**R. McFAUL.**  
Kingston Carpet Warehouse.

**Over 1-2 Million**

The Travellers' Insurance Company paid in 1910 over half a million dollars to its policyholders for accidents peculiar to the vacation season.

These enormous benefits, paid by this largest of all accident companies for vacation injuries, should impress you with the necessity of accident insurance.

Now is the time when many people are injured in hunting, boating, fishing, bicycling, baseball, golf, riding and driving, automobile and travel. Every year one in eight of the population is injured and one death in every ten is from accident.

The benefits are so broad and the cost so small, that if a man does not carry accident insurance it is generally because he does not know the facts. Let us tell how much insurance at \$25 a year will buy.

**WORK OF BOY SCOUTS**

**AT BROPHY'S POINT WAS QUITE SURPRISING.**

A Fine Programme of Events Was Given—Colonel Benson, O.C., Was Present and Gave an Address.

The Boy Scouts' excursion to Brophy's Point, on Thursday afternoon, was a grand success, as far as the boys were concerned, and the excellent programme put on, but the attendance of visitors was not as large as expected. The people of Kingston do not seem to appreciate the Scout movement or lend it the support they might.

Colonel Benson, O.C., of 3rd division, attended, and was received by a general salute. The Scouts' physical drill, gymnastics, signalling, and ambulance work were given with much enjoyment. It was simply wonderful that in such a short time under canvas, the boys should become so enthused with the work. The aquatic events were especially good. The playing of the bugle band was a special feature and called for much praise.

Col. Benson congratulated Canon Starr and his staff on the Scouts' splendid work and the discipline in the camp, and spoke of it as a great builder of Canadian manhood. Tea was served and the steamer returned to the city at 6.30 p.m.

**THE KINGSTON CANTON.**

**Won a Prize \$100 in Drill Competition.**

Kingston Canton, No. 6, won a prize of \$100 in the drill competition held at Niagara Falls, at grand lodge meeting of the Oddfellows. The local delegates to the meeting, twelve in number, returned home early Friday morning. They report very warm weather for their session.

In regard to the business session, it is reported, that no action was taken in regard to special legislation, the interpretation of the law and its meaning, making it quite clear. The parade was held Wednesday afternoon, and it was a fine display. The Patriarchs Militant participated in this.

The drill competition was held at the close of the parade at Victoria Park.

A feature of the proceedings, on Thursday, was the tribute paid to the late grand secretary of the grand lodge, J. B. King, who was well known in Kingston, having visited here on several occasions. Mr. King, for nearly half a century, filled that office with credit to himself and honor to that body. A full report of the service will be given in the journal of proceedings.

John Donogh, Toronto, vice-president of Relief Association, was one of the principal speakers. Special attention was paid to degree work, in which the encampments at Hamilton and St. Catharines took part.

A notice of motion was considered, calling for a special committee to communicate with the grand lodges of the Dominion, as to the desirability of instituting necessary procedure to secure the re-establishment of a sovereign grand lodge for Canada, based upon the lines similar to those which have been accorded to Austria and Germany and other nations outside the United States of America.

This brought out a very spirited discussion. There was established in 1846, what was known as the grand lodge of British North America, but this was discontinued in 1851, as it was regarded as not fulfilling its duties, successfully. The lodges then being affiliated with the sovereign grand lodge of the United States of America with headquarters at Baltimore.

The motion was defeated for two or three reasons. One was that the body in Canada was composed of twenty-five members; also because Canada had always received ample consideration from the supreme body; also because the Oddfellows were not governed by any national or political lines but just a great brotherhood and not affected by boundary lines.

**TRADES COUNCIL AGREES**

To Re-Subscribe its Grant to the Tuberculosis Hospital.

The meeting of the Trades and Labor Council, on Thursday evening, was addressed by Dr. J. C. Connell, J. A. Minnes, Dr. D. E. Mundell and Hugh McBratney, with regard to the Mowat Tuberculosis hospital. Dr. Connell gave a very instructive address, showing the actual cost of the building, the yearly expenditure, and every detail with regard to the establishment of the sanatorium. The other three also gave addresses with regard to the same matter. The council decided to give the money it had subscribed for a building on the general hospital site to the new board.

**AT POLICE COURT.**

**A Very Short Session on Friday—'Holding Up' People.**

There was a very short session of the police court, on Friday morning. Owing to the fact that the court room is being used for the registration of voters, the cases were heard in the magistrate's office.

William Crawford, who was caught in the act of "holding up" people on Bagot and William streets, for money, was fined \$5 and costs, or one month. He went down.

Two drunks were in the line-up. One was remanded and the other was given a chance.

**Drowned at Kenora.**

The remains of Victor Webster, who was drowned at Kenora last Sunday evening, are expected to arrive in the city at four o'clock Friday afternoon, by C.P.R. Decombes was a nephew of C. R. Webster, of this city, and was well known here, as he graduated from the Kingston Business College, about a year ago. He was employed in the C.P.R. office, at Kenora. The remains will be taken on the G.T.P. to Lansdowne, for burial.

