

WILL REPRESS

Further Rioting With a Vigorous Hand.

GOVERNMENT LIKELY

TO TEMPORARILY OPERATE THE RAILWAYS.

Wild Time in House of Commons—Laborites Charged Soldiers With Beating Down Defenseless Women and Children.

London, Aug. 17.—It is stated on highest authority that the cabinet has decided upon a course of rigorous repression in the event of further rioting.

It has also been practically determined that the government will temporarily operate the railways if such a course becomes necessary.

A brigade of infantry has been recalled from the manoeuvres and will be stationed at Aldershot ready for any emergency.

Mr. McKenna, minister of the railway, announced last night that the government promised them ample protection in the event of a strike.

The action of the government is generally taken to mean that all efforts to prevent the most widespread labor revolt have failed, and that the struggle between the workers and their employers will soon be on in all parts of Great Britain.

Uproar in Commons.—Uproar bordering on pandemonium broke out in the House of Commons, yesterday, when Home Secretary Churchill appeared.

George Langford shouted at Churchill demanding an inquiry into the government's methods.

Churchill refused, saying he would do nothing until order was restored.

Langford then, waving his clenched fist at the cabinet officer, thundered: "I do not know where you want the people's blood or not, but I never knew of such a blood-thirsty lot as those who beat down defenseless women and children in the streets of a great city."

Situation More Serious.—London, Aug. 17.—Settlement meetings have proved fruitless.

Twenty-five thousand troops will guard the railways.

Although the time limit of twenty-four hours, which railway men gave the companies to concede to their demands, before striking, expired this morning, the strike failed to materialize.

Instead, the representatives went into conference with the Board of Trade and a truce was called until the end of the conference.

Proceeding as usual here and in Liverpool though under a guard of soldiers with fixed bayonets.

THE RIGHTS OF A RAILROAD PASSENGER.—Congressmen McGillivuddy, of Maine, Going to Find Out What They Are.

New London, Conn., Aug. 17.—The right of a railroad passenger to ordinary porter service will be fought for to a finish by Congressman B. J. McGillivuddy, of Maine, who was placed under arrest here for refusing to give up his Boston-to-Washington ticket after he had tried vainly to get a porter to make up his stomach.

Congressman McGillivuddy declined to show his ticket until he had received the service demanded.

He said he saw nothing more of the conductor or porter until the train reached this city last night, when he was placed under arrest by a railway agent and turned over to the police court judge.

CROPS IN EUROPE

Report on Foreign Fields Issued by United States Department.

Washington, Aug. 17.—The foreign crop report for July was issued yesterday by the United States Department of Agriculture.

In Western Canada, spring wheat prospects appear to have maintained their excellent promise.

The condition at the end of July for the whole of Canada was given as ninety against seventy-seven last year.

The total yield of winter wheat is estimated at 17,700,000 bushels compared with 16,040,000 in 1910.

Cereal harvest in Europe on August had reached the latitude of the British Isles.

In the west it was from one to two weeks early, and in the east from two to three weeks late.

The total crop is not likely to equal that of last year.

In Argentina and Chile, where autumn sown crops are now passing through the mild winters of those countries, weather conditions have been reported favorable, and indications point to a good yield of wheat, oats and flaxseed.

In India weather conditions have been untoward, but lately some improvement has been noted.

CONTEST LEMIEUX LAW.

Street Railway Disputes Constitutionality of Famous Act.

Montreal, Aug. 17.—Action to test the constitutionality of the Lemieux Labor act is being taken by the Montreal Street railway before the Superior court in their dispute with employees, and it is expected the argument will be carried to the privy council and it is finally settled.

This action is taken by way of an application for a writ of prohibition to prevent the board of arbitration appointed under the Lemieux act from sitting, on the ground that the law is unconstitutional and in any event does not apply to the M. S. R., which operates under a provincial charter.

In the petition Hon. Mr. King, minister of labor, is named as mise en cause, and it is expected that when the application is argued out the crown will be represented.

