Not Long Ago We Wrote One of Our Customers

And told him it was about time he paid for the gas service we installed last summer. We were greatly surprised when he replied, "I wasn't aware that I owed you anything. You told me that the gas would pay for itself in six months, and it is almost a year now since I had it put in."

That was one of our alright, so we will have to be careful what we say, but we still throw out the challenge that it is the

CHEAPEST, CLEANEST AND MOST CONVENIENT OF FUELS. COOK WITH GAS.

BOSTON'S BARBER REGULATIONS

Board of Health Orders Sterilization of All That Barbers Use on Customers.

A special despatch from Boston, May 5, 1900, to the N.Y. Sun gives new regulations of the Boston Board of Health as to barber shops: "Mugs, shaving brushes and razors shall be sterilized after each separate use thereof. A separate, clean towel shall be used for each person. Material to stop the flow of blood shall be used only in powdered form, and applied on a towel. Powder puffs are prohibited. Wherever Newbro's Herpicide is used for face or scalp after shaving or hair cutting, there is no danger of infection, as it is antiseptic, and kills the dangerous germ.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. (One dollar bottles guaranteed.) Jas. B. McLeod, special agent, Kingston.

ISSUES BEFORE THE PEOPLE.

The Hamilton Spectator says that in the election it should be made clear that the government would have deprived the people of the privilege of passing on the reciprocity question and that the opposition is to be thanked for this privilege. It is doubtful whether the people will exhibit any gratitude for the seeming favour they have been shown. There was an election two and a half years ago, and the people then committed to the Laurier government the responsibility of administering their affairs for the five following years. It was never intended that parliament should not deal with any question which had not been discussed during an election. Generally the people are satisfied with a government, perhaps not every act of it, but with its general policy, and they vote confidence in it by sending to parliament a majority of its supporters. So far the Laurier government has been splendidly supported at the polls, and all the indications point to "the greatest victory that has been."

Instead of the people rejoicing over an election, and over the causes that led to it, the refusal of the opposition to do business, they will express their reprobation and in terms that the leaders of the conservative party will not forget. The people can be trusted. They cannot be fooled. They are quite conscious of the fact that hitherto reciprocity has been sought by both parties, and of the further fact that when they were offered more than they sought and expected, the conservatives in the commons, in a purely partisan spirit, resisted it. The people were not wanting an election in which to vote on reciprocity, but they have been given it by the government. Incidentally they can express their opinion on two subjects—the nullification of the opposition and the merits of the trade agreement. Their answers on both will be emphatic.

APOLOGIZING TO MR. FOSTER.

The Ottawa Journal apologizes to Mr. Foster for the harsh criticism which it passed upon him, and at a time when he seemed to deserve it. That was when he was generally condemned, when his party metaphorically opened the door of the house and bid him to go. His departure would have been generally approved. But Mr. Foster refused to go. He realized that he could make the party stand him whatever his faults. Another deputy to the leader was chosen, Ex-Judge Doherty, but Mr. Foster went on with his work, in the house, and occasionally seemed to lead the opposition. Indeed he made Mr. Borden, on several occasions, accept his leadership, and rather than break with him publicly, and perhaps make a scene, he was allowed to do as he liked.

He has not lived down the opposition in his party—he has fought it down to some extent—and the Journal is disposed to fall in adoration before him. "He has voiced again and again, with a splendor of utterance and argument such as no other man in this country can surpass, some of the dearest aspirations of a great part of Canada." Here is a flowery bit of praise. It is more than praise; it is affection or adulation that is nauseating. Mr. Foster is a man of commanding ability, and he can express himself in glowing language, but he is not the most eloquent man in Canada, or the greatest exponent of Canada's patriotic spirit. He is Mr. Foster, still, cold, cynical, cruel, the one man in all the house who may be respected but is not loved.

At the present time there is opposition to him in North Toronto, and from the conservative party. What does this mean except that despite his ability he is not appreciated?

A PROJECT TAKING SHAPE.

The tuberculosis hospital is taking shape. The differences which arose over the question of site have always been regretted, but the feeling has also been strong that the project is one which should not depend upon the matter of location. The subscribers to the fund have been gradually reconciled to a change in the plans until now there is a strong party in favour of the Straubenzie property, which can be procured at a reasonable figure and which seems to be an ideal spot. Such progress has of late been made that a provisional board of directors has been chosen and incorporation will be sought. This means that among the subscribers there will be found those who will undertake the direction of the sanatorium in a hospital and help

ful way. Before anything definitely is done every subscriber will be seen and consulted. The whole of the money subscribed will not be put into plant or buildings. As a matter of fact the Straubenzie residence can be converted, at little expense, into an administration building and infirmary, and there can be additions, following the models approved by the government, at a cost which will make the total outlay for the present about \$16,000. The beginning can be a modest one, and as the demand for accommodation grows it can be provided. The revenue for maintenance is assured. The amount per patient which the government will grant, the amount per patient for which the city will be liable under certain circumstances, the amount which the Daughters of the Empire will contribute, and the sum which some of the patients can give, to say nothing of the endowments promised and the income from investments, assure the management of sufficient receipts for all purposes. The main point is that something practical is being done to provide a tuberculosis hospital, and the people will always hold in grateful remembrance the men whose earlier labours have made this end attainable.

