## TALK AGAINST IT

### TO HOLD MEETINGS IN MANUFACTURING CENTRES.

#### The Aviators are Having a Good Time in Toronto and Making Records—A Call Given to a Scottish Minister.

Toronto, Aug. 3.—Four thousand harvesters left the Union station for the west today. The Toronto-Canada British Association is against reciprocity. The organization will hold meetings in manufacturing centres.

William Smith, a civic watchman, was killed by a car in Riverside.

Beverly street Baptist church has called Rev. David Miller, Glasgow, as pastor.

An athletic meeting at the island stadium, last night, George Goulding walked two miles in 13.20 minutes. The world's record is 13.11. In a two-mile run, Goulding beat Tait and Tressider, times, 9:51.5 and 10 min.

J. Jackson, Toronto's novice aviator, made two short flights on the aviation field, at Bonlands, last night, and then smashed the machine but escaped uninjured.

Aviators McCurdy and Willard made the first city to city flight in Canada, yesterday. McCurdy did 35 miles in thirty-five minutes and Willard forty miles in forty-five minutes. McCurdy flew at an altitude of 3,000 feet; Willard's altitude was about 600 feet.

## BENEFITS OF RECIPROCITY.

An article reprinted in an exchange last week from the British Colonist, Toronto, in 1881, shows that reciprocity is a pretty old question. We gather that supporters of reciprocity in 1881 assured the people of Old Canada that with the United States market open, forests would be converted into wheat fields, lakes and rivers would grow under the burden of commerce, and the whole country would prosper. Well, reciprocity came and the promises of increase, along with the conversion of wheat fields, lakes and rivers would grow under the burden of commerce, and the whole country would prosper. Well, reciprocity came and the promises of increase, along with the conversion of wheat fields, lakes and rivers would grow under the burden of commerce, and the whole country would prosper.

## NOVA SCOTIANS LOST

### When Barque Foundered Near Tahiti.

Melbourne, Aug. 3.—News has just reached here of the rescue of a tragedy of the seas, as related by survivors of the barque Puritan, which sailed some months ago from Newcastle for San Francisco.

The vessel sprang a leak, during a storm while sixteen miles from Tahiti, and the crew put off in two boats seeking to reach the nearest land. In one of the small craft were the captain, the second mate, and ten men, and in the other, half clad, were the mate and the remainder of the crew. The two boats kept together for two days, but on the second night they became separated and the captain and crew of the second boat, which was in safety. Here they subsisted for eleven days on a pint of water and two biscuits each, per day. At the end of that time their condition had become so desperate that the captain and three men set sail for Tahiti. When half way there the boat struck a coral reef and was badly damaged. Only by desperate boiling could the remaining men aboard keep the little craft afloat. After they had almost abandoned hope, they came in sight of Tahiti, and on landing were well treated.

Immediately the news of the plight of the remainder of the captain's party became known a vessel was sent to rescue them.

This task was performed with all speed and the men were found and rescued. The second boat, in which were the mate and ten men, has not been heard of, and it is feared that all have perished. In this boat, the mate, and sailor named Chapman, were natives of Nova Scotia.

### No Day of Rest for Many in United States.

Washington, Aug. 3.—Secretary Nagel, of the Department of Commerce and Labor, in a special report to the senate on the conditions of employment in the iron and steel industries in the United States, stated that "out of over 90,000 employees covered in the report, the customary working week of one-third of them was a seven day week, Sunday not differing from other days, and approximately one-fourth of the 90,000 worked eight-four hours or over per week."

## ANGLICANS TO SEEK

### CHURCH UNION

#### Resolution Looking Towards This End to Be Placed Before General Synod.

Toronto, Aug. 3.—The general trend of the religious bodies towards church union, at least towards a working agreement, is shown by the following motion which Judge Ernaterger, of St. Thomas, will put before the general synod of the Anglican church in Canada, in London next month.

"That the spread of the gospel message and of christian administrations can more effectively and speedily be promoted by the elimination of unnecessary competition between the several christian churches, whose doctrines are practically the same.

"Be it therefore resolved that a standing committee of both houses be appointed to co-operate with similar committees or other authorities of other christian churches in formulating a plan for defining territorially or otherwise the fields of operations of the respective churches, and taking the necessary steps to carry the same into effect."

## "I DID IT MOTHER"

### SAID MURDERER

#### Young Son's Confession Caused Poor Woman to Fall into Dead Faint.

New York, Aug. 3.—A pathetic drama was witnessed in the Tombs when the mother of Paul Gerdel came from her home in Hartford to ask her boy if he murdered William Henry Jackson in the Hotel Troquois on Wednesday night of last week.

She met her son for the first time since his incarceration in the dim lights of his barred cell. She tearfully clasped him in her arms and pleaded with him to state his innocence. In his mother's embrace, her son broke down for the first time since his arrest, and to her horror admitted the crime.

"I did it, mother," were the words he uttered.

As the meaning of the confession slowly pierced her brain, she fell forward in a dead faint.

