

## TROOPS FIRED INTO A MOB

### Killing Two Men and Mortally Wounding Several Others.

#### Scenes of Violence Mark the Great British Strike—Hungry Women Lead Mob in Attacks on the Storehouses in Liverpool—Settlement Hoped For.

London, Eng., Aug. 21.—London railway strike is ended.

London, Aug. 21.—With rioting in Wales, two men being killed and many wounded, with women leading mobs in attacks upon storehouses in Liverpool, desperate fighting between soldiers and strikers at Aberystwyth, and an attempt to wreck a train at Scarborough, reports from the provinces, Saturday night, were in strong contrast with the government's statements that the strike outlook was more optimistic.

There is hope that an agreement for a basis of settlement can be reached and the strongest measures are being taken to keep trains moving here. The closing of the South London tube caused great inconvenience and the crowds in the streets, though orderly, gave abundant evidence of the seriousness of the situation. Everywhere the military was on guard and the iron hand of the government protecting life and property was constantly in evidence.

The shooting at Llanelly, Wales, was caused by the strikers who insisted on trespassing on the railroad property. The soldiers warned them to get back, and when they refused to obey, the troops were ordered to fire. The two men who were killed and the one injured are supposed to have been non-strikers.

The authorities at Leicester have sent a request to London for troops. One thousand soldiers have been ordered to proceed there at once from the Marylebone station.

At Scarborough the strikers attempted to derail a train by blocking a switch. A large crowd gathered at the point where the switch had been set and the soldiers arrived just in time to prevent a serious wreck. The train was bombarded with stones and every window was broken before the mob could be dispersed.

In one case beyond control of the driver in London and crashed into the middle of a company of soldiers marching to do guard duty at one of the railroad stations. Several of the men were so badly hurt that they had to be taken to the hospital.

At Birmingham the authorities took one hundred tons of foodstuffs from the Northwestern Railway station under escort of mounted troops.

The engineer who ran the Lichfield to Walsall train reports that while crossing a bridge he saw a menacing crowd gathered there. He put on full steam and turned off the electric lights. The crowd threw stones as the train flew by but the only damage was the smashing of a few panes of glass.

At Lincoln a mob attempted two charges on a signal cabin. The police used their clubs freely and drove the crowd back.

Reports from Newcastle state that more engineers went out Saturday and that fewer trains are running. Freight traffic is still at a standstill and cold experts are in bad shape.

Grimsby, in which is London's principal purveyor of fish, is without any trains. The fishermen are unable to send their catches to market.

At Dover the cross-channel service is maintained, but the boats are late and carry few passengers. The scarcity of coal at various places because of the railway strike has thrown many thousands of men out of work. There are 20,000 steel workers idle in the Barrow-in-Furness district.

At Cardiff, Wales, 30,000 colliers are idle and the Northumberland colliers have closed down as a result of the labor trouble.

The managers of the various railroad roads were in consultation with Winston Churchill at the home office Saturday afternoon. Simultaneously Mr. Lloyd-George and the representatives of the Railwaymen's unions were in conference.

Troops Fired Into Mob. Llanelly, Wales, Aug. 21.—Four rioters were shot down by the troops, Saturday afternoon, two being instantly killed and the other two mortally wounded.

This part of Wales has been the scene of exceptional violence since the railway strike was declared. There has been a succession of conflicts with the police.

A mob attempted to stop an incoming train and the police were unable to disperse the angry men. The riot act was read by a magistrate, but it had no effect. The strikers continued their attack on the train and mounted the locomotive. A military officer discharged his revolver in the air, but still the mob refused to quit.

## MONEY WAS BANKED.

### Cannot Identify Loot of Alleged Pickpocket.

St. Thomas, Ont., Aug. 21.—George Grant, one of the three men arrested at Port Stanley on August 19th, the day of the Irish picnic at Port Stanley, was, to-day, committed for trial by County Police Magistrate Hunt at St. Thomas on the charge of picking the pocket of Andrew Wisner, a farmer of South Dorchester. When searched he had a large amount of money on his person. The charges against Frederick Graham and John McGrath, the other men arrested on suspicion of being also implicated, were deferred.

The cash taken from the pocket of the accused man when arrested, which amounted to nearly three hundred dollars, was counted and put in separate parcels, and left with the jailer, N. W. Moore. The jailer deposited the cash in a bank, and all identification of the money was lost. Many of the victims who were robbed knew exactly the number of their bills and also of the bank denomination. An investigation by the crown will be made to identify the bills, and to identify the money, and to identify the evidence against the prisoner.