EDITORIAL NOTES.

The Ottawa Citizen does not see any sense in its party, the conservative, attacking reciprocity as something which will ruin the country. It may be a gamble, but the old adage is "Nothing ventured, nothing won."

In England Mr. Bourassa is referred to as a second Parnell. One question the comparison. Mr. Parnell posed as a saviour of his country. Mr. Bourassa poses as a political god whom his countrymen are invited to fall down and worship.

The evident reluctance of the provincial premiers, who are conservatives, to take a bold stand against reciprocity in the pending election is suggestive. Mr. Borden, early in the campaign, has been given to understand that he represents a losing cause.

Mr. Foster will be satisfied when he reads the Ottawa Journal's apology to him for having done him an injustice. Mr. Monk can now have some hope of a reconciliation. Repentance may be belated sometimes, but it is always welcome.

Reciprocity is the issue in the election—and the only issue made such by the recent action of the opposition in forcing a dissolution of the house in order to refer it to the people, and it is the last thing the conservative party wants to discuss. In all directions the tories are on the run.

Mr. Sifton is announced as going to the west. That is the place for him, the west he helped to develop as minister of the interior, and the west that no man can check. He may hypnotize the grain growers, and make them believe that they are mistaken in their support of reciprocity. But it is not likely.

In the Toronto Star's review of the situation Prince Edward and Nova Scotia will go almost solidly for reciprocity. In New Brunswick only two conservatives were elected in the last election and one is likely to disappear in this election. In Quebec and Ontario the liberal party is likely to gain rather than lose in numbers.

If the coal barons and the coal miners of the west want to fight it out—carrying a strike or lockout to extremes—all right, so long as the people do not suffer. Free coal, so far as the duty is concerned, and low freights, will do a great deal of good. A national mine, operated by a national government, would be a complete cure for strikes.

For burns and scalds, apply Barton's Ointment. "Prouse's Drug Store."
Str. America tours the islands, Saturday, 2.30 p.m., 50c.

THE ISSUE PUT BEFORE THE PEOPLE.

Here are some of the articles that will pass duty free into the United States from Canada if the electors vote approval of the arrangements made for the simultaneous removal of duties on natural products:

Article	Present U.S. Rate	Article	Present U.S. Rate
Cattle, over \$14	27 1/2 c.	Cod, haddock, pound	1
Horses, over \$150	25 c.	Halibut, pound	1
Hogs, each	\$1.50	Mackerel, pound	1
Sheep, each	1.50	Salmon, fresh or salted, pound	30 p.c.
Wheat, bushel	25	Salmon, canned, pound	30 p.c.
Oats, bushel	15	Timber, heavy, sawn, square, ed or sided, cubic foot	1
Barley, bushel	30	Planks and deals, sawn, per M.	1.25
Hay, ton	4.00	Posts and poles	10 p.c.
Straw, ton	1.00	Mica, unfinished, pound	5 & 20 p.c.
Potatoes, bushel	25	Feldspar, ground	35 p.c.
Onions, bushel	40	Fluorspar, crude, ton	3.00
Apples, bushel	25	Talc	25 p.c.
Peaches, bushel	25	Wood pulp, pound	1
Butter, pound	25	Print paper, pound	3-10
Cheese, pound	6		
Fresh milk, gallon	2		
Fresh cream, gallon	5		
Eggs, dozen	5		

This list of articles really represents the issue before the people of Canada. There are a few other proposed changes such as a reduction of from 25 to 5 per cent. on agricultural implements, farm waggons and supplies, but in effect the elector is asked this question: Do you approve of the removal of all duties on natural products passing from Canada to the United States and from the United States to Canada? If you do, vote for Laurier and larger markets.

THREE PRESENTATIONS TO BISHOP O'CONNOR

Clergy of the Diocese Gave Him a Purse of \$2,000—His Golden Jubilee.

Peterboro, Ont., Aug. 3.—The fiftieth anniversary of his ordination to the priesthood was celebrated by Right Rev. Richard Adolphus O'Connor, D.D., yesterday, with clergy from all parts of Canada and some from the United States in attendance. High mass was said by his lordship at 9.30 a.m., and an address was given by Bishop Fallon, of London. A presentation of an address and a purse of \$2,000 was made by the priests of the diocese, while the priests of the archdiocese also made a presentation. The lay people of the Peterboro diocese made the third presentation. A banquet was given in St. Peter's school hall at noon, and a reception was held at night. Bishop O'Connor has been in Peterboro for twenty-two years.

