### Eczema Always Burning and Itching

Used Box of Cuticura Ointment and It Completely Disappeared.

"I have suffered from eczema for two years. The trouble began on one arm where there appeared a red spot of about a five-cent size, and it always widened, all the time itching and burning. The first days I didn't care, but seeing that it gained in size, I tried Cuticura and Ointment, but both without success. It was always burning and itching. Having seen in the newspaper the advertisement of the Cuticura Remedies, I tried a little and seeing that it improved, I bought a box of the Cuticura Ointment. After having used one box, my eczema completely disappeared. The Cuticura Ointment should be kept in every home." (Signed) N. Ostiguy, Marienville, Que., Jan. 14, 1911.