Pittsburgh, Pa., Aug. 17.—Asking for a lancy commission for Henry Kencana, Thaw, now confined in the Mattawan hospital, a petition was filed in common pleas court here, today, in behalf of Evelyn Nesbit Thaw, his wife.

Judge L. L. David admitted the petition after some discussion as to whether a Pennsylvania court had jurisdiction, Attorney Francis Ravley, of Pennsylvania, who filed the petition, asked for a rule to show cause why the commission should not be appointed, but this was refused as the attorney could not tell the court the names of the persons who have charge of Thaw's income in this county.

A hearing will take place after the parties interested have been notified.

Mr. Ravley stated that Thaw's income is \$50,000 a year, and Mrs. Thaw, being without means, is entitled to a share of this amount.

Lisbon, Aug. 17.—The Portuguese consul at Orense reports that numerous Portuguese monarchists are daily practicing military manoeuvres there.

He says the men are completely armed and that their practice is being carried out in the open air without attempt at concealment.

The Spanish government, however, advises the Portuguese government that it has expelled two hundred of these monarchists.

Capt. Lobo, of the 7th Cavalry, at Almeida, and a sergeant have deserted, crossed the Spanish frontier and joined the royalists.

CONSERVATIVES JOIN

THE LIBERAL RANKS AT THE NOMINATIONS.

All Unite in Unanimous Endorsement of Reciprocity—A Leading Fish Merchant Presided at Lunenburg Convention.

Halifax, Aug. 17.—Liberals of Shelburne-Queen's, Pictou and Lunenburg yesterday respectively nominated Hon. W. S. Fielding, E. M. Macdonald, M.P., and J. D. Sperry, M.P. Mr. Fielding was given a great ovation on his first visit to his constituency since his diplomatic trip in securing the boon of reciprocity, and his ringing speech aroused great enthusiasm.

At the Pictou convention, farmers, fishermen, miners and manufacturers united in unanimous endorsement of reciprocity, and in support of Mr. Macdonald, whose reelection by a record majority is predicted.

The Lunenburg convention passed a resolution strongly approving reciprocity and endorsing Hon. A. K. Maclean's decision to contest Halifax.

Aram Ernst, a leading fish merchant, who has been represented in the conservative press as opposed to reciprocity, presided at the convention and expressed himself strongly in favor of the new agreement.

Mayor Morash of Lunenburg was present and made a speech in which he announced that reciprocity was of such tremendous importance to his county and province he had decided that he could not conscientiously continue to support the conservative party and would therefore vote and work for the liberal candidate in this campaign.

Another stalwart conservative, A. Y. Conrad, a large fish vessel owner, also came out strongly for reciprocity and pledged his active support to Mr. Sperry and the liberal party.

To Adjudicate on Claims on Treasuries.

Ottawa, Aug. 17.—Under the treaty concluded last year between Great Britain and the United States with regard to the settlement of prewar claims affecting the national treasuries of Great Britain or her dominions and of the American federal or state governments, an international court will shortly be established to deal with the first schedule of claims filed for adjudication.

The court will consist of three members, one being selected by each government concerned, with a third member chosen by consent as chairman.

It is understood that Canada's representative on the court named to consider claims affecting this country and the United States will be Sir Charles Fitzpatrick, chief justice of the supreme court.

Says That it is Going to be a Good Thing for Alberta.

Edmonton, Aug. 17.—In direct conflict with the views of his distinguished brother, Hon. Clifford Sifton, Premier Arthur Sifton made a public statement, yesterday, strongly favoring reciprocity.

He said: "I am an advocate of reciprocity chiefly because I think it is going to be a good thing for Alberta. It would stand behind any policy which would be of real benefit to our province."

The premier intimated that he would be prepared to take a hand in the campaign for liberalism, and reciprocity in Alberta, when he has the executive work of his government well in hand.

He will also come out for Hon. Mr. Oliver's reelection.

GERMAN PRESS THRUSTS.

Newspapers Remark on the Situation in England.

