## TO STAY FEVER

### Entire Army, Officers and Men, to Be Inoculated

## WORK FOR SURGEONS

### THE ORDER GOES INTO EFFECT AT ONCE.

Chief of Staff, Major-General Wood, Issues Order That Makes 76,000 Soldiers Immune to Typhoid.

Washington, D.C., Aug. 31.—Major-General Wood, chief of staff of the United States army, has issued an order, making it compulsory for every officer and enlisted man in the army less than forty-five years of age to be inoculated with typhoid fever vaccine, except those who have heretofore had the fever.

The war department says that up to the present about seventeen thousand inoculations for typhoid have been made. Of the troops who were sent to the Mexican frontier, nearly twelve thousand had been inoculated. As the total strength of the army at present is 76,000 there will be plenty of work for the surgeons of the army to perform before each one has undergone treatment.

## LONG AUTOMOBILE TOUR.

### Sir Henry and Lady Blouie Now in Ottawa.

Ottawa, Aug. 31.—Sir Henry and Lady Blouie, who arrived in New York from Ireland last February, and started on an automobile tour of the continent, reached Ottawa by way of Brockville, and are seeing the sights of the capital. From New York they went south and crossed through the Southern States to the Pacific, going thence to Vancouver and coming east practically along the international boundary. "We will return home when we get tired of touring," was Sir Henry's non-committal reply to a query. Regarding his impressions of Canada, he said he believed the west was becoming too civilized. There were too many fences now where cattle roamed a few years ago. He did not see where reciprocity was going to make any difference, but if it was a good thing for the country there should have been no party division on the question.

Regarding conditions in Ireland—he did not think the country had wealth enough of its own to stand home rule, and it would have less when the land lords were driven out.

"The English people," said Sir Henry, in criticism, "are also taxed to the limit and will never be able to stand Lloyd-George's pet schemes."

## UNITED STATES TRADE.

### Exports are Increasing and Imports Declining.

Washington, Aug. 31.—American exports of all kinds for July were \$13,000,000 greater than in July, 1910. Figures given out by the department of commerce and labor show exports of \$127,704,119 and imports of \$183,165,406 in July 1911, compared with exports of \$114,627,492 and imports of \$117,315,591 in July of last year.

In the seven months ending July 31st exports from the United States have increased from \$919,356,000 in 1910 to \$1,115,524,008 in 1911. For the same period imports from foreign countries have declined from \$916,730,000 in 1910 to \$851,911,000 in 1911.

## TONG WAR IN CHICAGO.

### Two Men Shot by Dong Tong, Cousin of the "King."

Chicago, Aug. 31.—A Tong war which has been threatened for some time broke out in Chinatown, last night, and as a result Lee Yeh Wing, a merchant, is dead, and Moy Dong Tong, a laundry man, is in a critical condition at a hospital. Both were shot twice. The shooting was done by Chu Tu Hsu, who escaped in a taxicab.

Moy Tong Tong is a cousin of Frank Moy, "King" of Chinatown. The police believe the refusal of the men to comply with demands of the Hep Sing Tong led up to the shooting. Many of the Chinese present were arrested.

## IS SING THE CITY.

### Was Sent to Asylum Through Mistake of the Police.

Montreal, Aug. 31.—Nino Pratico, the man who, owing to a mistake of the police, was sent to an insane asylum, has entered an action against the city for \$2,000. Pratico and another man named Festoria had been locked in a cell of the central police station on the same evening, and after examining them Dr. Picotte recommended that one of the men be sent before the recorder and the other sent to the asylum for the insane. It happened that the insane man was sent before the recorder and the sane one to the asylum. Hence the action of Pratico.

## Rescued From Drowning.

Frontenac, N.Y., Aug. 31.—But for the timely rescue by Ralph McOne, of the motor boat America, Second, a Mr. Brainard, a wealthy New York resident, stopping at Alexandria Bay, would have been drowned. He was going down for the third time when McOne grabbed him by the hair of the head, reaching under water nearly a foot and a half to save the man. Mr. Brainard was thrown out of a motor boat as it swerved to avoid a collision.

## ONTARIO HEALTH ACT.

### Summer Hotels Living Up to It, Says Inspector.

Toronto, Aug. 31.—Dr. R. W. Bell, chief health inspector for the province, has returned from a tour of the lakes and in a report, which he inspected the forty-one summer hotels. According to Dr. Bell the summer resort managers are endeavoring to live up to the new health act, which aims to stop the pollution of lakes, and only four or five places were found to be seriously in need of sanitary improvement.