Sacrifice sale of women's \$3.50 patent Oxfords, \$1.85, Dutton's, 209 Princess street.

**CITY AND VICINITY.**

**New "Prohibited" List.**

A new "prohibited list" has just been issued by the license inspector, C. W. Wright. The list includes ninety-two names. Two names were added to the list to-day.

**Barrie Street Extension.**

Work has been commenced on the extension of Barrie street, through to Pine street. John McKee has the contract for the work. A by-law for the extension of this street was passed by the city council, some time ago.

**Police Were Called.**

Early last evening, a well known citizen got into a warm controversy with another resident on Market street, and in due time, it was waxed very warm—in fact so warm that a call was sent to the police station. Constable Timmerman, who is a terror to all evildoers and law-breakers was soon on the scene, and his presence was sufficient to stop the row.

**Aid, Carson Displeased.**

Aid. Carson is not at all pleased with the foundation which is being put down on Clarence street, for the new pavement. He says that the city is tearing up far better foundation than they are putting down, and claims that if the proper treatment was given the present road, a great deal of money could be saved, and that it would also be better for the city.

**Missed the Convention.**

There was one man, at least, who came to the city, on Thursday, to attend one of the political conventions, who did not get there. He arrived early in the morning, loaded up at different hotels, and before noon he did not know his own name, and would have had a very hard time trying to locate the court house. He had to be taken in charge by the police, but late in the afternoon, when he sobered up, he was allowed to go home.

**Help in the Good Work.**

Robert F. Elliott, the president of the Liberal Association in this city, is showing much zeal in the campaign and his preliminary work promises good results. He is really anxious that every liberal who has the election at heart, will aid him in registering every young man available. This is the young man's opportunity for reciprocity will bring to him added prosperity. With the pact in operation Kingston's future seems of the brightest character.

**A MEAN MAN THIS.**

**He Spent His Wife's Money for His Strong Drink.**

There are many men in the city, but the story concerning this man, who lives in Kingston, is about the limit.

It appears that the man's wife placed money in a letter which she addressed to a firm in Toronto. The amount enclosed was \$2. She gave the letter with the money to her husband to post. Instead of posting it, however, hubby made his way down town to one of the hotels, and, tearing open the letter, proceeded to spend the money over the bar.

But that is not all of the story. Accidents will happen, and when the torn envelope slipped out of the man's pocket, some person just happened to pick it up, but it was returned to the man's wife, and, as a result, there was a stormy time under this family roof.

Neil C. Polson, jr., returned from Jamaica on Friday.

200 PRINCESS STREET. OPEN NIGHTS. Phone 915

**HIS BOAT WAS BURNED.**

**Capt. Joseph Parsons Suffered Loss of the Prince.**

Word was received in the city on Thursday that Capt. Joseph Parsons' boat, the Prince, was burnt, but the crew was saved. The Prince has been engaged in carrying sand from Cleveland. It is supposed that the fire took place some time on Monday as word was sent from Detroit, where the captain lives, on Tuesday. A lighthouse keeper reported that he noticed a boat going up the lake, which was on fire, and it evidently was trying to beach. The life-saving crew picked up the crew and took them ashore.

Capt. Parsons is an old Kingstonian. He lived here some twenty-one years ago and later moved to Detroit. His son, Herbert, is one of the firm which owns the boat, which his father sailed. Capt. Parsons is a son-in-law of Mrs. Webster Robinson, Brock street, and he made a visit here last August. The captain's many friends are sorry to hear of his misfortune, but are glad to hear that he is safe.

**Attacked by Cattle.**

**Tweed News.**

On Tuesday evening of last week Mrs. William F. Farrell, living about a half mile below Hazard's Corners, Alton, helping with the milking, went to an adjoining field to see if there was sufficient water for the cattle. She had started to return when she saw the bull and a cow running toward her. She started for the fence, but tripped and fell, and before she could get out of the way the animals were upon her and both were trying to gore her. Fortunately they were both dehorned.

Her cries attracted Mrs. Mitts' attention and she shouted for help. This brought Mr. Mitts to the rescue and he had great difficulty in beating the animals off.

Mrs. Farrell was very seriously hurt. Upon examination it was found that her collar bone had been broken, also two ribs on one side and three ribs on the other.

"Fly poison pads," Gibson's.

**Menace to Monroe Doctrine.**

Washington, Aug. 11.—Declaring the arbitration treaties signed last week between the United States and Great Britain and France a menace to the integrity of the Monroe Doctrine, Hans Taylor, writer on international law, today predicted that the agreement would not be ratified in the senate. He declared that it would be suicidal to the supremacy of the United States in the western hemisphere to submit any question involving the Monroe doctrine to a tribunal of arbitration which, he said, would be undoubtedly dominated by old world influences.

**Monday, Str. America.**

2.30 p.m. makes a cheap excursion to 1,900 Island Park. Home early. Only 75c.

**RECIPROCITY**

\$1.00 pays for the Toronto Mail or Globe delivered to your door by the postman from now until January 1st, 1912.

An average of about 4c per week.

25c pays for the Toronto Mail or Globe from now until September 22nd, giving the entire Election News.
