

STILL SEARCH

For Missing Prospectors in Northern Ontario.

A PECULIAR MOVEMENT

OF FIRE GAVE EASY CHANCE FOR LIFE

To Many Who Escaped—All Whiskey is Being Seized—The Relief Committee is in Need of Money at Once.

Porcupine, July 18.—Cyril T. Young, chairman of the general committee, says: "The numbers sixty-three, and there may be twenty more in the lake. The man positively asserts that he was the only one saved from a raft which was overturned, all the occupants going to the bottom but himself. The balance up to one hundred, at which figure I estimate the number of dead, may possibly be in the woods. There is quite a large section yet from which reports are to be received.

"Search parties are out all the way to Flying Post, on the Canadian Northern, seventy-five miles away, and the committee have covered an area of 500 miles square already in their searches.

"Four of our own parties and at least six others passing through the Cripple Creek district on their way into Porcupine, have covered a large section of this district. They report that the fires, while fierce enough, only swept narrow sections of the district and the prospectors in the vicinity had an easy chance to escape.

"Fires occurred all through the townships of Macklem, Carleton, Cody, Whitney, Shaw, Langmuir, Eldorado, Deloro, Tisdale, Ogden, Mountjoy, Jamieson, Robb, Godfrey, Turnbull, Bristol, Thornloe, Keeler and twenty miles further west into the unurveyed. These townships are being covered by volunteer search parties whose reports are being turned in daily. As each succeeding party arrives our hopes are growing brighter, but the final summary of the death list cannot be had before twelve days.

"Sufficient supplies have come in, and after the first day there was really no danger of anyone starving. We have plenty of provisions now and the question of housing the homeless is really the worst problem to be faced at the present moment.

"The time has arrived where the volunteer parties will be deserting us. Prospectors are only poor men, as a rule, and cannot afford to neglect their own work. Paid parties will have to be sent out from this time forth and we'll have to complete the work with their aid in the next ten days.

"We have asked for \$10,000 in provisions and equipment, including blankets and tents, but we need money, and need it badly also."

WHAT IS THE USE OF A NEUTRAL COLONY?

Questions Asked by the Times Replying to Cape Town Paper.

London, July 18.—The Cape Town Volksstem, replying to the severe criticism of the Cape Times on its original article, arguing that South Africa might remain neutral if Britain were at war, says: "John Bull, to-day, boasts that for practical purposes the colonies are absolutely independent, and only for considerations of personal interest bound to the empire. The argument that the British colonies are capable of remaining neutral in the event of a world-war has not elicited serious criticism from the jurists, and was not a new doctrine."

"The Volksstem to critics as unconvincing. To ask whether in time of war the neutrality of any dominion would be useful either to England, or the dominion in reality to see whether it is an advantage to either for the dominion in question to be part of the empire at any time. That England should seriously ask herself such a hypothesis is only conceivable on the hypothesis that she has ceased to think imperially."

PRIEST WEDS DIVORCED MAN.

First Wife Not Baptized—Marriage Was Invalid.

Lexington, Ky., July 18.—Through the failure of his first wife to be baptized, Robert Forbess Perkins, of Framingham, Mass., got a new bride, in spite of the fact that the latter is a member of the Catholic church and he was a divorced man. Mr. Perkins, who is a man of forty-five, fell in love with a twenty-year-old girl here, who refused to be married by any save a priest of her church. The bishop refused a dispensation, and Perkins sought his lawyer's help. The latter soon found out that the former Mrs. Perkins had never been baptized. Proceeding under a law of the Roman Catholic church, which regards non-baptism as an impediment to marriage, the lawyer succeeded in getting a dispensation from the bishop on the ground that the first marriage was invalid and there was no need for divorce, and since in the eyes of the church there was no divorce, all obstacles were removed.

You can't attend to other people's business without meddling your own—unless you are a lawyer.

A MAN BEAT HIS WIFE AS A CURSE.

Husband at Inquest Testifies That Physicians Prescribed Blows for Dying Woman.

Cedarhurst, Ga., July 18.—At an inquest held at Eaton, Ga., by Coroner J. O. Crabb to ascertain the cause of the death of Mrs. J. W. Maynor, the husband of the woman testified that, acting under the instructions of physicians, he had tied his wife's hands and slapped her on the face and body with a board. The man denied that he intended bodily harm and appeared to be grief-stricken.