No Hope of a Change.

Hamilton Herald. At this time the prospect of a change of government as a result of the elections does not appear to be great. A majority of forty-three will have to be overcome. This would mean the capture of twenty-two seats by the conservatives without the loss of a conservative seat. There may be, and probably will be, some conservative gains in Ontario and British Columbia, and perhaps in the maritime provinces, but it would not be surprising if reciprocity were to sweep Alberta and Saskatchewan for the government, and wrest two or three Manitoba seats from the opposition. As for Quebec, it seems certain that the nationalist campaign will cut down the government's majority in that province; but the nationalists who will displace liberal members in the commons would not be a source of strength to Mr. Borden. He could not count upon their support.

From Chaps to Erysipelas.

The best remedy for all injuries or diseases of the skin is Wade's Ointment. It not only cures wounds and skin diseases, but prevents many skin troubles by its antiseptic, germ destroying properties.

Cures Eczema, Salt Rheum, Scaly Itching Eruptions of the skin, Pimples, Blebs, Hand-ruff, etc. In big boxes, 25c., at J. B. McLeod's Drug Store.

The Challenge Accepted.

Toronto Globe. Mr. Borden has challenged Sir Wilfrid to meet the people. Sir Wilfrid goes before them this morning. He has proved by two weeks of obstruction to the reciprocity measure that he means what he said in the west. And instead of meeting the announcement with a shout, Mr. Borden meets it with a whimper. Instead of welcoming reciprocity as the single issue upon which the fate of the country hinges, he joins with the more timid of his supporters in seeking to make the general record of the government the argument for changing the relation of the out to the in. It is not with such leaders that Canada will replace Laurier.

J. O. HUTTON, 18 Market St

KINGSTON

A SON SEARCHING FOR LOST MOTHER.

Daniel White, of Brockville, is in Watertown, N.Y., on that Mission. White, a citizen of Brockville, Ont., has been in this city in an effort to ascertain the whereabouts of his mother, Mrs. White, who came here about a month ago. Since her visit here nothing has been seen or heard of her and the son in Brockville is anxious to locate her.

The case is a peculiar one. Another son, Anthony, also of Brockville, came to Watertown four years ago for employment. The past year he failed to communicate with his mother and a month ago she came here to locate him. That was the last that Daniel White heard of his mother and brother. He has been here, and interested friends in the search but without results. The matter has not been reported to the police department.

Benefit of Reciprocity.

Toronto Farmer's Sun. The American market proved of untold value to Canadian farmers under the reciprocity treaty of 1854. It was of immense advantage even under the moderate American tariff that prevailed until 1888. It would be vastly more beneficial now because meantime the food consuming population of the United States has grown out of all proportion to the food producing population. The cities of Chicago, Port Huron, Detroit, Cleveland, Toledo, Buffalo, Niagara Falls, Rochester and New York have meantime multiplied their population over and over again. The great iron and coal industries of Pennsylvania have been developed. All these great centres are within reach by phone from Canadian farms. The produce of these farms can be collected one day and turned into cash the next. In the face of a duty of twenty-five per cent. the most valuable car of horses taken out of Burlington county, last year were sold in New York. A slight reduction in the duty on cream caused Ontario's exports of dairy products to the United States to jump from a mere nothing to some \$3,000,000 in a few months. Even in the lines in which it was feared injury might be caused there will be benefit as shown by the fact that American buyers have secured all Ontario this season for berries and cherries, despite a duty of one cent per quart on the former and twenty-five per cent. on the latter, with which to supply American demand.

Yellow Journalism in Canada.

Hamilton Times. Here is an specimen of a very disgraceful kind of journalism from Cotton's Weekly, Cowansville, Que.: During September 100,000 people will die of the plague in India. At the present time 20,000 a week are dying and the plague increases in virulence during the cold weather. The plague is a preventable disease and could be wiped out if the money that is wasted on George V were used to fight it. George V is a gentleman who walks amid death and plague happy only when he is the central figure of waste and extravagance.

When the parasites use their favorite expression to show their loyalty, they do not say all they mean.

If they did this is how the expression would run. "The king, God bless him. And damn humanity." It is a pity that Canada should be disgraced by such publications.

Dandruff makes hair grow and kills the hand-ruff germ, 50c. "Prouse's Drug Store."
Bruce Culbert, Portsmouth, went to Toronto, on Tuesday.

Deafness Cannot Be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. This cure is out of ten cases caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.