## HAINES DIVORCE CASE.

### Witnesses Tell of Intimacy Between Wife and Annis.

New York, Aug. 21.—The domestic tragedy which swept William E. Annis to his death and Capt. Peter O'Haines, Jr., U.S.A., into Sing Sing prison under an eight-year sentence, had its final development before Justice Sutherland in the supreme court, Brooklyn. It was the absolute divorce proceedings instituted by Capt. Haines against his wife, Claudia, about three years ago, immediately after his discovery of her relations with Annis. Capt. Haines was not present at the trial.

## GEN. SIR JOHN FRENCH RECEIVES PROMOTION

### He Becomes Chief of the Imperial General Staff—A Leader of Troops.

GENERAL SIR JOHN FRENCH.

London, Aug. 21.—Important announcements regarding appointments in the army have been made. The transfer of Sir John French from the post of inspector general of the forces to that of the chief of the imperial general staff has been expected for some time past, and it is an arrangement which will meet with general approval, although the gain to the crown is made at the expense of removing the gallant general from a position for which he was pre-eminently fitted. It is "one big four years' tenancy" of the appointment at the Horse Guards would soon expire in any case.

That Gen. French has had no previous experience of operations within the war office is possibly an advantage rather than otherwise. He is a leader of the troops rather than a minute-writer. But he has gone through the mill as a soldier, has commanded his regiment, and has commanded forces of all arms in peace and in war, and he will bring to the war office a practical experience of the needs of the service, of which that body, as at present constituted, stands sorely in need. The chief of the imperial general staff is also first military member of the council, and, as such, he has a responsibility outside of the functions definitely apportioned to him in the distribution of duties between war office departments. It is hoped that he will act as director of manoeuvres when these take place.

## SWEPT BY TORNADO.

### Great Damage Done to Towns in North Dakota.

Minot, N.D., Aug. 21.—A half dozen towns in North Dakota were swept by a tornado on Sunday night, killing five, injuring a hundred and fifty and causing two hundred thousand dollars damage to property.

Get a good foothold by right principles, and then stick.

#### Matters That Interest Everybody—Notes From All Over—Little of Everybody Easily Read and Remembered.

F. J. Pielan, one of the best all round sportsmen of Toronto, died of typhoid fever.

Central garment workers are organized and it is expected ten thousand will strike within a month.

John McFarley, Elphinston, was killed on the railroad track. He had apparently been sleeping on the track.

William Pettit, Toronto, had to be handcuffed to the floor in the police station. He tried four times to commit suicide.

James H. Cooper, seventeen years old, was accidentally shot and killed on Saturday, at Easton, Pa., by his room mate.

Joseph Poppe, Amabel township, died on Thursday from drinking milk that had been poisoned by the cows eating noxious weeds.

Twelve saloon keepers were arrested in Cobalt on Friday for selling liquor without license. Nine of them paid fines of \$100 each.

Charles McKegney was shot and instantly killed by a negro in Harlem on Friday night, the result of a race riot between whites and blacks.

Canon J. D. Cayley, rector of St. George's church, Toronto, one of the best-known Anglican clergymen of Toronto, died while sunbathing at Muskoka.

The tobacco crop in Connecticut and Massachusetts has been greatly damaged by an electrical storm. The damage is estimated at half a million dollars.

Ernest Jouffret, Toronto, was arrested charged with bigamy. It is said he has three wives, all in Toronto, and according to the police he was married as he was preparing for a fourth.

Pierre Priot, the french aviator, was shot and dangerously wounded on Saturday, at the Hendon aerodrome, by his pupil, M. Hanot, who then shot himself twice. Both men are in a serious condition.

## SURVEY PARTY LIVING NEAR SMALLPOX

### And in the Party is J. D. Craig, a Son of a Kingstonian.

Ottawa, Aug. 21.—Canadian on the international boundary survey in Alaska are working in close proximity to a settlement in which there is an epidemic of small-pox among the Indians.

Dr. J. D. King, of the Dominion of surveyors, has received word that there are sixteen cases of small-pox among the aborigines at Rampart House. In the neighborhood are four boundary survey parties largely composed of Ottawa men. Those in charge of the parties are Messrs. J. D. Craig, T. H. Nellis, F. Lambert and G. Stewart.

Dr. King said, to-day, that he did not know the names of the individual members of the parties, but many of them belonged to Ottawa.

There are nearly forty men altogether. He stated that the matter had been taken hold of by the Yukon government and every effort was being made to prevent the spread of the disease. He did not think that the members of the surveying parties were in any danger. Rampart House is on the Alaska boundary, several hundred miles from Dawson.

