To its many customers in the various departments of banking gives that convenience and satisfaction that is so helpful to those who have banking business to transact.

SAVINGS AND BUSINESS ACCOUNT INVITED.

BANK OF TORONTO RESOURCES, \$50,000,000.

KINGSTON BRANCH 107 PRINCESS ST.

GEORGE B. McRAE, Manager.

HOT WEATHER Hammocks

The kind you can lay 'straight' out on and not double up like a Jack knife.

THE COUCH HAMMOCK

Just like a bed for comfort. Hammocks from \$1.00 to \$7.50.

W. A. Mitchell

HARDWARE.

Stepping behind one train in front of another, J. R. Russell, C.P.R. inspector, was killed at Forham, Que.

WEDDED IN THE RAIN

UNIQUE CEREMONY PERFORMED ON WOLFE ISLAND.

Miss Mildred Gillespie Wedded to Hubert C. French, Toronto. Ceremony Performed Under Bower on Lawn.

A wedding which created a great deal of interest among the residents of Wolfe Island, took place, there, Wednesday evening, at the residence of the bride's parents, "Hickory Lawn," when Miss Mildred, second eldest daughter of Mr. and Mrs. William Gillespie, was united in marriage to Hubert Charles French, of Toronto.

Elaborate preparations were made to have the ceremony performed on the lawn, but the rain came down several times before the hour appointed for the ceremony to take place. Nine o'clock was the hour set, and punctual to the minute, the bride walked across the lawn, leaning on the arm of her father, to the strains of the wedding march, played by Miss Lillie Woodman. The ceremony, performed by Rev. A. K. Stewart, took place under an arch of ferns, with a wedding bell hanging from the centre. The bride's dress was of white satin with empire effect and long train. A large pearl ornament was fastened across the waist and used pearls were around the bottom of the skirt. She wore the regulation bridal veil and carried a bouquet of lilies of the valley. Miss Maude Gillespie, sister of the bride, acted as bridesmaid, while the groom was supported by his brother, Allan French.

As the ceremony was being performed, the rain descended in torrents, but the bower was so well protected that none felt it. The lawn was decked with many colored lanterns, flags and bunting. After the ceremony a sumptuous supper was served to about 150 guests in the dining-room.

At 2.30 o'clock the happy couple left for Clayton, N.Y., amid showers of rice and confetti, and with the good wishes of a host of friends. They expected to go down the river on the steamer Kingston, go through here at five o'clock Thursday afternoon, to Toronto and Niagara Falls, returning to Toronto, where they will reside, and where the groom is employed as manager of the Marine Construction company.

NEW STOCK ISSUED.

Bank of Toronto Stock on Market at 200.

The expected announcement of an increase in capital has been made by the directors of the Bank of Toronto, who have decided to issue \$1,000,000 of stock to shareholders of record August 15th, at 200, in the proportion of one in four.

STEAMER GLENGARRY SINKS.

Queer Frank of Old Craft at Wharf at Montreal.

Montreal, July 20.—Late last evening, from no apparent reason, the steamer Glengarry, belonging to the Richardson Forwarding company, of Kingston, slowly settled, and sank to the bottom of the Wellington basin. Fortunately the crew had time to take all their belongings from the vessel, which disappeared beneath the water an hour after she was noticed to be sinking. The Glengarry had been lying up in the Wellington basin all winter, and so far this year had not made any trips, but, after an overhauling, was to have gone back to her old route, carrying grain and coal between Montreal and the upper lakes, as soon as the shipping of this year's grain was commenced. A tug of the Sincennes McNaughton company is working over the Glengarry, which having sunk in the basin where she had been moored all winter, is expected to be regular canal traffic. It is expected that she will be raised shortly.

MUST NOT DISCRIMINATE

Ruling in Favor of Canadian Oil Regulating Rates.

Ottawa, July 20.—The railway companies which attempted to protect Canadian refineries against the importation of crude oil from the United States were committing an illegal act in so doing, and that as a matter of principle railway companies could attempt no rate adjustment with a view to protecting any one industry or section of the public, was the important statement contained in a judgment issued by the railway commission yesterday in the case of the Canadian Oil Company, Limited, against the Grand Trunk and Canadian Pacific railways. The Oil company claimed that the companies had unjustly discriminated against it upon shipments of petroleum and its products between certain Canadian and American points by refusing to carry the commodity at fifty-class rates.

SHOT CANADIAN GIRL IN AN AUTOMOBILE

Lad intended to Shoot at the Tires --Bullet Veered and Entered Girl's Brain.

South Norwalk, Conn., July 20.—Incensed by having a pet bantam killed by an automobile, William Beers, aged twelve, determined to shoot the tires of all passing cars. An auto occupied by Miss Eva Hammond, of Coaticook, Quebec, was the first to pass. The boy fired with a small rifle. The bullet veered, entering the brain of Miss Hammond, who is not likely to recover.