Physicians testified that Mrs. Maynor had been suffering from pelagra for several weeks. The jury decided that the woman died from natural causes.

PASSENGER RATES INCREASED.

Transatlantic Steamship Lines Add \$2.50 to Price of Passage.

London, July 18.—The transatlantic steamship lines embraced in the Atlantic conference have decided to increase the saloon and second cabin passenger rates for both east-bound and west-bound traffic by \$2.50. The advance to take effect at once. The steamer rates will not be changed.

The advance is made in order to offset the increase in wages which they were obliged to grant the strikers. It is possible that there will be some increase in freight rates.

OFFICE BOY HEAD OF INSURANCE CO.

Lad Getting \$5 Per Week is President of Pennsylvania Concern So Officials Say.

Philadelphia, July 18.—According to Daniel E. Huihnan, of the Pennsylvania state insurance department, the officers of the fourteen life insurance companies which were raided in this city Thursday were clerks, office boys and stenographers. The official stated that a boy nineteen years old, who was paid \$5 a week, was president of one of the concerns.

Three of the officers of the concerns, which were all operated from one office, were given a further hearing yesterday, and each was held in \$5,000 bail for trial. They are David Bolatly, Charles Weinberg and Jacob L. Malechik. The latter is nineteen, and his parents declare he never knew he was an officer of the company, but that he had been asked by his employers to sign his name to papers.

It is charged that the companies were started as a fraudulent conspiracy to deceive state officials and the public. It is stated that the fourteen companies had clients in all parts of the United States, and their total receipts were \$27,000 a month, practically all of which was squandered by the officials, according to the insurance department authorities.

LOVER WINS HIS SUIT AFTER TWO SCORE YEARS.

Sweetheart Finally Relents and Weds Persistent Sutor After First Husband Dies.

Laporte, Ind., July 18.—Waiting for two score years and hoping fate would finally decree that his love making would win, John Patrick, a wealthy business man of Hamlet, was married at Grand Island, Neb., yesterday to Mrs. Flora L. Leflow, of that city.

Forty years ago the couple were sweethearts, but there came the parting of the ways, and Mrs. Leflow, who was then Miss Flora Peeler, married another sutor.

They lived happily together until Mr. Leflow died, after the conventional time had elapsed Mr. Patrick renewed his suit and was accepted, and the marriage of the couple took place in the Nebraska town.

ALLIGATOR MAKES MEAL OFF TWO SMALL BOYS.

It Was Caught in Fishing Seine and Seized Children When Hauled Ashore.

Little Rock, Ark., July 18.—Two small children of Amos Smith, a negro fisherman, who was helping state officials haul a seine in Lake Chicago, were killed by a large alligator on Saturday. The alligator was in the seine.

It was at sundown, and the party had finished their week's duties, which consisted of hauling in an immense net from the middle of the lake in search of fish.

The fishermen knew they had big game, but were not prepared for the alligator when he was hauled in shore. When the monster swished its tail they fled. The two negro children, who were standing by looking on, were left to the mercy of the alligator, which afterwards escaped to the water.

Reports From Verona.

Verona, July 17.—The lawn social given under auspices of the Ladies' Aid and choir was a decided success. All were very sorry for John Gerald's loss by fire at Iverary. He was a former resident here and much esteemed. J. Brown, Canal Station, Suck, was a visitor here lately. Dr. W. Wilkins, Kingston, is spending a brief vacation at his home here. Yarker baseball team will play a return match with Verona here next Saturday.

Forest fires burn a territory of eight miles wide, and eighteen long near Amherst, N.S. The fire started near Fox River, and is said to be of incendiary origin.

TO MAKE READY

For a General Election at an Early Date.

WILL SEEK A DELAY

THE PLAN OF THE OPPOSITION—IN A DILEMMA.

Pass Reciprocity or Face People—West Wants Reciprocity Prices For This Year's Wheat—Redistribution Means a Year's Delay.

Ottawa, July 18.—From three to six weeks more of the session and then a general election with reciprocity as the issue seems to be the accepted programme for the Canadian lawmakers, who are to-day returning to the capital for the resumption of business, while it was dropped on May 19th, when the adjournment took place.