Berlin, Aug. 17.—Newspapers here are taking great interest in the labor war in England, and the Lokal Anzeiger, in an article entitled, "What has become of England?" criticizes the British government for not paying more attention to home affairs.

The paper comments on the unparalleled scenes of disorder in London, Liverpool and Glasgow, and the possibility of the present stoppage of the food supply of the nation.

"Surely the English statesmen and leaders, who are talking of universal peace and arbitration," the paper adds, "will do well to consider the problem how to prevent a few thousand of workmen from putting the life of the nation in danger."

BABIES PERISH AS RESULT OF STRIKE.

Milk Depots in Liverpool Have Been Forced to Close.

Liverpool, Aug. 17.—Two of the city corporation's milk depots, which were established for the benefit of the poor, have been closed owing to the lack of coal, due to the strike, with which to sterilize the milk.

Seven hundred babies of the poorer class of the people were dependent upon this milk supply, and it is feared that half of this number will die as a result of the closing of the milk stations.

INNOCENT VICTIM.

Man Freed Who Served For Another's Crime.

Pittsburg, Aug. 17.—Andrew Toth was released from the Western penitentiary recently, after serving twenty years of a life sentence upon a charge of murder which subsequently was proved he never committed.

He will be sent to his old home in Austria. Broken in health and now an old man unable to work, Toth goes to meet his aged wife, whom he has not seen for a quarter of a century.

He feels keenly the failure of the state legislature to provide for him some recompense for the lost years of his life, and the enforced punishment of a felon visited upon an innocent man.

YARMOUTH SHOWS WHAT IS TO COME

Liberal Victory in Bye-Election Fought on Reciprocity Issue.

Yarmouth, N.S., Aug. 17.—Yarmouth, yesterday, gave the lead to the liberals of Canada, when it recorded a smashing liberal victory in the local bye-election.

Hon. E. H. Armstrong, whose acceptance of the portfolio of works and mines in the Murray government necessitated an election, was returned by a majority of 758 over James Drenthmont, conservative, increasing his vote 300 over his vote at the general election in June.

As reciprocity was the prime issue of the campaign, the overwhelming verdict is indicative of the sentiment of Nova Scotia.

THE PENNSYLVANIA LYNCHING.

Three Alleged Leaders of the Mob Arrested.

Coatesville, Pa., Aug. 17.—Three men, one of whom, the authorities assert, was a leader of the mob, were arrested here yesterday and charged with murder in connection with the burning of Zacharias S. Walker, who was dragged on his cot from the Coatesville Hospital on Sunday night and cremated.

Those arrested were Joseph Schofield, master mechanic of the Conestoga Traction company; Norman Price, a mill hand, and George Stoll, who was employed with Price in the iron mills.

THE MOB WAS AWED BY FIXED BAYONETS

Infantry in Liverpool Surrounded Motor Wagons Smashed on Street.

Liverpool, Aug. 17.—The strike committee last night issued an order calling out all the street car employees of Liverpool.

A mob attacked and damaged the motor wagons carrying newspaper supplies in Scotland Road. The infantry fixed bayonets and formed a square about the wagons until the police dispersed the mob with their clubs and there were many arrests.

Mobs smashed the window panes of cars that were left standing in the streets. The outbreaks throughout the day, however, were few and not very serious. It is only the presence of the troops, however, that keeps down the mobs.

The menace from famine has not abated. Many small traders have sold out completely, and are unable to get more supplies. A number of four mills have stopped because they cannot get coal, and bread is difficult to get. In the poorest parts of the city the people are actually threatened with starvation.

INSURED AT HOLLEFORD.

David Walker Crushed by Wall of Rock Crumbling.

Holleford, Aug. 16.—While working on the new Canadian Northern rail road, yesterday, David Walker, of this place, was badly hurt. A wall of rock crumbled in, cutting his head in several places, crushing his foot and also bruising his hand.

He was unconscious from the cut and driven to Dr. Sargeant's office, Sydham, where his wounds were dressed, before conveying him home. Dr. Sargeant visited him again, to-day, and thinks he will recover, although he suffers intense pain and is in a pretty serious condition.