The pollution of the lakes by steamboats is a condition that was particularly in the minds of the provincial health authorities when the act was framed. It is still going on. Two or three large passenger boats on the lakes have put in septic tanks, which partially treat sewage, but the rest have gone on ignoring the law. Unless they install sanitary devices during the winter they will be prosecuted.

## YACHTSMAN LOSES TOE IN PECULIAR ACCIDENT

### Commodore Walter Jerome Green's Foot Injured on Watch Island Dock.

Clayton, N.Y., Aug. 31.—Walter Jerome Green, commodore of the Frontenac Yacht Club, and one of the most prominent yachtsmen on the river, is confined to his summer home on Watch Island with a badly injured foot, the result of a boating accident.

Commodore Green's yacht, Verdi, the flagship of the Frontenac Yacht Club, was making a landing at Watch Island and Mr. Green leaped for the wharf. A deckhand hauled the head line to the wharf with the intention of looping a cleat to hold the boat to the wharf.

Mr. Green's right foot became entangled in the rope as it went over the cleat and simultaneously, through a mistake in signals, the yacht was propelled full speed ahead. The rope was pulled taut and Mr. Green's foot was crushed against the cleat. His toes were smashed before the engine could be reversed and his foot extricated.

Drs. Ross and Frame, of Clayton, summoned and it was found necessary to amputate one toe. The large toe was badly lacerated, but may be saved if complications do not develop. It is likely that as soon as Mr. Green is able to get out he will return to his home in Ulster. He is the principal stockholder of the Savage Arms company there.

## DRUGGISTS TO BLAME

### For Their Poor Status—They Are Not Educated.

Montreal, Aug. 31.—That the pharmacists of Canada and other English-speaking countries have to blame themselves for their poor status, and for the fact that so many physicians dispense their own medicines, was one of the statements made in a paper on pharmaceutical education read by Dr. Nesbitt, of Winnipeg, at the druggists' convention in the city, yesterday. He compared their position with that of a dentist, who, within a quarter of a century, he said, had progressed from "pullers of teeth" to a position where they were highly respected and well paid specialists.

On the continent of Europe, pharmacists were more highly considered because better educated.

In the discussion that followed it was suggested that a post-graduate course might be established and that pharmacists passing the subsequent examination should be granted a dominion certificate.

A committee was appointed, consisting of one delegate from each province, to consider the question and report to the conference.

## FOUND A HUGE FISK.

### Discovery is Eight Feet Long and Weighs 150 Pounds.

Welland, Aug. 31.—A curiosity which is creating a great amount of interest here was discovered in the immense tank of an animal, supposed to be a mastodon, on the farm of Henry Smith, of Forks Road, post office in Welland county. On Saturday, Henry Smith and William Anderson were scraping a pond, and when they had dug down about four feet, and were ploughing up the hard clay, the plow struck the tank, which is eight feet in length and two feet two inches around the large end, and weighs 150 pounds.

## BOYS LAY BARE

### STORY OF LYNCHING

### Two Turn State's Evidence and Tell Awful Tale of Coatesville Outrage.

Westchester, Pa., Aug. 31.—The inside story of the lynching of Zack Walker, the negro, who was burned alive at Coatesville, on Aug. 13th, has been revealed in all its horrors. During the hearings of the eight boys and men who were arrested as participants, two of the defendants laid bare the secrets of the lynching.

They were Norman Price, twenty years old, of Thorndale, Pa., and Chester Bostwick, nineteen years old, whole parents reside in Marietta, Pa. They have turned state's evidence and they asserted under oath that they do not expect to have any clemency shown them.

Price and Bostwick participated in the lynching, although they had nothing to do with the actual burning of the negro. Bostwick related the details of the lynching in a matter of fact way, but his recital thrilled the crowd that was in the office of Squire Paxton to hear the testimony.