There has been no great rush of parliamentary yet, and it is expected that there will not be full houses here next week. However, men are in from the east and west and centre, representing both political parties, and they all seem to feel that dissolution may take place in three weeks and must take place within six weeks.

The government wants an election and the opposition have gone too far toward forcing one to back down now.

The journey of Mr. Borden through the west dispelled some of the ideas which influenced the conduct of the conservative party in opposing reciprocity. There has been a change of sentiment reported among the fruit growers of Ontario and some of the manufacturing, financial and railroad opponents of reciprocity are said to be getting cold feet and receding from their position.

There will be caucuses of both sides at once and at each the programme for the session will be discussed. The opposition will seek delay by moving adjournment to enable them to discuss the proceedings at the recent imperial conference, and a number of other general questions.

There will not be heavy pressure in forwarding the business of the house until the United States senate has passed the reciprocity measure and the opposition will seek delay by moving adjournment to enable them to discuss the proceedings at the recent imperial conference, and a number of other general questions.

RAILWAYS ORDERED TO PROTECT LIVES

At Crossings Where Fatalities Have Occurred—The Deadly Ashpans.

Ottawa, July 18.—The railway commission has issued two orders, one designed for the protection of employees and the other for the protection of the public. The first requires all railways to file with the board, within sixty days, a statement showing the number, class and weight of each locomotive not equipped with dump ashpans to avoid the necessity of men going beneath the locomotive. The second circular orders that where an accident has happened subsequent to January 1st, 1905, or hereafter, happens at a highway crossing by a moving train, causing bodily injury or death to a person using the crossing, such crossing shall immediately be protected by a watchman until the board has the accident investigated and the crossing examined. This states the order, will be considered satisfactory by the board.

AERONAUT NEAR DEATH AS HE DROPS INTO SEA.

Swims More Than a Mile in Rough Water—Exhausted When Found.

Asbury Park, July 18.—A. J. Roberts the aeronaut who started in his dirigible balloon from New York for Philadelphia Saturday afternoon, was found in an exhausted condition on the beach at Deal near here this morning, having been compelled to swim more than a mile in a rough sea to shore.

Roberts after being in the air several hours discovered that he was being carried out to sea. He immediately pulled the rip cord of his gas bag. By the time the air craft descended, however, Roberts was carried more than a mile to sea and was compelled to swim that distance to shore.

He was found at daylight by Jimmy De Forest, a pugilist promoter, who was taking a run along the beach. De Forest summoned aid and Roberts was given stimulants, but it was several hours before he had recovered sufficiently to tell his story.

Roberts attributes the failure of his trip to unfavorable air currents and lack of gasoline. The dirigible was not recovered. Roberts is an Australian and has made a reputation as an aerial pilot in England.

UNCLE SAM DISCOVERS FORTUNES OF CONVICTS

Government Agents Recover \$750,000 From Men Who Took Pauper's Oaths to Escape.

Washington, July 18.—It is said that E. L. Johnson, an expert accountant, and United States District Attorney, Martin Erwin, of Savannah, Ga., have recovered \$750,000 from the concealed assets of Gaynor and Greene, who were convicted of defrauding the government out of \$2,000,000 in the Savannah harbor dredging contract in 1897.

Both Gaynor and Greene took the pauper's oath and escaped the payments of the half million dollar fine levied on them after serving their terms in the penitentiary. Johnson and Erwin had been searching for these assets for twelve years. Most of the funds recovered were in stocks and bonds, but \$200,000 was in cash.

Gastonia, N.Y., prison broke its electricity record when one minute of current sufficed for Giuseppe Scrimaio.

MORE PAY FOR M.P.'S

\$2,000 a Year Not Deemed Sufficient by Mr. Asquith's Critics.

London, July 18.—Premier Asquith's proposal that members of parliament should receive \$2,000 a year for their services as legislators is criticized in socialist and labor union circles as not being sufficient. Mr. Asquith's critics draw attention to the fact that members of congress in the United States receive \$7,500 per annum, together with their travelling expenses, and they maintain that the same proportion as obtains between the president's salary and expenses of \$100,000 per annum should be observed between the M.P.'s salary and King George's civil list of about \$2,000,000, which would make the M.P.'s salary considerably lower.

DR. MANUEL ENRIQUE ARANGO, The new president of Salvador, C.A.