## GERMANY'S DEMANDS.

### Wants France to Make Concessions and at Once.

New York, Aug. 21.—A cable to a New York paper says there is no foundation for the rumor, current in London, that Germany had declared war on France, but that the situation is critical. Germany claims territorial concessions in Hinderland and the recognition of industrial and commercial rights in South Morocco. German demands come at a time when England is weakened by labor trouble.

## Made Sure of His Death.

New York, Aug. 21.—Determined that he would make a good job of his suicide, Walter J. Lockner, of 55 East 123rd street, stuffed a handkerchief down his throat as far as it would go, stepped over the speedway embankment at 181st street, and fired a shot into his temple. His dead body toppled over into the Harlem river.

## Pope is Convalescent.

Rome, Aug. 21.—There is no doubt that Pope Pius is now convalescent. In his apartment he walks from "one room to another, with little difficulty and spends some time at his desk attending to pressing affairs.

## SEEKING RELIEF.

### His Divorce Very Much Tangles Finances.

Topeka, Kan., Aug. 21.—J. E. Lohrer, who is supporting three families of children, has applied to Probate Judge Schoch for help.

Lohrer's first wife, by whom he had three children, divorced him, and under the law he is required to contribute to their support.

This wife has since re-married and has three children by her second husband, and Lohrer's alimony is presumably going to their support also.

A year after this divorce Lohrer re-married, this time a divorced woman, who had secured custody of her two children, but failed to get any alimony. Lohrer has several children by his second wife, thus constituting the third family to whose support he must contribute.

He asks the court to force the divorced husband of his present wife to pay something toward the support of his two children.

## SOTHERN AND MARLOWE.

### Announcement of Their Marriage Made in New York.

New York, Aug. 21.—Announcement was made at the office of Sam S. de Lee Shubert that he had received a cablegram from E. H. Sothern, the actor, telling of his marriage, in London, on Friday, to Julia Marlowe, his co-star in the theatrical world. When Mr. Sothern and Miss Marlowe closed their engagement on a Broadway theatre on July 24 it was rumored that they intended to marry.

The rumor, however, was promptly denied.

Virginia Harned obtained a divorce from Sothern at Reno in October last on the ground of desertion. Miss Marlowe, in 1894, married her leading man, Robert Taber. She secured a divorce from him in January, 1900.

Mr. Sothern and Miss Marlowe have been co-stars since 1904. Mr. Sothern was born in New Orleans fifty-two years ago. His bride was born in Goldbeck, Eng., in 1865.

## TORY TELLS WHY HE FAVORS PACT

### John Heron, MacLeod, Alberta, Gives Reasons For His Stand on Reciprocity.

MacLeod, Alta., Aug. 21.—John Heron, of Pincher Creek, conservative nominee for MacLeod constituency, in going before the convention here stated his position on reciprocity as follows:

"I suppose you are anxious to know where I stand on reciprocity. I want to say that I am going to vote for reciprocity if I am your candidate, and for these reasons: After the question had been launched last winter I began to get stray letters from constituents asking me to support reciprocity. I wrote home to people in my district asking them to ascertain what the general opinion was towards it.

"Farmers' unions have voted in favor of the agreement practically unanimously, town councils and boards of trade have endorsed it, influential farmers and business men have expressed themselves as being in favor of it as was natural, and some who did not subsequently saying that they had changed their views, but I decided that it was my bounden duty to support what I believed my constituents desired.

"I never made a secret of it. I have concealed it from no man. I have written hundreds of letters stating my position, and I have repeated it in conversation hundreds of times, thousands of times. These are my reasons for taking this stand. I cannot recede from that stand no matter whether I get votes or not.

"I see a good many dangers in reciprocity, but I see enough in it to influence my choice and to give the advantage in its favor. The greatest advantage, in my opinion, is that if it is accepted it will fit to work to their advantage it can be cancelled by a stroke of a pen."

This statement alone will win the west for Laurier.

## Dies in Bath, N.Y.

Utica, N.Y., Aug. 21.—At Bath occurred the death of George B. Jacobs, after an illness of several months. He was about seventy years old and had lived in Bath for twelve years. His wife, formerly Miss Miller, of Plifton, Ont., survives.

Mr. Jacobs was born in St. Vincent, West Indies, March 21st, 1841, his father being a member of the 52nd British Light Infantry. The boy remained with the regiment, accompanied it to Kingston, Ont., where it was located eight years, and was with it at Amherstburg, Niagara and other points. He played the flute and the cornet and excelled on these instruments. He resided in Boston, Mass., Watertown, Norwich, and Troy, and came to Utica in 1879.