STOCK QUOTATIONS

Table with columns for stock names and prices. Includes items like C.P.R., Canada Cement, Eastern Canada Pulp, etc.

GIRL TRAVELLING AS BAGGAGE.

That is, She Was Ticketed to Destination in the West.

Montreal, July 20.—To be shipped across the ocean on a large liner labelled like baggage, is quite an experience, but so travelled little Miss Ivey Lightwood, who arrived here today on the steamer Lake Manitoba from Liverpool.

Miss Lightwood is an eight-year-old English girl, whose parents have been residing in Fort William, Ont., for some time.

The parents wishing to have their little daughter with them in their new home, sent word to relatives in Liverpool to send the girl out on the Lake Manitoba.

To Seek Separation.

New York, July 20.—Friends of Dr. Lee DeForest, inventor of a wireless system of telegraphy, heard yesterday that his wife, Mrs. Nora Stanton Blach DeForest, had instituted a search for separation. Mrs. DeForest is the daughter of Mrs. Harriet Stanton Blach, the suffragist leader, and shares the views of her mother on the suffrage question. The papers in the suit, it is said, have been served on DeForest.

Daylight Diamond Robbery.

Kent's City, July 20.—The man entered the jewelry shop on the principal street, of this city, at nine o'clock, this morning, held up R. J. Franklin at the point of the revolver, seized a tray of diamonds and ran away. They were pursued by Franklin but fired, dangerously wounding a bystander.

Lighted With Electricity.

To-day the H. W. Newman Electric company are busy installing electric lighting system and fixtures in the homes of James W. Rigney, 55 George street, Rev. John Fairfax, 489 Brock street, W. R. Sills, R. A. 15 Mack street, and Douglas & Nellopham, 113 William street.

California Cantelopes.

Bartlett pears, yellow peaches, blue plums, peach plums, seedless oranges, etc., at Carnovsky's.

Miss Jessie Fitzgerald, King street, and Miss Edna Fitzgerald, Wellington street, left, yesterday, to spend their vacation with relatives on Howe Island.

THE WORLD'S EPISODES

GIVEN IN THE HIGHEST POSSIBLE FORM.

Matters That Interest Everybody—Notes From All Over—Little of Everybody Easily Read and Remembered.

Four cases of cholera are reported at Maracilles.

Harrison has a rat that performs on the high wire.

A project is on foot at Montreal to tunnel under the St. Lawrence river.

C. H. Goodman, St. Thomas, has been appointed chief of police of Inglesoll.

Ancient treasure from Soudan is to become the property of the Royal Ontario Museum.

Brakeman Thomas Cherny, Petrolia, was crushed between cars at Guelph and fatally injured.

A two-hundred-thousand-dollar corporation has been formed at Brockville to build automobiles.

One of the names mentioned for elevation to the lords as "a veto peer" is Sir Wilfrid Laurier of Canada.

Prof. C. A. Zavitz, of the O.A.C., says the crops of Ontario will, on the whole, be a good average this year.

John Oliver, an aged resident of Leamington, sentenced to jail for drunkenness, swallowed strychnine and died.

Secret correspondence between the Portuguese royal family and British and German governments has been discovered.

Windsor is rapidly nearing the 18,000 mark. The census figures show that the city lacks only 125 of that population.

Charles Savard, Hull, who went through the Porcupine fire, says he saw the bodies of seven Poles who were burned to death.

A United States customs official confiscated the jewels of Mrs. Augustus Belmont, formerly Eleanor Robson, on entering New York.

At Muskogee, Okla., cars in the centre of a track crashed through a bridge. One passenger was killed and at least six were injured.

The resignations of Secretary of War General Hanson and Assistant General Duran, have been accepted by President De LaBarra.

Four men killed, two injured and another missing, is the result of a fast freight wreck on the Baltimore and Annapolis road at Bryant, Pa.

That the Prince of Wales is to visit New York and other American cities is denied by Lord Stamfordham, private secretary to King George.

Miss Bessie R. Johnston, Malton, Ont., wins this year's governor-general's silver medal for the best student at Toronto normal school.

A Cape Haitian, Hayti, report says that the revolutionists are in possession and pillaging that city. The French consul was slightly wounded.

The bodies of twelve workmen have already been recovered from the slide at Taranto, near quarries in Italy. It is feared that several others are killed.

"Bobbie" Leach announces that in spite of his first barrel being destroyed, he will make the trip over Niagara Falls in a new barrel next Monday.

PLENTY OF COAL.

Ottawa, July 20.—That abundant supply of coal is on the verge of exhaustion, will be proposed without honor in their own country for some little time yet, is indicated by a geological survey report just issued. It is on the Big Horn coal basin in Alberta, where it is estimated there are 6,000,000 long tons of coal in an area of about 187 square miles that are workable. The Big Horn basin is about 85 miles north-west of Banff, 140 miles south-west of Edmonton, and 70 miles south of the Grand Trunk Pacific and Canadian Northern Railways surveyed routes.