## THEY WILL BE READY

### IF HOSTILITIES COMMENCE BETWEEN FRANCE AND GERMANY.

### Know What Will Happen—Taking Precautions to Safeguard the Neutrality of Their Country.

London, Aug. 31.—Belgium is preparing for contingencies in the event of war between France and Germany. The Belgians know by experience that the neutrality of their country would be very difficult to safeguard in such circumstances, and they fear that a German invasion would take place in a few hours after an outbreak of hostilities. The Belgian minister of war has given instructions for all forts on the Meuse, especially around Liege, to be furnished with men and ammunition. Plans of rapid mobilization are being studied, and the forts at Namur are being fitted with new cannon of the Hotchkiss type. The annual manoeuvres of the Belgian army will not take place this year.

## IT WOULD ABOLISH THE PRESENT SYSTEM

### Conciliation Boards Have Proved a Complete Failure.

London, Aug. 31.—The royal commission which is investigating the recent railway strike, held its second session, yesterday. Mr. Fox, secretary of the Society of Locomotive Engineers, gave evidence as to the failure of conciliation boards to achieve the purpose for which they were authorized.

He suggested that they be abolished and that hereafter, when disputes arise, complaints be first submitted to the local officers of the company, where the trouble occurred. Then if the matter is not settled, it should be brought to a general meeting of men of the grade concerned. This meeting could then elect a deputation to meet the management of the company together with the trade union officers.

Lexington, Ky., Aug. 31.—The Burley Tobacco Society announced today that a pool will be formed to handle the 1911 crop, amounting to about 60,000,000 pounds. This is the first formation that a campaign for a pool will be conducted, as the board of control of the society announced last March that there would be no 1911 pool, as a majority of the growers had protested against such action.

Thousands of farmers did not grow tobacco this year, fearing a resumption of night riding outrages if a pool was to be formed.

## HALIFAX JOINS

### In Acclaiming Sir Wilfrid Laurier.

## PREMIER WAS GIVEN

### A GREAT RECEPTION IN NOVA SCOTIA CAPITAL.

### His Speech Bristled With Good Humor—A Broadside for "Borden's Friends—Nova Scotia for Reciprocity."

Halifax, Aug. 31.—Canada's prime minister won from Nova Scotia last night one of the most remarkable demonstrations of his career. At the close of his thrilling speech over ten thousand enthusiastic people rose and wildly acclaimed him. Again and again the wave of cheering was taken up at the far end of the great arena, in which the meeting was held, and rolled forward over the mass of humanity.

For over an hour Sir Wilfrid ayed the vast audience with his eloquence. The strains of an arduous campaign seem to have no effect on him. The voice of other campaigners are worn and gone. His rings strong with its accustomed vigor. Tuesday he was up for the voyage to Halifax by six o'clock in the morning. He endured the stormy trip and spoke at no less than seven meetings during the balance of the day, the last a gathering of three thousand people at Hants at one o'clock this morning. It was nearly three o'clock before Halifax was reached, where another reception awaited him, and an hour later before he retired. Notwithstanding, six hours later he was holding a public reception with Premier Murray at the provincial parliament buildings, while in the afternoon he attended the opening of the Halifax fair.

Sir Wilfrid's speech sparked with rare good humor. He had been

### Her Fighting Forces or Her Financial Position Could Not Stand War.

New York, Aug. 31.—A Berlin cable to the New York Times says that Germany is just putting up a gigantic bluff regarding the Moroccan situation. Neither her fighting forces nor her financial resources at present are in condition for war.

This information was gleaned by a man who has the ear of the Germans' best financial men.

In the meantime every nation in Europe is practically ready for eventualities, which may ensue within several days as Germany's reply to France's ultimatum is about due.

The information was gleaned by United States agents in Britain that the British government is well prepared as any nation interested for anything that may happen.

### Farmers Organize in New York to Eliminate Middleman's Profits.

New York, Aug. 31.—Calling themselves the ever-guard of the only army which ever can prevail against the trusts, with "co-operation" as their battle cry and their object the reduction of the cost of living to its lowest possible level, fifty farmers of New York and Pennsylvania arrived in this city last night for the purpose of placing on a business basis a plan, whereby the farmer is to sell his produce direct to the city retailer without intervention of the middleman.

The men who have come here are delegates of the United States Stores, Grangers, Dealers and Consumers' association, and are said to represent a million farmers in New York and Pennsylvania. They expect before they return to their farms to organize in this city a market or distributing station where the produce of thousands of farmers will go straight to the hands of retailers, cutting the ultimate cost-battle of at least forty per cent. from the retail prices.