## Parrot Gave Alarm.

New York, Aug. 21.—The shouting of a green parrot gave an alarm of fire in a ten-story Madison apartment house, this morning, saving the lives of twenty persons who would have succumbed by the smoke. The loss is fifty thousand dollars.

The steamer Favorite ran aground in Niagara river, after a futile attempt to rescue a man who fell overboard, early on Monday. The passengers were taken off in row boats.

The state penitentiary cells at Waupun, Wis., were raided on Sunday and authorities found two hundred and fifty weapons. The prisoners had planned an uprising.

## STRIKE ENDED

### British Railwaymen Will Return to Work Immediately.

## COMMITTEE OF FIVE

### TO BE APPOINTED TO INVESTIGATE CONCILIATION ACT.

#### Unions are Recognized—Managers Will Meet Their Representatives—Railways Promised Legislation Permitting Increase in Rates.

London, Aug. 21.—A great wave of relief swept over the country, Saturday night, when, shortly after eleven o'clock, the announcement was made from the "bear's head" offices, that the railway strike had been settled, and that the men would return to work immediately.

Telegrams were quickly despatched to all important railroad towns bearing the information, and crossed in transit messages to London, despatching strike riots in Llandely and smaller towns in the kingdom.

Most of the credit for settlement seems to rest on the shoulders of David Lloyd-George, chancellor of the exchequer, who, in his statements to parliament and interviews with the managers and men, worked for conciliation when all others of the interested parties seemed to have given up.

A joint committee of five members, composed of two representatives of the railway companies, two of the men and a non-partisan chairman, will be appointed, Tuesday, to investigate the workings of the conciliation act of 1907, which the men claim is the root of all their grievances. This device overcomes the men's objection to a royal commission, which they contend, always has been in practice a synonym for technical advantage in the compromise goes, it appears to be in the men's favor, particularly as managers consented to this scheme in view of certain representations made them by the government, including a promise of legislation to permit an increase in railway rates. The men claim a victory for unionism on the point of recognition of the unions, which was one of the most vital principles at stake.

Messages were sent to 1,800 branches of the labor unions to-night, saying: "The joint committee has decided the strike. It is a victory for trades unionism. All men must return to work immediately."

As a result of the settlement the soldiers who had been scattered at strategic railway points about the country will be withdrawn as far as arrangements for transporting them can be made.

There is no doubt that to-day's fray at Llanelly, Wales, where troops fired on a mob, killing two men and wounding two others, had much influence in ending the strike. The liberal government had almost its existence at stake because of the strike, as it depends on the working classes for its power. The shooting of citizens by soldiers occurs less often in the United Kingdom than in any other European country, and is particularly repugnant to all classes.

The settlement was reached at a conference between David Lloyd-George, the chancellor of the exchequer, and the executive of the men's societies.

Premier Asquith returned to London this afternoon, from the country, where he had expected to stay over Sunday, and his secretary made constant trips to the conference at the board of trade, and the headquarters of the railway magnates.

Official Statement. Acting on representations made to the railway companies by the government (Continued on Page 8.)

## A WILD STORM IN THE WEST

### Damaged Crops in Some Districts and Wrecked Many Buildings.

Winnipeg, Aug. 21.—Winnipeg was struck, last night, by the tail end of a storm, accompanied by vivid lightning and heavy rain, which apparently has swept over much of Saskatchewan and Manitoba, doing damage in varying degree in some localities, and apparently most severe along the international boundary line. It is reported from Bertha, Sask., and farm buildings were demolished at Elmora, with one person seriously injured. Further south, in North Dakota, conditions appear to have been worse, and reports indicate a cyclone, with several fatalities.

Gainsboro, Sask., Aug. 21.—A cyclone swept the Elmora district about twelve miles from here, Saturday, and four houses are totally wrecked. When the barn of Donald Colquhoun was blown down two men were in it, and one is so seriously hurt that he is not expected to recover. The other buildings on the farm were damaged, and the machinery rendered useless, while the crops are destroyed.

J. S. Shillington's barn, hay and crops are ruined. A neighbor named Brown suffered a like loss, and a boy was hurt from the flying timbers of one of the barns.

John W. Stevenson, lost his barn, granary, machinery, and crop. John Curran suffered as severely at Methuen.

The houses of all were damaged, though none were blown down. Roofs were loosened, chimneys blown down and windows smashed.

## WEATHER PROBABILITIES.

Toronto, Ont., Aug. 21, 10 a.m.—On Lake Valley and Upper St. Lawrence Fine and a little warmer. Tuesday evening or overcast.

## GREAT CLEARING SALE OF SUMMER WAISTS

To-morrow
