cry and can be led by sentiment. Mr. R. L. Borden, the leader of the Opposition, like a sensible man has, I believe, while opposing reciprocity on economic grounds, refused to take up the annexation cry, or to use it in any way as an argument."

WHY NOT TAKE THE CHANCE?

Mr. MacKay Thought Conservatives Lost Their Hand at a Game
Speaking at Wingham, Hon. A. G. MacKay said that if the Conservatives were so sure reciprocity would be a bad thing, why did they not go on record against it, let it pass, and, after a year's trial, have the dissatisfied

SIR JOHN A. WANTED IT
The Late Conservative Chieftain Had Gone on Record on Reciprocity
So strongly had Sir John A. Macdonald felt upon the question of reciprocity, said S. H. McKay, speaking at Brandon, that he had left it on statutory record that as soon as the United States was willing to enter into a reciprocal agreement Canada would be prepared to do the same. For several years Canadian had enjoyed bonding privileges in the United States and reciprocity was after all only an extension of that principle. Their opponents claimed that the Laurier Government had received no mandate to ratify the agreement. Surely the Canadian farmers' delegation to Ottawa formed a mandate. But apart from that mandate, reciprocity had been so thoroughly endorsed by both parties that no further mandate was necessary.

SCANDAL AND SHAME

Mr. Fielding Thus Refers to the Talk About Annexation
"Annexation!" said Hon. W. S. Fielding. "Is it not a scandal and a shame that our opponents should talk annexation? I would not know—I do not know whether you do or not—I would not know where to look in the whole Dominion of Canada for a man who would call himself an annexationist. What can you say to our American friends, receive an erroneous impression when they read that the men who are supporting this Reciprocity agreement in Canada are advocating annexation in disguise, and when they know that thousands and hundreds of thousands of people in Canada are supporting this Reciprocity agreement? Can you be surprised if our American friends are taught to believe that there is disloyalty in Canada? Who teaches them?"

You Can't Leave the Beard Behind So Don't Forget the Gillette

The hearty open-air vacation life seems to make the beard grow as it never grows at home. To the man without a GILLETTE, it becomes a downright nuisance. Cleanliness, comfort and self-respect demand the morning shave. But boats, trains, summer resorts and camps provide scant shaving facilities. That never worries the man with a GILLETTE Safety Razor in his grip or his pocket. In lurching cabin or swaying Pullman—on the back porch or beside a convenient stump—wherever the morning finds him—he can enjoy his regular three-minute GILLETTE shave in solid comfort, with a lordly independence of place or circumstance. Pack your grip with discrimination. Travel light. Leave out the "unnecessaries" of life. But whatever you do, don't discount your holiday by starting out without "The Razor of To-day."

Standard Sets \$5.00. Pocket Editions \$5.00 to \$6.00. Combination Sets from \$6.50 up.
At your Druggist's, Jeweler's or Hardware Dealer's.
