A PHYSICAL CENSUS

IS RECOMMENDED FOR THE SCHOOL CHILDREN.

Would Like to Have Students Trained in Normal Schools and Faculties of Education in School Hygiene.

The following motion respecting a physical census of school children was moved by Dr. Spankie at the Ontario Medical Council and unanimously passed:

"Whereas the question of the medical inspection of schools and scholars is now prominently before the people of various nations; and

"Whereas the legislature of Ontario in 1907 authorized trustees, to provide and pay for the dental and medical inspection of pupils, as the regulations may prescribe, or in the absence of regulations as the board may deem proper.

"Resolved that this council, in the interests of school children, respectfully recommend to the minister of education the advisability of taking a physical census of the school children, with the view of comparing the health and physical condition of children in urban and rural districts, and in the meantime, further respectfully recommend the training, as in England, of the students in our model schools, normal schools, and faculties of education in such a knowledge of school hygiene as will enable them to recognize common defects and diseases of children.

"This council further recognizes that, while the employment of school doctors and nurses giving all their time to medical inspection, would be the ideal plan for every municipality in the province, yet it is of the opinion that the public are not sufficiently familiar with the benefits of medical inspection to be ready to meet the very considerable expense involved in inaugurating such a comprehensive system at the present time."

A SUMMER TONIC

For that worn out, tired and run down feeling there is no better tonic than a combination of

BEEF, IRON AND WINE.

Ours is delicious in taste, contains iron to enrich the blood, peptonized (digested) beef to feed the tissues, and choice wine as an appetizer. In a recent Government analysis a bottle taken from our stock of Beef, Iron and Wine proved to be a superior article ranking as first class.
