Itching Scalp Falling Hair
 To prevent dry, thin and falling hair, remove dandruff, allay itching and irritation of the scalp, and promote the growth and beauty of the hair, frequent shampooing with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, succeed when other methods fail. Cuticura Soap and Ointment have been equally effective in the treatment of torturing, disgusting scalp humors and the alarming loss of hair which so often results. For example, read how George E. Jefferson, 1618 Reed St., Philadelphia, tells of his remarkable case:

"My disease started with a little pimple on my head. Then it began to itch. The more I would scratch, the worse it grew until it spread all over my head. So I went to the doctor. But my head grew as raw as a piece of beef and my hair commenced to fall out in bunches. So I changed doctors. My head at this time was so sore I could not touch it. Then I decided to go to the hospital. They began to treat it but it improved very slowly. For over three years I was a sufferer from this disease. I thought all hopes of a permanent cure were impossible. A friend, upon seeing the condition of my head which was a mass of running corruption advised me to try the Cuticura Remedies. I told him nothing would do me any good but he insisted I try them. The first treatment brought immediate relief. My hair became alive and stopped falling out. All the scales left and now I am perfectly well and have a full head of hair. I can truthfully say that it was entirely due to the use of the Cuticura Remedies."
 (Signed) GEORGE E. JEFFERSON.