Biblical Shorthand.

When Sir Herbert Samuel, in his capacity as postmaster-general, advocated a higher rate for telegraphic code messages, he told the story of a bishop who telegraphed to a friend: "Third Epistle John 13, 14." The story has since then appeared in so many places, in so many guises, that its origin has become questionable. One paper, referring to the many "twists" which have been given to the tale, wonders where Sir Herbert found it. The code words mean: "I have many things to write, but I will not with ink and pen write unto thee. But I trust I shall shortly see thee, and we shall speak face to face. Peace be unto thee. Our friends salute thee. Greet the friends by name."

The Principal Occupation.

"A good turkey dinner and mince pie," said a well-known anti-dinner orator, "always puts us in a lethargic mood—makes us feel in fact, like the natives of Nola Chucky. In Nola Chucky one day I said to a man: 'What is the principal occupation of this town?' 'Wall, boss,' the man answered, yawning, 'in winter they mostly sets on the east side of the house and follows the sun around to the west, and in summer they sets on the west side and follows the shade around to the east.'

Not a Compliment.

French Professor: "Ah, yes, made moielle, you speak ze French without ze least accent." Miss Breezy: "It is very kind of you to say so, but do I really?" French Professor: "Oh, yes. Zut een, without ze least French accent.—Ti-Bits.

Boss Couldn't Save.

Employer: "I hope you saved something out of your salary James?" Office-Boy: "Yes, sir; most all of it sir." Employer (eagerly): "Do you want to buy an automobile cheap?" —Puck.

CONGRESS TO SOLVE PROBLEMS.

International Gathering Will Bring Together Noted Experts.

Much interest is being manifested in the international municipal congress and exposition, to be held in Chicago, Sept. 18th to 20th, and arrangements are being made for the reception of a large number of visitors from the principal cities of the United States and several foreign countries.

It is believed that through this municipal exposition, making possible comparisons between various communities with reference to their systems of government, their notable accomplishments of the past and their plans for the future, there will be created a spirit of rivalry and civic pride that will do much for the advancement of municipal betterment.

Experts of world-wide fame and known ability in matters pertaining to municipal government will be in attendance at the exposition, and addresses will be made on many subjects of vital interest to municipalities generally.

It is considered that this is the most comprehensive attempt ever made to bring together the most intelligent educators in all lines of municipal endeavor.

Health and sanitation, including garbage collection and its disposition and the prevention and suppression of epidemics, will be given especial attention during the session of the congress, as will also the subject of taxation. The latter will include discussions of equalizing taxation, restriction of a city's taxing powers, methods of collection of taxes and their disbursement.

Among other subjects to be discussed will be that of public utilities. Included in this will be the subject of franchises, municipal ownership, street lighting, water systems, docks and water transportation and modern housing.

THREE MASKED BANDITS HELD UP A TRAIN

They Wounded the Engineer—took About \$500—Escaped in an Automobile.

Buffalo, N.D., July 20.—Three masked bandits entered a Northern Pacific train near here, last night, and searched all passengers, getting about \$500. The engineer was shot and wounded when he refused to stop the train to let them off. The bandits escaped by an automobile.

A Mixed Educator.

Saturday Evening Post. When the National Educational Association met at Cleveland, Ohio, Dr. Nicholas Murray Butler, president of Columbia University, was presented to a county superintendent of schools from away down in Ohio. The county superintendent hadn't been in a big city for some time, and he had improved his opportunities by getting slightly jingled.

Where Journalism is Ticklish.

Chicago Daily News. They have a yellow-backed magazine in China with an unpronounceable name which consists of twenty-four octavo pages, each page with seven columns. Two editions are published, an expensive edition for the court and upper tendon for \$1 a year, and an inferior one for the poorer world for half price. It has a circulation of 10,000 copies. It chronicles the movements of the emperor and of the court and the ministerial affairs. It is most exacting in its make-up. Until recently a typographical error or any trivial mistake was punished by instant death. Lately it has been modified to 100 lashes. The job of writing is not sought. It is commanded, and under penalty of death if the luckless fails to qualify.

Not His Cue.

George L. Shronk, one of Atlantic City's champion life guards, was discussing his profession. "Funny things happen to us guards sometimes," said Mr. Shronk. "A funny thing happened to my friend Tim last week. 'A society belle from Spruce street went in the water wearing one of those fashionable transformations, or wigs. A big wave went over her, and when she came up the transformation was floating out to sea. She turned and ran 'Tim. 'Oh, save my hair!' she yelled. 'Save my hair!' 'Pardon me, lady,' says Tim. 'I'm a life saver, not a hair restorer.'

Once in a Great While you meet a woman who understands men, but she is too busy manipulating the strings to say anything about it.

Get ready for the Old Boy's coming. All things may come to a man who waits—provided he doesn't wait in the path of an automobile.

Hood's Sarsaparilla