Under the new scale, which is identical with the regular winter prices, bottled milk will cost nine cents a quart and bulk milk eight cents retail, the wholesale charges being one cent lower in each case.

## Rescued Alive and Well.

Joplin, Mo., Aug. 3.—Joseph Clay, imprisoned by a cave-in in the White Oak Mine near this city since last Sunday morning, was reached by rescuers yesterday. He was alive and well. When the last spadeful of earth was removed by workmen in the shaft and they dropped through into the drift, Clay, three himself, into their arms and went while the shouts of thousands cheering at the mouth of the mine echoed down the shaft.

## What Bourassa Says.

Montreal, Aug. 3.—There is contenta for the election manifestos of both political leaders in the typically Bourassa statement issued in Le Devoir to-day, signed by the Nationalist leader, who declares that imperialism, not reciprocity, is the really important question above leaders and outside the confines of party.

Reciprocity the Issue—Sir Wilfrid Laurier for This Coming Campaign as Tentatively Arranged.

Ottawa, Aug. 3.—Sir Wilfrid Laurier will open his platform campaign on Tuesday, August 15th, in one of the Ontario ridings. The place for the opening rally has not yet been finally fixed, but it will be at a strategic point—in the southwestern group of counties along Lake Erie, where the reciprocity issue gives the liberals good hope of capturing several of the seats now held by the conservatives. Sir Wilfrid will in his opening address make reciprocity the great issue of the campaign, his speech being in the main an amplification of the succinct and compelling statement of the government's case as presented in his published appeal to the Canadian people. He will enter upon the campaign in splendid physical form, and with a zest for the light born of absolute confidence as to the result and of enthusiastic conviction of the justice and wisdom of the cause for which liberalist stands in the present contest.

On Thursday, 17th instant, the premier will speak at Three Rivers in Hon. Jacques Bureau's constituency. On the following day he will speak in the city of Quebec, where his own constituency joins that of William Price, one of the conservative leaders in the revolt of last spring against Mr. Borden's leadership. The following week the premier will devote to meetings in the Montreal district, comprising some forty constituencies. From August 28th to September 2nd he will be in the Maritime provinces for a series of six or seven meetings, speaking at Halifax, where a strong effort will be made to defeat Mr. Borden and his running mate, Mr. Crosby, and at St. John, N.B., where Dr. Daniel, one of the two supporters of the opposition leader who weathered the liberal sweep of that province in 1908, is likely this time to lose his seat.

On September 4th, Sir Wilfrid will again be in Ontario, where he will put in a week addressing meetings at various points to be fixed later. The following week he will devote to the ridings of the Quebec district. He will wind up the five weeks' series of meetings with final rallies on September 18th, 19th and 20th at points not yet determined.

## DOES EARLY CLOSING INCREASE DRINKING?

### Police Chief Seems to Think So, But There Are Other Factors.

Montreal, Aug. 3.—A remarkable report was presented to the municipal authorities when Chief of Police Campeau produced a document containing numerous statistics to show that since the laws for earlier closing of saloons went into effect, May 1st, drunkenness had become more prevalent in Montreal than ever before. For example, figures for June showed that the number of cases of drunkenness calling for police intervention this June were double those requiring similar attention in June, 1910. The blow was somewhat softened, however, by the statement that police cases in general had somewhat increased in number, and that this was, doubtless, due to the increase in the population of the city.

## IS NOT AFRAID OF RECIPROCITY

### Big Hamilton Manufacturing Concern is Extending Its Plant.

Hamilton, Aug. 3.—The International Harvester company is evidently of the opinion that reciprocity will be a good thing for Canada, for it was announced, yesterday, that it would spend this year alone, between \$300,000 and \$400,000 on extensions. Burr A. Kennedy, the man who selected Hamilton as the Canadian site for this mammoth concern, was in the city, and in the course of his conversation, he said that his confidence in the future of Canada was unbounded. The enormous extensions which his company was making to its Hamilton plant was sufficient proof of that. He said: "We are to-day at work here on what will be the largest reinforced concrete building in Canada. It will be 400 feet long and 100 feet wide, of four stories. This will be used for manufacturing operations only. We are also making a big addition to our foundry."

## "Marriage Touts" Barred.

Cincinnati, Ohio, Aug. 3.—"Marriage touts" received a decided setback in Newport, Ky. across the Ohio river from here, yesterday, when the city council passed an ordinance taking action against them to the extent that the next offender will receive a fine of \$25 and be imprisoned in the city hall for thirty days. The definition given to a marriage tout is "one who shows couples desiring to be married to the county clerk's office and then to a minister or agent for which service he is paid."

She killed her husband rather than be driven into a life of shame. The child will be placed in the care of the Children's Aid Society. It is believed here that the concern takes extensive holdings on Union Quartz and other creeks organized during the last two years by Arthur N. Treadgold in his giant fight against Yukon Gold. It is also reported that the company absorbed the Northern Light, Power and Coal company, which invested three millions years ago in installing electric power. Treadgold had already acquired vast holdings of Canadian Klondike mining company, including the Boyle concession and dredges.