THE VETO BILL

May Be Rejected in Its Entirety by Lords.

AN UNEXPECTED TURN

IN THE BRITISH PARLIAMENTARY SITUATION.

Premier Asquith would then probably advise the King to create a large block of new peers—Conservatives in Conference.

THE VETO BILL

May Be Rejected in Its Entirety by Lords.

AN UNEXPECTED TURN

IN THE BRITISH PARLIAMENTARY SITUATION.

Premier Asquith would then probably advise the King to create a large block of new peers—Conservatives in Conference.

London, July 18.—An entirely unexpected contingency confronts the career of the veto bill. It is a possibility that the house of lords, instead of passing the third reading of the bill with its amendments on Thursday, thus sending it back to the house of commons for reconsideration, may reject it, even with amendments, in the stock and barrel. In that event Premier Asquith is fully expected to announce, as he probably would, that he had advised the king to create a large block of new peers.

The liberal party is no more anxious for an inflated peerage than the lords themselves are, but will not talk at the creation of peers if the necessity is forced upon it. The parliamentary programme of the liberals is as the Rt. Hon. Walter Runciman, president of the board of education, said in a speech on Saturday, "the bill, the whole bill and nothing but the bill."

Two moves in the lords' game yesterday excited great speculation. One was a conference of the conservative leaders, the Marquess of Lansdowne, the Earl of Selborne, Baron Middleton, the Marquis of Salisbury and others. The second was a strong appeal by Lord Morley of Blackburn to the liberal followers in the house of lords. Lord Morley in a circular letter said: "It is possible that a certain number of opposition peers may force division on the third reading of the parliamentary bill. The momentous results at stake both immediate and in the future make it in the highest degree desirable that no supporter of the bill should be absent from his place. I earnestly trust therefore that your lordship will not fail to give his majesty's government the advantage of your presence on what may prove so truly critical an occasion."

The rejection of the bill has never been part of the programme of the conservative leaders. The report went around yesterday, however, that they would assume the attitude that the bill, even with the amendments, was so dangerous and revolutionary that they would refuse to have any hand in its passage, but would compel the liberal lords to take all the responsibility for voting its third reading.

That aroused the fear that sufficient insurgent peers might be found to carry a vote to kill the bill outright instead, as Lord Lansdowne desires, of permitting the bill to go to its third reading as amended.

A group of extreme peers, estimated at from between fifty to eighty, are sworn to fight to the last ditch and if it came to a fight between them and the liberals the former would have a chance of winning. The best opinion held tonight is that the lords will return the amended bill to the house on Thursday and give Premier Asquith an opportunity to show his hand when the house takes it up on Monday, and that the premier will announce that the government refuses to accept the amendments and will, if necessary, call on the king to create new peers.

Then a final struggle will come between the two factions of the conservative lords—the standpatters and those who believe that the lesser of the evils will be to swallow the bill with the expressed declaration that the conservatives will repeal it when they return to power. By accepting the bill they can save off home rule for two years; by rejecting it they put the liberals in a position to adopt all the extremist schemes of legislation without delay.

In the meantime there is no doubt that the government has made up its list of possible peers, the number of them according to the latest belief, being 350.

MOURNED AS DEAD FIVE YEARS.

Woodstock, July 18.—After an absence of over thirty years, and after having been mourned for a dead five years past, Amos Carter, son of Amos Carter of Lunenburg, returned to his home a few days ago. He came in unexpectedly and was not recognized by his father for some time. When Mr. Carter finally became convinced that the stranger was his long lost son he broke down and nearly collapsed.

MANITOBA WANTS 20,000 MEN.

Ottawa, July 18.—Hon. Robert Rogers, of the Manitoba government, is in Ottawa to establish a labor bureau here for the employment of harvesters and other labor for his province. "The demand for labor in Manitoba this year, is twice as great as in any previous year. We will require at least 20,000 men in Manitoba alone."

SMALLPOX ON STEAMER ROSEMOUNT.

Montreal, July 18.—A new case of small-pox has been discovered, the victim being a sailor named Mahoney, nineteen years of age, a native of Port Colborne, Ont., who arrived on the grain-laden steamer Rosemount.

Baseball game, Victorias vs. C.L.C., Civic holiday, Lake Ontario Park, July 31st.

The Cape boat had a large number of passengers on board to-day.

JAPANESE VIEWS OF TREATY CHANGE.

Government Press Thinks New Plan Good—Minority Dissatisfied.

Tokio, July 18.—Newspapers here continue to discuss the revised Anglo-Japanese treaty, and while the majority of the papers favor the new alliance, still there are a few which strongly condemn it.

The government press is quietly congratulating the government on the insertion into the treaty of article four, which practically excludes the possibility of war between Japan and America. This article was inserted in order to remove the last difficulty which stood in the way of the ratification of an Anglo-American arbitration treaty, and the old treaty provided that in case of war Great Britain should lend aid to Japan. By the new alliance, Great Britain, by its general arbitration treaty with the United States, is precluded from supporting Japan in a conflict with the United States, and it is held in most quarters that by this the spectre of war between Japan and America is removed.

The new situation, some of the papers state, practically annihilates a triple alliance between Great Britain, Japan and the United States.

The minority press, on the other hand, severely criticizes the agreement as being one-sided and thus weakening the position of Japan. The isolation of Japan, say this section of the press, is complete and the United States has greatly secured its position in international politics.

LANDS FROM THE SKY ON A STREET CAR

Parachutist, Avoiding Power Wire, Crashed into Denver Motor-man's Vestibule.

Denver, Col., July 18.—Dropping from a height estimated at 4,000 feet in a parachute, yesterday, Wayne Abbott, a Denver aeronaut, landed on the front end of a street car, his feet smashing the glass of the motorman's vestibule.

Forty passengers were badly frightened. One woman fainted and several were bruised in a wild rush to escape from the car. Mr. Abbott was severely bruised about the head and shoulders. He had a narrow escape from death, saving himself from striking an 11,000-volt electric wire only by frantic struggles which swerved him over the car, which he had not seen until he struck it.

HON. WILLIAM HARTY WAS ELECTED PRESIDENT

Of the New Canadian Locomotive Company—J. J. Harty is Secretary and J. H. Birkett Treasurer.

A meeting of the new Canadian Locomotive Works company was held in Toronto, on Monday for organization. Hon. William Harty was re-elected president; Dr. J. J. Harty, secretary, and John H. Birkett, treasurer. A vice-president or a general manager was not appointed in the meantime. For the present, Mr. Harty will continue to manage the works. The office staff will remain here, and will be moved to Toronto.

KING GEORGE SUFFERING

From a Sore Throat as a Result of Speech-making.

Edinburgh, July 18.—King George is suffering from a severely sore throat, caused by the many speeches he has made recently, combined with a bad cold, caught while travelling. However, he filled a number of engagements, to-day, including a levee.

A HUSBAND REMOVES HIS WIFE'S APPENDIX

And Then Carries Her 200 Miles to Hospital—She Will Likely Recover—A Remarkable Trip.

Port Arthur, Ont., July 18.—On the banks of Rainy river, 200 miles directly north of Nepegin, lies a solitary trading station of the Hudson Bay company, Fort Hope. The Europeans who live in that district are cut off from civilization the whole year round.

Two weeks ago the wife of Henry McPherson, resident of Fort Hope, was taken ill, and her husband was satisfied it was a case of appendicitis. The illness became so acute that the husband, decided as a last recourse to perform an operation. With but a slight knowledge of surgery, and armed with the few articles supplied in a small "first aid" case, he successfully carried out the operation.

The next matter was to reach some place where good nursing and care could be obtained, and a start was made immediately for the south, the Indians being hired to make the 200-mile journey to Nepegin. Day after day the journey was continued. At one portage it was necessary to carry the woman thirteen miles, but she bore the trial bravely and now rests in McKelvie hospital.

LONDON CHURCH TROUBLE SETTLED.

London, Ont., July 15.—The congregation of the Church of St. John the Evangelist met last evening and agreed to Bishop Williams' proposal to settle the trouble of the past year. Canon Craig, of Petrolia, will come here as rector, and Rural Dean Hill will go to Petrolia as rector of Christ church.

At Berlin, Ont., a new well with 200,000 gallon capacity has been added to the city's water supply.

WEATHER PROBABILITIES.

Toronto, Ont., July 18, 10 a.m.—Fair to-day and on Wednesday. Wednesday, a little warmer.
